CO

WE present to you again DR. MORSE'S INDIAN ROOT PILLS COOK BOOK. We think it is a better Cook Book than we have ever issued before. Much information will be found within its covers. It is printed on a new perfecting press, especially designed for this purpose, which is capable of producing more than a hundred thousand cook books each day. Our issue for 1894 runs far up into the millions, and such has been the popularity of DR. MORSE'S INDIAN ROOT PILLS, that each year we are obliged to print a larger edition to meet the wants of our patrons. MORSE'S INDIAN ROOT PILLS sell entirely on their merits. They are not advertised in the newspapers, but their use is always accompanied by such happy results that their fame spreads abroad solely on account of the relief

they have given. Each year the sales increase very largely over the previous one, and present the strange spectacle of a medicine continually growing without continual advertising. For more than forty years this steady growth has continued till we believe there is no pill in the world that is so largely consumed as DR. MORSE'S INDIAN ROOT PILL. They are a great foe to

An Impure Condition of the Blood,

and if you are suffering from any disorders arising from this source, if you feel dull and languid, if you feel broken down or debilitated, have weak stomach or indigestion, or have any of the troubles described in the following pages  Use DR. MORSE'S INDIAN ROOT PILLS.

Give Morse's Indian Root Pills a Trial and be Convinced of their Merit.

DR. MORSE'S

Indian Root Pill Cook Book.

THE culinary art has never been so perfect as at present, and we have gathered a number of the best recipes and presented them to you along with a description of some of the benefits our Morse's Indian Root Pills confer. As the healing effects of medicine are only obtained by strictly following directions, so you cannot expect to make a success of cooking unless you strictly follow the recipes. Some people guess at the quantities required instead of carefully measuring them. The result is a hit or a miss sort of cooking. Sometimes it turns out well and then again it is a failure. The only sure way is to follow directions carefully.

BREAD.

Bread is one of the earliest, the most generally used and the most important food adopted by mankind. Nothing in the whole range of domestic life affects the health of the human family more than the quality of its daily bread.

Make bread sponge at night. If the weather is cold, warm the flour slightly for making the sponge and also that used in mixing the bread.

A few white mealy potatoes smoothly mashed and added to the sponge, will make the bread sweeter and keep it fresh longer. Make the batter rather

stiff; if after standing awhile, the top is covered with water, more flour is required. Great care must be taken that the sponge does not at any time become either chilled or overheated, as either condition will be ruinous. Mix the sponge as soon as light; it should be like honeycomb and about twice the bulk it was when set. Add flour to make a rather soft dough; if too stiff the bread will be hard and tough; the dough should not be at all sticky or wet and yet it must be soft.

Kneading is an important part of the process of bread-making—the more thoroughly it is kneaded, the whiter and finer of texture will be your bread. Allow to rise to twice the bulk that it was when you stopped kneading and mould at once into medium-sized loaves. When the loaves have risen to twice their original size, bake in a hot oven, and be sure that the oven is hot when the bread is light enough to be put into it; on no account have the bread wait for the oven to be heated. Three-quarters of an hour is sufficient time to allow for baking medium-sized loaves.

When taken from the oven, the loaves should be placed in such a position that they may cool without the crust being softened by the steam and covered with a thin cloth.

Brockville 1893

"THE BLOOD IS THE LIFE OF THE FLESH!"

AS all diseases arise from impurities of the blood, it is needless to impress the public with the necessity, "if you desire health," of keeping the blood pure and in a healthy state. To accomplish this it is necessary, once in a while, to cleanse the system of the many impurities which gather in the blood. The simplest way to do this is to avail yourself of a mild and healthful medicine which, taken once in a while, will purify the blood and keep the system toned up. Such a medicine we place before you in Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off the phlegm and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have

been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurities which cannot pass by other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find their way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes pure and clean.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for disease to be cast out; hence a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. HOP YEAST.

Four large potatoes, two quarts cold water, double handful of hops tied in coarse muslin bag, four tablespoonfuls of flour and two of white sugar. Peel the potatoes and put them in a sauce pan with the hops and the two quarts of cold water; boil until done. Take them out, mash them fine, work in the flour and sugar, moisten this gradually with the hop tea, working to a smooth paste. While lukewarm, add four tablespoonfuls of lively yeast. Keep in a warm place, stirring frequently. When it ceases to bubble up put in earthen jars with small mouths and set in cool places.

YEAST.

Grate two large potatoes, add three pints boiling water, one tablespoonful sugar, and one of salt. Stir altogether; when cold, add a cup of baker's yeast, let rise before you set it away.

BREAD.

Six medium-sized potatoes, boil and mash fine, take one teaspoonful salt, one-half cup sugar, add enough boiling water to make three quarts of sponge; stir in flour until thick, when cold add yeast, let rise till morning, then add flour to stiffen, work smooth, let rise, work down, then mold into pans and when light bake in a moderate oven.

BREAD--No. 2.

Dissolve a two-cent cake of compressed yeast in a tablespoonful of milk. Sift a pint of best flour, add to flour one teaspoonful of corn meal, one teaspoonful of white sugar, one-half pint of luke warm water, to this add the dissolved yeast. Set the mix-

ture in a warm place until it becomes light. Sieve three quarts of flour in a separate pan, add a lump of lard the size of a duck's egg, a tablespoonful of salt, and a tablespoonful of white sugar. Work lard, salt and sugar well into the flour, then add sponge or yeast and one quart of luke warm water. Work this well for twenty minutes. Grease bread on top and set in a warm place, when light work down again and set in the same place. When light work well and put in well-greased pans and grease the bread again on top. Bake when light. The oven should be judged by the baker herself. Took premium at Vigo county fair in 1889.

