AYER'S AMERICAN ALMANAC

—CANADIAN EDITION—

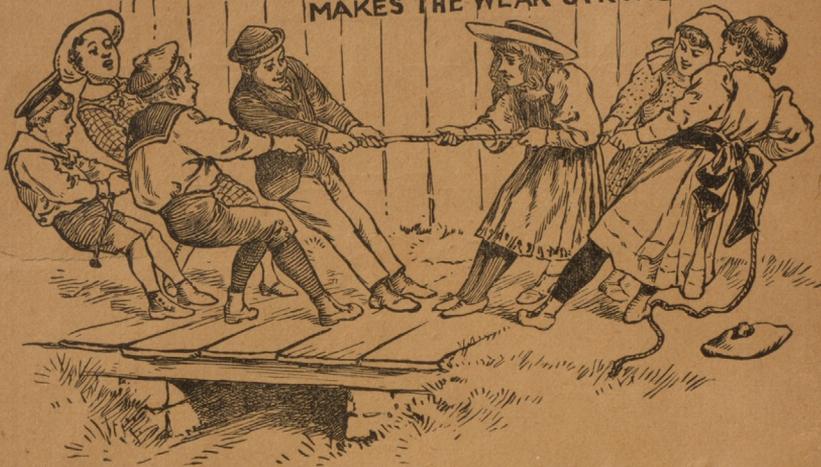

1895.

AYER'S SARSAPARILLA MAKES THE WEAK STRONG.

PUBLISHED BY
DR. J. C. AYER & CO.,
Practical and Analytical Chemists,
LOWELL, MASS., U. S. A.

AYER'S SARSAPARILLA MAKES THE WEAK STRONG

“With a long pull,
And a strong pull,
And a pull altogether!”

shout the boys; but with the strength resulting from the use of AYER'S SARSAPARILLA, the girls have got the best of the trial in this “tug of war” which our artist has pictured above.

That this great blood-purifier—THE ONLY SARSAPARILLA ADMITTED AT THE WORLD'S FAIR—does make the weak strong, that it does quicken the appetite, aid digestion, purify the blood, and invigorate every nerve, tissue, and fibre of the system, is proved to the reader's satisfaction by statements of individuals who speak in the following pages, from actual experience. In view of these facts, why not, when you need a blood-purifier, GET THE BEST?

The above applies as well to AYER'S CHERRY PECTORAL, AYER'S PILLS, and AYER'S HAIR VIGOR. As specifics for a great variety of diseases, these remedies are peculiarly adapted for family use. Their preventive properties, also, are no less remarkable than their curative virtues. AYER'S CHERRY PECTORAL affords the readiest relief from all affections of the throat and lungs. AYER'S CATHARTIC PILLS are the best-known remedy for derangements of the digestive and assimilative organs. AYER'S HAIR VIGOR, though justly regarded a toilet luxury, cures, with remarkable readiness, various affections of the scalp and hair, and is, therefore, of great value as a medicine.

If the merchant with whom you trade does not happen to have our preparations in stock, he will order them at your request, from the nearest wholesale druggist.

To any practising physician we will send the

formulas of our medical preparations free on application.

In order to receive Ayer's Almanacs, dealers should remember that it is necessary to send us their business card EACH YEAR.

ECLIPSES, 1895.—In the year 1895 there will be five eclipses, three of the Sun (☉) and two of the Moon (☾).

I. A total eclipse of the Moon (☾), March 10-11. Visible entire to North and South America, and the Atlantic Ocean; and more or less to Europe, Africa, and the eastern Pacific Ocean. Occurring as follows:—

	Quebec.	Montreal.	Ottawa.	Kingston.	Toronto.	London.
	D. H. M.					
Moon enters penumb.	10 8 12 A.	10 8 3 A.	10 7 54 A.	10 7 50 A.	10 7 40 A.	10 7 32 A.
Moon enters shadow .	10 9 8 A.	10 8 59 A.	10 8 50 A.	10 8 46 A.	10 8 36 A.	10 8 28 A.
Total eclipse begins .	10 10 6 A.	10 9 57 A.	10 9 48 A.	10 9 44 A.	10 9 34 A.	10 9 26 A.
Middle of eclipse . . .	10 10 54 A.	10 10 45 A.	10 10 36 A.	10 10 32 A.	10 10 22 A.	10 10 14 A.
Total eclipse ends . . .	10 11 42 A.	10 11 33 A.	10 11 24 A.	10 11 20 A.	10 11 10 A.	10 11 2 A.
Moon leaves shadow . .	11 0 40 M.	11 0 31 M.	11 0 22 M.	11 0 18 M.	11 0 8 M.	11 0 0 M.
Moon leaves penumb.	11 1 36 M.	11 1 27 M.	11 1 18 M.	11 1 14 M.	11 1 4 M.	11 0 56 M.

First contact of shadow, 54 degrees from south point of the Moon's limb toward the east. Magnitude of eclipse = 1.627 of the Moon's diameter.

II. A partial eclipse of the Sun (☉), March 26. Visible to North America east of Fredericton, N.B., to Greenland, the extreme western edge of Europe, and the North Atlantic Ocean.

III. A partial eclipse of the Sun (☉), August 20. Visible to Russia.

IV. A total eclipse of the Moon (☾), September 3-4. Visible entire to North and South America; and in part to portions of Europe, Africa, Australia, the Atlantic and Pacific Oceans. Occurring as follows:—

	Quebec.	Montreal.	Ottawa.	Kingston.	Toronto.	London.
	D. H. M.	D. H. M.	D. H. M.	D. H. M.	D. H. M.	D. H. M.
Moon enters penumb.	3 10 3 A.	3 9 54 A.	3 9 45 A.	3 9 41 A.	3 9 31 A.	3 9 23 A.
Moon enters shadow .	3 11 15 A.	3 11 6 A.	3 10 57 A.	3 10 53 A.	3 10 43 A.	3 10 35 A.
Total eclipse begins .	4 0 21 M.	4 0 12 M.	4 0 3 M.	3 11 59 A.	3 11 49 A.	3 11 41 A.
Middle of eclipse . . .	4 1 12 M.	4 1 3 M.	4 0 54 M.	4 0 50 M.	4 0 40 M.	4 0 32 M.
Total eclipse ends . . .	4 2 2 M.	4 1 53 M.	4 1 44 M.	4 1 40 M.	4 1 30 M.	4 1 22 M.
Moon leaves shadow . .	4 3 9 M.	4 3 0 M.	4 2 51 M.	4 2 47 M.	4 2 37 M.	4 2 29 M.
Moon leaves penumb.	4 4 21 M.	4 4 12 M.	4 4 3 M.	4 3 59 M.	4 3 49 M.	4 3 41 M.

First contact of shadow, 54 degrees from north point of the Moon's limb toward the east. Magnitude of eclipse = 1.557 of the Moon's diameter.

V. A partial eclipse of the Sun (☉), Sept. 19. Visible to eastern Australia, Tasmania, New Zealand, and neighboring South Pacific Ocean.

STANDARD TIME.

The calculations of this Almanac are given in local time. In places where what is now called standard time has been substituted for local time, our values can be changed to standard time by applying a correction found as follows: For any place *east* of one of the standard meridians, and taking that meridian's time, four minutes should be *subtracted* for every degree of difference of longitude; and for any place *west* of the meridian four minutes for each degree of difference should be *added*.

Mercury (♁) will be evening star about Feb. 9, June 4, and Oct. 1; and morning star about March 24, July 22, and Nov. 10.

Venus (♀) will be evening star till Sept. 19; and then morning star the rest of the year.

Jupiter (♃) will be evening star till July 10; and then morning star the rest of the year.

ZODIACAL. — ♈ **ARIES** — The Ram, Head and Face; ♉ **TAURUS** — The Bull, Neck; ♊ **GEMINI** — The Twins, Arms; ♋ **CANCER** — The Crab, Breast; ♌ **LEO** — The Lion, Heart; ♍ **VIRGO** — The Virgin, Bowels; ♎ **LIBRA** — The Balance, Reins; ♏ **SCORPIO** — The Scorpion, Secrets; ♐ **SAGITTARIUS** — The Bowman, Thighs; ♑ **CAPRICORNUS** — The Goat, Knees; ♒ **AQUARIUS** — The Waterman, Legs; ♓ **PISCES** — The Fishes, Feet.

Ayer's Sarsaparilla

The only Preparation of the Kind
Allowed on Exhibition at
the World's Fair.

AYER'S SARSAPARILLA is a concentrated extract of the most powerful and efficacious of all the vegetable tonics and alteratives known to medical science or to pharmacy. It is, in every sense, a medicine for the blood. It tones and vitalizes the life-current as no other medicine can; it dispels all baneful humors from the system; it invigorates the various organs and enables each to perform faithfully, the duties upon which the machinery of life depends. It strikes at the root of disease by removing the cause, assists nature to repair her losses, and thus induces permanent restoration to health. For half-a-century, the superiority of AYER'S SARSAPARILLA, as a blood-purifier, has been recognized all over the world. No other remedy is composed of such high-cost and carefully selected drugs. No other remedy is so effective in producing a radical and permanent change in the blood, expelling the germs of disease and decay, and imparting in their stead, renewed life and energy; and no other remedy has such a record of remarkable cures. In addition to

the good name it has won for itself during the past 50 years, as a standard blood-purifier, AYER'S SARSAPARILLA received the highest and most unqualified indorsement of the officials of the World's Greatest Exposition, at Chicago, in 1893, by being the only Sarsaparilla in the world, permitted to occupy space during the Fair — all other so-called Sarsaparillas and blood-purifiers having been classed as patent medicines, or secret nostrums.

For *That Tired Feeling*, for *Neuralgia*, *Pale Lips*, *Palpitation*, *Aching Eyes*, *Nervousness*, *Sleeplessness*, *Loss of Vitality*, *Scrofula*, *Scrofulous Diseases*, *Tumors*, *Salt-Rheum*, *Eczema*, *Tetter*, *Psoriasis*, *Scald Head*, *Ring-Worm*, *Rickets*, *Chronic Catarrh*, *White Swellings*, *Gout*, or for *Diseases of the Stomach*, *Liver*, *Kidneys*, or *Bowels*, AYER'S SARSAPARILLA is of inestimable value. It alleviates *Liver Complaint*, *Jaundice*, and *Rheumatism*, and prevents *Emaciation*. It relieves *Female Weaknesses* and irregularities due to scrofulous inflammation, and is a safe and sure medicine in every condition where a morbid poison is present in the blood.

GENERAL DIRECTIONS.

AYER'S SARSAPARILLA is designed to mingle with, vitalize, and purify every drop of blood in the body; therefore, no

more should be taken than can be readily absorbed into the circulation. Many small doses, perseveringly used, are more efficacious than a few large ones. It may be taken before or after eating—ten or fifteen minutes before meals being ad-

vised when convenient. It can be as safely administered to little children and to helpless invalids, as to robust men.

The Dose:—To be taken three or four times a day. For a man, 1 or 2 teaspoonfuls; for persons of fifteen to twenty years, and for delicate women, 45 to 90 drops; for children of eight to fifteen,

Ayer's Sarsaparilla 30 to 60 drops; of three to eight years, 15 to 30 drops. Begin with the smallest doses, and increase only as the system becomes accustomed to the effect. The action is improved by taking the Sarsaparilla in a little hot water. It does not nauseate nor purge, its taste is pleasant, and it is readily taken by children. In all cases, a daily movement of the bowels should be maintained. Whenever a cathartic medicine is necessary, take AYER'S PILLS, as they more fully harmonize with the ingredients composing AYER'S Sarsaparilla than pills of any other make.

