When you're a pioneer starting your 150th year of activity you have plenty to remember. Especially when you've made financial history, like laying the cornerstone of this country's banking system—fifty years *before* Confederation. At this time we could be looking back on a long record of achievement. Instead, we're looking ahead—well ahead. Canada's First Bank may be an old-timer but it has the youngest outlook in banking.

*A masterpiece of precision*

Wherever there is music at its best, you find the Baldwin piano. That which distinguishes the Baldwin is its full, rich tone and its instant response to the very mood of the pianist. That is why a great majority of concert artists and symphony orchestra conductors invariably choose the Baldwin. The Baldwin is no less desirable for the home.