BAKED BROWN BREAD.

Three cups of graham flour, one cup of white flour, one cup of New Orleans molasses, one teaspoonful of soda, dissolved in hot water, two cups sour milk, bake one hour and a half in an oven not too hot.

CORN BREAD.

One cup corn meal, two cups sifted flour; into these rub one teaspoonful salt, nearly one cup granulated sugar, one tablespoonful lard or butter, and two teaspoonsful baking powder. Beat the yolks of two eggs and add to them a cup of milk, then stir into the other ingredients, adding enough more milk to make a thin batter; beat the whites and add the last thing. Bake one hour.

OAT MEAL CEMS.

Two cups of the finest oatmeal, two eggs, one tablespoonful of butter, one tablespoonful of sugar, one saltspoonful of salt.

Morse's Pills will Save Doctor's Bills.

Morse's Pills have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and an-

guish, but they at once go to work, at the foundation of the disease, which is the blood. Therefore it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

Thousands of testimonials on our files of many who were near the silent grave but have been raised to health, bear witness to the truth of what we say. Read these numerous testimonials very carefully and be convinced of the merits of this wonderful medicine.

A SHORT HISTORY OF DR. MORSE'S FATHER. ALSO SHOWING HOW THIS WONDERFUL MEDICINE WAS BROUGHT INTO USE.

The father of Dr. Morse was a fine-looking old gentleman, and spent his ninety-first birthday (20th of November, 1847) with his celebrated son and interesting family. A number of years ago this good man was very sick. He had eight of the most celebrated doctors attend him, both night and day. With all their skill, this good and pious gentleman grew worse and worse, and finally they gave him up, saying that it was impossible to cure him, and he would soon die. The next day, about nine o'clock in the morning, he called his wife to his bedside, saying: "How painful it is to die without seeing my son, our only child. Though I have spent large sums

of money to have him educated as a doctor, after which, to have him thoroughly understand how to cure diseases, I persuaded him to travel in far distant lands, among the savage Indian tribes, as then he would learn their successful way of curing diseases in nature's way, from plants and roots; the thought of my engaging him to go, as I am about to die grieves me much. But tell my son, when he returns, always to supply the wants of the poor."

Here he stopped being in great distress, but in a few minutes his pains ceased, after which he took a short nap, being the first of any amount for several days. In the afternoon he was taken with short-

Morse's Pills are Known All Over the World.

GRAHAM GEMS.

One pint sour milk, one teaspoonful soda, one of sugar, a little salt, one teaspoonful butter, and sufficient graham flour to make a stiff batter; bake in gem pans, in a quick oven.

MUFFINS.

One quart sweet milk, two eggs, two tablespoonfuls melted butter; one tablespoonful white sugar, two tablespoonfuls baking powder, little salt; flour to thicken stiff as pound cake.

CRUMPETS.

To one quart of bread dough break three eggs, separating yolks and whites, whip both to a light froth; mix with the dough and gradually add warm milk or tepid water until the batter is the consistency of buckwheat cakes; beat well and let it rise. Bake in small round cakes on a hot griddle.

APPLE FRITTERS.

Make a batter with one cup sweet milk, one teaspoonful sugar, two eggs, whites and yolks beaten separately, two cups flour, two teaspoonfuls baking powder mixed with flour. Chop some good tart apples, mix in the batter, and fry in hot lard. Serve with maple syrup.

—(†)—

MEATS.

POTTED SHANKS.

Boil till very tender two shanks of veal; boil six eggs hard; when both are done, chop fine; for seasoning, add salt, pepper, one-half a grated nutmeg,

one teaspoonful ground celery seed. Mix all thoroughly with a half pint of the liquid the shanks were boiled in. Strain the liquid while it is hot. If there is more than half a pint, reduce by boiling till that amount is obtained. This liquid is necessary to make the meat press nicely. Form into a mould and put on ice for twelve hours.

MEAT BALLS.

Meat that has been used in making soup is not generally regarded as of much value, but it may be utilized by the economical housekeeper, and a very palatable dish made from it as follows: Remove the meat from the bones, add any scraps of cold steak or veal, a slice or two of breakfast bacon, three or four tablespoonfuls of stale bread crumbs, seasoned highly with pepper and salt; chop all together in hash bowl or run through meat cutter; make into cakes and fry in hot lard or butter; serve hot.

HAMBURG STEAK.

One pound beef, one large onion, two pinches salt, one pinch pepper, two slices bread—chop altogether very fine, place in pan, and add one raw egg, with the hand mix together well, have some hot olive oil (or half lard and half butter), be sure it is hot; make the meat in balls the size of an orange, dip in flour and place in the hot grease; let cook slow. Serve with a poached egg on top.

BEEFSTEAK SMOTHERED IN ONIONS.

Fry brown four slices of salt pork: when brown take out the pork and put in six onions sliced thin. Fry about ten minutes, stirring all the while; then

Have You Tried Morse's Indian Root Pills?

ness of breath and supposed to be dying. The neighbors were sent for, the room was soon filled, and many prayers were offered up from the very heart of the dear Christian people that some relief might be obtained for this good and pious man. While these prayers were ascending, like sweet incense to the throne above, and every eye was bathed in tears, a rumbling noise was heard in the distance, like a mighty chariot, winding its way nearer, when all at once a fine span of horses, before a beautiful coach, stood before the door, out of which alighted a noble and elegant-looking man. In a moment's time he entered the room and embraced the hand of his father and mother. She clasped her arms around his neck and fainted away. The Doc-

tor surprised to see his father so nearly gone, immediately went to his coach, taking therefrom various plants and roots, which he had learned from the Red Men of the forest as being good for all diseases, and immediately compounded them together, and gave them to his father, and in about two hours afterwards he was very much relieved. He gave him small doses every three or four hours, just to keep his bowels regular and have them cleanse and purify his blood. Two days after he, was much better, and the third day he could walk about the room. He has occasionally taken them ever since, and now we behold him, a strong, active man, and in the bloom of health and at the age of ninety-five, able to ride in one day thirty-five miles, in order that he

A FOUL STOMACH, AND NO APPETITE.

