PEOPLE'S
STRATED
ALMANAC

W. N. DONNEL

NEW YORK:
CLAPP & TOWNSEND,
80 & 82 Nassau st.

ECLIPSES IN THE YEAR 1850.

There will be but two eclipses this year—both of which will be of the Sun.

I There will be an annular eclipse of the Sun Feb. 12th, in the morning, at the time of new Moon. Invisible to any part of the American continent. This eclipse will be visible in the Great Indian Ocean, and the Southern parts of Asia and Africa.

II. There will be a total eclipse of the Sun August 7th, in the afternoon, at the time of new Moon. This eclipse will not be visible in the United States, except a very small portion in Louisiana and Texas. A partial eclipse will be visible in Oregon, California, Mexico, and the northern part of South America. The total eclipse will be visible through nearly the whole width of the Pacific Ocean.

MORNING AND EVENING STARS.

Venus (♀) will be Morning Star until March 2nd; then Evening Star until December 16th; then Morning Star until September 30th, 1851. Mars (♂) will be Evening Star until November 29th; then Morning Star until 1852. Jupiter (♃) will be Morning Star until March 8th; then Evening Star until September 26th; then Morning Star until April 8th, 1851. Saturn (♄) will be Evening Star until March 31st; then Morning Star until October 10th; then Evening Star to April 14th, 1851.

CONSUMPTION CURED!
Cleanse and Strengthen.

CONSUMPTION CAN BE CURED.

Bronchitis, Consumption, Liver Complaints, Colds, Catarrh, Asthma, Spitting of Blood, Soreness in the Chest, Hetic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

ALMOST A MIRACLE.

Probably there never was a remedy that has been so successful in desperate cases of Consumption as this. It cleanses and strengthens the system, and appears to heal the ulcers on the lungs, and the patient gradually regain their usual health and strength.

DR. TOWNSEND had the pleasure of calling on the gentleman who is referred to in the following certificate, a few days since, at Messrs. Smith & Hawley's, in Albany, and found him at his work, enjoying good health. This, probably, is the most remarkable instance of a recovery from Consumption on record. The certificate, it will be perceived, is dated over three years since, and the gentleman is now alive and well. Every word of this statement is a fact, and proves beyond contradiction that Consumption has and can be cured:

DR. TOWNSEND—I make the following statement in order to express my gratitude to you and recommend your Sarsaparilla, and your Compound Extract of Sarsaparilla, to those who are so unfortunate as to have Lung Complaints or Consumption.

While residing in the South several years ago, I had a long and severe sickness, which, with subsequent exposure, very materially injured my constitution—I being able, however, much of the time, to work, although my lungs were affected, and I had a cough. For the last year I grew much worse and the last winter I caught a severe cold. The pain in my breast, distress in breathing and coughing very much increased. I took a number of popular remedies for Consumption, but they failed to relieve me. At last I was confined to my room, and was so bad with the Consumption that I did not expect to remain here long. I sent for

Marcus D. Moore, who resides at the corner of Lydius and Grand streets, (who will confirm this statement,) and made a disposition of my property. A few days after this a friend sent you to see me; you ordered a bottle of your Extract of Sarsaparilla. I took it according to your directions, and immediately I felt relieved. My pains gradually left me—I soon breathed freely—my hacking cough subsided—I raised easily, and slept soundly—and to my astonishment and delight, when I had taken the contents of the bottle, I was able, as you well remember, to walk from Ferry to Beaver street, to obtain more. I have continued to take it, and am now about my business, although it is not more than two months since I commenced taking your medicine, and am thankful to the Lord that I was induced to try them.

SAMUEL H. STUART,
26 Ferry-street.

* Albany, May 16th, 1844.

TESTIMONY OF DR. COLWELL, OF OSWEGO, N. Y.

The following certificate is selected from a large number lately received. It was kindly forwarded to us by Dr. Colwell, a respectable physician of extensive practice at Oswego, New York. He writes that the Sarsaparilla has performed many cures, and the better it is known, the more it is appreciated. His letter can be seen at the office, if any wish to see it.

East Oswego, Dec. 10, 1847.

DR. COLWELL—Dear Sir: This is to certify that I have been sick a number of years with the Consumption, and that the past summer I was so low that my friends thought I could not live but a very short time, and by your advice, thinking there was yet a hope left, I commenced taking Dr. S. P. Townsend's Sarsaparilla, which soon gave me relief. I grew better fast while taking the Sarsaparilla, and am now able to be about the house and do some work. I owe my recovery, thus far, to the above medicine, and believed that it saved me from the grave. If you choose, you may forward this statement to Dr. S. P. Townsend.

MRS. MARGARET ARMSTRONG.

We, the undersigned, are acquainted with Mrs. Armstrong, and know the above to be true.

SARAH JANE HENDERSON,
ELIZABETH BARTHOLOMEW.

ELIZABETH HADLEY.
MARY COON.

SWINDLERS.

Druggists or others that sell Sarsaparilla for the genuine and original Dr. Townsend's Sarsaparilla, that is not signed by S. P. Townsend, commits a fraud, and swindles the customers. Men that would be guilty of such an act, would commit any other fraud—and no Druggist of common intelligence but knows that ours is the only genuine.

NOTICE OF REMOVAL.

Dr. S. P. Townsend's Principal New York Office,
has been Removed from 126 Fulton street to
82 NASSAU STREET,

in the Building formerly occupied by the South Baptist Church, between Fulton and John Sts; the old office being too small for our business and the accommodation of our customers. The Public are invited to call and see our new Office, (not to purchase Sarsaparilla,) which is one of the most magnificent and beautiful Rooms in the United States. The ladies are particularly requested to examine the decorations of the walls; we will supply them with Cards of the Artists if they choose.

Strangers, and especially Country Merchants who wish to make appointments with their friends, can do so at our office, and will be furnished with Desks, Ink and Paper, gratis, with pleasure.

A SHORT SKETCH OF

DR. S. P. TOWNSEND'S LIFE, ESTABLISHMENT, AND BUSINESS.

The following curious history may be relied upon as true in every particular. It will appear, we are aware, incredible—even to us it seems impossible; never in the history of the world, and especially in the history of any Medicine, is there a precedent. Dr. S. P. Townsend—and we write S. P., as others have attempted to steal the reputation of our medicine—from infancy dreamed of a great Remedy to cure the Ills of Life. He studied medicine without expecting that he would ever be the professor of any method; first, Olopathy, Reformed Practice, then Homopathy and Hidropathy, visited Medical Schools and attended Medical Lectures, without intending to be a Doctor; marked the character and development of disease and the pestilences of the South, in the Prairies of the far West, and on the Marshes of Indiana, Ohio, and Michigan. In all of our observations we found that the remedies for curing disease were of little or no benefit, and especially in that great class of female complaints—Debility and Decay, and for weak young children, thousands and thousands of which were wasting away in the cabins of the West, on the plantations of the South, and on the farms of the middle States, as well as in our towns and cities. He discovered a great and fatal error which filled the land and hurried thousands to untimely graves. This was the indiscriminate use of physic in the shape of Pills. The fierce attack of several Rich Energetic Pill Manufacturers upon the character and profession of Physicians through the Press and by the circulation of Pamphlets, had almost ruined the faculty, and quite the constitution of hundreds of thousands of foolish people who were constantly taking physic to regain their strength, and neglecting to call a Physician until it was too late. To counteract this and produce a remedy for the Poor—one that would be safe under any circumstances—one that would be a Physician and friend to the lonely sufferer in the cabins in the West—one that would produce, sustain, and create life, was his great object and aim, being convinced that disease was the result of a defective circulation either in quantity or quality, and as food produced Life—or new Blood—and being aware that the gastric juice or saliva secreted by the glands decomposed or digested the food, and thus assisted nature to create the fluids of the body; he supposed if he could compound a liquid that would do this, and thus enter into the circulation one that would act as a diffusive stimulant to the circulation, and strengthen the stomach, bowels, and the Urinary organs without disturbing or debilitating the system, he would be able to eradicate and prevent disease. After five years experimenting, he succeeded in compounding a liquid, which more nearly resembles the gastric juice than any other ever discovered, and far more than he at first anticipated, giving robust vigor to the sick and diseased; being satisfied by actual experiment that he could produce the Liquor of Life.

In his own case it produced the greatest change, having been prostrated by the Billious and Intermittent Fever in the West, and being considered a consumptive, at which time he was reduced in weight to 120 pounds, and being restored to bodily and mental vigor and increased weight to over 200, he came to the city of New York five years since unheralded and unknown. Previously, however, his medicine had become popular in Albany, Troy, Utica, &c., and was used then as now, in the first families, sick or well, as a preventive, as well as a remedy for disease. He took an expensive store next door to the Daily Sun office and opposite to the Herald establishment. It was looked upon by the Doctors and Medical men as a wild scheme. A few Bottles were disposed of, they produced cures and the medicine friends, which quickly multiplied by thousands. The sale increased rapidly; a sensation was created not only in the City but throughout the Union that reached the Canadas, the West Indies, and South America, and even Europe; from selling a few dollars worth, we have frequently sold several thousand dollars worth in a single day. Its progress has been rapid beyond example, having gained a reputation nearly over one half of the globe; with very little effort on our part, the sale has been large in foreign countries and has brought returns, of at least, \$100,000 in specie into this country, which has gone into the hands of editors, printers, artizans, merchants, &c., thus proving a national blessing; we have expended within the last five years \$300,000 for advertising. We have paid the New York Daily Sun \$12,000 for advertising within the last four years; this, undoubtedly, is one cause of its great sale. But its extraordinary powers in curing disease, its immediate and in some instances almost miraculous effects is the prime cause of its popularity. One Bottle of this medicine introduced into a store in any county without advertising, or extra effort on the

part of the salesmen, will create an excitement in the town, and has sometimes in a whole city or county, thus creating a demand. We have known several cases where a poor and affectionate Irish girl, after being restored to health, purchased six bottles, sent it to her parents in Ireland, and in a few months we would receive orders from the neighborhood for several dozen or an agency.

And our whole expense of advertising in 1849, will not fall short of \$125,000. We issue two editions of Circulars each year; also an edition of several millions of Almanacks for gratuitous distribution. These Almanacks contain besides our advertisements, interesting and valuable information. Within the last five years we have distributed more than 20,000,000 pages in favor of Peace and against War; over 15,000,000 in favor of Temperance and Total Abstinence; and the last year we printed 4,000,000 of Professor Nott's Short Sermons on the effects of Intemperance. This we believe is as many if not more than has been distributed by all the Temperance and Peace Societies during the same time. Thus the philanthropist will see our business is made a vast and powerful means of doing good. These Almanacks visit, and are silent preachers in the proudest palaces of our city's, and the smallest cabin in the forests, in the beautiful prairies of the West, and on the mountains and in the valleys "away down East." In the villages of Canada as well as in South America and the isles of the sea, they preach in several languages, as they are translated in French, Spanish and German.

