Dinty Moore's

NIGHT - OWLS with hunger pangs seem to be discovering **Dinty Moore's** in ever increasing numbers. This goes for the newspaper fraternity, who are old customers, show folk, and almost anyone else who is up and abroad in the small hours. If you happen to be doing some night-prowling yourself, drop into **Dinty's** for a heaping bowl of corned beef hash with poached eggs; or if that sounds too hearty for such an advanced hour, just have the eggs, fluffily scrambled, with toast and coffee. **Dinty's**, on St. Catherine Street between Drummond and Mountain, is a good choice for any meal, for that matter. Convenient to the shopping and theatre district, you'll enjoy the limitless menu for luncheon and dinner as well.

As student organisations we should like to take this opportunity of wishing the Red and White Revue the best of luck and possible success this year.

SMOKE SIGNALS!

In early pioneer days smoke signals meant only one thing—Indian communication. As the eye sweeps over the panorama of Quebec's rich "Production Valley," it is greeted by thousands of great chimneys pouring forth the smoke of industry. Today, these smoke signals speak plainly and clearly of the rapid industrial growth of the Province of Quebec, of the progressive nature of its people, of the wealth of raw material and electrical energy which has drawn

to this Province industries of every size and nature; of the many new jobs opened to the workers of Quebec and of the increased prosperity gained by the citizens of this Province.

The Shawinigan Water and Power Company, by its development of "Production Valley" and by its distribution of low-cost hydro-electric power to Industry, is one of the important factors which go into making Quebec's smoke signals among the most eloquent in the world.