Loch Side, Loch Lomond, Richmond Co., N. S.,
The W. H. Comstock, Co. L'td. April 10, 1892.

Dear Sir :—Many years ago my bowels bothered me considerably. I neglected them, thinking as many men do, that I was strong and healthy, and would easily throw the trouble off. However, the more I neglected myself, the worse I grew, until what was a costiveness, became a foul stomach. I lost my appetite, grew thin, and what had been very simple became a very severe and complicated case.

For some years I tried doctor after doctor, but with no good results, at times I would think that I was gaining, but, alas, it was but an illusion, and as time went on I grew worse and worse, until my food consisted of water and a few hard-tack biscuits during the day. I had about given up all hope of ever receiving any help for my disease and had quite made up my mind, that for the few years of life left, that my cross was to be that I should journey on life's rough way, a starving, complaining, sleep-

less, disagreeable Dyspeptic, a trial to my friends, and a nuisance to myself.

About this time I came across one of your little pamphlets and resolved to give your Dr. Morse's Indian Root Pills a trial, and bought one box, and began to take them. At first I noticed no improvement but I persisted, according to directions, and was amply rewarded for my patience. The Pills began to operate and benefit me, my bowels gradually grew more regular, and I began to gain flesh. After about three months I was a new man, quite as well as I ever had been in the whole course of my life. This was over three years ago. I still continue to keep your valuable Pills in the house, taking them once in a while to keep the system in good order, purify the blood, and regulate the bowels.

I feel it my duty to write you this note and ask you to publish it so that if any person, suffering as I did, comes into possession of your book, they will see what the Pills have done for me, and they may prosper by my experience. Believe, Dear Sir, Yours gratefully,
KENNETH MCLEOD, P. M.

One of the Best Remedies Known for the Cure of Headache.

take out all except a thin layer, and upon this lay a slice of steak, then a layer of onions, then steak, and cover thick with onions. Dredge each layer with pepper, salt and flour. Pour over this one cupful of boiling water, and cover tight. Simmer half an hour. When you dish place the steak in the center of the dish and heap the onions around it. Serve the same vegetables as for broiled steak.

TURKEY DRESSED WITH ONIONS.

For a ten pound turkey take two pints bread crumbs, half a cupful butter cut in bits, one teaspoonful of powdered thyme, summer savory or sage, pepper and salt, mix thoroughly; rub the turkey well inside and out with salt and pepper, then fill first with a spoonful of crumbs then a few well drained oysters, using a can for a turkey; strain the oyster liquor and use it to baste the turkey; cook the giblets in the pan, and chop fine for gravy; baste often, roast until tender.

ESCALLOPED OYSTERS.

Butter a baking dish, sprinkle a layer of finely rolled cracker crumbs, then arrange a single layer of oysters over the crumbs, placing them close together. Moisten this well with liquor from the oysters. This will suffice to moisten the cracker unless the latter is used too liberally. Season with pepper, salt and a generous allowance of butter cut into bits. Put on another layer of cracker crumbs, then more oysters and seasoning, alternating layers until the dish is full. Make the top layer of crumbs thicker than the others, put seasoning over the crumbs last, and add a little milk or cream. Moisten well, and

bake in rather a quick oven. A slow oven and too long cooking will ruin them.

LITTLE PIGS IN BLANKETS.

Season large oysters and cut very thin slices of bacon, about two by three inches, wrap the oyster in bacon and fasten with small wooden toothpicks, and cook a nice brown; serve with picks in them.

VEAL PATTY.

Three pounds of finely chopped veal, one pound of finely chopped pork, six large crackers rolled fine, three eggs well beaten, two large spoonfuls of sweet cream, one teaspoonful of salt, one teaspoonful of pepper. Use powdered sage, thyme or sweet marjoram to suit the taste. Mix all well together, and form into a loaf. Baste with butter and water while baking. Bake one and one-half hours.

BOILED FISH.

Clean and wash the fish, tying in a well-floured cloth, and place in a kettle of boiling water salted; boil from three-quarters of an hour to an hour.

DRAWN BUTTER SAUCE.—Cream well together: one-half cup of butter, two tablespoonsful flour, add one-half pint boiling water, allow to come to boiling point, remove from stove; season, pepper and salt.

BAKED FISH.

Dress, wipe dry and salt a large fish. Fill with one cup of bread crumbs, in which has been minced a lump of butter the size of a hickory nut, parsley, sage, a small slice of bacon, one slice of onion, one egg, a pinch of salt and pepper; moisten all with water, fill and bake. Cover until tender, then remove cover and brown.

For Coughs and Colds Use Dr. Morse's Indian Root Pills.

might spend his birthday with this celebrated Doctor his son.