Scrofula

is a virulent blood-poison; it lowers the vitality, fills every tissue in the system with disease, and deranges all bodily functions. Scrofula usually manifests itself by inflammation of the glands of the neck. It may go no further, and it may pass into suppuration, and become the source of frightful abscesses or ghastly sores. In other forms of scrofula, ulcers, painful eruptions, tumors, and internal inflammations afflict the body and limbs. Most serious are those cases in which a scrofulous subject is suffering from a wound, burn, or even from some ordinary ailment. Here, in some instances, the raw surfaces refuse to heal, and become angry and ulcerated; in others, a simple sickness assumes a typhoid form and baffles all medical skill. Children born of scrofulous parents are frequently afflicted with unsightly eruptions, cancerous humors, and diseases of the eyes, nose, ears, lungs, hips, and spine. The fact that this terrible disease may exist in the blood, unsuspected, should be cause for alarm to both old and young; and when appetite fails, when languor, continued headaches, pains in the back, boils, pustules, erysipelas, salt-rheum, or any eruptive disease indicates a physical disturbance, the use of AYER'S Sarsaparilla should be persisted in until the troublesome eruptions disappear.

"My daughter, when quite a little girl, was troubled with scrofula. Her neck was covered with sores, and her eyes were so badly affected that she was nearly blind. The doctors being unable to

**WAS
NEARLY
BLIND**

afford her any relief, we began to give her Ayer's Sarsaparilla. The beneficial results

of this treatment soon showed themselves, and we persisted until the cure was complete."—J. H. FREETO, Mechanicsburg, Ill.

"One year ago, my little boy began to have scrofulous sores and swellings on his right leg, which gradually spread over his right side, covering his side, shoulder, and arm.

A BOY'S SUFFERING

I employed a physician, but he failed to do the boy any good. I tried Ayer's Sarsaparilla, and, after three doses, I could see an improvement in his general appearance and appetite. The use of two bottles cured him, and he has had no symptoms of the disease since."—W. B. MALEY, Blanton, Texas.

"During August last, a scrofulous humor broke out on my hands and arms, and kept growing worse until they were a mass of sores, so that I was unable to drive my horse. I began to take Ayer's Sarsaparilla, and within a week I could see an improvement. After taking about four bot-

"FRIENDS DID NOT KNOW ME"

les, I regained the use of my hands, and the sores rapidly disappeared. I was so thin at one time that my friends did not know me, my appetite being so irregular that for days I could scarcely eat anything. Now my digestion is excellent and I am gradually gaining in flesh. I am persuaded that nothing could have helped me so quickly and effectually as Ayer's Sarsaparilla."—GEORGE L. BRADLEY, West Granville, Mass.

Catarrh

is an inflammation of the lining membrane of the nose and adjoining passages. If not arrested, this inflammation invades the passages which lead from the nose to the ears, throat, and lungs,

injures the sight and hearing, destroys the senses of smell and taste, renders the breath offensive, breaks down the affected tissues, consumes the nasal cartilages, and rots away the small frontal bones of the skull. The putrid, ulcerative discharges, passing through the stomach, cause dyspepsia, which in turn causes emaciation and consumption. Catarrh is a most frequent expression of Scrofula in its incipient stages, and can only be radically cured by expelling

Ayer's Sarsaparilla from the blood the poisons upon which the disease depends. By purifying the blood with **AYER'S SARSAPARILLA**, the diseased membranes are restored to health, and the discharges cease.

"Some twenty years ago, I suffered severely from chronic catarrh, none of the various remedies prescribed affording me any relief. A friend having advised me to try Ayer's Sarsaparilla, I began the use of

**CHRONIC
CATARRH
CURED**

this remedy, and am pleased to testify that the effect has been all I could wish. Every trace of the disease soon disappeared, and I was as free from it as though I had never been afflicted. Since then, I have taken Ayer's Sarsaparilla as a spring medicine, and always with satisfaction."—**Mrs. G. P. WATROUS**, Jackson, Pa.

"I was, for a long time, a sufferer from a severe catarrhal trouble which caused me to be quite deaf. As the physicians were unable to help me, I began to take Ayer's Sarsaparilla and also Ayer's Pills. The effect of this course of treatment was speedily realized, and in a few days my hearing was restored and the catarrh cured."—**CARL BUCHHOLZ**, Port Hope, Huron Co., Mich.

**RESTORED
HIS
HEARING**

Consumption

is commonly inherited from a scrofulous or consumptive ancestry, and usually closely follows scrofulous catarrh. At first the patient is "somewhat out of health;" he has a slight, dry cough,—particularly in the morning—which, if it

claims any attention whatever, is generally attributed to catarrhal irritation in the throat. Signs of debility, with weariness and emaciation are also apparent. The cough becomes chronic; tubercles form in the lungs, increase in size as the disease advances, soften and are removed, in the act of coughing, in the shape of a liquid resembling pus; abscesses and cavities are formed in the lungs; the surrounding tissue is decomposed, blood-vessels are broken, and the heart pumps the blood through the lung substance to the mouth. Tuberculous Consumption is dangerous in consequence of the character of the

tissue invaded. It is in its early stages, only, that the disease can be successfully treated. When the specific poisons, in which this disease originates, first manifest themselves, whether in scrofulous bunches, tumors, ulcers, catarrh, lip, or spinal disease, take **AYER'S SARSAPARILLA** faithfully and perseveringly until the dangerous symptoms pass away. For further treatment of Consumption, see *Bronchial Consumption*, in article on **AYER'S CHERRY PECTORAL**.

"All other remedies having failed, my husband's mother was cured of scrofulous consumption by six bottles of Ayer's Sarsaparilla. To say that those who knew about this case were surprised, does not begin to express their feelings when it was known she had recovered."—**Mrs. JULIA SHEPARD**, Kendall, Mich.

**A CURE
SURPRISING
EVERYBODY**

Skin Diseases,

Humors, Eruptions, Pimples, Pustules, Blotches, Boils, etc., are the result of a

specific poison, or virus, introduced into the blood, and the effort which nature makes to throw it off. For the treatment of these diseases, take **AYER'S SARSAPARILLA** as directed. Be careful of local applications. They do

more harm than good.

"Last summer, my little daughter was troubled with a very bad humor, her head being covered with scabs, and I could find nothing that would relieve it by external application. I was induced to try Ayer's Sarsaparilla, and with the use of less than one bottle, the humor dis-

**A BAD
HUMOR
CURED**

appeared and she has been in splendid health ever since."—**J. H. BENTLEY**, cashier International Bank, Imogene, Ia.

"Some years ago, I was in a terrible condition with a humor, or eruption, which broke out all over my body. Seeing the testimony of others as to the efficacy of Ayer's Sarsaparilla in like cases, I concluded to give this

**FOR ANY
KIND OF
SKIN DISEASE**

medicine a trial, and the result was a thorough cure, no sign of the complaint making its appearance since. I have no hesitation in recommending Ayer's Sarsaparilla for any kind of skin-disease."—**J. W. DEAN**, Moss Point, Miss.

"About six weeks ago, my little girl, who

How to use up odds and ends from table and market. See "Ayer's Home Economies." Mailed on receipt of two-cent stamp, by Dr. J. C. Ayer & Co., Lowell, Mass.

Defeated candidate: "You encouraged me to run for office. You know you did. You said you thought I wouldn't make a bad alderman." Trusty henchman: "Well, the returns seem to show that I was right."

Geography. "What is a lake?" "Sure, an' it's a hole in the pot."

Chemically considered, leather is the oxide of beef.

Whenever the preacher takes a square aim at sin, every hypocrite in the church begins to dodge.

There is difference between being "smart" and being "sassy."

Life is a duel in which the man who wins must foil the devil.

Willing comes before working; we are what we have willed to be.

Jack: "I may kiss you, then?" Perdita (blushing): "Sometime in the future, Jack." Jack (eagerly): "When?" Perdita: "Day before to-morrow."

Ayer's Sarsaparilla had been ailing some time, broke out with festering sores. Her blood must have been in an awful state, for the slightest scratch or break in her skin was enough to cause one of these sores. Her appetite failed, she lost flesh daily, and we were beginning to get seriously alarmed, as nothing we had given

**WAS IN AN
AWFUL
CONDITION**

completely healed, her appetite and strength returned, her eyes became bright, and she gained in flesh every day. She is now well, and as strong as ever. I have used this medicine in my family frequently, on advice of my physician, and have always found it an excellent remedy for blood-diseases."—J. J. ROBERTSON, general merchant, Tally, Va.

"For several years, I was afflicted with erysipelas, and my blood became so disordered and poor that I suffered with boils and sore eyes. At times, I was laid up on account of them. I took quantities of medicine, of different kinds,

**ERYSIPELAS
BOILS AND
SORE EYES**

Ayer's Sarsaparilla. After using a few bottles of this medicine, I was completely cured, and I have not had a boil, sore eyes, nor erysipelas since."—J. L. MONTGOMERY, ex-clerk and editor *Democrat*, Marshall, Ill.

Dyspepsia, or Indigestion,

frequently results from an impure, impoverished, or scrofulous condition of the blood, which weakens the digestive and assimilative organs, and renders them incapable of performing their proper functions. A depraved condition of the blood also causes *Liver and Kidney Diseases, Jaundice, Dropsy*, and other serious disorders. When these diseases are due to derangement of the blood, the best remedy that can be used is **AYER'S SARSAPARILLA**. When they arise from alcoholic stimulation, improper food, want of exercise, or from other immediate and non-constitutional causes, they can be readily controlled, in their earlier stages, by **AYER'S PILLS**; and when they have their origin in malaria, **AYER'S AGUE CURE** will be found an invaluable specific. Maladies of this class, if their progress is not arrested, inevitably lead to increased disorder of the blood and aggravation of the disease. The successful treatment of dropsy, when it occurs as a symptom of kidney disease,

requires the persistent and regular use of **AYER'S SARSAPARILLA**, together with **AYER'S PILLS** in sufficient doses to keep the bowels moving freely.

"I have proved the value of Ayer's Sarsaparilla and Ayer's Pills in purifying the blood and relieving dyspepsia and headache, with

**HAS PROVED
AYER'S
SARSAPARILLA**

which complaints I was so long troubled that neither the doctor nor myself supposed I should ever be well again. Through the use of the above medicines, I find myself better than I have been for years."—A. GASKILL, Versailles, Ill.

"After suffering a year or more of excruciating pain in my stomach and shoulder from what the doctors who attended me called neuralgia, I began to take Ayer's Sarsaparilla, all treatment

**IN AGONY
FOR
A YEAR**

hitherto only affording temporary relief. I used half-a-dozen bottles of this remedy, and now consider myself cured, having had no attack for a year. I can cordially recommend Ayer's Sarsaparilla to all as the best blood-purifier."—M. E. LAIRD, Uvalde, Tex.