We have put up at our factory in Albany the last season on an average about 4000 Bottles per day, or one million and a quarter per year; we keep constantly three Napier steam printing presses which use up about \$100,000 worth of white paper; we employ in Albany and New York about 100 girls; the most extensive glass factory in Europe or America cannot make as many bottles as we require; we employ directly and indirectly a great number of men and boys in collecting roots, making glass, paper, preparing the ingredients, and in making the medicine, corks, sealing wax, packing Bottles, &c., &c.; our packing boxes cost us no less than \$50 per day. We give employment, to an incredible number of persons. In the large cities of New York, Boston, Philadelphia, Baltimore, and New Orleans, we run express waggons expressly to deliver the article so great is the demand for it at these cities. In our factory at Albany, we have a powerful steam engine which grinds the Roots and prepares the Sarsaparilla; no other proprietor of a medicine has the advantage of steam power to prepare the medicine; we use more of the Honduras Sarsaparilla and Yellow Dock, and other articles with which our medicine is composed, than all the other manufacturers of Sarsaparilla in the world combined. The management of this factory is under the control of Ruel Clapp, Esquire, of Albany, who is a joint partner of the concern, and is a man of wealth and great enterprize. The *vats* in which the Sarsaparilla is prepared, the machinery and steam presses, &c., of the establishment is a great curiosity; strangers visiting Albany will find it well worth visiting. Our Sales Room at 82 Nassau street, New York, a few doors south of the Sun and Herald office, is one of the finest Saloons and Sales Rooms in the United States; the decorations of paintings and statuary, &c., cost over \$5000. In one part of the Almanack this Room is more particularly described in extracts taken from the papers. It was visited in the first three days by no less than 20,000 persons. Ladies and gentlemen visiting New York are invited to call and examine it, we shall always be happy to see them.

This is but a very short and imperfect sketch of our establishment and partly of our medicine—no other medicine ever created so great a sensation, or commanded so great a sale, or was half so successful in arresting and curing diseases. Thousands of the best Physicians have acknowledged its great powers and prescribed it, and thousands of Clergymen recommend it—and in some instances, in Canada and the West Indies in prevailing sickness from the pulpit. A medicine so popular as this, of course, would be counterfeited and imitated, &c., &c. Our opponents have at one time reported Dr. S. P. Townsend as dead; at another, as having given up business; in other places, that he was no Physician, &c., &c. A conspiracy of five or six unprincipled men in New York, have hired an old street pedlar of the name of Jacob Townsend, and are endeavoring to make the people believe that theirs is the original.

10,000 Cases of General Debility and want of Nervous Energy.

It invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening towards that fatal disease—Consumption, can be entirely restored by the use of this pleasant remedy.—This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

as it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extra ordinary degree.

LET IT BE UNDERSTOOD

DR. S. P. TOWNSEND does not recommend his Sarsaparilla for Dysentery, the Cholera Morbus, or Diarrhœa, at the present time. If a person has either, it is safest to call a physician, as they may require a more active remedy. This medicine has cured thousands of cases of the above diseases, and is excellent for them, but we would much rather never sell another Bottle, than any should delay calling medical aid until it was too late in consequence of trusting to our remedy, which is always mild and gentle in its operations and might not prove sufficiently active for the present epidemic.

NOTICE TO THE PUBLIC.
RASCALITY AND DECEPTION!
LET EVERY-ONE READ THIS CAREFULLY!!

There is a Sarsaparilla for sale called old Dr. Jacob Townsend's Sarsaparilla. It is advertised as the original, &c. This is a notorious falsehood. Dr. Townsend has expended over \$300,000 the last eight years in advertising his Sarsaparilla, which has obtained a character and reputation throughout the United States, and a greater part of the world—the sale being enormous.

This excited the cupidity of certain unprincipled men, and an old man who has been engaged in peddling cheap publications about the streets of New York, for a number of years. This man's name is Jacob Townsend. He applied to a number of men to get employment, or to sell the use of his name, to put up Dr. Townsend's Sarsaparilla, stating the large sales and sums we had expended in advertising, as an inducement to embark into the business. Among others, he applied to Charles Watrous, Esq., Editor of the Jamaica Farmer, who scorned such a proposition. Mr. H. Q. ANDREWS, formerly one of the Proprietors of McALLISTER'S OINTMENT, RALPH POMEROY, formerly Cashier and Financier of the broken Shin Plaster Bank at Bellville, New Jersey, JOHN SKILLMAN, and WM. THOMPSON, under the name of THOMPSON, SKILLMAN & Co., have employed this old man, and agreed, as we understand, to pay him seven dollars per week for the use of his name. These men have been insulting and libelling us in all possible forms, in hopes we would notice them, and bring them and their deception into market. Let the public decide upon the course of these *honest and honorable men*.

PROOF!! PROOF!!

Here is proof conclusive that Dr. S. P. Townsend's Sarsaparilla is the original. The following is from some of the most influential Papers in this State.

From the Albany Evening Atlas.

There probably has never been so popular a remedy, or patent medicine, as Dr. Townsend's Sarsaparilla, which was originally, and continues to be manufactured in this city, at first by the Doctor himself, and afterwards for several years, and to the present time by Clapp & Townsend, the present proprietors. Since the partnership was formed the Doctor has resided in New York, where he keeps a store, and attends to the business that accumulates at that point. The manufactory is in this city, and is conducted by the junior partner, Mr. Clapp—here all the medicine is manufactured.

Few of our citizens have any idea of the amount of this medicine that is manufactured and sold. Besides the sales in this country, it is shipped to the Canadas, West India Islands, South America, and even to Europe, in considerable quantities. At the manufactory they employ a steam engine, besides a large number of men, women and girls, in the preparation of the medicine, making boxes, printing, &c. &c., and turn out, ready for shipment, over 400 dozen per day, or nearly 5000 bottles. This is an enormous quantity.

The great sale the medicine has acquired, has induced a number of men to get up imitations, and there is at the present time, other medicines for sale, that are called "Dr. Townsend's Sarsaparilla." One in particular, started a short time ago in New York, is called "Old Dr. Jacob Townsend's Sarsaparilla," and apparently with a view, by dint of advertising and the usual agencies resorted to in such efforts, to appropriate the name of Dr. S. P. Townsend's great remedy, and thus gain all the advantage resulting from the popularity of the name, which he has acquired for it, by years of patient and expensive labors. Dr. S. P. Townsend, formerly of this city, as is well known here, is the inventor and original proprietor of the medicine known as "Dr. Townsend's Sarsaparilla," and we think those persons who are attempting to sell their article as the original, should be exposed.

From the New York Daily Sun.

DR. TOWNSEND'S extraordinary advertisement, which occupies an entire page of the SUN, will not escape notice. Dr. S. P. Townsend, who is the original proprietor of Dr. Townsend's Sarsaparilla, and whose office is next door to ours, where he has been for several years, is driving an immense business. He receives no less than four hundred dozen of Sarsaparilla per day, and even this enormous quantity does not supply the demand. No medicine ever gained so great a popularity as his preparation of the Sarsaparilla. His edition of Almanacs for 1849 cost \$22,000, and he has paid the New York Sun for advertising in the last four years, over \$10,000, and he acknowledges that it is the cheapest advertising he has had done. This medicine is exported to the Canadas, West Indies, South America and Europe in considerable quantities, and is coming into general use in those countries, as well as here.

From the New York Tribune.

We published an advertisement inadvertently some time since, that did injustice to Dr. S. P. Townsend, who is the original proprietor of the preparation of Sarsaparilla, known as Dr. Townsend's. Other parties have within the past few months engaged or connected themselves with a man by the name of Townsend, who puts up a medicine, and calls it by the same name. This medicine was advertised in the Tribune as the original, &c. This advertisement also contained matter derogatory to the character of Dr. S. P. Townsend, and that of his medicine. We regret it appeared, and in justice to the Dr. make this explanation.

Dr. S. P. Townsend, wishes the Public to understand that he is no connection of old Jacob Townsend, whatever, and never saw him but once that he is aware of, and that was on an occasion of his calling at his house to sell some pamphlets and cheap publications.

Three Hundred Thousand Dollars.

Dr. S. P. Townsend has expended within the last 10 years over \$300,000 in advertising and bringing his Sarsaparilla before the Public. (He has paid the New York Sun, alone, over \$12,000) A parcel of speculators and unprincipled men by the name of John Q. Andrews, Ralph Pomeroy, John Thompson, and John Skillman, have hired an old street Pedlar, by the name of Jacob Townsend, as he bore the same name, and are putting up in a little dirty office in Nassau street, a stuff they call the genuine and original Sarsaparilla of Dr. Townsend, and have led many ignorant people to believe their false stories about its being genuine and the original.

THEY PUBLISH

That Dr. S. P. Townsend was once employed on Canals, and endeavor to make it appear that he was a common Canaler, &c. This is nearer correct than most of their charges. The truth is, we were employed many years since in a corps of Engineers on the Morris Canal, under Captain Beach, with Arnold Mason, Esq., Provost, and a son of Col Murray of this city, and on the New Jersey Rail Road, under Col. Sykes, with Mr. Green and others—some of the most accomplished scholars and gentlemen this country ever produced, and we are proud of our association with these gentlemen and of their friendship to this day. This with being connected with a Corps of Engineers on the Central Canal in Indiana, soon after, is the extent of his experience in digging canals.

THOMPSON, SKILLMAN & Co.,

The men who hired old Jacob Townsend to use his name to libel Dr. S. P. Townsend, publish a card stating among other gross libels, that we endeavored to purchase old Jacob's Recipe, and offered \$1000 and other sums for it, this like their stories is false. We consider it worthless, and would not give sixpence for all the knowledge they have.

DR. S. P. TOWNSEND NO PHYSICIAN.

These men also publish that Dr. S. P. Townsend is no physician; this, like all other statements are false. Dr. S. P. Townsend attended two of the best Medical Schools in the country, has studied the different theories of medicine and practised for the last fifteen years; has experimented several years, and expended large sums of money in bringing his medicine to perfection.

FALSE REPORTS.

Our opponents have published in the papers that Dr. S. P. Townsend was dead—they send to their agents about the country, who report that we have given up business, &c. &c. The public should be on their guard, and not be deceived by these unprincipled men.

STREET PEDLAR.

Old Jacob Townsend who is hired by Thompson, Skillman & Co., and use his name, is no physician, knows little or nothing of medicine, has been a street pedlar of cheap publications until within the last few months, and it is all humbug about his being a chemist, &c.

Druggists.

In our opinion, any Druggist or shop keeper who would sell the spurious Sarsaparilla, because they can make a greater profit by it than they can by selling the genuine, and sell it for the original and genuine Dr. Townsend's Sarsaparilla, and deceive their customers, would commit any fraud for money. Such men have no honor and should not be trusted.

Old Jacob Townsend.