The above astonishing cure was sounded in every ear, and re-echoed throughout the land as a most wonderful cure. Many persons afflicted with various diseases immediately applied for the Pills. So powerful in strengthening, and so wonderfully did they cure them of all their diseases and so great was the call for the Pills, both far and near, that it was impossible for the Doctor alone to make them fast enough, as there was not a moment through the day but there were, to say [the least, eight or ten, sometimes upwards of thirty, to the office at a time to get these Pills. So sure were they to relieve the sick, and with so much success did they cure all manner of diseases, that he entirely laid aside his former way of practicing, and prescribed them for every complaint.

WRITTEN FOR THE SAKE OF OTHERS.

Kinmundy, Ills., May 1, '93.
"The W. H. Comstock Co., L't'd.,"
Morristown, N. Y.,

Sirs :—I have taken a great deal of medicine in my life, but no medicine ever helped me so much as your Dr. Morse's Indian Root Pills, which I consider the best blood-purifier in the world. I cannot live without them. Hoping this may be the means of helping some other poor sufferers. I remain

ORA F. CRAYCROFT.

"The fire is getting low, Matilda. Shall I put some coal on?"

"It's hardly worth while, John. It's most bedtime.

"Then I'll only put a semi-colon."

WHY WILL YOU DELAY ?

Why neglect that disease which is taking such a deep root, and which gives you warning by that hacking cough, that you are fast ripening for eternity? Why encourage that pain in the side, the raising of blood, those night sweats, or that difficult breathing, which silently whispers in your ear that something must be done to save you from the grave of the consumptive? Why act so carelessly by permitting that disease to destroy your health and hasten you to the tomb, from whence no traveler yet returned?

SILENCE THAT DREADFUL COUGH,

Or death must carry you to your silent grave. Why delay while there is yet hope? Consumption is caused by impure humors of the blood, being deposited in the cells of the lungs. Hence, the lungs

ADAPTED TO THE CLIMATE.

Basile, La., May 2, '92.
"The W. H. Comstock Co., L't'd."

Sirs :—It affords me much pleasure to add my testimony, as to the value of Dr. Morse's Indian Root Pills. I have used them for the past three years and find them better adapted to this climate than any other Pills I have ever used. If two or three Pills are taken each week, it wards off malaria and keeps the system in good order. Yours very truly,

L. F. SCHAMRER.

Mother—"Don't tread on that poor worm, Charlie I didn't think you were so cruel."

Charlie—"But ma, I read that if you tread on a worm it will turn, and I want to see what it will turn into."

Have You Tried Morse's Pills for Dyspepsia?

PICKLES.

SWEET PICKLES.

To seven pounds of fruit add three pounds of sugar and one pint of vinegar ; spice to taste.

TO PICKLE PEARS WHOLE.

Take three pounds of pears, peel them and cut out the ends, leaving the stems in, put them in a preserving kettle, with one quart of water, and boil until a fork will go through them easily, then lay them out on a dish ; add to the juice one and one-half pounds of sugar, one pint of vinegar, some stick cinnamon, whole cloves and race ginger ; boil all five minutes and skim, put in the pears and boil them until the syrup thickens, then take them out in a jar, and after the syrup has boiled a little longer pour it over them. If, after standing a few days, the syrup should become thin, take it off and boil again.

DELICIOUS PICKLES.

One peck of green tomatoes, one-half peck of ripe tomatoes, one dozen large cucumbers, one dozen green mango peppers, one dozen red peppers, one-half dozen onions, four heads of cabbage, one bunch of celery (one dozen small bunches). Chop peppers and onions together, the remainder chop separately. Sprinkle each with salt, let stand over night. In the morning drain all the water from it and add two pounds of dark brown sugar, two stalks of horse-radish chopped fine, one tablespoonful of white mustard seed, one ounce of turmeric, one tablespoonful of ground cinnamon, mix together thoroughly, boil enough vinegar to mix it well, let it get cool, pour

over the pickles, add a small quantity of celery seed if you wish. Can and seal. This will make about two gallons.

CHILLI SAUCE.

One-half bushel ripe tomatoes, four good sized onions, four red peppers chopped fine, ten tablespoonfuls sugar, five tablespoonfuls salt, nine teacupfuls cider vinegar. Boil one hour and bottle.

(†)

PIES.

RICH PASTRY.

Rub one heaping tablespoonful of lard into one quart of sifted pastry flour until it is fine, like meal. Beat the white of one egg slightly, add three-quarters of a cup of ice water and stir it into the flour, adding more water carefully if needed, until it is as soft as can be rolled. Scrape it out on a well-floured board, turn it over until well covered, and then roll out about half an inch thick. Cover the surface with little dots of butter, using in all about one cup and a half. Dredge with flour, fold the sides to the centre, roll over to the end, turn it half way round and pat it down till flat. Then roll into a long, thin strip, and fold in three folds. Turn half round again, roll out, fold in three layers, and put in a cold place for half an hour. Roll as required for the rims and the upper crusts of pies.

PUMPKIN PIE.

To one pie take one egg, two thirds of a cup of sweet milk, two tablespoonfuls of sugar, two heaping tablespoonfuls of stewed pumpkin thoroughly mashed. Season to taste with nutmeg or cinnamon.

To Keep in Good Health Take Morse's Pills.

are like a spring of water, when roiled up by the dirt and mud; if clear water constantly flows through the spring, impurities or mud will be conveyed away by the pure water. Just so with the blood when kept in a clean or pure state; as it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be the result. From two to four Pills taken every night, or every other night, or enough to keep the bowels regular, will in a reasonable time cure consumption. The reason these Pills are used more than all others is because they are made of purifying vegetables, and cleanse the body from all corrupt matter and drive out disease of every description quicker and in a milder way than other pills.