Rheumatism

is, unquestionably, a constitutional disease, and although it is liable to run into complications, it shows itself most plainly in painful and generally inflamed conditions of the joints. Acute rheumatism is hereditary in

about one-quarter of the cases, and is the phase of the disease which affects the young and middle-aged. It is always attended with more or less fever, and an attack of it usually commences with chilliness and shuddering. Exposure to variable weather is a prolific cause, and a thorough wetting, on a cold, raw day, is almost certain to result in a more or less severe attack of the disease. Excessive fatigue, a depressed condition, overwork, anxiety, or any long-continued drain upon the system may develop rheumatism. However it may originate, the best remedy which can be offered to the sufferer from rheumatism is **AYER'S SARSAPARILLA**. It is so well combined as to hold in concentrated form all the drugs, which long experience of skillful practitioners has shown to be the most effective in curing

"I don't like your milk," said the mistress of the house. "It's dreadfully thin, and there's no cream on it." "After you've lived in the city awhile, mum," said the milkman encouragingly, "you'll git over them rooral ideas o'yourn."

"Alas," sighed the heiress, "money is the root of all evil." "Miss Jingleton," he said, with great feeling, "if you ever need one to share your trouble, I hope that you will not hesitate to send for me."

"It's funny about Jaggs, he never speaks above his breath any more." "I suppose it's because it's so strong he can't."

Dead men tell no tales, but the ones who write their obituaries often do.

Caller: "Your sister Rose, I see, has a

nice new piano." Tommy: "Yes, she's got the piano all right enough, but I don't believe she'll ever learn to work it."

"You can't eat your cake and have it, too. But it's different with an onion."

The best view of charity may be obtained through benevolenses.

Kitty: "Isn't it wonderful how well Jack gets along on a small salary!" Tom (guardedly): "Ah, well, he owes a great deal to his friends."

Off in the stilly night,
Ere slumber's chains have bound me,
Dyspepsia brings the blight

Of suppers late to wound me.
The wounds that worry are the ones we
are always pulling open afresh.

Ayer's Sarsaparilla Neuralgia, Gout, Rheumatism, and kindred affections. Read these testimonials:

"For several years, I have been subject to attacks of rheumatism, for which I could find no remedy until I began to take Ayer's Sarsaparilla. Now, whenever I am troubled with the complaint, I use this medicine and procure relief."—A. D. WAITE, Prophetstown, Ill.

"About eight years ago, I suffered from what the doctors called rheumatism. Nobody knows the pain and misery which I had to endure and which clung to me in spite of the medicines prescribed and taken. Rheumatism specifics had no influence upon me whatever, neither was I benefited by the variety

**CURES
A DESPERATE
CASE**

of the remedies which were recommended to me and which I took. After a short time, the pains ceased, and I broke out with sores all over my body. I continued the use of the Sarsaparilla for a whole year, taking, in that time, a dozen bottles. The sores healed, the rheumatism entirely disappeared, and I have since had no return of the trouble."—JAMES WAX, proprietor of Livery Stable, Roseville, Cal.

Blood Poison,

whether resulting from vicious habits or inherited from diseased parents, makes wretched the existence of its victims, corrupts the fountain of life, and is most difficult to cure.

More than all the other afflictions to which flesh is heir, or which may be contracted, there are none which produce so much of mental anxiety and physical torment as *Blood Poison*. Its approach is very deceiving, and may exist a long time in the system, without marked symptoms. Like scrofula, *Blood Poison* has the power of propagating itself from parent to child; like scrofula, it attacks the same structures, producing hard tumors, ulcers, abscesses, and decaying of the bones; like scrofula, also, *Blood Poison* is most successfully treated with **AYER'S SARSAPARILLA**.

"For five years, I was a great sufferer from a most persistent blood-disease, none of the various medicines I took being of any help whatever. Hoping that change of climate

would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla,

**WAS A
GREAT
SUFFERER**

I began taking it, and very soon favorable results were manifest. To-day I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier."—JOSÉ ESCOBAR, prop. Hotel Victoria, Key West, Fla., residence 352 W. 16th St., N. Y.

General Debility

and *Poor Health* are common complaints among women, and all who lead sedentary lives. By reason of impure air and want of exercise, their digestive

functions become impaired, and habits of constipation are induced which speedily load the blood with acids and impurities.

Similar conditions are often produced by change of climate, by overwork, or by deficient nutrition, and are frequently the results, in spring-time, of the effete matter which has accumulated in the thickened blood during the winter months. In all such cases, the bowels should be freed and regulated, and the stomach, liver, and kidneys, temporarily stimulated. This can be better effected by **AYER'S PILLS** than by anything else; but to regain health, it is absolutely requisite that the blood be thoroughly cleansed of its impurities, and the medicine to be relied upon for this service is **AYER'S SARSAPARILLA**.

"I have used Ayer's Sarsaparilla in our family for years and declare it a perfect success. I have used many other sarsaparillas,

**NOTHING
SO GOOD**

but find Ayer's superior to all of them. As a spring medicine, or for general debility, there is nothing so good as Ayer's Sarsaparilla, and I cordially commend it to all as the best."—J. H. WALLER, Benavides, Texas.

"I have used Ayer's Sarsaparilla for years

He: "I've bought you a pet monkey to amuse you, darling." She: "Oh, how kind of you! Now I sha'n't miss you when you're away."
 Reggy Backbay: "Miss de Mudd, are you at all interested in psychology?" Miss de Mudd: "Oh, yes; very much, indeed! But I know I should break my neck if I tried to ride one."
 He: "Darling, will you share my lot?" She: "Yes, if there's no mortgage on it."

Jinks: "There was a man out in Idaho last summer, who was run into a cave by Indians, and stayed there six months."
 Blinks: "What did he live on?" Jinks: "He had a big family back in Ohio, and when he thought of 'em, a big lump would rise in his throat. By swallowing this lump he managed to live."
 Blobbs: "That cheap barber hacked me terribly." Wigwag: "Well, that was consistent with cut-rates."

Ayer's Sarsaparilla

as a general tonic. It gives new life and energy, and those who have taken this medicine on my recommendation, are ready to bear similar testimony to its merits." — Mrs. S. WHEELWRIGHT, Pittsfield, Mass.

After La Grippe,

the centers of vitality become an easy prey to the subtle poisons which this treacherous disease has developed in the system, and individuals who were predisposed to consumption, chronic bronchitis, or degeneration of the heart and liver, are in great danger, and should be objects of most watchful care. The heart's action is enfeebled; the throat and lungs are attacked by fatal disorders; the nervous system becomes shattered, the brain affected, and frequently insanity and suicide are the results. What is really needed after la grippe, or any other ailment which fills the arteries and veins with destructive poisons, is a thorough course of AYER'S SARSAPARILLA, to purify and vitalize the blood, and to build up the system. Under the influence of this medicine, the patient speedily gains the strength necessary to throw off the venom left by the disease, and acquires the tone that will insure resistance to attacks from other foes.

"The past winter, I was taken with la grippe, and, among other symptoms, my kidneys became seriously disordered, and I lost my appetite. One bottle of Ayer's Sarsaparilla not only restored my appetite, but cured the kidney trouble, so that now I am well and hearty. My wife, also, suffered from la grippe, complicated with erysipelas; but her complete recovery she owes to Ayer's Sarsaparilla." — G. S. FIFIELD, Buda, Ill.

Female Diseases.

Large numbers of women, mothers, sisters, wives, daughters, lose their health, and even their lives, for want of protection or relief from the peculiar diseases to which females are subject. These painful and distressing ailments may be relieved and cured by the persistent use of AYER'S SARSAPARILLA. It induces a regular, vigorous circulation of the blood, restores the flush of health to thin and pallid cheeks, and strengthens and vitalizes every organ in the body. Whenever it is deemed necessary to make use of local applications, for temporary relief, a competent physician

should be consulted; but for permanent results, the most efficacious and reliable remedy is AYER'S SARSAPARILLA.

"About seven years ago, I was troubled with rheumatism and female complaint. The physicians who prescribed for me, pronounced my case hopeless, and, at last, said that I could not live three months longer.

HAD THREE MONTHS TO LIVE

Ayer's Sarsaparilla being brought me by my daughter, I took it with immediate benefit. I continued taking this medicine, until I had used sixteen bottles, which entirely cured me, so that I have enjoyed good health ever since, for a woman of my age — seventy-six years." — LUCRETIA PHILLIPS, Marble Rock, Flag Co., Iowa.

That Tired Feeling,

lassitude, loss of appetite, and other symptoms of disorders peculiar to March, April, and May, and the warm summer months, readily yield to treatment with AYER'S SARSAPARILLA. All who make use of this as their SPRING MEDICINE, need have no doubt as to the result. For Headache, Indigestion, Pains in the Back and Limbs, Feverishness, and other symptoms so prevalent at this period of the year, it is the best medicine, its effects being positive, thorough, and lasting. These statements are true only of AYER'S SARSAPARILLA. It cures others and will cure you.

"I believe that Ayer's Sarsaparilla has no equal as a blood-purifier and spring medicine. For loss of energy, that tired feeling, for debility, dizziness, indigestion, or dyspepsia, or for loss of appetite, this remedy has to me always been an unfailing specific. It gives tone to the stomach, aids digestion, overcomes restlessness, irritability, and nervousness, and exerts a beneficial and healthy action as a brain and nerve restorative. My father,

BUT ONE OPINION AYER'S IS BEST

who was for sixty years a Professor at Bowdoin College, (Brunswick, Maine,) believed in the great medicinal value of this medicine, and never failed to recommend it, whenever opportunity offered. Whenever anyone asks me, 'What do you consider the best blood-purifier?' my answer is, 'Ayer's Sarsaparilla.'" — NATHAN S. CLEAVELAND, 376 Centre St., Jamaica Plain, Mass.

Ask for DR. J. C. AYER'S SARSAPARILLA, made at Lowell, Mass., and do not be persuaded to take any other. Sold by all Druggists and Dealers in Medicine.

Ayer's Cherry Pectoral

The only Cough-Cure Admitted on
Exhibition at the World's Fair.

The luxuries of civilization, which have come to be regarded everywhere as necessities of existence, are largely responsible for the frequency of colds. Overheated houses, places of worship and amusement, stores, and even street-cars, are the causes of innumerable "common colds," liable to develop into bronchitis, pneumonia, and other fatal diseases, if not promptly cured. A "common cold" is a serious matter, and the common-sense thing to do is to get rid of it in as short order as possible. A cold is produced by a sudden check of perspiration, caused by the exposure of a portion of the body, when over-heated. The result is congestion, local pains, inflammation and irritation of the air-passages of the head, throat, and lungs, with general depression of the nerve forces and lowering of vitality. Hot applications, baths, and tonics are all desirable and good, as far as they go; but cure need not be hoped for without a medicine which will alleviate the irritation of the mucous membrane, relieve the inflammation, relax the congested tissues, and tone up the system generally.

For this purpose, AYER'S CHERRY

PECTORAL is the best, most reliable, and most thorough of all remedies. It is the specific for all diseases of the throat and lungs. It acts promptly, and with certainty, going straight to the foundation of disease. It soothes irritation, allays fever, eases coughing, induces repose, restores normal vigor to the whole physical organization, and thus enables nature to proceed with her work of repair. The certainty of its healing effect, whether administered to children for croup or whooping-cough, or to adults for any of the ailments peculiar to the throat and lungs, adapts it for the widely popular use it has attained. AYER'S CHERRY PECTORAL is

Known by its Works.

For half-a-century, it has steadily won its way from the laboratory where it was first compounded, and the city where its beneficial results were first witnessed, to other cities and hamlets all over the country, until everywhere can now be found the evidence of its curative virtues. Considering this fact and the testimony of the many thousands of all nations who have been cured by the use of this preparation, it is no exaggeration to say that AYER'S CHERRY PECTORAL is the best and most efficacious pulmonary medicine ever produced. It is especially intended for those ailments which are too commonly regarded as simply annoying, but which are really dangerous in their tendency, when neglected or improperly treated.