Some people who are not well informed, and have not read the papers, and not seen our advertisements, have been led to suppose, that because these men advertise their stuff as "old Jacob Townsend's," that it must, of course be the original. It is less than one year since they commenced to make their medicine. Ours has been in the market over ten years.

FALSE CERTIFICATES.

One of the most common and despicable practices of deception practised by quacks, is advertising fictitious Certificates pretending their medicine has performed great cures; sometimes they get their servants to sign them, and others sign them with fictitious names, without the street or number, &c. The men who counterfeit our medicine do this—men that will counterfeit will steal, and resort to any other bad practices. People had better have nothing to do with them.

CLERGYMEN AND PHYSICIANS,

As well as thousands of others in all parts of the United States are continually sending certificates and informing us of the benefits derived from using Dr. S. P. Townsend's Sarsaparilla. We can only publish a few that we receive in this vicinity. The following is a specimen.—

BAPTIST MINISTERS.

We publish below the certificates of three highly respectable clergymen of the Baptist Denomination, which we think must at least convince the members of that church that Dr. S. P. Townsend's Sarsaparilla is an extraordinary remedy.

Dr. S. P. TOWNSEND—Dear Sir: Having for some time past been afflicted with a Pulmonary affection of my lungs, and a continued pain in my side, owing to evening exposure in travelling, after preaching. Finding my disease to increase, with much difficulty of breathing, and other alarming symptoms, I was advised by a clergyman, a friend of mine, to try your celebrated Sarsaparilla. I did so, and after taking two or three bottles, I found myself relieved. My appetite has been restored, I find myself much stronger, and hope very soon to resume my usual duties. I have been so greatly benefited by your excellent medicine, I feel it my duty to make known the facts for the benefit of others who may be laboring under the same difficulties that I have been for some time.

Respectfully yours,
SAMUEL WHITE,
Pastor of Baptist Church, Staten Island.

THE REV. JOHN SEGER

Of Jersey City, an old and highly respectable clergyman of the Baptist Denomination, handed in the following certificate at Dr. S. P. Townsend's office. It speaks for itself.

JULY 11, 1847.

Dr. S. P. TOWNSEND—Dear Sir: I am constrained to give you a statement of the benefit I derived from using your Sarsaparilla, believing by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much, that it was with much difficulty for me to walk or keep about. I also had a tetter, which covered the most part of my head—which was extremely troublesome and sore; it got to be almost a scab. I used quite a number of remedies for both the complaints, but received little or no benefit, until I took your Sarsaparilla, which, through the kindness of Providence has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now 60 years of age. I believe it to be an invaluable medicine, and recommend it to my numerous acquaintances, which is very large, as I have been a minister a great many years. I hope this hasty sketch may be as much benefit to you as your medicine has to me.

JOHN SEGER, Jersey City.

METHODIST CLERGYMAN.

The following was sent to our Agent in Rahway by the Rev. J. O. TUNISON, of the Methodist Episcopal Church—one of the most learned and respected in the connexion—and is another evidence of the wonderful effects of Dr. S. P. Townsend's Sarsaparilla on the system.

RAHWAY, August 3d, 1847.

FRIEND PEARSON—Having for some time past, as you are aware, experienced great general debility of my system, attended with constant and alarming irritation of the throat and lungs, I was, at your instance, and in consequence of having read Captain McLean's decided testimony in its behalf, induced to try Dr. S. P. Townsend's far-famed Sarsaparilla. I tried it, I confess, more in the hope than in the confidence of its proving efficacious; but I am bound in candor now to acknowledge that I had not tried it long before I began to experience its salutary effects; and I may now say with Captain McLean, "that I would not be without it on any consideration." It has done me more good than any previous remedy I have tried, and if this statement is deemed by you of any importance, you have my full consent to make it public.

J. O. TUNISON.

THE BETHEL SHIP.

Dr. S. P. TOWNSEND has received a great number of Certificates from Clergymen, as well as thousands of others, fully proving that his is the most valuable medicine of the age. The following from the Pastor of the Bethel Ship was received this week:

NEW YORK, September 29, 1843.

Dr. S. P. TOWNSEND—Dear Sir: I consider it my duty, to let you know that I received great benefit from the use of two bottles of your Sarsaparilla. Early in the Spring I suffered from dizziness in my head, and general prostration, also appearance of scrofulous affection; I began to improve immediately upon using your valuable medicine, for which I give God the glory.

Yours, &c.,
O. G. HEDSTROM, No. 4 Carlisle-st., N. Y.
Pastor of the Bethel Ship, North River.

CATHOLIC PRIEST.

The following is the testimony of one of the most honored and respected Catholic priests in Canada. His letter was addressed to Dr. Picault, a respectable physician in Montreal, who kindly forwarded it to Dr. S. P. Townsend—

MONTREAL, October 20, 1847.

DR. PICAULT—Dear Sir: Louis Patenaude has given me the enclosed letter and desired me to forward the same to you—he has to my knowledge been afflicted with diseased hands and arms for two years, and has been unable to do any labor, but happily has been completely and fully cured by the use of Dr. S. P. Townsend's Sarsaparilla; he wishes me to say to you, that you are at liberty to publish his letter, if you or Dr. S. P. Townsend choose to do so. It is a remarkable case and well worthy of being recorded.

Yours respectfully,

C. A. PRIMAUX, Curate of Varennes.

MONTREAL, October 22, 1847.

DR. PICAULT—Dear Sir: I consider it a duty which I owe to the public to publish a statement of the astonishing results which I have experienced in using Dr. S. P. Townsend's Sarsaparilla. It is over two years since I was taken in the left shoulder with violent rheumatic pains—so severe that I was miserable night and day; it attacked me in both hands and arms, which were terribly swollen and extended to my neck. I used a great number of medicines, but was not relieved until I used Dr. S. P. Townsend's inappreciable remedy, which began to relieve me in eight days after I commenced with it, and was soon entirely relieved. All the world should know of its virtues, and I requested Father Primaux to send this letter.

Yours, &c.

LOUIS PATENAUDE.

FEVER AND AGUE.

Dr. S. P. Townsend's Sarsaparilla is unequalled in cases of the Chills and Fever and Ague. The following letter is only one of hundreds that we have received from the South and West of like character.

Oswego, Michigan, October 22, 1847.

DR. S. P. TOWNSEND: Dear Sir—I purchased for my wife two bottles of Sarsaparilla of your Agent Mr. McNair, of Kalamazoo, to try it for the Fever and Ague. Before I had finished the first bottle it appeared to warm the blood, and every other day, when the Chills and Fever appeared, they were less violent; and before she had finished the bottle, she was entirely relieved, and she was much better than she had been before she took the Ague. A lady that had been very sick with the Chills and Fever, but had broke them with Quinine, and was left in a very weak and distressing state, and troubled exceedingly with the Ague Cake, seeing the effect that it had on my wife, she sent and procured a few bottles, and it restored her in a few weeks to complete health.

Your Sarsaparilla is, without doubt, unequalled in diseases incident to the West, and if you think that this communication will be of use, you are at liberty to use it as you choose.

Yours, respectfully,

CHARLES H. SWAIN.

Two Children Saved.

Very few families indeed—in fact we have not heard of one that used Dr. S. P. Townsend's Sarsaparilla in time, lost any children the past summer, while those that did not, sickened and died. The certificate we publish below is conclusive evidence of its value, and another instance of its saving the lives of children.

MYRTLE AVENUE, Brooklyn, Sept. 15, 1847.

DR. S. P. TOWNSEND—Dear Sir: I had two children cured by your Sarsaparilla of the summer complaint and dysentery; one was fifteen months old, and the other three years. They were very much reduced and we expected they would die; they were given up by two respectable physicians. When the Doctor informed us that we must lose them, we resolved to try your Sarsaparilla, which we had heard so much of, but had little confidence in, there being so much stuff advertised that

is worthless, and we are very thankful that we did, for it undoubtedly saved the lives of both. I write this that others may be induced to use it.

Yours respectfully,

JOHN WILSON, Jr.

ADVICE TO SAILORS.

Sailors who are about shipping for long voyages, or to Southern ports—and those who have disease—should not neglect to ship half a dozen bottles of Dr. S. P. Townsend's Sarsaparilla before sailing, as it will prevent them from taking the Scurvy or the Southern Fevers, and cure such as have disease and save them from misery and death.

THE LIVES OF THOUSANDS OF SAILORS have been saved by the use of Dr. S. P. Townsend's Sarsaparilla; no Sailor or Ship should leave port, without having a supply on board.

We have received hundreds of certificates from Captains and Officers of Vessels and Sailors; we can publish but a few as our space is limited.

The Captain of the Bark PRINCE ALBERT—SHIP FEVER, DYSENTERY AND DIARRHŒA.—The Captain of the Ship Prince Albert, wrote to our Agent in Quebec, as follows:—The box of Sarsaparilla of 2 dozen quart bottles of Dr. S. P. Townsend's Sarsaparilla that I purchased of you, I found to be invaluable,—it undoubtedly saved the lives of a number of the Passengers on our voyage to this port; we were out seventy-four days, and before we arrived, the Ship Fever and Dysentery was very severe among them—while the medicine lasted we controlled the cases of both diseases without trouble—it entirely cured several bad cases of each disease; but unfortunately we did not have a supply, and afterwards others sickened and died. I wish you would send on board one gross. I think every vessel should take a supply.

THE MATE OF THE SHIP ELIZA ANN,

Sent Dr. S. P. Townsend the following letter—we have received a number of a similar character.

NEW YORK, May 3, 1848.

Dr. S. P. TOWNSEND—Dear Sir: I take the liberty of addressing you although a stranger, in reference to your medicine. On our last voyage to the Pacific, several of our crew was very sick with the Scurvy and Diarrhœa, and very much debilitated—we had a lot of your Sarsaparilla on board, and gave it to the men, and to our great satisfaction we found it restored them all in a few days—I had several severe attacks of the Rheumatism brought on by exposure, my shoulders pained me terribly, and my arms was much swollen, I took one bottle and a half and it eradicated the disease and kept me in perfect health. Every Sailor and especially every Ship should have a supply.

Yours, &c.

ELIAS S. ALLEN.

FROM THE ARMY.

Mr. J. Wright & Co., No. 151 Chartres street, New Orleans, Agents for Dr. S. P. Townsend's Sarsaparilla, sent us the following letter, which proves that Dr. S. P. Townsend's Sarsaparilla is the best remedy ever discovered for Southern Fevers and Southern Debility.

NEW ORLEANS, August 1, 1848.

Dr. S. P. TOWNSEND—Dear Sir: You will please ship us by the first vessel 200 Boxes (400 dozen) of your Sarsaparilla; the sales are increasing and you will have to increase our supplies. We have sold considerable to the Army in Mexico, and to go the Island of Cuba. The officers of the Army highly approve of it, and it has been sold in Mexico as high as Sixty dollars per dozen, so much is it valued for debility resulting from Fevers and Diarrhœa. The intense heat during the summer months is extremely relaxing, but all those who use your Sarsaparilla say that it braces them up. It is effecting extraordinary cures among females and children, and in short among all classes and conditions of society, it is becoming universal and gives great satisfaction—send us a large shipment.