INFLUENZA AND COMMON COLD,

Like thieves in the silence of the night, have carried many to the silent grave. They are caused by a sudden check of perspiration, by which the stomach is rendered inactive and the lungs become loaded with corrupt matter, which enters the blood, and disease is the result. For all colds, coughs and chills, succeeded by heat, and all fevers of every form,

hoarseness and rawness of the throat, lungs and stomach, and for weakness and sickness of every kind, from three to five of these Pills on going to bed, for a few days, will be all that you require to restore you to perfect health. It has been admitted and claimed all over Europe that there never "was a medicine that will extirpate all manner of disease from the system, equal to Dr. Morse's Indian Root Pills; that the more you take of them, the stronger you grow." They are founded on the principle that the human family is subject to but one disease, namely corrupt humors. These Pills not only cleanse the bowels, but also follow the blood through every vein and artery, and so purify it from all morbid and corrupt humors that disease of every name is driven from the body.

GREAT FEMALE MEDICINE.

Females who value health should never be without these Pills. It has been admitted by a number of physicians that females cannot too highly value them. They have given health and spirits to hundreds of females, who without them, would have been in their graves. They purify the blood, remove

PAINS IN THE SIDE AND STOMACH.

Brunswick Co., Va.

"The W. H. Comstock Co., L^{td}."

Sirs:—For the past eight or ten years I have been using your Dr. Morse's Indian Root Pills in my family and consider there is none to equal them. I am frequently attacked with pains in my side and stomach and the Pills always relieve me. They are a blessing to humanity.

Respectfully,

MRS. SALLIE CALLIS.

TAPE WORM 48 INCHES LONG.

Basile, La., May 92, '2.

"The W. H. Comstock Co., L^{td}."

Sirs:—I have been ill for the past two months. Not knowing what was ailing me, I went to your agent and got a box of Morse's Indian Root Pills. I took them according to directions and rendered a tape worm four feet in length. Since then I have been well and happy.

Yours respectfully,

HATTIE OLIVER.

Of all Known Remedies Morse's is the Best.

LEMON PIE.

To one lemon, take two eggs beaten separately, one and one-quarter teacupfuls of sugar, two tablespoonfuls melted butter, two tablespoonfuls corn-starch, one pint boiling water ; grate the rind and take out the tough part, slice very thin and beat it well in the sugar.

MINCE PIE.

Two pounds of suet, two pounds of raw beef, two pounds of raisins, two pounds of currants, four pounds of apples, one pound of citron, three pounds of sugar, four oranges, one quart of wine, one quart of brandy, spices to taste.

CREAM PIE.

One pint boiling milk, one cup sugar, two eggs, one tablespoonful of flour, butter the size of an egg. a pinch of salt, add the butter, flour and yolks of eggs with three-fourths of the sugar to the boiling milk, then have ready a nicely baked crust in a deep pie tin, add the filling and return to the oven until done, then beat the whites of the eggs to a stiff froth with the remaining sugar ; put on top ; let it brown lightly.

—(4)—

DESSERTS.

MOONSHINE.

Beat the whites of six eggs into a very stiff froth, then add gradually six tablespoonfuls of powdered sugar, beating for not less than fifteen minutes, then beat in one heaping tablespoonful of preserved peaches cut in tiny bits. In serving pour in each

saucer some cream sweetened and flavored with vanilla, and on the cream place a liberal portion of the moon-shine. This quantity is enough for eight persons.

CHARLOTTE RUSSE.

Beat the yolks of four eggs and stir them into one pint of scalding milk, boil like custard, and set away to cool ; pour a large cupful of warm water over a half box of gelatine, set it in the stove, but do not let it get hot ; beat the whites of the eggs very light and add enough pulverized sugar to make stiff, then whip one pint of good cream and stir into the custard, then the whites flavored with vanilla. then the gelatine well dissolved ; mix thoroughly and set away to cool (about two hours). Line your dish with either sponge cake or lady fingers, and fill with mixture. Let it stand five or six hours.

ORANGE CREAM.

One-half pint of good cream whipped to a froth, three oranges, the juice only used, three tablespoonfuls of white sugar, one lemon, the juice only used, rub the rind of one orange smooth in the sugar, then scrape off with a knife ; mix all together and add three tablespoonfuls of gelatine boiled in one-half pint of water ; stir all together and set away in a mould. When wanted turn out and serve with cream.

TUTTI-FRUITA GELATINE.

One-half box gelatine, soak two hours in one cupful cold water ; add two cupfuls of sugar, juice of one lemon one quart of boiling water : stir well, pour into a mould, drop in one pound of white grapes, well polished, and one pound of shelled English walnuts. Set on ice to harden.

Take Morse's Pills. Satisfaction Guaranteed.

obstructions, and give the skin a beautiful, clear healthy and interesting appearance. A box of these Pills is a great medical companion at certain periods. From one to three should be taken every day until relief is obtained. A few doses occasionally, when well, will keep the system in a healthy condition.

THE BOWELS AND THEIR FUNCTIONS.

As perfect health is the greatest blessing that we can enjoy, without which all other blessings are of little consequence, we deem it of great importance to point out the way for you to enjoy it. The bowels must be kept in a state by which you are enabled to carry off the useless matter. They are the main channel which nature has appointed to carry everything unnecessary, and it is impossible to tell what a large amount of sickness has been caused by constipation or costiveness; in other words, by not keeping the bowels regular; it is the main road to all diseases; it is the cause of unnatural irritation to the mucous or lining membrane of the bowels. Hav-

ing lost their natural strength, they cannot object to what is required of them. Hence the bowels become inflamed, and unless you find a speedy relief, a thousand other complaints are ever ready to drag you through a miserable and wretched life. Such medicines must be given as will cleanse the stomach and bowels, and restore their natural strength. To accomplish this there is no compound so valuable as these Pills; all other medicines sink to utter insignificance in comparison; it seems as though the Author of Nature had designed them for this, as well as other complaints. From two to five Pills will increase strength and appetite, and cleanse the stomach and intestines from whatever is injurious.

