In times of expansion or depression, Canadians have learned to rely upon the unwavering safety and helpful service of the Bank of Montreal.

Older than the Dominion itself, yet young as the latest sound business enterprise of Canada, this Bank keeps strong and efficient by pursuing its traditional policy of banking practice consistent with safety for depositors, and by adjustment of its services to the demands of modern business.

The "feel" of a racing model...

PERHAPS you've never driven a racing car? Then the M.G. can give you a new and delightful motoring sensation.

M.G. design, from the smallest detail up, is based on the gruelling and exhaustive tests provided by the extraordinarily successful M.G. racing experience. The sturdy, clean-cut, practically vibrationless engines that turn over at 6000 revolutions a minute and more (and give up to 35 miles to the gallon)—the double carburetors—the special underslung chassis which accounts so largely for the marvellous manner in which the M.G. holds the road—the real racing type wheels which can be removed in an instant—the steering, braking and seating—all these owe their perfection of development to the M.G. racing pedigree.

Come and see the M.G. Its appearance is both unusual and beautiful, and many of the mechanical details are of very great interest. The three Series, 4-cylinder Midgets and 6-cylinder Magnas and Magnettes; moderate prices (the Midget Two-Seater sells at \$1088, taxes paid); time payments and trade-in allowances; after-purchase service—there is much to tell you about.