Respectfully yours,

J. WRIGHT & CO.

DYSPEPSIA.

BANK DEPARTMENT, Albany, May 16, 1847.

Dr. S. P. TOWNSEND—Sir: I have been afflicted for several years with the Dyspepsia in its worst forms, attended with sourness of stomach, loss of appetite, extreme heartburns, and a great aversion to all kinds of food, and for weeks (what I could eat) I have been unable to retain but a small portion on my stomach. I tried the usual remedies, but they had but little or no effect in removing the complaint. I was induced about two months since, to try your Extract of Sarsaparilla, and I must say with little confidence; but after using nearly two bottles, I found my appetite restored, and the heartburn entirely removed; and I would earnestly recommend the use of it to those who have been afflicted as I have been.

Yours, &c.,

W. W. VAN ZANT.

SORE EYES.

The following certificate was received this week, and is only one of the thousands of those of similar cases we have received after all other remedies have failed, that S. P. Townsend's Sarsaparilla effects a cure. Both cases are vouched for by Methodist Ministers:

Sympathy for the afflicted prompts me to appear with my name before the public. I have been affected for about four years with various diseases, such as Rheumatism, Headache, Sore Eyes, Swelled Face, and other affections. During the time, I was attended by the best physicians, on the principal of Allopathism, Thompsonianism, and Homœopatheism, but all to no purpose. There was no Balm found for me until about one year since, at which time I was so much reduced in flesh and strength, that I was obliged to use crutches by-times, and could do nothing more. Thank God, at that time our druggist, Mr. J. Seebold of this place received Dr. Townsend's Sarsaparilla, of which I got four bottles, which have made me a healthy man. In a few weeks after using it my health was so much improved that I was able to attend to my business, and am so ever since, have been out through wet and dry, and through cold and heat, and feel perfectly restored. Similar cases to the above will know what to do.

DANIEL LEMMON.

New Berlin, Oct. 5, 1848.

As to the moral character of Mr. Daniel Lemmon, he has been an acceptable member of the Methodist Episcopal Church in New Berlin, Pa.

J. S. LEE, Pastor.

TESTIMONY OF A LADY.

CURE OF CRAMPS AND BLOTCHES.

The following singular case of cure of the Rheumatism and Cramps is highly interesting, and is only one of thousands of similar instances of the wonderful effect of Dr. S. P. Townsend's Sarsaparilla:

New York, Nov. 6, 1847.

DR. S. P. TOWNSEND: Dear Sir—This is to certify that I have been afflicted for the last fifteen years with Chronic Rheumatism in my head, limbs and joints—my blood has been apparently stagnant with large swellings and lumps on my legs, and blotches on my face; but I am happy that through the blessing of Providence, I have been restored by the use of your Sarsaparilla to health and strength. If you choose to publish this for the benefit of the afflicted, you are at liberty to do so.

Yours, &c.,

CATHARINE SHEWRY.
180 Prince-st., near Thompson.

ALMOST CRAZY.

Dr. S. P. Townsend's Sarsaparilla has, and is daily curing the most obstinate cases of disease, and especially in diseases of the blood. The following is a case reported this week.

ERYSIPELAS.

Sing Sing, September 17.

DR. TOWNSEND: Dear Sir—Your Sarsaparilla has cured me of the Erysipelas of the worst kind. It came out all over my body, and at times I was almost crazy. It was so bad I took the prescriptions of two of our best physicians, but they did me but little or no good, but your medicine has entirely cured me, for which I am very thankful. Every body that is troubled with this complaint should use it.

Yours, truly,

JANE DOWNING

SICK HEADACHE.

Dr. S. P. Townsend's Sarsaparilla cleanses the stomach and promotes digestion. This is a certain remedy for this distressing complaint.

TO DR. TOWNSEND: Dear Sir—I am constrained to acknowledge to you, in justice to yourself, the great benefit I have experienced in using your Sarsaparilla. I have been troubled with a sick headache, for a great portion of the last ten years of my life. I would be attacked so severely at times that it would seem as though I should go crazy. The advice of a friend induced me to buy a bottle of the Compound Extract of Sarsaparilla. I was surprised at its effects upon me; and though I did not place much reliance upon it at first, I have now become completely cured by using it. This I would recommend to the use of all afflicted with the same complaint. You can dispose of this communication as you see fit.

Your most obedient servant,

New York, January 17th, 1849.

JOHN WILLIAMS.

FUN! FUN!! FUN!!

"Vat you makes dere?" hastily inquired a Dutchman of his daughter, who was being kissed by her sweetheart very clamorously. "Oh, not much—just courting a little—dat's all." "Oho! dat's all, eh? py tam, I taught you vas vighting."

"What's your eggs a dozen, marm?" said an old skinflint one day to a market woman. "Twenty cents, sir." "Ain't you rather high in your price? A shilling is enough for eggs." "Perhaps such an old hunk as you are may think so; but, if I was a hen, I wouldn't lay eggs for a cent a piece, I know."

"Ah! John, you won't have me much longer; I shall never leave this alive!" "Please theeself, Betty, and thee'll please me," returned John with great equanimity. "I have been a good wife to you, John," persisted the dying woman. "Midlin', Betty, midlin'," responded the matter-of-fact husband.

What lane do the ladies like best to walk in? *Mouseline de Laine.*

Since the gold excitement commenced, up to the 17th instant, there have left the different ports in the United States for San Francisco, &c., three hundred and nine vessels—two hundred and twenty-six of which intended proceeding round the Horn, and through the Straits of Magellan; about fifty for Chagres, and the remainder to Vera Cruz, Brazos, &c. These vessels took out nearly twenty thousand passengers.

We once heard of a preacher who was called upon by some of his congregation to pray for rain, of which the crops stood greatly in need. His reply was that he would as his congregation desired it, but he was sure it would not rain until the wind shifted.

"Bill," said Tom Williams, on Monday last, "what desperate cold weather we have! Why, they have got a *Mahometer* down to Jones', that tells how cold 'tis; and this morning, it was five degrees colder than nothing."

The fastidious editor of the *Yankee Blade* gives the following among other "hints on matrimony:—"Don't be surprised if, after you have sailed smoothly eight or ten months, on the voyage of matrimony, you are suddenly overtaken by *squalls*!

An Irishman was asked how his mother did? "My jewel!" said he, "I am much obliged to you for your enquiries, but I never had a mother." "How is that?" said his friend. "Why, don't you know," said Paddy, "that I am the son of my aunt?"

A PERTINENT REPLY.—A young buck belonging to the independent drink-or-let-it-alone—just-as-I-please-without-signing-the-pledge-society, *pping* the question to a pretty girl a short time since, who brought a still deeper blush to his *always* blushing countenance, by replying that as she had signed the pledge to neither drink nor traffic in ardent spirits, she did not feel at liberty to *traffice* herself off for a *hoghead* of Brandy.

A minister was asked, "which most influenced men in preaching, love of money, or of souls?" He replied: "Take their salaries from them, and you can answer that question for yourself within a year."

"Mr. Swipes, I've just kicked your William out of doors." "Well, Mr. Swingle, it's the first Bill you've footed this many a day."

The Albany *Kickerbocker* says, the trees are clad in their "foliaceous habiliments," and thinks it is singular how they got their clothes out of their trunks without opening them.

A bolt of canvass fell off the stern of a steamer, and a man jumped in after it. Being in for a duck, he was bound to have the *canvass-back*.

"Are these rooms to let?" said a polite gentleman to a handsome young lady, as he placed his foot across the threshold. "Yes, sir." "And are you to be let with them?" "No, sir! I'm to be let *alone*!"

"Wall," said a soft-hearted, blubbing Jonathan, the other day, "Suke has gin me the sack, by gravy! I've lost her." "Lost her; how?" inquired his sympathizing friend. "I laid the soft soap on to her so thick, that the critter got so proud she wouldn't speak to me."

A sentimental youth, having seen a young lady at home, bending over something in the lap, and weeping bitterly, took the first opportunity of questioning her as to the cause of her sorrow, and was perfectly awe-struck on being informed that she was only peeling onions.

While the dog law was under discussion in the Massachusetts House of Representatives, a waggish member sent a private note to the Speaker, proposing that the subject be referred to Messrs. *Curtis, Bowker, and Barker*.

A young lady who was rebuked by her mother for kissing her intended, justified herself by quoting the passage: "Whosoever ye would that men should do unto you, do ye even so to them."

"My dear," said an affectionate spouse to her husband, "am I not your only treasure?" "Oh, yes," was the cool reply, "and I would willingly lay it up in heaven." What an "insinuating" wretch!

A young man in this city advertised for a *wife*. In less than two hours, eighteen married men sent in word that he might have theirs. Connubial bliss must be at a discount, we think.

The *Lynn Forum* says: "The use of bass-violins in the churches, is a *bass violation* of the Sabbath."

FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Pro-lapsus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude,

from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "The turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which women are subject.

It traces the whole system, renews permanently the natural energies, by removing the impurities of the blood, not so far stimulating as to produce subsequent relaxation, which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child-birth ever discovered. It strengthens

both the mother and child, prevents pain and disease, increases and enriches the food, those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon child-birth—in Costiveness, Piles, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation, it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine, in some a little Castor Oil, or Magnesia, is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement.

Cossackie, Sept. 29, 1843.

DR. TOWNSEND—To all to whom this may concern—This is to certify that my wife used one bottle of your Sarsaparilla previous to her confinement under the most alarming and delicate circumstances, being troubled with the dropsy and swelling of the feet, nervous affections and very much debilitated; with my persuasion and the recommendation of those who had used it, she was induced to try it, with little or no faith; and suffice it to say, the medicine had the happy and desired effect, not only in the hours of confinement, but after the expiration of one week of its use, the dropsy and nervous affection gave way to an astonishing degree, and her health is now better than it had been for a long time previous.

If this will be of any service to you, or any one who doubts the success of the medicine, you are entirely welcome to it.

I subscribe myself your most obedient and obliged servant,

S. S. JAMIESON.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla, have invariably called their stuff a great Medicine for Females, &c. &c., and have copied our bills and circulars which relates to the complaints of women, word for word—other men who put up medicines, have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c., are injurious to females, as they aggravate disease, and undermine the constitution.

Blotches and Freckles on the Face.

No remedy has been so successful in curing blotches and pimples on the face or diseases of the skin and blood, as this Sarsaparilla. To purify the blood is the only means to eradicate Blotches, Pimples and Freckles.

Orangetown, Rockland Co., New York, Sept. 15, 1848.