Directions for the use of AYER'S CHERRY PECTORAL accompany each bottle, and should, therefore, be carefully preserved. Owing to its great strength, the Pectoral is an exceedingly economical medicine to use. It is agreeable to the taste, perfectly safe, even for the most delicate infants, if given as directed, and is always efficacious. If taken in too large doses, the Pectoral will sometimes produce nausea. Many physicians and patients find this medicine more acceptable for use by adding

Ayer's Cherry Pectoral an equal quantity of pure glycerine or syrup made of white sugar, and increasing the dose correspondingly. The general health demands careful attention; and, though there should be no marked tendency to constipation, much benefit will be derived from the use of **AYER'S PILLS**, taken in moderate doses. These Pills not only induce a healthful regularity in the movement of the bowels, but also aid in removing inflammatory matter from the system.

The Dose: For the treatment of common colds, **AYER'S CHERRY PECTORAL** should be taken three times a day, morning, noon, and night. In some cases, it may be taken more frequently with advantage. For men, forty to seventy drops, and for women, thirty to fifty drops constitute the largest doses. For infants and minors, from five to thirty drops, according to directions upon the bottle, will be found sufficient. The largest dose should be taken before retiring at night, thus securing natural and refreshing sleep. To ascertain the precise quantity adapted to the needs of the patient, commence with a small dose, gradually increasing until the full dose can be taken. If a full dose of the medicine causes nausea, it should be taken in slightly diminished doses. When the cold is accompanied with headache, pains, and soreness in the limbs and back, the patient should induce perspiration by taking a hot foot-bath and drinking hot flaxseed-tea or hot lemonade before going to bed.

Colds and Coughs.

Colds are generally occasioned by a sudden check of perspiration, thereby producing torpidity of the digestive and excretory organs. Rapid changes of temperature, exposure to dampness, wet or cold feet, are prolific sources of colds, especially among women and children. A cough is generally the effect of a cold which has not been promptly attended to, but allowed to continue till the mu-

cus coating of the bronchial tubes becomes irritated and inflamed.

"When my adopted son was seven years of age, he had as severe a cough as I ever knew anyone to suffer from. He coughed incessantly, and spit up blood. I tried everything I could think of, but he constantly grew worse, and I feared the poor little fellow would surely die. At last, I gave Ayer's Cherry Pectoral, being recommended to do so by the physician. This medicine afforded speedy relief and effected a permanent cure. I am positive Ayer's Cherry Pectoral saved my boy's life, and I cannot say too much in its favor." — Mrs. M. E. DEBART, Liberty, Texas.

SAVED MY BOY'S LIFE

"Some time ago, I caught a severe cold, my throat and lungs were badly inflamed, and I had a terrible cough. It was supposed that I was a victim of consumption, and my friends had little hope of my recovery. But I bought a bottle of Ayer's Cherry Pectoral, took it, and was entirely cured. No doubt, it saved my life." — IZORAH JONES, Emerts Cove, Tenn.

A BAD COUGH CURED

"I know, from personal experience, that Ayer's Cherry Pectoral is a good medicine. Several years ago, I was cured of the worst cold I ever had, by using this preparation. I have kept it for sale since I have been in business, have used it in my family, and always found it to be a satisfactory remedy." — JOSEPH MILBURN, merchant, Glensted, Morgan Co., Mo.

CURED THE WORST COLD

"About a year ago, I was taken with a severe cold. My lungs were sore, and breathing was very painful. I tried various medicines for about a month, but could obtain no relief, till I began to use Ayer's Cherry Pectoral, which gave me immediate relief, easing the pain and loosening the tightness in my chest. Before I had taken half the bottle, I was cured." — PETER J. DUFFY, Rockport, Texas.

EASED THE PAIN AT ONCE

"About two months ago, I was afflicted with a bad cold, and meeting a friend on the cars, during one of my coughing spells, he advised the use of Ayer's Cherry Pectoral, which, he claimed, had helped him wonderfully. As he was a consumptive, whom I had not expected to see alive for several years, I concluded there must be merit in this preparation. I accordingly bought a couple of bottles, one of which I kept on my desk all the time. This is certainly the best remedy for a cold I ever used. It gives almost instant relief, and the

Miss Cutter: "You have not been in society long, have you?" *Miss Plunker:* "No; but I remember hearing about you when I was a mere child."
McCarty: "Old Brown declares you are the most entertaining talker in the club. What do you usually talk about in his company?" *McInnis:* "Old Brown."
 "Yes, I've been having some more teeth pulled. They are all gone now, except one molar." "What a grinding monopoly it must possess!"
 "I don't see what people keep diaries for; I can keep all my affairs in my head."
 "That's a good way, too; but not every one has the room."
 "What makes you think the world is changing?" "Why, I've had a bad cold for two whole days and nobody has offered me a sure cure for it."
 The inability of George Washington to tell a lie left a gap in our national system that his fellow-countrymen have used every exertion to fill.
 Had Job been a man who run his shoes down at the heel, and never had any opinion of his own, the devil wouldn't have bothered him.

Ayer's Cherry Pectoral J. C. Ayer Co. are to be congratulated on possessing the formula for such a very valuable remedy."—W. H. LAWRENCE, editor *The Ohio Farmer*, Cleveland, Ohio.

Bronchitis

is often a very dangerous disease, and a frequent cause of death. It exhibits a great variety of symptoms, being at times so slight as to seem scarcely worthy of notice, while, in other cases, it is severe, and even fatal. In infancy and childhood the mortality attending this disease

is very great. It commences with all the symptoms of a common cold, hoarseness, shivering, with fever and difficulty of breathing. The respiration becomes more laborious as the disease advances; there is a feeling of roughness in the windpipe; tightness across the chest; sharp pains; a wheezing, rattling noise in the large air-tubes, and an excessive secretion of thick mucus. Great debility attends the disease from the commencement, with pain in the head, giddiness, and sometimes delirium. For the relief and cure of Bronchitis, **AYER'S CHERRY PECTORAL** is more certain in its results than any other medicine known to pharmacy. The dose (according to age and strength of the patient) is from 5 to 30 drops, four or five times daily. In its chronic form, the disease is often aggravated by a scrofulous taint, which can be removed by the use of **AYER'S SARSAPARILLA**.

"My little girl was troubled with bronchitis for nearly a year, and although attended by some of our leading physicians, she got no benefit until I gave her Ayer's Cherry Pectoral. The relief was almost instantaneous, and after taking one bottle, she has since had no attack of bronchitis."—Mrs. T. H. DAVIS, Roanoke, Va.

"Having, for some time, been troubled with bronchitis and hoarseness, I use Ayer's Cherry Pectoral, and find it gives immediate relief. Although I have taken only three bottles, I have used enough to convince me that Ayer's Cherry

BEST FOR THROAT AND LUNGS

Pectoral is the best of throat and lung remedies, and I can cordially recommend it to all

suffering from diseases of this nature."—J. N. LAMBERT, Hope, Texas.

"When I had almost despaired of ever finding a cure for chronic bronchitis, I recently derived most excellent results from the administration of Ayer's Cherry Pectoral. I can testify as to its efficacy, and should be pleased to have you send me the formula of its composition."—C. G. PROCTOR, M. D., Oakland City, Ind.

WHAT A DOCTOR SAYS

Pneumonia.

When threatened with Pneumonia, send at once for a physician. In the mean time cover the patient warmly in bed, and promote free perspiration. Apply a mustard paste to the chest, and afterward hot flaxseed poultices, which should be renewed when cold. **AYER'S CHERRY PECTORAL** should be taken as directed in treatment for colds, until relief and rest are obtained. After Pneumonia, the patient will speedily rally from the prostrating effects of the disease by taking **AYER'S SARSAPARILLA**.

"Last winter, I contracted what I at first thought was a common cold, but it quickly settled on my lungs and exhibited all the alarming symptoms of Pneumonia. I am satisfied that the prompt use of Ayer's Cherry Pectoral saved my life."—H. BIGWOOD, Bath, Me.

QUICKLY CURED

"Two years ago, after an attack of pneumonia, I was troubled with a very severe cough, which kept my throat in such a state of inflammation that I had frequent hemorrhages. I began to take Ayer's Cherry Pectoral, which relieved me at once. After taking one bottle of this medicine, my cough was cured, and I have had no further trouble with either my lungs or my throat. I consider Ayer's Cherry Pectoral the best medicine for all throat and lung diseases."—C. V. NADOW, Springfield, Mass.

RELIEVED AT ONCE

Catarrh

is confined to the nasal passages, and causes an excessive and annoying discharge of mucus. Catarrhal patients are generally very sensitive to exposure to draughts of cold air, which increase these discharges. Catarrh is dangerous, mainly from its tendency to become chronic and extend to the lungs. **AYER'S CHERRY PECTORAL** taken as prescribed for Influenza, often cures Nasal Catarrh in a few doses, and always affords relief from its irritation.

Jones (on his knees): "Oh, Maria, be considerate and put me out of my misery at once." *Maria*: "I will, Mr. Jones; you stay there till I get the shotgun." Exit Jones through the window.

Johnny (to his sister's young man): "What base-ball club did you play with last season?" *Sister's young man*: "I never played a game of base-ball in my life. Why do you ask?" "Cause I heard ma tell sis that you were a splendid catch."

Mr. Deadgone: "How did you know that I was coming to-night, Tommy?" *Tommy*: "I heard sis tell Bridget not to fill up the parlor lamp."

Upreck: "Don't give me a room on the top floor. When I wake up, I like to hear the birds sing." *Chicago Hotel Clerk*: "Just as you say. Some prefer birds and some angels."

Goslin: "Miss Weekawken, will you honor me with your company on Thursday?" *Miss Weekawken*: "I'm sorry, but a lot of my friends are to give me a surprise party on that night and I'm expected to stay at home."

Ayer's Cherry Pectoral To regulate the bowels and stimulate the digestive organs, use **AYER'S PILLS**. For Scrofulous Catarrh, the use of **AYER'S SARSAPARILLA** is indispensable.

"At one time, I suffered from a bad case of nasal catarrh, complicated with a severe bronchial trouble. The only remedy I used was **Ayer's Cherry Pectoral**, which completely cured the disease."

**A
COMPLETE
CURE**

J. M. THOMPSON, Chillicothe, Mo., traveling salesman for J. T. Mount Co., Newark, N. J.

"For a long time, I was troubled with a catarrhal cold, accompanied with a severe cough, which kept me awake nights and threatened serious injury to my lungs. After trying the ordinary remedies without doing me any good, I took **Ayer's Cherry Pectoral** and in a short time I had relief, followed by complete cure. I can safely say that there is no better cough-cure than **Ayer's Cherry Pectoral**."—**HUGH CALLAHAN**, 17 Sanborn St., Lowell, Mass.

**WHEN
OTHERS
FAIL**

Hoarseness,

Loss of Voice, and other throat diseases are largely of a catarrhal nature, except where scrofulous complications exist.

It is not only the pain or swelling which makes them disagreeable, but the hacking cough, continual hawking in effort to remove the obstruction, and the harsh, husky tones of the voice,—as in the case of preacher's sore throat—extending to partial or even complete loss of voice, that prompt the sufferer to seek relief. In all disorders of this nature, frequent yet very small doses of **AYER'S CHERRY PECTORAL** will relieve the patient. Use a solution of chlorate of potassa as a gargle, and induce perspiration with half a teaspoonful of sweet spirits of nitre, taken in two tablespoonfuls of water.