INFLAMMATION OF THE EYES,

Like all other inflammation, is caused by impurity of the blood, which causes all eruptive diseases; as Salt Rheum, Scurvy, Boils, Sores, Ulcers, etc. The blood being unhealthy and of an impure nature, also occasions Dropsies. The blood becoming obstructed in

NERVOUS HEADACHE.

Butcher, N. C. April 5, '92.

"The W. H. Comstock Co., L^{td}"

Sirs:—My wife having been troubled with a nervous headache for a number of years, has used several kinds of medicine but received little or no benefit. Your Morse's Indian Root Pills were recommended to me and I bought a box and asked her to try them. She took them according to directions and was so much better that we have never been without them since, and she takes a dose every week or two.

Respectfully,
J. T. POINDEXTER.

BETTER THAN ANY ORHER PILL.

St. Pierre, Martinque, W. I., June 17, '92.

W. H. Comstock, L^{td}.,

Sir:—Your representative, has asked me to give my opinion of your Morse's Indian Root Pills. The fact that they are good Pills is proved by the quantity I sell. I got two gross from your agent when he was here and have ordered ten gross from you direct, since, of which lot I have but a few on hand. These Pills are a purgative and at the same time act on the stomach and liver. They sell better than any other Pills. With respects I am, very sincerely,
BERTE' ST. ANGE.

Purify your Blood by Using Morse's Pills.

STRAWBERRY SHERBET.

One quart of strawberries, three pints of water, one lemon, the juice only, one tablespoonful orange flower water, three-fourths of a pound of sugar. The strawberries should be very ripe, crush to a smooth paste, add the rest of the ingredients except the sugar, and let it stand for three hours; strain over the sugar, stir until sugar is dissolved, strain again and set in a pail of ice for two hours or more before using.

LEMON AND ORANGE ICE.

Four lemons, four oranges, the whites of six eggs, one pound of sugar; squeeze the lemons and oranges and strain the juice; add about a quart of water, pour in the sugar and eggs beaten to a stiff froth, and freeze as ice cream, only churning harder at first to make it light.

APPLE DUMPLING.

Halve, core and pare juicy cooking apples, one cupful hot water, one-half cupful sugar, butter the size of an egg. Put in sauce pan and cook slowly while preparing a baking powder crust, roll thin, cut in squares large enough for each half apple. Fold neatly and place in baking dish or pan, leaving a little space between and over all pour the hot syrup and bake twenty or thirty minutes. Serve with sugar and cream.

LEMON ICE.

Three pints cold water, juice of four lemons, one pound of granulated sugar, mix and strain; add the white of one egg, drop egg in without beating. Freeze.

CAKES.

CALLA LILLIES.

Use dough made for any good sponge cake. Put a tablespoonful of dough in a pie tin; when done roll while hot in the shape of a cornucopi, fasten with a toothpick. When cool fill with whipped cream sweetened and flavored to taste. When ready to serve arrange in a suitable dish with calla lillie leaves.

FRUIT CAKE.

One pound of butter, one pound of raisins, one pound of currants, one pound of brown sugar, one-half-pint of molasses, one pound of almonds, one-fourth pound of citron, ten eggs, two pints of sifted flour, one tablespoonful each of the spices. Seed the raisins and blanch the almonds, mix all thoroughly together and bake an hour and a quarter in a moderate oven.

CREAM PUFFS.

One and one-half cups of flour, two-thirds of a cup of butter, one-half pint of boiling water. Boil butter and water together, stir flour in while boiling, let it cool, add five well beaten eggs. Drop in buttered tins and bake thirty minutes. *Filling*.—One pint sweet milk, one cup sugar, two eggs, two-thirds cup of flour. Beat the eggs, sugar and flour together and stir in the milk while it is boiling—flavor to taste.

CAKE WITHOUT EGGS.

One cup of sugar, one cup sweet milk, two cups sifted flour, two teaspoonfuls baking powder, one teaspoonful lemon or vanilla; beat thoroughly and add five tablespoonfuls melted butter.

Morse's Pills are Good for all Complaints.

the veins, that watery part of the blood in consequence is thrown out from their extremities, and dropsy is the result. Many times it is occasioned by improper treatment of some former disease, and the vessels being filled by serous humor instead of blood.

Free evacuations by these Pills open the passage into the bladder and carry off the corrupted humors, and renew them with a pure and healthy blood, which will drive out of the body all inflammation, together with eruptions of the skin and all dropsical complaints. They will be a shield to every form of disease to guard and keep you from the cold, grasping hand of death, and cause life and strength to remain, and the countenance to brighten with the bloom of beauty and health.

DISEASE OF THE STOMACH.

The stomach is most liable to get out of order. Hence how important that no diseased matter clog its operation, which would cause nausea and distress by our food. It also weakens the brain, destroys the memory, creates pains, dizziness, and various affections in the head. It produces great difficulty in

breathing and swallowing. Sometimes fainting and fits will ensue; also bad breath, restlessness and great loss of strength. If not immediately attended to, the blood will carry the disease through the whole system, and death will end the work. From two to five of these Pills a day will keep the digestive organs in a healthy condition, and unclog or carry away all impure matter, and thoroughly restore and cleanse the stomach; at the same time the Pills will so purify the blood, as to drive all manner of disease from the system.