DR. S. P. TOWNSEND—Dear Sir: My wife has been troubled for the last four years with a distressing bad face, small biles came out on the lower part of her face and was very disagreeable; she took a number of remedies both outward and internal, but this seemed only to still further inflame the blood or biles. At last her face became almost raw. We had one of your papers sent us and resolved to try your Sarsaparilla; I am glad we did, for it completely cured her, and her face and skin are now perfectly smooth. She was also nervous and debilitated, and of this she is almost well, and like all other persons, she is still using it, &c.

Yours, respectfully,

J. S. VERBRICK.

The first men in the Nation.

We insert below the certificates of L. L. Van Kleeck, Esq. formerly Sheriff of Albany City and County, and late of the War Department at Washington, and W. W. Van Zandt, of the Bank Department, of Albany; is any man so base to believe that such men as these would lend their names to support a worthless article, or would send forth a frivolous statement to deceive the public.

DYSPEPSIA.

No fluid or medicine has ever been discovered which so nearly resembles the gastric juice or saliva, in decomposing food, and strengthening the organs of digestion, as this preparation of Sarsaparilla. It positively cures every case of Dyspepsia, however severe or Chronic. If any doubt this assertion, we can furnish the testimony of some of the most respectable gentlemen in the United States, who have been perfectly cured.

Brooklyn, March 7, 1846.

DR. S. P. TOWNSEND—Dear Sir: In the summer of 1845, I was attacked with a disease of the throat, chest, and stomach: the mucous membrane became so affected that almost every article of food I took produced such a nausea, or irritation, that it was with great difficulty that I could retain food. I confined myself almost entirely to the use of cocoa; even this I was often obliged to throw off. I can scarcely describe the horrid sensation I suffered; it appeared to me that from the roof of my mouth to the lower part of my stomach was ulcerated, and I was apprehensive that I had not only dyspepsia in its worst form, but that I was threatened with bronchitis. The disease became so inveterate, that it produced a rupture of a small blood-vessel. I was confined for several weeks, lost my flesh and felt weak and wearied by the least exercise. At this time I fortunately saw your advertisement and recognised several names I knew to be highly respectable and entitled to confidence. I remember to have seen Mr. Van Zandt of Albany, for a number of years in very bad health. From these facts I was induced at first to procure one bottle of your valuable preparation of Sarsaparilla. In justice to you, I feel bound to assure you that I esteem it an invaluable medicine for such diseases as I have described. It has restored me to health and strength; I have used about four bottles. To test its efficacy, after using one or two bottles, I omitted for some days to take it, and soon found that I required more, as the disease was not entirely subdued. I regard it as a certain cure for Dyspepsia and affections of the throat and chest; it is soothing, and operates like a charm in composing the stomach and allaying a cough. I intend, in future, to keep a bottle or two on hand for the use of my family. With great regard, your friend.

LAW. L. VAN KLEECK

Mr. Van Kleeck was formerly Sheriff and Clerk of Albany City and County, and recently in the War Department at Washington.

TO FEMALES.

Dr. S. P. Townsend's Sarsaparilla is acknowledged to be the best and pleasantest remedy for female complaints ever discovered. The following is only one of the thousands of severe and chronic cases that this medicine has cured. For poor, languid and sickly females it has no equal.

New York, February 10, 1848.

Dr. Townsend—Dear Sir: My wife has been sick and unwell for the last eleven years with a complication of diseases that females are subject to: she has had cold chills and hot flashes, rush of blood to the head, no appetite at times, night sweats and at times faint turns; most of the time she has been in a very distressing situation; she has taken a great variety of prescriptions and medicines, but she found no relief; about six weeks since I got her a bottle of your Sarsaparilla, and since then she has had another; she is now quite smart and much better than she has been in the last eleven years, and feels and says your Sarsaparilla has done her more good than all the remedies she has ever taken.

ASA H. COLLINS,
39th st., between the 2nd and 3rd aves.

LADY SAVED.

The following is from a very respectable Farmer residing at Hempstead:

Dr. Townsend—Dear Sir: My wife has been suffering so severely from the Dyspepsia and general derangement of the system, that we supposed she must die. The Physicians could not resist the disease, and she would have died beyond doubt, if we had not given her your Sarsaparilla. It has saved her life certainly. She is almost entirely relieved, and is gaining strength and health. She still continues the use of it.

Yours, respectfully,

E. ABRAM.

THE DEAF HEAR.

The following certificates are very singular and worthy of the attention of those afflicted with Deafness. Dr. Townsend would not say that his Sarsaparilla will cure any case of Deafness, but it certainly has a great number.

Bergen, N. J., March 20, 1848.

Dr. Townsend—Dear Sir: I have used your Sarsaparilla with great success in Nervous Debility and distress. I used three bottles, and it much improved my general health, and to my astonishment has entirely cured my loss of hearing. I did not take it for Deafness, and was the more surprised that I was restored to hearing. I used altogether four bottles, and am very happy that I did, as you can well imagine. Yours, with the greatest respect,

MRS. HERRING,

Next door to Dr. Hornblower's.

ANOTHER CASE.

New York, March 24.

Dr. Townsend—Dear Sir: My wife has been cured with the Deafness of several years' standing by the use of your Sarsaparilla. It is truly a most remarkable circumstance, and I think should be published. I cannot express the satisfaction it gives me—it also renewed her strength, appetite and color. It is the best medicine we ever used.

Yours, &c., THOMAS CHAMPLIN, Pilot, 139 Cherry-street.

"IT'S GONE."

There are thousands who use Dr. S. P. Townsend's Sarsaparilla, and when you ask them if they were benefited by it, answer the "disease is gone," "can't tell whether it did or not." The fact is that this medicine is so pleasant to take, and in its effect upon the system, it seems impossible to the person taking it, even when the disease is gradually disappearing, as it *always does*, that this medicine can accomplish such results. But in this lies its great beauty and superiority—it never weakens the system, but cleanses and creates new, rich and pure blood, and the disease cannot exist.

PALPITATION OF THE HEART.

Dr. S. P. Townsend's Sarsaparilla cures the worst cases of the Palpitation of the Heart. The following is direct testimony.

West Milton, Saratoga Co., Dec. 2d, 1848.

Dr. S. P. Townsend—Dear Sir: Feeling under peculiar obligations to you for the benefit I have received from your invaluable Sarsaparilla, and thinking my testimony may induce others to try it for similar complaints, I have been induced to make this communication for the benefit of those who are afflicted as I have been. Previous to taking your Sarsaparilla I was troubled very much with Palpitation of the Heart, so much so, that I was obliged to lay aside all business; from recommendation I was induced to try your Sarsaparilla, which has entirely cured me.

Very truly, yours,

ERASTUS MULIN.

HORRIBLE CASE OF SCROFULA.

The following letter was received during the week, and is proof positive that Dr. Townsend's Sarsaparilla has the most perfect control of disease. This is truly a wonderful cure.

South Brunswick, N. J., Dec., 25, 1848.

DR. S. P. TOWNSEND—Dear Sir: About the first of March last, I was attacked with Scrofula in its worst form, which settled on both sides of my neck and under my arms, which was a horrible sight to behold, having large holes in the flesh occasioned by the sores, and I could run my thumbs more than half their length into the holes of the sores. My physicians did not help me; the complaint kept on raging and raging, and I kept getting worse and worse, and I verily thought I must die. I was very weak and unable to sit up. After this I was advised by your agent

in this place to try some of your Sarsaparilla. I put it on the 4th of July last; after taking about two bottles of it I was able to go out on the farm, and commenced working a little. Since that time I have continued on taking it and working, the sores and my health growing better and better, and am so now that I pronounce myself about well, and do believe that the Sarsaparilla has saved my life. Yours, &c. WILLIAM C. LUCAS.

We are personally acquainted with Mr. Lucas, and have been for a number of years, and know that his case has been as he has above described it.

HENRY WYMAN,
PETER PIERSON.

Dated December 25, 1847.

FEVER-SWELLED ANCLES.

This letter was received this week, and can be seen at this office:

Mobile 6th December, 1848.

DR. TOWNSEND—Sir: For thirty-seven days I lay in bed with a slow and constant fever. On arising I found my ancles and feet swelled to such an extent, and so painful that I could not walk across the room for two months. My general health had been very bad for some years. In April last, I bought six bottles of your Sarsaparilla from Mr. J. Tucker, agent, and commenced using them. I now wish to inform you that I found immediate relief, and by the first of June my health was fully re-established, and is now as good as it ever was in my life, notwithstanding that I am 69 years of age. This good state of my health I attribute altogether to the use of six bottles of your invaluable Sarsaparilla.

JACOB B. JACOBS,
of Miss, Perry Co.

FROM PHILADELPHIA.

DR. TOWNSEND is daily receiving letters from different parts of the Union, giving descriptions of extraordinary cures performed by his Sarsaparilla. A gentleman in Philadelphia who kindly sent in the following:—

Philadelphia, August 6th, 1847.

DR. TOWNSEND: Dear Sir—I have been sick for a long time with a severe pain in the side accompanied with shooting pains throughout my body, nervousness of the limbs, and great general debility and weakness. I tried a great number of prescriptions but they did not reach my case. I was induced by your advertisement in the *Ledger* to try your extract. I done so and when I had taken two bottles my health was in a great measure restored, my pains and nervousness had left me completely. You are at liberty to publish this if you choose.

A. DAZEY, 552 South 2nd st.

Principal office 126 Fulton-street, Sun Building.

FOR THE LADIES.

DR. TOWNSEND'S Sarsaparilla is now used throughout the United States and Canadas, &c., in female complaints, with the most perfect success.

READ THE FOLLOWING.

Otseltie, Chenango Co. Sept., 5, 1848.

DR. TOWNSEND—Dear Sir: I am very thankful that I have become acquainted with your most excellent Sarsaparilla, from which my wife has received great benefit, especially before her confinement, and since, she took about a half a bottle before, and one and a half since, which improved her health and strength, both body and mind, and was smarter in one week after her sickness than she has ever been in four weeks when she has been confined before. She has a family of seven children, and has not got along so well before, &c.

E. GOODRICH

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

Dr. TOWNSEND: I was attacked with a distressing pain in my hip-joint, so bad that I could not walk without my crutches; and much of the time I was obliged to keep my bed. I tried several remedies, but they did not relieve me. I then called on one of our first Physicians; he did not help me. I heard of your Sarsaparilla, and obtained a bottle, and in a few days it entirely cured me, and I am as well now as ever.

ALSBELL WALKER,
Albany, January 2, 1845.

22 Daniel-street.

Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:—

Dr. TOWNSEND: I have used one bottle of your Sarsaparilla, and find it is excellent in its effects upon a chronic Rheumatic Pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians, and recommend your Sarsaparilla.
Hartford, March 12, 1845.

SETH TERRY.

RHEUMATISM AND LUMBAGO.