"I have used **Ayer's Cherry Pectoral** for years in my family, and it has always given perfect satisfaction. For colds and coughs it is unsurpassed, in my experience, and I gladly recommend it to all sufferers from these complaints."—**HENRY T. CLINERS**, Edna, Texas.

"About three years ago, I had severe laryngitis, which resulted in chronic hoarseness.

In consequence of this, and after some months of discouraging efforts to regain my voice, and fearing that my lungs were also affected, I gave up business to travel for my health. A clergyman, whom I met in the White Mountains, advised me to make a trial of **Ayer's Cherry Pectoral**. I followed his advice, and have entirely regained my health. Hoping that my testimony may induce others, similarly afflicted, to try this remedy, I send the facts for publication."—**C. K. PHILIPS**, Pittsburgh, Pa.

**A
PREACHER'S
ADVICE**

"In my early manhood, I lived with my parents, in Greensburg, Tenn., and I well remember my mother suffering, for something like two years, from a lung trouble and cough, which our two local physicians failed to help. In fact, they said my mother was past cure; but such was not the case, for she was cured, and that quickly and permanently, by the use of **Ayer's Cherry Pectoral**."—**D. W. IRWIN**, P. M., Akron, Colo.

**LUNG
TROUBLE
CURED**

"I have been troubled for five years with an affection of the throat and lungs, coughing severely the whole time. I used different preparations, and was treated by several physicians without effect. I finally tried **Ayer's Cherry Pectoral**, and, before one bottle was used, I was completely cured. I have recommended it to a number of persons who were similarly affected, and who have taken it with the best results."—**R. CAMPELL**, Woodville, Ont.

**THE
BEST
RESULTS**

Bronchial Consumption numbers more victims than its twin, tubercular Consumption. It is usually the effect of a cold and inflammation extending to the lungs. It is liable to follow Pneumonia, Bronchitis, Small-Pox, and Measles, and may also be induced by exposure to noxious air or want of nourishing food. Sometimes the disease is swift in its action, again it may be forging the chain for years, and at last some other ailment may step in and carry off the patient. Few think their cases serious, and so neglect to cure themselves when a cure is possible; others despair of being cured when, with proper treatment, health might be restored. **AYER'S CHERRY PECTORAL** relieves the pain and difficulty of

numbers more victims than its twin, tubercular Consumption. It is usually the effect of a cold and inflammation extending to the lungs. It is liable to follow Pneumonia, Bronchitis, Small-Pox, and Measles, and may also be induced by exposure to noxious air or want of nourishing food. Sometimes the disease is swift in its action, again it may be forging the chain for years, and at last some other ailment may step in and carry off the patient. Few think their cases serious, and so neglect to cure themselves when a cure is possible; others despair of being cured when, with proper treatment, health might be restored. **AYER'S CHERRY PECTORAL** relieves the pain and difficulty of

"Ayer's Preserue Book." Every recipe tested, and best of its kind. Sent to any address, upon receipt of two-cent stamp, by Dr. J. C. Ayer & Co., Lowell, Mass.

"May it please your lordship," said a lawyer, addressing one of the judges, "I brought the prisoner from jail on a habeas corpus." "Well," said a farmer, in an undertone, "these lawyers will say anything. I saw the man get out of a cab at the court door."

Mrs. Youngusband: "Well, aunt Jane,

how did you like the symphony concert?" Aunt Jane: "Oh, pretty well. But it kinder spoilt the effect to see that fool up in front pretending to drum on nothin'."

Jack Bach: "Why don't you buy a silver belt for a present to your wife?" Jim Benedict: "Great Heavens, Jack, I'm no millionaire — Mary weighs 207 pounds!"

"My, how the breaker roared!" said Jennie, on the seashore. "Yes. That fat man in bathing stepped on its undertow," answered Harry.

Ayer's Cherry Pectoral breathing, from which patients suffer, controls the desire to cough, and soothes and heals irritated tissues. In the most advanced stages of Consumption, the distressing cough is eased and the patient greatly comforted by the use of **AYER'S CHERRY PECTORAL**; and instances are common where, with careful attention, the diseased lungs have healed under treatment by this medicine, and comparative health and activity been restored to the patient. If Scrofula has invaded the lung-tissue, **AYER'S CHERRY PECTORAL** can only be depended upon to ease the cough and promote expectoration. In such cases,—as the disease results from a corrupt condition of the blood, which is continually depositing tuberculous matter in the lungs,—the only remedy which can be relied upon is **AYER'S COMPOUND EXTRACT OF SASSAPARILLA**. This medicine purifies, energizes, and vitalizes the blood, sustains the strength, and imparts to the system the elements necessary to life and health.

"In 1850, I was so badly run down that it was supposed I was in consumption. All other remedies failing, I began to use Ayer's Cherry Pectoral, and one bottle cured me. Since then, whenever I need a cough-cure, I take this medicine, with the best results."—Mrs. M. E. WILSON, Alba, Bradford County, Pa.

**WITH
ONE
BOTTLE**

Asthma.

This disease is located in the upper portion of the respiratory organs, the mucous membrane of which appears to be the seat of painful irritation and congestion. It is characterized by frequent,

difficult, and short respiration, wheezing, stricture of the chest, a cough, and threatened suffocation, symptoms which are aggravated when the patient is lying down. The patient will find great relief in the use of **AYER'S CHERRY PECTORAL**, taken in doses of 15 to 20 drops an hour during the paroxysms of the disease. This will relax the muscles which hug the tubes so tightly, permit the air-passages to dilate to their natural size, and, at the same time, promote expectoration of the

mucus, and thus relieve the lungs. A continued use of the **PECTORAL** generally effects a cure. Alleviation is obtained by smoking stramonium, mullein leaves, or cubebs, from a common clay pipe, or by breathing the fumes of burning paper charged with saltpetre.

"Some time since, I had a severe attack of asthma, accompanied with a bad cough and a general soreness of the joints and muscles. I consulted physicians and tried various remedies, but without getting any relief, until I despaired of ever being well again. Finally, I

KIND WORDS

took **Ayer's Cherry Pectoral**, and in a very short time, was entirely cured. I can, therefore, cordially and confidently commend this medicine to all."—J. ROSELLS, Victoria, Tex.

Influenza, or La Grippe,

has prevailed at different periods in Europe with epidemic virulence for the past 2000 years. During the winter of 1890-91, its appearance in Chicago, Pittsburgh, and New York City, was attended

with great mortality. The symptoms of Influenza are mostly those of a severe cold, commencing with languor, debility, cold chills, sneezing, sore throat, cough, and pains in the head and back. The most satisfactory treatment of this disease

consists in the patient's remaining in bed, and inducing free perspiration. The bowels should be regulated by the use of **AYER'S PILLS**. Promote expectoration by the use of **AYER'S CHERRY PECTORAL**. To relieve and cure what is known as the after-symptoms, nervousness, headache, stomach, liver, and kidney troubles, **AYER'S SASSAPARILLA** will be found of great benefit. This medicine puts the system in the very best possible condition to rid itself of impurities.

"On Dec. 19, 1891, I was confined to my room with grippe. The treasurer of the *Commercial Advertiser* recommended Ayer's Cherry Pectoral, as it had cured him of the same complaint. I sent for a bottle of this medicine, and, in two days after taking it, I was able to resume my business, and am now entirely cured. As I took no other remedy, I can but give all the credit to the **Cherry Pectoral**, which I can gratefully

In the city of H.—lived a family who had one of those domestics with the familiar heavy hand. A few years ago, the town experienced a slight shock of earthquake. Pictures were thrown down, crockery and furniture rattled about. In the midst of the tumult the mistress went to the head of the basement stairs, and called out in a would-be patient tone: "Mary Ann, what are you doing now?"

"It is a crime for men to hold up a train, but if women fail to do it in these days they sweep up a great deal of mud."

Niece: "It's a pity, uncle, you visited us to-day when we've only got pork for dinner. Now, if you were here to-morrow I could give you a fine dish of hare or venison."

Uncle: "All right, my dear. I'll prolong my visit until the day after to-morrow."

Mrs. Plankington: "Here is my new dress all right. But where is the bill?" Boy: "I couldn't carry both."

In the first transports of delight, a happy Harlem father rushed into the club-room last Thursday night, exclaiming: "I've got a son! It's a boy!"

Ayer's Cherry Pectoral ly recom-
 speedy specific for this dangerous disease."
 — E. T. HARRISON, New York City.

"I have much pleasure in stating that during the late epidemic of influenza, or la grippe, Ayer's Cherry Pectoral operated with such admirable effect that it saved the lives of many persons, both young and old. The inestimable value of this great emergency medicine was especially demonstrated in places where the services of a physician could not be procured."

— JOSÉ E. ALVAREZ, pharmacist, City of Mexico, Mexico.

**FOR
 YOUNG
 AND OLD**

Croup

commences with restlessness, which, in a few hours, is followed by a wheezing in the throat and hoarseness, a croupy, ringing, rattling cough, accompanied by loud and difficult breathing. Membranous croup can be distinguished by grayish patches in the throat.

In such cases, unless the treatment be prompt and energetic, the false membrane will fill the windpipe and shut off the supply of air to the lungs. Send for the doctor without delay. While waiting his coming, administer an emetic of mustard-and-water, ipecac, or other simple means, at hand, and as soon as this has operated, give **AYER'S CHERRY PECTORAL** in doses of 5 to 15 drops, hourly. Wet, with cold water, a strip of cotton cloth, 4 inches wide and 18 inches long; wring it dry as possible, and wind it loosely around the throat, covering with two or three thicknesses of dry flannel. Anoint the chest and back with camphorated oil. Hot poultices of flaxseed meal, mullein leaves, or hops may also be applied to the chest. When the alarming symptoms of the disease have been subdued, the **PECTORAL** may be given every two or three hours, until morning, or until the physician arrives.

"I consider Ayer's Cherry Pectoral to be one of the best medicines there is, and it seems as if we should not be able to bring up a family without it. We have used it when-

ever our children were attacked with croup, and it has never failed to give relief."—G. A. HULL, agent for M. P. R. R., Warsaw, Mo.

"Ayer's Cherry Pectoral saved my child's life in an attack of croup. Since then, I

**ALWAYS
 USE IT**

have used this remedy in throat and lung troubles, and always with the most satisfactory results."—G. H. FRANKLIN, Bedford Springs, Va.

Diphtheria

requires the immediate attention of a reliable and skillful physician. When the first symptoms of the disease are discovered, and until the services of a physician can be secured, the throat should be either painted or gargled, at short intervals, with pure lime or lemon juice. Benefit may also be derived from powdered sulphur blown into the throat. A full dose of **AYER'S CHERRY PECTORAL** may also be given with advantage. After Diphtheria, to remove from the blood the poisons which have entered into the circulation, and to build up the system, take **AYER'S SARSAPARILLA**.

"Some time since, I suffered a severe attack of diphtheria, which left my throat in a very bad condition. I was continually taking cold and fearing a return of the dread disease. Finally, I tried

**COMMENDS
 IT HIGHLY**

Ayer's Cherry Pectoral, and it strengthened my throat, so that now it is perfectly healthy. I cannot commend this preparation too highly."—J. WHARTENBERG, hatter, 1109 Congress St., Houston, Texas.