WORMS.

In a quantity of corrupted matter, there is always to be found a nest of worms. They cannot, neither will they stay any place else. Weak stomachs and bowels are subject to them, as they have not sufficient power to digest their food. Hence a large heap of matter is lodged, and worms must be the result. A few doses of these Pills will disturb them in their nest, and drive them out of the system.

It should be remembered, that an occasional dose when in health, especially after taking cold, will prevent the disease from forming in the body.

MORSE'S PILLS HAVE DONE IT.

Siler, Va., April 4, '92.

"The W. H. Comstock Co., L't'd."

Sirs:—Since using your Dr. Morse's Indian Root Pills I have become so improved in health that my friends say I do not look like the same person; I tell them Morse's Pills have done it. They prove successful in all cases of nervous disorders.

Respectfully yours,

WM. DEHAVEN.

KIDNEYS AND BLADDER.

Columbiana, Ohio, May 2, '92.

"The W. H. Comstock Co., L't'd."

Sirs:—I have been using your Morse's Pills for three years for lame back and difficulty in making urine, being troubled with stricture or contraction of neck of the bladder. I find they work like magic and relieve me greatly.

Respectfully,

C. A. KELLOGG.

(Inventor of Kellogg Section-Knife Grinder.)

A Genuine Article is Always the Cheapest.

ANGEL FOOD.

Whites of eleven eggs, one and a half cupfuls granulated sugar, one cupful pastry flour, after it has been sifted four times, one small teaspoonful of vanilla, one small teaspoonful cream tartar; add the cream tartar to the flour and sift again; beat the eggs to a stiff froth, add sugar to the eggs, add the vanilla, then the flour, stirring quickly and lightly, beat until ready to put into the pan, then bake it in a pan kept expressly for this cake; do not grease the pan; bake forty minutes in a moderate oven.

LOVE KNOTS.

One egg, four tablespoonfuls sweet cream, two tablespoonful sugar, a pinch of salt, flour to knead very hard. Roll out, cut in narrow strips, tie each one in two or three knots and fry in hot lard; sprinkle with white sugar while hot.

COOKIES.

DEACON COOKIES.

Three eggs, one cup sugar, one cup butter, two teaspoonfuls of baking powder, add enough flour to make a soft dough, add flavoring to taste, roll thin and sprinkle with sugar, then cut out and bake in a quick oven. Try this if you want the best cookies you ever ate.

YORK STATE COOKIES.

Four eggs, two cupfuls sugar, one cupful butter, one scant teaspoonful soda dissolved in a large spoonful of sour milk, add flour to mix soft; nutmeg or caraway seeds may be used also if desired.

CHOCOLATE COOKIES.

One-half cup of butter, two cups of sugar, three eggs, three teaspoonfuls of vanilla, three cups of flour, three teaspoonfuls of baking powder, and one-half cup of Baker's chocolate. Put the sugar, flour, baking powder and chocolate together and stir them thoroughly, then put the eggs, butter and vanilla in something else and whip well, then add a little at a time the dry part and stir all the time.

COOKIES WITHOUT EGGS.

One cup of butter, one and one-half cups of sugar, a small cup of sweet milk, a large teaspoonful of baking powder sifted with flour, or sour milk with soda—a half teaspoonful; roll out and sprinkle with hickorynut meats and coarse sugar, roll lightly and cut into form. Bake in a quick oven a few minutes.

FAVORITE COOKIES.

One cup of butter, one and one-half cups of sugar, one-half cup of sour milk, one level teaspoonful of soda, a teaspoonful of grated nutmeg (less will do), flour enough to roll; make quite soft, put a tablespoonful of powdered sugar on a plate and dip the tops of each cake as you cut them out; place on buttered tins and bake in a quick oven to a light brown, and they will be your favorites ever after.

GINGER COOKIES.

One cup New Orleans molasses, three-quarters of a cup of sugar, three-quarters of a cup of butter or lard, one tablespoonful of ginger, one tablespoonful of cinnamon, one-tablespoonful of soda, four tablespoonfuls of hot water, and flour enough to make quite stiff.

Read our Numerous and Genuine Testimonials.

DISEASE OF THE LIVER.

By this disease, we understand an inflammation either in the membrane or substance of the liver known by dull pains in the right side, the stomach always disordered, the yellow tinge of the skin, dry cough, tongue coated, costiveness, high colored urine, and of a thick nature, severe weakness, and severe pains in the head.

The quantity of corrupted humors in the region of the liver, causes a defective secretion of the bile. The liver, when healthy, serves as filterer to the blood, to separate all impurity from it or to refine it. When diseased, it cannot purify the blood, which, when sent to the lungs, brains, and other parts in a morbid condition, may cause Jaundice, Consumption, Insanity, etc., and withholding the natural stimulus to the intestines, causes Dyspepsia, Piles and other complaints as you perceive, the direct way to unravel and tear the whole system to pieces.

A LIFE SAVED! JAUNDICE CURED.

Nuttsville, W. Va.

"The W. H. Comstock Co., Limited."

Sirs:—I have been selling your Pills for four years. My customers cannot do without them. My son was suffering from Jaundice and his life was despaired of. I began the use of your Morse's Indian Root Pills with him and after giving them to him according to directions a few time, we all saw an improvement which continued and we feel sure they saved his life.

Yours truly,

LAURA A. NUTTER.

FEVERS.