Dr. TOWNSEND: Dear Sir—For the last three years I have been sorely afflicted with severe Rheumatic Pains. I have been at times in the greatest agony possible, and unable to follow my employment. I have also had severe attacks of the lumbago. I read some accounts in the papers of the virtues of your Sarsaparilla, and thought I would try it, and see if I could obtain relief. The lumbago has left me, and I experience no more of my rheumatic pains. My general health has been improving since I commenced with it, for which I am very thankful, and hope you will meet with the success that your remedy for these severe complaints merits.

Yours, &c. &c.,

RICHARD JONES,
No. 8 Doyer-street.

JAMES CUMMINGS, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

RHEUMATISM.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

the afflicted.

Blackwell's Island, Sept. 14, 1847.
Dr. TOWNSEND—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of

Yours respectfully,

JAMES CUMMINGS.

ALMOST MAD.

Thousands of such cases as is described in the following certificate are continually handed in at our office, and at the different agencies. Dr. Townsend's Sarsaparilla has cured more cases of Disease the last three years, than all the other advertised remedies put together. This is big talk, but true.

October 6th, 1847.

About nine months since I was taken with a severe pain in my bones, and it kept growing worse, till I was almost mad with pain, and for three months previous to taking your Sarsaparilla, I could not sleep at night. I had to sit up and rub myself, or walk the floor, and I fell away in flesh so that I began to think I was getting into a decline. At last I thought I would try a bottle of your Sarsaparilla, and before I had finished one bottle, the pain had entirely left me; I slept well every night; I go to bed about 8 or 10 o'clock every night, and sleep soundly till morning, without waking during the night. And I receive another great benefit from it. For the last five years I have been very costive, and since taking your medicine, my bowels have become regular. I can say, with a clear conscience, I feel better at this present time, than I have for the last five years.

DANIEL MURRAY,

70 Chatham-street, and 228 Pearl-street.

BAD CASE OF SCROFULA.

DR. TOWNSEND'S SARSAPARILLA has cured hundreds of the worst cases of Scrofula. The following letter was sent to our agents at Geneva:

Geneva, July 1, 1848.

GENTLEMEN: It gives me pleasure to be able to give my testimony to the virtues and purifying qualities of Dr. Townsend's Extract of Sarsaparilla. My youngest son, aged 12 years, was attacked with the Scrofula in a very aggravated form. The disease first made its appearance on the glands of the throat outside, in large lumps or kernels, and soon appeared on the inside of the throat, extending to the outside of the face, the upper lip and chin becoming very sore and much inflamed, apparently spreading very fast, and finally assumed such a malignant form that it was with great difficulty and much pain that he could open his mouth to take nourishment. I called my family physician, and after trying the usual remedies without success, was induced to try a bottle of Dr. Townsend's Extract of Sarsaparilla, and, strange it may seem, before the bottle was half used up the disease began to give way, and at this time (having given about 1½ bottles) the disease is thoroughly eradicated, and my son as well as ever he was.

To Messrs. Platt & Simpson, Wholesale and Retail Agents for Dr. Townsend's Extract of Sarsaparilla.

FEVER SORE.

The following is an extract from Dr. Hovey, an old and respectable Physician in Greenfield, Mass. The letter can be seen at this office. Dr. Townsend's Sarsaparilla cures all descriptions of Sores, Ulcers, &c.

This Sarsaparilla meets with a ready sale and gives good satisfaction, as far as I have been able to learn. One gentleman in our village has been very much benefited by its use, and voluntarily gave a certificate, which I enclose. I have already sold more than one half of the quantity I received from you, and shall want more in a short time.

Yours respectfully,

DANIEL HOVEY.

Greenfield, Sept. 13, 1847.

DR. TOWNSEND—Sir: Having been afflicted for the last seven months with what my Physician calls a "Fever Sore" of the most painful and aggravating nature, I take the utmost pleasure in informing you, I have experienced the greatest benefit from the use of your invaluable Sarsaparilla. I purchased one bottle of our justly respected physician and apothecary, D. Hovey, your agent, which I commenced using, and strange as it may appear to others, before I had used the whole of it, my sore healed over, which had baffled the skill of our most worthy Doctors—the truth of which I refer to your Agent. I would respectfully say to all who are laboring under pain and disease, arising from an unhealthy state of the Blood to secure for themselves a medicine of so much value as Dr. Townsend's Sarsaparilla. Would it be expedient, volumes might be filled of the goodly effect which this medicine has done, and is still doing throughout our land, but suffice it to say, let those who are afflicted with those diseases which this medicine is prepared for, cast aside all prejudice, and I have not the least doubt they will be happily disappointed in its most extraordinary effects. Respectfully,

RHEUMATIC PAINS AND NERVOUS DISEASES.

The following is a singular case. Dr. Townsend's Sarsaparilla is continually curing hundreds of cases of Rheumatic and Nervous Diseases, Diseases of the Blood and Debility.

New York, October 15, 1848

DR. TOWNSEND—Respected Sir: I have used your Sarsaparilla with the most happy effect in a terrible Rheumatic affection and Nervous Disease, originating in Debility. The Rheumatic Pains were so severe that I frequently was unable to get out of bed or to raise myself when out. I suffered more than I can describe, I became at last so weak and nervous that I was almost afraid of my shadow. Indeed I am unable to write out my case, but I am a sound man now. I used three bottles of your Sarsaparilla and it cured me, for which, as you may well suppose, I am very thankful. Any person that is incredulous is at liberty to call on me at 130 Prince-street. I forgot to say that in the morning when I arose, a large quantity of water, sometimes a stream would come out of my mouth and throat, and was very disagreeable and afflicting. I am now entirely relieved of this also.

Yours respectfully,

PATRICK SHERRYD.

CURIOUS CASE OF CONSUMPTION.

There is scarcely a day passes but there are a number of Cases of Consumption reported as cured by Dr. S. P. Townsend's Sarsaparilla. The following was recently received.

Dr. S. P. TOWNSEND—Dear Sir: For the last three years I have been afflicted with General Debility and Nervous Consumption of the last stage, and did not expect to regain my health at all. After going through a course of medicine under the care of some of the most distinguished regular physicians and members of the Board of Health in New York, and elsewhere, and spending the most of my earnings in attempting to regain my health, and after reading in some paper of your Sarsaparilla, I resolved to try it. After using six bottles, I found it done me great good and I called to see you at your office. With your directions I complied and do most heartily thank you for your advice. I persevere in taking the Sarsaparilla, and have been able to attend to my usual labors for the last four months—and I hope, by the blessing of God and your Sarsaparilla, to continue my health. It helped me beyond the expectations of all that knew my case.

Orange, Essex Co., N. Y., August 2, 1847.

State of New Jersey, Essex Co. ss.

Charles Quimby, being duly sworn according to law, on his oath saith, that the foregoing statement is true, according to the best of his knowledge and belief. CHARLES QUIMBY.

Sworn and subscribed to before me, at Orange, the 2d of August, 1847.

CHARLES QUIMBY.

CYRUS BALDWIN, Justice of the Peace.

Spinal Complaint.

This is evidence of the effects of the medicine in the spinal complaint.

Bartholomew Co. Ind., November 20th, 1848.

Dr. S. P. TOWNSEND—Dear Friend: Although a stranger, I take the liberty of addressing thee, and giving thee a brief

history of the benefit I have received by taking thy Sarsaparilla. I have been very much affected for about three years with the Dyspepsia, Liver Complaint, Spinal Affection and a general nervous debility. And after trying the prescriptions of two or three of the best physicians in the country, without much relief, I was prevailed upon to try a bottle of thy Compound Extract of Sarsaparilla, which I did, but I must say with but little confidence, and I do believe I have derived more benefit from it than all of the other medicines I have taken; and I am still taking it, and gradually regaining my strength. When I commenced taking it I was almost entirely helpless, and had been entirely confined to my bed for nine months, and not able to turn myself in bed, and now I am able to walk about my room. As there is none of it to be obtained within several miles of this place, I would like

to have it to sell on commission, as there appears to be a great call for it in this vicinity, and it appears to give general satisfaction. With requesting an agency for this invaluable medicine, I conclude. My residence, Elizabethtown, Ind.

CALVIN NEWSON.

FITS! FITS!! FITS!!!

Dr. S. P. TOWNSEND, not having tested his Sarsaparilla in cases of Fits, of course, never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County:

Fordham, August, 13, 1847.

Dr. S. P. TOWNSEND—Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits: we tried almost every thing for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and healthy for which we feel grateful.

Yours respectfully,

JOHN BUTLER, Jr.

LOST HER SPEECH.

The annexed certificate tells a simple and truthful story of suffering and relief. There are thousands of similar cases in this City and Brooklyn, and yet there are thousands of parents let their children die for fear of being humbugged or to save a few shillings.

Brooklyn, Sept. 13, 1847.

Dr. S. P. TOWNSEND—I take pleasure in stating for the benefit of those whom it may concern, that my daughter, two years and six months old, was afflicted with general debility and loss of speech. She was given up as past recovery by our family physician; but fortunately I was recommended by a friend to try your Sarsaparilla. Before having used one bottle she recovered her speech and was enabled to walk alone, to the astonishment of all who were acquainted with the circumstance. She is now quite well and in much better health than she has been for eighteen months past.

JOSEPH TAYLOR,

128 York-street, Brooklyn.

Girls, read this!

You who have pale complexions, dull eyes, blotches on the face, rough skin or freckles, and are "out of spirits," use a bottle or two of Dr. S. P. Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, beautiful complexion—all of which are of immense value to unmarried ladies. Thousands and thousands of females who were wasted by disease, and dark about the eyes, are now in the enjoyment of excellent health, by using this remedy.

Spanish Females and South American Ladies.

The following engravings faithfully illustrate South American Females who live in countries that abound in the Sarsaparilla, and where it is used as a common beverage: if families and especially ladies and children, would but take more exercise and Sarsaparilla, and less physic, they would soon resemble these fine ladies and children represented by our artist.

Beauty and Health.

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face Divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes that is fascinating.

This is why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexions, they should use Dr. S. P. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station, crowd our office daily.

Editor of the Mirror.

H. FULLER, Esq., Editor of the Evening Mirror, publishes the following in his editorial columns, and proves what Dr. S. P. Townsend has always claimed—that to cleanse the blood was the only mode of eradicating eruptions and beautifying the face:

The cosmetic properties of Sarsaparilla.—An acquaintance of ours, who has for many years been troubled with eruptions of the skin, which spoiled all his beauty, and rendered his otherwise handsome face positively disagreeable, has been entirely cured by the use of a few bottles of TOWNSEND'S SARSAPARILLA. All external application in such cases are worse than useless. The disease is in the blood, and only shows itself in the skin. Purify the vivid current, and the skin will soon become pure and healthy. Ladies who are desirous of having clear and fair complexions, should throw cosmetics to the dogs, and take Sarsaparilla.

Don't let them die.