Whooping Cough

is an infectious disease, peculiar to childhood. Administer **AYER'S CHERRY PECTORAL** in doses of 5 to 15 drops, three to four times daily.

"While at college in Pittsburgh, Pa., I was taken with whooping cough, the paroxysms being extremely severe. Knowing the reputation of Ayer's Cherry Pectoral, I procured a bottle of this preparation, and before I had taken it all, the cough was cured."—J. D. PIRRONG, ex-senator, Wewahitchka, Fla.

**CURED
 QUICKLY**

To preserve the peculiar flavor and delicate qualities of **AYER'S CHERRY PECTORAL**, keep it in a dark place or in its wrapper.

AYER'S CHERRY PECTORAL is prompt to act, sure to cure. Sold by all Drug-gists everywhere.

"A Night with Rameses II."—An Egyptian curiosity. Antique and profusely illustrated. Send 6 cents in stamps to Dr. J. C. Ayer & Co., Lowell, Mass.

Mrs. Crimmonbeak: "See that team of horses, how nicely they pull together, John! Why can't a man and wife pull together like that?" Mr. Crimmonbeak: "There's every reason, my dear. Those horses have only one tongue between them."

She: "Do you often visit your uncle?" He: "No; only in cases of extreme necessity."

"You often hear of the self-made man?" "Yes." "But you never hear of self-made women?" "That's so. Rather strange, isn't it? What's the reason, do you think?" "Well, when a woman is self-made she doesn't want anybody to know it."

Customer: "Look here! The first time I used this miserable, cheap umbrella I bought of you, the black dye soaked off and dripped all over me!" Dealer: "Mien frient, that was our new, patent self-detective umbrella. If any one should steal that you'd know him by his clothes."

Ayer's Pills

Admitted for Exhibition at the
World's Fair.

Nearly every particle of soluble matter, in the economy of a perfectly healthy person, is absorbed by the lining of the intestines, and thus, passing into the blood, helps make new tissue or supply fuel to the invisible furnaces of that wonderful engine, the body. The insoluble portions, such as the seeds of berries, the fine tendons and cartilages of meat, the dust and dirt inherent in everything exposed to the atmosphere, and the waste of the gastric fluids, consumed in digesting a meal, are moved downward into the large intestine and thence expelled from the body. Accelerated action in this regard is known under various names, such as *Diarrhœa*, *Dysentery*, *Summer Complaint*, *Colic*, *Cholera Morbus*, and the like; retarded or diminished action is known under the simple term *Constipation*. The former condition is the more dangerous. The exhaustion and nervous strain it produces are always enfeebling and frequently fatal. With infants and children, it is the greatest scourge, sweeping away at least a

million a year in Europe and America. It expresses not only diseased conditions of the system, but it also indicates the normal action of the body in its endeavor to expel germs, irritants, animal life, and other substances, the presence or influence of which is opposed to life and health. Constipation is scarcely less dangerous, for the reason that the matter which should be driven out of the system remains there and undergoes gradual chemical decomposition. The gases and liquids produced in this process are slowly absorbed by the lining of the intestines and thrown into the blood. This they change in color and character, producing, directly and indirectly, a *Sallow* or *Blotched Complexion*, *Pimples*, *Sores*, *Boils*, *Indigestion*, *Foul Stomach* and *Breath*, *Flatulency*, *Dizziness*, *Headache*, *Numbness*, *Loss of Memory*, *Jaundice*, *Worms*, and *Piles*.

The simplest and best method of avoiding all these conditions is to use **AYER'S CATHARTIC PILLS**. They gently stimulate the bowels, liver, and other vital functions to increased action, and so purify the system of the waste matters it has absorbed as not to injure or weaken the excretory functions.

AYER'S PILLS are compounded with scientific skill and care, from the essential virtues of the best vegetable aperients. Free from croton-oil, mercury, or any other dangerous drug, they may be administered to children with perfect safety. They are tonic as well as cathartic in their action, and exert a soothing and healing influence in all disordered conditions of the bowels.

AYER'S PILLS are covered with a thin coating of sugar, which is easily dissolved in the fluids of the stomach. This coating not only makes them easy and even agreeable to take, but it also preserves their medicinal value for an indefinite period. For export, these Pills are put up in bottles, and may be conveyed to any climate without fear of deterioration.

In the treatment of all diseases

Ninth Month.

"How do you know she is a grass widow?"
 "Because she hasn't any weeds on her."
 "You find the typewriter useful in your business?" "I should say so. When a bore comes in, I give the operator the tip, and the machine makes so much noise he can't hear himself think."
 "That woman over there looks as if she were painted." "Sir, that is my wife." "I had not finished my sentence. She looks as if she were painted by Raphael and had just stepped out of a frame."

Potter: "Yes, sir; that man is a hypocrite, if there ever was one. While professing the warmest sympathy for me, he was for a whole year stabbing me in the back, and I never knew it." Irwin: "Goodness! What kind of a back have you got?"
 "Did you hear of Madge's splendid luck with her wedding presents?" "No. Were they handsome?" "Handsome! I should say so! You know Madge has a great many wealthy friends, and each one sent her a ton of coal."

Ayer's Pills where the use of AYER'S SARSAPARILLA, AYER'S CHERRY PECTORAL, or AYER'S AGUE CURE is advised, and it becomes necessary to use a laxative medicine, AYER'S PILLS are especially recommended, for the reason that they not only have a better effect upon the system, but they are also better adapted to work in harmony with the above preparations than any other cathartic. Their action in any disease is safe, certain, and uniform.

The Dose: For a man, to move the bowels gently, 2 to 4 of AYER'S PILLS will be sufficient, and for thorough effect 4 to 7 Pills. Women and children will require proportionately less. In cases of continued use, patients can safely adjust doses to their own requirements. Remember that in most cases needing a cathartic, violent purging is unnecessary. AYER'S PILLS are tonic as well as cathartic, impart a healthful action to the stomach, liver, and bowels, and the prescribed doses are usually sufficient.

Constipation.

The absorbing power of the intestines is such that what the system would expel if the Stomach, Liver, and Bowels were working properly, is allowed to remain

when these organs are inactive. The gases, liquids, and even the soluble solids which should be eliminated from the organization are kept back harmfully for hours, and even days. These poisons are absorbed by the blood, and thus carried to every part of the body. This effects a change in the color of the skin and eyes, and in the condition of the tongue. It also causes mental depression, disturbs the action of the heart and nervous system, and causes skin eruptions, piles and fistula.

when these organs are inactive. The gases, liquids, and even the soluble solids which should be eliminated from the organization are kept back harmfully for hours, and even

A few doses of AYER'S PILLS will gently stimulate the bowels to healthy action, restore their lost tone, and promote easy and natural evacuations.

Among the most frequent and distressing results of Constipation are *Nervous Headaches*, often accompanied with nau-

sea. Biliary and Congestive Headaches are also symptoms of a disordered condition of the digestive organs, and may be cured by taking

AYER'S PILLS. Sufferers from headache should eat only plain, nourishing food, avoid fat and salt meats, cakes, pastries, strong tea and coffee, alcoholic stimulants, and tobacco, and should take proper out-door exercise. Whenever the digestive organs become disordered by reason of scrofulous taint in the blood, AYER'S SARSAPARILLA should be taken in connection with AYER'S PILLS.

"For eight years, I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural action, so that now I am in excellent health."—WM. H. DELAUCETT, Dorset, Ont.

REGULAR ACTION

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and I deem it

MUST HAVE THEM

both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past, I have taken one of these pills every night before retiring. I would not be without them."—GEORGE W. BOWMAN, 26 East Main St., Carlisle, Pa.

NOTHING RELIEVES SO QUICKLY

"I don't believe there ever was so good a cathartic pill as Ayer's. They do all for which you recommend them and even more. When I have a cold, and ache from head to heels, a dose or two of these pills is all the medicine needed to set me right again. For headache, they never fail. I have been a victim of terrible headaches, and have never found anything to relieve them so quickly as Ayer's Pills. Since I began taking this medicine, the attacks have been less and less frequent, until, at present, months have passed since I have had one."—C. F. NEWMAN, Dug Spur, Va.

"Having been severely afflicted with constiveness, I was induced to try Ayer's Pills.

Ayer's Pills Their use has effected a complete cure, and I can confidently recommend them to all similarly afflicted."—C. A. WHITMAN, merchant, Nipomo, Cal.

"Ayer's Pills have cured me of neuralgia, which has attacked me every Spring for some years. During a recent easterly storm, my face and temples and back of my head pained shockingly. I took Ayer's Pills, and was soon relieved."—(Mrs.) MARTHA WIGGIN, Bangor, Me.

VICTIM OF NEURALGIA CURED

Dyspepsia

is the result of *Indigestion*, and does more to undermine the health of the present generation than any other disease. It is the prevailing malady of civilized life, affecting all classes, from the laborer, who is compelled to eat hurriedly and go to work immediately,

to the epicure, who eats rich and highly-seasoned food. It is more than a pain in the stomach after feasting; it is the parent of nearly all the ailments of the digestive and assimilatory organs. Among the earliest symptoms of Dyspepsia, is a sense of fulness and weight in the stomach, accompanied with more or less pain and distress after meals. Flatulency, acid stomach, waterbrash, bitter taste in the mouth, fetid breath, furred tongue, nervousness, melancholia, dizziness, headache, and an irregular condition of the bowels, also mark the progress of the disease.

For the successful treatment of all forms of Dyspepsia, **AYER'S PILLS** should be taken in doses sufficient to secure and maintain a daily movement of the bowels. The action should be aided by care in eating and drinking. The quantity and quality of the food should be suited to the wants and capabilities of the system. Dyspeptics should be careful not to chill the stomach with cold liquids. Hot water, taken just after rising and before retiring, is often decidedly beneficial. Temporary relief from acidity of the stomach is obtained by the use of small doses of fluid magnesia, bi-carbonate of soda, or lime water,

taken in milk or water. If the derangements of the stomach arise from Scrofulous affection, take **AYER'S COMPOUND EXTRACT OF SARSAPARILLA**.

"For fifteen years, I was a great sufferer from indigestion in its worst forms. I tested the skill of many doctors, but grew worse and worse, until I became so weak I could not walk 50 yards without having to sit down and rest. My stomach, liver, and heart became affected, and I thought I would surely die. I tried Ayer's Pills and they helped me right away. I continued their use and am now entirely well. I don't know of anything that will so quickly relieve and cure the terrible suffering of dyspepsia as Ayer's Pills."—JOHN C. PRITCHARD, Brodie, Warren Co., N. C.

WORST FORM OF INDIGESTION

"Having used Ayer's Pills with great success for dyspepsia, from which I suffered for years, I resolved never to be without them in my household. They are indeed effective."—Mrs. SALLIE MORRIS, 125 Willow St., Philadelphia, Pa.

"For six years, I was a victim of gastralgia, and none of the medical men whom I consulted were able to relieve me. At last it occurred to me that Ayer's Pills might help my case. I commenced taking one every morning, following the treatment up for two years, when the disease was entirely cured."—OCTAVIO DE BOLIVA PADILHO, pharmacist, Jacobina, Bahia, Brazil.

GASTRALGIA CURED

"I formerly suffered from indigestion and weakness of the stomach, but since I began the use of Ayer's Pills, I have the appetite of the farmer's boy. I am 46 years of age, and recommend all who wish to be free from dyspepsia to take one of Ayer's Pills after dinner, fill their digestive organs are in good order."—WM. STEINKE, Grant, Neb.