Several thousand children died in this city last season who could have been saved by using Dr. S. P. Townsend's Sarsaparilla—there are thousands of children that are now suffering from sores and humors—others are puny and weakly—who, if resisted, will make effeminate men and women, if they do that which is highly probable. Dr. S. P. Townsend's Sarsaparilla will rectify this. It is peculiarly adapted to children of slender constitutions, and when diluted with water, it is a delightful beverage; children love it dearly. It will prevent and cure the Diarrhoea, Dysentry and Cholera Morbus. We trust there is no father or mother who is so penurious or inhuman as to deprive their children, for a dollar, of the invaluable remedy, which will certainly restore them to health.

We will refer, with pleasure, to some of the most respectable families in this city, who have given it to their children with the most happy results.

A Child Saved.

CURIOUS CASE.—The following evidence is only one of thousands of similar character, and conclusively proves that Dr. S. P. Townsend's Sarsaparilla is one of the most effective remedies ever discovered.

Albany, January 31, 1847.

DR. S. P. TOWNSEND—Dear Sir: My little son about four years of age, was attacked two years and a half since with a severe sore swelling on his knee; it became very bad, we called a physician, one of the Professors in the Albany Medical College, who proscribed for him sometime without success; his leg became worse, and we had different medical advice. Still the disease increased, other bad sores came out on his leg and thigh; he lost his health and strength, and he became so emaciated that we were obliged to carry him on a pillow; and his leg was awful beyond description, and we had little hopes of his recovery.

I was advised when he was first taken to use your Sarsaparilla, but had not faith in it; but after he had suffered two years and more, and we tried every remedy we could hear of, we at last concluded to give him yours: we done so, and he immediately began to grow better, and he is now as fat as a little "pig" and very hearty; and nothing is to be seen of his sores but the scars where they once were. We regret that we did not use it at first for we are satisfied that it would have cured him, and saved a great deal of suffering and expense. Nothing helped him but your Sarsaparilla, and we cheerfully acknowledge the great benefit he has received from it.

JOSEPH COUGHTRY 317 State-street.

Another Child Saved.

DR. S. P. TOWNSEND'S Sarsaparilla have saved the lives of thousands and thousands of children. Read the following:—

New York, Dec. 14, 1847.

DR. S. P. TOWNSEND—Sir: It affords me great pleasure to communicate to you the following statement. My child who is now about four years of age, has been sick and delicate from infancy, proceeding from teething, measles, worm fever, and during which period she was attended by several of our most eminent physicians; notwithstanding she was left extremely feeble. Hearing of the extraordinary effects of your Sarsaparilla, I was induced to try it. She has now taken less than three bottles, which has produced such a thorough change in her whole system that she is now perfectly well. I therefore most earnestly recommend parents who may have children similarly afflicted, to avail themselves at once of the most invaluable remedy.

MRS. CRANDALL, 35 Jones-street.

SISTERS OF CHARITY.

The following note was received from the Sisters of Charity, which recommendation we highly appreciate.

DR. S. P. TOWNSEND—Dear Sir: We recommend Mrs. Hopkins as one we have known for some time, and can testify of her being most deserving of the liberality of Dr. S. P. Townsend—his Sarsaparilla being of very great service to her. She cannot afford to purchase so desirable and expensive a remedy, we therefore recommend her as one needy as well as deserving.

THE SISTERS OF MERCY.

Convent of Mercy, 18 West Washington Place.

EXPOSE.

By Reading the following Affidavit,

The Public will learn the origin, or rather where the recipe for making the stuff they call Old Dr. Jacob Townsend's Sarsaparilla, came from—and will be able to judge which is the genuine and original, and of the honesty of the men who are employed in selling it as the original Dr. S. P. Townsend's Sarsaparilla. Dr. S. P. Townsend was the original proprietor and inventor of Dr. Townsend's Sarsaparilla, and his medicine has gained a reputation that no other remedy ever gained. He manufactured over one million of bottles last year, and is manufacturing at present 6,000 bottles per day. We use more Sarsaparilla and Yellow Dock in our establishment each day, than all the other Sarsaparilla Manufacturers in the world each week.

Read the Affidavit.

City and County of New York, ss.

William Armstrong, of the said city, being duly sworn, doth depose and say that he is a practical Druggist and Chemist. That some time in the latter part of May, or first of June, 1848, a man by the name of Jacob Townsend, who at that time was a book and pamphlet pedlar, called upon deponent, at the house of Mr. Thompson, No. 42 Hudson street, where deponent boarded, and requested deponent to write him a recipe by which to make a Syrup of Sarsaparilla. Deponent further says, that he became acquainted with said Townsend at the office of Theodore Foster, Esq., Book Publisher, with whom said Townsend dealt. That said Townsend had had frequent conversations with deponent respecting the manufacture of an article of Sarsaparilla to be sold under the name of Dr. Jacob Townsend.

That said Townsend stated he was an old man, and poor, and was not fit for hard labor—and wished to make some money, in order to live easy in his old days, and that, if Sarsaparilla under the name of Townsend, sold so well, and so much money was made by it, he could see no reason why he might not make something out of it too, (his name being Townsend,) if he could get a capable person to prepare a recipe, and manufacture it for him. Deponent in one of the conversations asked said Townsend if he was related to Dr. S. P. Townsend, to which he replied, that he knew Dr. S. P. Townsend would be down on him after he should commence. But that he did not care for him, as he had formed a co-partnership with men who could furnish the requisite amount of capital—and was well prepared to defend himself against any attack that might be made on him.

Deponent further says, that pursuant to the request of said Jacob Townsend, he wrote a recipe for the manufacture of a Syrup of Sarsaparilla, and gave it to him. Said Townsend observed that he wanted to make a specimen to exhibit to his partners for their approval, as he wished to gratify them in everything, as they furnished all the capital—said Townsend also told deponent that the bottles they were to use were to be of the same size and shape as Dr. S. P. Townsend's, and deponent, at the request of said Jacob Townsend, went to the office of Dr. S. P. Townsend, and procured one of his labels.

And deponent further says, that he has been informed, and verily believes the Syrup of Sarsaparilla, sold as Old Jacob Townsend's is made after the recipe furnished by deponent, to Jacob Townsend, as aforesaid.

And further deponent saith not.

WILLIAM ARMSTRONG.

Sworn to before me, this 24th day of May, 1849.

C. S. WOODHULL, Mayor of the City of New York.

ASTONISHING DEVELOPMENTS.

An advertisement appeared in several of the papers, headed "Astonishing Developments." This advertisement is signed by a number of men who keep small retail drug shops in the back streets of the city. The advertisement signed by these shopkeepers, and put in the papers by Thompson, Skillman & Co., would lead people to believe that our Sarsaparilla sours, &c., which is false. These men have not, to our knowledge ever purchased any Sarsaparilla of us, and know nothing of its merits; very few of them being able to spare a sufficient amount of money to purchase a dozen. The majority of them have applied to us for agency, which we refused. At least one of these men has been in the

STATE PRISON,

for forging a draft or note on the Chemical Bank; we know nothing of the character of the others—but if they sell any Sarsaparilla for the original and genuine Dr. Townsend's Sarsaparilla which is not signed by S. P. Townsend, they would commit any fraud.

Notice to Emigrants and Foreigners.

It is well known that the Cholera cases are far more numerous among foreigners than native born citizens. They are more subject to bowel complaints—many have not recovered from the effects of a long sea voyage, and die of debility or of a disease between the Ship Fever and the Cholera; a bottle or two of the genuine Sarsaparilla will prevent this; it cleanses and strengthens the system, and would save the lives of thousands if they would use it, that will otherwise die.

WHOLESALE DRUGGISTS.

Below will be found the cards of three of the first wholesale druggists in the city. These three have purchased \$50,000 worth of Dr. S. P. Townsend within the last four years. We have sold it by the hundred dozen to many others—we keep it through all seasons in South America, New Orleans, Havana, &c., and these charges that our Sarsaparilla sours and foment is as foul as their other libels.

Read the following:

NEW YORK, May 21, 1849.

This is to certify that our house has within the last five years purchased over twenty-five thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla. It is an article that commands an unprecedented sale, and as far as we know, gives universal satisfaction. It does not foment and break the bottles as has been alleged.

NORTON & BABCOCK,
No. 130 Maiden Lane and 19 Fletcher street.

NEW YORK, May 21, 1849.

To whom it may concern: This is to certify that I have purchased of Dr. S. P. Townsend about ten thousand dollars worth of his Sarsaparilla. It is by far the most popular medicine I ever knew and gives universal satisfaction. I have no difficulty with its fomenting or souring.

THOMAS W. CUMMING,
Wholesale Druggist, 178 Greenwich street.

NEW YORK, May 21, 1849.

This is to certify that we have purchased over ten thousand dollars worth of Dr. S. P. Townsend's Sarsaparilla within the last five years. The medicine is very popular and has become an article of commerce. We find no trouble with its souring or fomenting.

BOYD & PAUL, No. 4 Liberty street.

Why Dr. S. P. Townsend's Sarsaparilla prevents the Cholera.

The Cholera is one of those mysterious dispensations which men cannot fathom whence it comes or where it goes, none can tell, and it is very difficult to cure—and cannot be with any certainty—of its effects all are familiar, and by care, it can certainly be avoided. One of the first of its effects is, the debility and prostration of the digestive organs. Indigestion of the food is the exciting cause of the Diarrhoea, and consequently the Cholera. The organs of digestion, of life, are relaxed and do not perform their functions, the food does not digest or separate into the fluids, hence the Diarrhoea and Cramps. This is one of the *first grand and known effects* of the Disease. Its typhoid and febrile character—the terrible and astonishing rapidity of its progress, none have yet been able to fathom. Why Dr. S. P. Townsend's Sarsaparilla prevents the Cholera, is its great power in assisting the organs of digestion, of its wonderful similarity to the gastric juices, of creating new blood and the fluids of the body. Of its all but marvellous powers, we have the best evidence, such as cannot be disputed—even in the most chronic cases. Men of the first respectability vouch for it; thousands and thousands of cases have been cured, and in this great power lies the secret and reason of the astonishing success of this remedy. Let all use it and avoid danger.

From the *S. Courier*.

THE SARSAPARILLA PALACE.

The new establishment being fitted up by Dr. S. P. Townsend, in the Brick Church, Nassau street, is upon a scale of architectural and ornamental taste reaching to absolute magnificence. Entering a spacious portico, supported by tall Ionic pillars on either hand, you pass through a wide and lofty hall, supported by pilasters with capitals in arabesque, and enter a spacious rotundo, the floor laid in alternate squares of white and black polished marble, and the ceiling ornamented with a series of most exquisitely painted designs in fresco. The walls are also painted in fresco with a continuous yet romantically changing landscape, embracing every species of scenery; and skillfully distributed are several striking figures and groups of statuary, communicating an indescribable air of beauty and repose to the scene. The rear sextant of the rotundo is elevated two or three feet above the marble floor, and planked with an immense oriel window of many-stained glass. Here are the desks of the proprietor and his principal secretary.