EATS LIKE A FARMER'S BOY

"Ayer's Pills are the best and most effective remedy I have ever taken to correct irregularities in stomach, liver, or bowels. These pills keep me in perfect order. A dose or two will always set me right whenever I am troubled with indigestion or constipation."—JOHN H. BAKER, Coffeysburgh, Mo.

KEEP ME IN ORDER

Diarrhœa, when caused by the presence of undigested food or other irritating substances in the mucous lining of the alimentary passages, is curable with a mild dose of **AYER'S PILLS**. *Dysentery*, although more serious than Diarrhœa, consisting as it does of inflammation of the mucous

Ayer's Pills membrane of the lower, or larger, bowel, is readily overcome in its earliest stages by the use of simple remedies.

In mild cases, reduce to a fine powder two of **AYER'S PILLS**, and thoroughly mix with an ounce of castor oil. Give a teaspoonful of the mixture every two hours. After the bowels are mildly purged, reduce the dose to one-fourth of a teaspoonful, adding, also, half a teaspoonful of paregoric. When there is much pain in the bowels, hot cloths or a mustard paste laid upon them will have a good effect. Injections of thick starch-water, to which have been added a few drops of laudanum, are also beneficial. In all cases, keep the patient in bed.

Liver Diseases

arise from torpidity of the liver, causing a decrease in the flow of bile from too great determination of blood, producing enlargement, inflammation, abscesses, from obstruction of the ducts leading from it into the bowels, resulting in jaundice and similar affections. These ducts are frequently thus clogged by

thick, sticky mucus, crowding the bile back, and leading to its absorption into the circulation, where it acts as positive poison. Here it sometimes produces diseases of the skin, such as pimples, tumors, sores, ulcers, erysipelas, sore eyes, etc. It gives the skin a yellowish tinge, sometimes deepening until it assumes a very tawny and greasy look; the whites of the eyes become yellow, or greenish, and the tongue, white or brown-coated. Among other symptoms of liver derangement are soreness in the region of the liver, across the stomach, and below the ribs; oppressed stomach; face sometimes flushed; feverishness in the afternoon or night; drowsiness and indolence; nervousness; watchfulness at night; melancholy; blues; frightful dreams; darting pains in the abdomen; sighing; difficult and short breath; pains in the chest, about the lungs, commonly mistaken for pleurisy; shifting pains, like rheumatism; nausea, and vomiting; dizziness; inability to lie on left side; hicough; occasionally, pain in left shoulder. Several

of these symptoms may be present at one time.

Prompt treatment with **AYER'S PILLS** will, in all ordinary cases, stimulate the liver to healthy action. Hence the advantage and importance of giving all derangements of the liver early and judicious attention. The earlier the attention the more speedy the cure. In all cases of enlargement, or in which there is reason to suspect scrofulous complications, or where the system is debilitated, **AYER'S SARSAPARILLA** should be taken in connection with the **PILLS**. For disorders of the liver caused by malaria, **AYER'S AGUE CURE** is the best.

Among the most painful of the disorders arising from derangement of the digestive and eliminative organs are *Rheumatism, Gout, Neuralgia, Tic-Douloureux, Sciatica, and Pains in the Stomach*. *Dropsy* is also due to deficient energy, or want of tone in these organs. In all such cases, **AYER'S PILLS** should be taken in sufficient doses to restore healthy activity to the liver, kidneys, and bowels. When this is established, and the poisonous secretions—urea and bile—are expelled, the pains will cease. In cases of Dropsy, the **PILLS** should be taken in doses to produce copious watery discharges. In addition to treatment with the **PILLS**, we recommend the patient to take a thorough course of **AYER'S SARSAPARILLA**. This will purify the blood, give tone and strength to the vital organs, and remove all traces of disease.

"I have used Ayer's Pills for 15 years as a cathartic in liver complaint, and always with extremely beneficial effect, never having had need of other medicine.

NEEDS NO OTHER MEDICINE

I also give Ayer's Pills to my children, when they require an aperient, and the result is always most satisfactory."—ADELAIDE A. EATON, Centre Conway, N. H.

"For the last fifteen years, I have relied on Ayer's Pills solely as a remedy for stomach and liver troubles. They keep me all

KEEP ME ALL RIGHT

right, no matter where I go or how I live, and are without the bad effects of calomel and other drugs, of which I used to take large quantities."—ED. MCGINLEY, Deming, N. M.

"Mrs. Betsy Garner, who lives near me, became very sick three or four years ago. She had a terrible cough, was thin and emaciated, and all her neighbors thought she was going into a decline, and would not live long.

Nearly 100 recipes in "Ayer's Book of Pies and Puddings." Mailed to any address, on receipt of two-cent stamp, by Dr. J. C. Ayer & Co., Lowell, Mass.

"How do you like the city bustle?" she said to the visitor from the country. "I don't know," he answered, rather abashed. "It kinder struck me that they warn't wearin' 'em any more."

Who but an astronomer would ever think of shooting stars?

Mrs. Hayseed (in hotel dining room): "What a bright light those lamps give!"

Mr. Hayseed (whispering): "Say gas jets, Marier; them ain't lamps." Mrs. Hayseed (loudly): "Yes, as I was saying, what a bright light the gas jets give; guess they are fresh trimmed."

Servant (from the flat above): "Me lady says as will you let your daughter sing this afternoon?" Lady (much pleased): "Why, certainly. Tell your mistress I am glad she enjoys it." Servant: "Yes, mum. She expects a visit from the landlort this afternoon, an' she wants some excuse for askin' a reduction in rent."

Ayer's Pills In fact, her doctor said she was in consumption. I had known just such coughs as hers, caused by liver complaint, and having great

COUGH FROM LIVER COMPLAINT

faith in Ayer's Pills for that particular disease, I recommended her to take them. I told her if they did not cure her, I would pay for the pills. She at once quit taking the whiskey and cod-liver oil the doctor had fed her on, and took the pills. She began to pick up right away, and soon got well, entirely well, and is to-day, a stout, healthy woman, and she has never asked me to pay for the pills, either."—JOHN C. PRITCHARD, Brodie, Warren Co., N. C.

"About a year ago, I sustained an injury in my back and shoulders by lifting a heavy weight. After a time, a liver trouble came on, which so weakened me that I could scarcely lift my hand to my head. While in this condition, I began the use of Ayer's Pills, and finding almost immediate benefit, continued until I was cured

COULD SCARCE LIFT HIS HAND

of my complaint, so that I was able to take care of seventy head of stock all through the winter, which shows that the cure was not temporary but permanent."—H. R. W. BENTLEY, Towner, N. D.

Mechanics,

laborers, clergymen, sailors, students, clerks, miners, travelers, and every class and condition of men, wherever they may be found, whether on the highway,

at sea, on the frontier, on the farms, in the mines, in offices, shops, or schools, will find **AYER'S PILLS** superior as a cathartic to other medicines, in all the uses for which a purgative is employed. The

enormous consumption of these Pills and their constantly increasing demand, show that their virtues are appreciated. They may always be relied upon to produce excellent results. If you have a severe cold, and are threatened with a fever, with pains in the head, back, and limbs, one or two doses of these PILLS will break up the cold and prevent the fever. A coated tongue, with a bitter taste in the mouth, caused by

indigested food in the stomach, will be speedily corrected by resorting to the above-named remedy. **AYER'S PILLS** remove all obstructions to the natural functions of either sex, without any unpleasant effects.

"Whenever I am troubled with constipation, or suffer with headache, or dyspepsia, or from loss of appetite, Ayer's Cathartic Pills quickly set me right again."—A. J. KISER, Jr., Rock House, Va.

"My husband was subject to severe attacks of neuralgia which caused him great pain and suffering. The pains were principally about his eyes, and he often had to remain

AFTER DAYS OF SUFFERING

in a darkened room, not being able to stand the light. Ayer's Pills being recommended, he tried them, using one before each meal. They very soon afforded relief, followed by permanent cure. I am a strong believer in the efficacy of Ayer's Pills, and cannot too strongly recommend them as a safe and effective cathartic."—MRS. M. E. DEBAT, Liberty, Texas.

"My wife was so badly affected with rheumatism, that her hip-bones were drawn out of their natural places. Over a year she was laid up. We employed the best physicians, but without success. Being

HEALTH FULLY RESTORED

induced, through reading Ayer's Almanac, to try Ayer's Pills, she continued to take them, until five boxes, with two bottles of Ayer's Sarsaparilla, fully restored her health. Her bones have returned to their natural position. I would recommend these medicines to any one afflicted with rheumatism."—T. F. JARVIS, Darwin, Cal.

"Ayer's Pills are about the only medicine I have used since I came to this part of the country. My business, 'cattle herding,' is such that I am compelled to be away from

NO DOCTOR FOR 50 MILES

town six months at a time. When I, or any of the boys on the ranch get sick, we have to depend upon Ayer's Pills to help us out, for there are no doctors within fifty miles of us. These pills always seem to be just the medicine we need, and do their work completely."—F. BABCOCK, Whitesboro, Tex.

Piles

are usually the result of chronic constipation, although they may be produced by the use of harsh purgatives. A cure is best effected by keeping the bowels well regulated with **AYER'S PILLS**. The food should also be of a laxative nature, and consist of corn bread, graham bread, buckwheat cakes, broths, rye pudding,

Customer: "I want to look at some fur trimming, please." *Clerk*: "What fur, please." *Customer* (in high dudgeon): "I want it for a dress, but I don't see what difference it can make to you."
 It is rather tough on a doctor's son to be named William and have to sneak through the elysium of youth under the opprobrious title of "the doctor's Bill."
Landlady: "Have some of this butter, Mr. Boardaire." *Mr. B.*: "No, thank you."
Landlady: "Ah, you don't love butter?" *Mr. B.*: "Well, I cannot say that I love that butter, but, my dear madam, I assure you that its age commands my sincerest respects."

Butcher: "I need a boy about your size, and will give you three dollars a week."
Applicant: "Will I have a chance to rise?"
 "Yes, I want you to be here at four o'clock every morning."
 From an after-dinner toast of a literary society: "G'n'lmen, I give you our two greatest novelists, Dackens and Thickery, I should say, Thackens and Dickery. Eh! Beg pardon—I mean Thackens and Dackery."
 No matter how high-toned you are, you cannot eat off fashion plates.
 Prize-fighters don't fight for meat, but still they fight for a stake.

Ayer's Pills and milk, rare meat, ripe fruits, and vegetables. If the Piles are painful and bleeding, apply a salve of opium and nutgalls; if itching, a drop of oil of cade will give relief.

"Having suffered for years with blind piles, and tried numerous remedies without success, I concluded, after reading your

**AFTER YEARS
OF
SUFFERING**

Almanac, to make use of Ayer's Pills as an experiment; and I am happy to state that these pills speedily reduced the inflammation and regulated the bowels. My last attack was over four months ago, and I have not been troubled since."—GAMALIEL MOORE, Cincinnati, Ohio.

Female Diseases.

AYER'S PILLS are invaluable for the relief of the most prevalent *Female Diseases*. Leucorrhœa is always relieved

and often speedily cured, simply by using them to regulate the bowels, but injections of cold water or cold tea will facilitate the cure. Suppressed and Painful Menstruation is also corrected, and when the

menses are unnaturally suppressed, or painful, in addition to the use of the Pills, the treatment should consist of hot foot-baths of mustard and water, and hot applications to the feet, hips, and bowels, while in bed. When these disorders originate in a debilitated, impoverished, or impure state of the blood, AYER'S SARSAPARILLA is needed.

As a Family Medicine

for use in emergencies, especially where there are children, AYER'S PILLS are invaluable, and should be kept always on hand. Promptitude is of the greatest importance in dealing with the disorders which these Pills are designed to relieve and cure. They are also invaluable as a spring medicine. Persons, particularly those of bilious habits, requiring a stomachic, will find their digestion wonderfully improved by taking from 1 to 2 of AYER'S PILLS, daily, after dinner, until the desired result is obtained.

"I have every confidence in recommending

Ayer's Medicines, especially Ayer's Pills and Ayer's Cherry Pectoral, and never, in any case, heard of a failure to benefit."—GEO. W. HOBSON, J. P., Burton, N. B.

"As a family medicine, I consider Ayer's Pills superior to all others. In my family I have used them for years and never known them to fail. Can commend this medicine to mothers, as being mild, pleasant in action, and yet effective."—Mrs. U. I. PUIG, San Diego, Texas.

**NEVER
FAIL**

"I have used and sold Ayer's Pills for years, and have always found them effective in cases of biliousness, constipation, etc. They are as good sellers as we have."—JOHN CAMPBELL, Campbellton, Tex.

"I have found great satisfaction in the use of Ayer's Pills, and consider them invaluable for constipation."—Mrs. P. D. HALL, 217 Genesee St., Lockport, N. Y.

"We have used Ayer's Sarsaparilla and Ayer's Pills for the last fifteen years, and find them indispensable, in our family, for colds, coughs, and innumerable other complaints."—Mrs. SYDNEY HENDRICKS, South Chicago, Ill.

"Ayer's Pills are excellent for liver complaints. I take pleasure in recommending all Ayer's medicines to my friends and the public generally."—E. M. BURROWS, Yellow Branch, Va.

Worms

are mostly found in the weak and unhealthy, and especially in scrofulous children. The symptoms of their presence are colicky pains, swelling of the abdomen, itching and picking of the nose, foul breath, grinding of the teeth in sleep, variable and capricious appetite, and irregular bowels. In the stomach, worms are the cause of pain, nausea, vomiting, and convulsions. A few doses of AYER'S PILLS will commonly expel all kinds of worms from the system. For immediate relief from pin-worms, inject salt and water. When these troublesome tenants have been removed the tone of the stomach and bowels should be improved to prevent their renewed development. This may be accomplished by the use of AYER'S SARSAPARILLA.

AYER'S PILLS are usually put up in oval wooden boxes, but, for hot and damp climates, and for export, in sealed glass vials, as represented above. Sold by dealers in medicine throughout the world. EVERY DOSE EFFECTIVE.

Teacher: "What tense is feed?" Boy: "Present tense." Teacher: "What tense is fed?" Boy: "Past tense." Teacher: "Correct. Give an example." Boy: "After the man feed the waiter he got fed." "Did you ever meet a real pirate?" asked the young lady. "Yes," replied the old naval officer, "once on the coast of Maine." "How delightful! And did he live on a sloop, painted black?" "No, he kept a summer hotel."

He: "Don't you think you could learn to love me?" She: "Learn? No, I'm sure I could not; I always hated study." Miss Blackbudd (proudly): "My grandfather was a Virginia Tylour." Newby: "Indeed! Well, to be equally candid, mine was a Jersey City butcher." Her Father (severely): "Young man, do you know the terrible responsibilities of marriage?" Her Adorer: "Oh, yes, sir; I expect to take care of you and your wife."

Ayer's Hair Vigor

Preserves the Vitality, Lustre, and Natural Color of the Hair. The Best Dressing.

No feature of personal adornment is more important or essential to comeliness than the hair. An abundant growth of well-kept, glossy hair, of natural color, adds a charm to, and handsomely frames, the plainest face. If, however, the hair fades, turns prematurely gray, or becomes thin, dead, and lustreless, features that would otherwise be fair to look upon, assume the appearance of advancing age. Hence it is that the hair, and the best means for its preservation, should demand special care and attention.

Among the causes which injuriously affect the growth and beauty of the hair, is a deficiency of the natural oil which supplies all that is necessary for its health, strength, and color. Deprived of this nourishment the hair becomes weak, dry, and brittle, breaks, splits at the ends, loses its hold in the scalp, and falls out, or is removed by the comb. The same result, and even baldness, often follows any debilitating or wasting disease, or an inflamed or unhealthy

condition of the tissues surrounding the hair-roots, causing *Dandruff*, *Scalp Sores*, *Tetter*, and *Scald Head*.

It is so easy to keep the hair in good order and condition, to preserve the health and vitality of the scalp, and to indefinitely postpone *Baldness*, *Gray*, *Thin*, and *Faded Hair*, that it would seem almost inexcusable not to use the means which are placed within the reach of everyone for the accomplishment of this purpose. While these requirements are simple and easily understood, yet they demand a high degree of chemical knowledge and practical skill to put them in tangible shape. This, however, has been most successfully accomplished in **AYER'S HAIR VIGOR**, which we offer to the public as a scientific combination of all the elements essential in a true and correct hair-dressing. The **VIGOR** affords as perfect a substitute for the oil supplied by nature, in youth and health, as modern chemistry can produce. It softens the scalp, and so prevents all dandruff and kindred troubles, and renders the

hair smooth, lustrous, and beautiful. It also provides a gentle stimulant, which, without irritating, heating, or otherwise injuriously affecting the scalp, strengthens the hair-roots, and causes the hair to grow abundantly when sickness or

age has deprived the head of its natural covering.

AYER'S HAIR VIGOR is a superior and scientific hair-dressing, made from the choicest materials afforded by the markets of the world. It may be used with benefit by any person, no matter what the condition of the hair or scalp, and its delicacy, fragrance, and elegance recommend it to all who care for comfort and their own personal appearance.

"For years, I was troubled with dandruff, large flakes, scaling and falling off, caused me great annoyance. Sometimes the itching of the scalp was almost unendurable. Prescriptions from eminent physicians, put up in my own drug-store, were tried, but failed to afford relief. At length, I used Ayer's Hair Vigor, and in one week I found it helped me. At the end of only two weeks, my head was entirely free from dandruff, and as clean as a

Ayer's Hair Vigor

child's. I heartily recommend Ayer's Hair Vigor to all who are suffering from diseases of the scalp."—EDWIN NORDSTRÖM, drugs, etc., Sacred Heart, Minn.

"My boy, eleven years old, was troubled last spring with his hair coming out, and it continued to do so until he had a bare spot on his head larger than a silver dollar. We began to use Ayer's Hair Vigor, and very soon the new hair made its appearance, and now it is impossible to tell where the bare spot was. It took less than a bottle to accomplish this, and I can cordially recommend it to anyone troubled with hair falling out."—L. S. SKELTON, Loveland, Iowa.

A BARE SPOT COVERED

"Having used Ayer's Hair Vigor for years, I find that it keeps my scalp clean and the hair in the best condition. My mother, now sixty years of age, has as fine a head of hair as when she was forty, a fact which she attributes to the use of Ayer's Hair Vigor. It thickens the growth of the hair and restores gray hair to its original color. This preparation could not be improved."—Mrs. F. E. BAKER, Galveston, Texas.

CLEANS THE SCALP

"Ayer's preparations are too well known to need any commendation from me; but I feel compelled to state, for the benefit of others, that six years ago, I lost nearly half of my hair, and what was left turned gray. After using Ayer's Hair Vigor several months, my hair began to grow again, and with the natural color restored. I recommend it to all my friends."—Mrs. E. FRANKHAUSER, box 305, Station C, Los Angeles, Cal.

RESTORES THE HAIR

"My daughter, Mary Francesco, 13 years of age, after a severe attack of gastric fever, lost all her hair. Being advised to try Ayer's Hair Vigor, she did so, and the result was so satisfactory that my daughter possesses to-day more abundant hair and more beautiful than before she had the fever."—MANOEL FRANCESCO, Villa Nova de Gaya, Portugal.

CAUSES ABUNDANT HAIR

"I can cordially indorse Ayer's Hair Vigor, as one of the best preparations for the hair. When I began using Ayer's Hair Vigor, all the front part of my head—about half of it—was bald. The use of only two bottles restored a natural growth, which still continues as in my youth. I tried several other dressings, but they all failed."—Mrs. J. C. PREUSSER, Converse, Tex.

AS IN YOUTH

restores gray hair to its original color. This preparation could not be improved."—Mrs. F. E. BAKER, Galveston, Texas.

Ayer's Ague Cure.

A poisoned atmosphere, whether it originates in the vapors which arise from decaying vegetable matter on newly ploughed lands, from the noxious mists which overhang swamps and ponds, from the "deadly sewer-gas" from polluted wells, from open cesspools,—whatever tends to poison and make unhealthful the air we breathe, is all summed up in the one word Malaria. When this poison is lodged in the system, the effect is exhibited in diseases known as FEVER and AGUE, CHILL FEVER, "MALARIA," DENGUE, or "BREAKBONE FEVER," INTERMITTENT, BILIOUS, and TYPHOID FEVERS, diseases which ordinary modes of treatment fail to reach. The specific for every variety of Malarial disorder is AYER'S AGUE CURE. It cures with certainty, and no injurious effect whatever can arise from its use. AYER'S AGUE CURE is a vegetable product; it contains no mineral, nor anything in the least harmful to the system, and the ingredients are so nicely and exactly adjusted, proportionately, as to impart the full effect of each, making it the best compound it is possible to produce. Accompanying each bottle are printed directions, to which due regard must be given, thus rendering the AGUE CURE a protection for travelers and residents in Malarial districts.

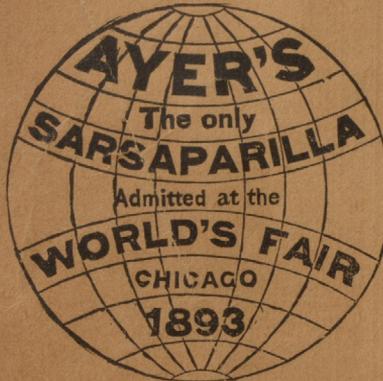

AYER'S AGUE CURE is sold by all Druggists and Dealers in Medicine.

UNCAT Almanacs

A Well-Merited Triumph

AYER'S is the only one of all the advertised Sarsaparillas which the World's-Fair officials would allow to be exhibited at the great Columbian Exposition. WHY? Because, according to

RULE 15.

"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the exposition,"

—thereby preventing the exhibition of patent medicines and secret nostrums, and recognizing Ayer's Sarsaparilla as a strictly pharmaceutical preparation. This ruling placed the seal of highest approval upon this great blood-purifier, as filling the requirements of a Standard Family

Medicine, thus indorsing all that has been said in its favor by chemists and physicians, as well as sustaining what has long been the popular verdict. As a health-restorer, a strength-builder, a nerve-tonic, and as a specific for diseases of the Stomach, Liver, Kidneys, and Bowels, AYER'S Sarsaparilla has no equal. The thousands of statements, both published and on file, from individuals who have tested the power of this remedy, and been permanently cured, proves the truth of all that is claimed for

Ayer's Sarsaparilla.

Prepared by Dr J. C. Ayer & Co. Lowell, Mass., U. S. A.

Cures others, will cure you.