Up stairs are some twenty or thirty elegantly-fitted rooms, intended as offices, and the whole establishment is spaciously built and thoroughly ventilated.

It seems to be peculiarly appropriate that this building, once devoted to curing scurvy, should in its transformation to secular purposes, still retain something of its original character, and now become the great temple of bodily health.

WONDERFUL CURE.

Her blood was like water, could not speak, bled at the Lungs, severe pain in the chest and about the heart, raising in the throat. Read the advertisement, and doubt if you can that Consumption is curable :

New York, December 14, 1847.

DR. S. P. TOWNSEND—Sir: Last New Year's Day I received as a present two bottles of your Sarsaparilla, for four years previous to this I was very ill, and had not strength to be about the house. I applied to Physicians and could obtain no relief, and at the time I commenced taking your Sarsaparilla; I had almost despaired of getting any better. The blood in my veins was like water. I bled very much at the lungs. I had severe pains in my chest and heart, and was troubled at times with something rising in my throat, so that it was

impossible to speak. I discovered a change for the better in my health on taking one bottle of your Sarsaparilla, and in two weeks was able to be up about half an hour at a time, and persevered in taking your Sarsaparilla. In four weeks I was able to go about the house, and have been ever since remarkably strong, and attribute my recovery of my health entirely to the Sarsaparilla. If this statement will be the means of directing others similarly afflicted to your valuable Sarsaparilla, you are welcome to make it known.

Yours respectfully,
EMMA SUMNER,
70 Vandam-street.

Pain in the Back and Head.

The following letter is from an eminent Lawyer in Philadelphia, and proves that Dr. S. P. Townsend's Sarsaparilla is a great pain eradicator.

Philadelphia, Nov. 5, 1847.

DEAR SIR—My wife being afflicted with a terrible pain in her back and side and some times in her Head, which made her lay by impossible to move, and having heard of your medicine, I purchased two bottles of your Agent, FREDERICK BROWN, Esq., she used them and was able to set up out of bed, and occasionally walk about the room. Seeing so much prospect for the better, I then purchased three more, but only had use for two. She is now perfectly well, and never enjoyed better health. Should you think this worth publishing, you have my consent and further, praise for your medicine, for I think it should be patronised.

Very Respectfully yours,
JACOB SING, Atty. at Law.

THE PILES CURED.

DR. S. P. TOWNSEND'S Sarsaparilla is the greatest and best remedy for Piles ever discovered. It cures costiveness, strengthens the system and the disease disappears. The following certificate has just been received.

New York, March 20, 1848.

DR. S. P. TOWNSEND—Dear Sir: I consider it a duty I owe to the public, to publish the great benefit I have received in using your Sarsaparilla. I have been made miserable for a number of years by the piles, in a most aggravated form, I used two bottles of your Sarsaparilla and it has completely cured me or at least I have had no symptoms for near two months, when I finished taking the medicine. Your Sarsaparilla is certainly a great blessing.

GILBERT A. FALCONER,
31st street, between 7th and 8th Ave.

BLIND PILES.

Rensselaerville, April 28th, 1848.

DR. S. P. TOWNSEND—Sir: I deem it my duty to inform you of the remarkable cure your Extract of Sarsaparilla has performed in my case, as well as the great benefit my family have received from it. I have been 12 years afflicted with the blind piles—have suffered beyond what language can express—have consulted and been attended by a number of regular physicians without deriving any benefit from their treatment.

About one year since I purchased of your Agents in Rensselaerville, J. H. Frisbee & Co., two bottles of your Extract of Sarsaparilla, the most of which I took; it immediately relieved me, and I am now completely cured, and have felt no return of the symptoms for a year past. My wife has also received great benefit from the use of it, as well as other members of my family.

We have obtained the above certificate, which we forward to you. There are some other persons who have received great benefit in other complaints and we can obtain other certificates if necessary.

Respectfully yours,
ASA DELAMATER.
J. H. FRISBEE & CO.

THE NEW YORK SUN'S ART UNION!

A SPLENDID ENGRAVING
AND
THE NEW YORK WEEKLY SUN
FOR ONE YEAR
FOR ONE DOLLAR!

BESIDES
ONE THOUSAND MAGNIFICENT PRIZES DISTRIBUTED
AMONG THOSE WHO SUBSCRIBE.

BEACH, BROTHERS, Publishers of the Weekly Sun, as a testimonial of their appreciation of the vast and rapidly increasing patronage bestowed upon that Dollar Newspaper, will make a gratuitous present of a large and elegant full length engraving, beautifully printed on fine paper, of General Zachary Taylor, President of the United States, to every subscriber, (whether a new one or one who renews an old subscription,) whose name is entered upon the subscription books between the first day of January, 1849, and January 1850. They will also distribute among the subscribers one thousand prizes, varying in value from \$25 to \$1—the total value amounting to two thousand dollars! The very great expense attendant on this liberal distribution of prizes and splendid portraits of PRESIDENT TAYLOR, in full military uniform, &c., renders it imperatively necessary that only one name should be entered for each dollar sent. Those who subscribe in clubs will please designate the names of such as are to be entered upon the books as candidates for the prizes, &c.

The One Thousand Dollar Prizes

to be distributed among the subscribers of the Weekly Sun, will comprise a rich selection of costly and valuable works in the several departments of literature, history, biography, voyages and travels, domestic and moral economy, Essays, Belles Letters, &c., including most of the well known publications of Harper and Brothers.

Those who draw prizes will have the privilege of making their own selections from the catalogue which is furnished to each subscriber. To ensure the fullest advantages of the above prize distribution, subscribers should send in the amount of their subscriptions without delay, as the names are registered in rotation, and those first in order will be entitled to the early impressions of the engraving of General Taylor, &c. For a more detailed account of the above plan, the reader is referred to the *Extra Sun's Art Union*, which may be obtained free of charge by any person addressing (post paid) the proprietors.

THE NEW YORK WEEKLY SUN

is the best as well as the cheapest family newspaper ever presented to the American public. In addition to its usual features of interest, beautiful Engravings, etc., etc., the Weekly Sun for 1849, will be enriched by a succession of

ORIGINAL PRIZE STORIES

written by eminent American authors expressly for this paper, for the premiums of \$250.

THE SUBSCRIPTION PRICE BEING

ONLY ONE DOLLAR A YEAR,

any person may receive a copy, at any time, by sending the direction and enclosing the money by mail. (Postmasters will frank the letters.)

CLUB SUBSCRIPTIONS,

When sent to one address, are received at the following rates: Five copies for \$4—eleven copies for \$8—twenty-five for \$18, and seventy-five copies for \$50. When an order is sent for copies requiring them to be forwarded to more than one address, one dollar will be charged for each subscription.

Letters and Communications (always post paid) should be addressed to

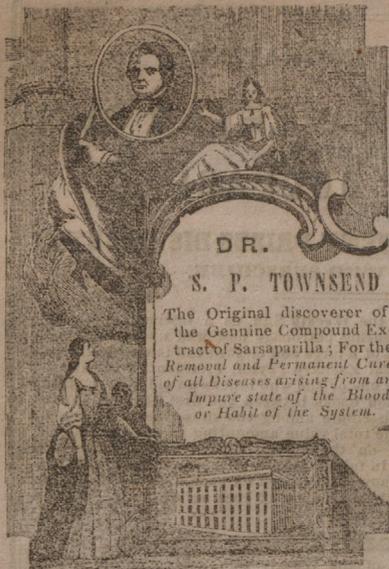

BEACH, BROTHERS,

SUN ESTABLISHMENT, NEW YORK.

For full description of the plan, see the *New York Sun's Art-Union Extra*, which may be obtained free of cost, by application personally or by letter (post paid) to the Publishers.

UNCAT
Almanacs...

Let it be remembered that the genuine and original Dr. S. P. Townsend's Sarsaparilla is enclosed in a splendid label engraved on steel, similar to the cut below; any other is spurious.

The Most Extraordinary Medicine in the World.

THIS EXTRACT IS PUT UP IN QUART BOTTLES; IT IS SIX TIMES CHEAPER, PLEASANTER, AND WARRANTED SUPERIOR TO ANY SOLD. IT CURES DISEASE WITHOUT VOMITING, PURGING, SICKENING OR DEBILITATING THE PATIENT.

The great beauty and superiority of this Sarsaparilla over all other medicine is, that while it eradicates the disease it invigorates the body. It is one of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than 250,000 cures of severe cases of disease; at least 50,000 were considered incurable. It has saved the lives of more than 25,000 children the last three years in the city of New York alone. More than 30,000 cases of Chronic Rheumatism;—20,000 cases of Dyspepsia;—10,000 cases of General Debility and want of Nervous Energy;—20,000 cases of the different Female Complaints;—20,000 cases of Scrofula;—15,000 cases of the Liver Complaint;—5,000 cases of Diseases of the Kidneys and Dropsy;—5,000 cases of the Gravel;—1,000 cases of the Yellow Jaundice;—1,500 cases of the Dropsy;—50,000 cases of Consumption, and thousands of cases of Diseases of the Blood, viz.: Ulcers, Erysipelas, Salt Rheum, Pimples on the Face, Scald Head, Tetter, Neuralgia, &c., &c., together with numerous cases of Sick Headache, Pain in the Side and Chest, Spinal Affections, &c., &c.

This is the most successful medicine ever known in diseases of the Kidneys and Dropsy and all affections of the Urinary Organs. Several thousand cases have been reported as cured when all other remedies have failed.

Hundreds of cases of Fits and Nervous Diseases originating in Debility, have been cured, and thousands of cases of Dysentery, Diarrhoea and Summer Complaint.

Principal Office, 82 Nassau street, between John and Fulton, N. Y. and 105 South Pearl street, Albany.—also sold by Druggists generally.

Agent for the Sale of Dr. S. P. Townsend's Sarsaparilla.

**J. MUSSON & CO. }
J. BOWLES, }**

Quebec, Canada.

P. S.—There is even a counterfeit of this label, and purchasers should be careful to purchase none but such as have a fac simile of my name, thus—S. P. TOWNSEND.

N. B.—We are the only manufacturers that have steam power engines, and our Sarsaparilla is ground and extracted by steam. We use more Sarsaparilla and Yellow Dock every day, than all the other manufacturers in the United States do in a month.

N. B.—There are a number of men employed in putting up Sarsaparilla in the same shaped Bottles as ours; these men do not attempt to sell it here, but are endeavoring to palm them off on the people at the South and West—they steal or copy our advertisements. One of these men lives at Louisville, Kentucky, and gets up a stuff they call Dr. Bull's Sarsaparilla; another lives in a village in this State, and calls his mixture Dr. Guyshot's Sarsaparilla. They copy our advertisements respecting Female Complaints, word for word—some say these medicines is very injurious for such complaints.