Fever, like every form of disease to which the human system is liable, is caused by impure humors. This being caused by a more rapid action of the blood struggling with nature, in endeavoring to cast out of the body corrupt matter which is deadly opposed to health. Hence, the good and bad humors are at war with each other, and the commotion which follows causes fever or heat. The symptoms of fever are various; causing heaviness, anxiety, sighing and yawning, alternate fits of heat and cold, after which the patient complains of pains in the head and back, great thirst, nausea and sickness, a fullness about the stomach, and of vomiting bilious matter. Dr. Morse's Indian Root Pills are acknowledged to be a strengthening and delightful medicine for all kinds of fevers. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the nat-

A CURE FOR TETTER AND SALT RHEUM.

Ripley, Miss., April 22, 1892.

"The W. H. Comstock Co., Limited."

Sirs:—One of my daughters has been afflicted with Tetter or Salt Rheum for some time. She has been using your Dr. Morse's Indian Root Pills lately and finds they do her more good than anything else she has ever tried; she is now almost cured. I have used them for the last five years as have my neighbors for miles around. They never fail to give entire satisfaction.

Yours very truly,

MRS. A. PEARCE.

These Pills are sold East, West, North and South.

SUGAR COOKIES.

Two cups sugar, two-thirds cup of sour cream, one-half cup of butter, three cups flour. Mix and roll thin and bake in a quick oven.

GINGER SNAPS.

One cup of brown sugar, two cups of New Orleans molasses; one tablespoonful of soda in two tablespoonfuls of hot water, one cup of butter rubbed in two quarts of flour, one tablespoonful of ginger, one teaspoonful of cinnamon, one teaspoonful of cloves, one-half teaspoonful of black pepper, one-fourth teaspoonful of alum. Mix and let stand one night, then roll out thin and bake.

GINGER DROP COOKIES.

Three eggs, one cup of lard, one cup of molasses, one and one-half cups of brown sugar, one tablespoonful of ginger, one tablespoonful of soda dissolved in a teacup of boiling water, five and one-half cups of flour. Mix thoroughly and drop a tablespoonful in a greased pan and bake quickly.

—(†)—

CANDIES.

In making candies the preparation of the sugar is the first thing to be considered. The best quality of granulated sugar should be used in the proportion to one pound to half a pint of water. Stir till the sugar is dissolved *but no longer*. When the sugar begins to boil watch carefully. Take out a little and drop in cold water. When it is brittle and breaks like glass, it is ready for all kinds of clear and hard candy, and should be taken from the stove.

ROCK CANDY.

The various kinds of rock candy are made from the foregoing. It can be kept as unflavored, or vanilla, lemon, orange or any other kind of flavoring be added.

STICK CANDY.

Boil three pounds of granulated sugar with half a pint of water; let it dissolve slowly on a cool part of the range; then add a large tablespoonful of vinegar and a teaspoonful of gum arabic dissolved in very little water. Boil till it is brittle, then remove from the fire, and flavor with vanilla, peppermint, cinnamon or whatever you wish, only remembering that all work must be quick. Rub the hands with sweet oil or butter, and pull vigorously till the candy is white; then twist or braid it, or pull it out into long thin strips, and cut it off.

MOLASSES CANDY.

Put a quart of molasses in an iron saucepan, set it over a slow fire and boil for half an hour, watching and stirring to prevent it boiling over. Remove a moment from the fire, if it boils too high. When the candy begins to thicken, add half a teaspoonful of dry and sifted baking soda. Try in ice water, and when brittle pour it out an inch deep on greased pans.

CREAM TAFFY.

One cup granulated sugar, one tablespoonful vinegar, one-half cup water. Let ingredients boil until the candy will crack when dropped in cold water. Pour into buttered pan to cool, then flour the hands, and pull the taffy until white.

For Strengthening Weak Nerves Take Morse's Pills.

ural passage of the body. All that is required, in urgent cases of fever, will be to take large doses. In order to have them operate thoroughly by the bowels, take from three to five night and morning, until the fever entirely disappears, after which, from two to four every evening until well, and you will be convinced that this is the best way to check fever, because they drive out all inflammation, and restore the body to a state of sound health. And the blood and other fluids will be so thoroughly purified that disease in any form will be utterly impossible.

GRAVEL AND STONE.

By this we understand a collection of sandlike substance having been lodged in the passage of the urine. When the system is in a healthy state, the substance is carried off by the natural passage of the body; but when there is a weakness of any organ, especially the kidneys, they become incapable of expelling such sandy secretions, and consequently they are lodged in the kidneys, urethra, or the bladder, causing great inflammation to those organs, and great pain and swelling, and great difficulty in voiding urine. It has been admitted by many physicians, that these Pills are made of some

peculiar plants which have a wonderful charming influence in dissolving the substance which has clogged the passage, and by their cooling properties they expel all inflammation and leave the water passage in an active and healthy state.

From three to four of these Pills taken night and morning, from one to three weeks, will decide how this dreadful disease is to be treated, and as they remove the cause of every kind of disease, it is utterly impossible for them to fail in curing the gravel, as they unclog the passage, and leave the parts in a healthy and lively condition.

GIDDINESS, HEADACHE, ETC.

These pains and disagreeable feelings are generally symptoms of some other complaint; such as Dyspepsia, Apoplexy and various others, all of which are caused by corrupt, noxious matter, clogging the various circulations; hence, a stream or rush of blood to the head, and by the excitement a great pressure on the brain. Giddiness, headache, loss of memory, dimness of sight, and various other complaints are the result. Thus it will be seen, that all the above painful and distressing maladies owe their origin to the blood. Dr. Morse's Indian Root Pills

HAVING LARGE SALES.

Lucea, Feb. 8, '92

Dear Sir:—Your Morse's Indian Root Pills are the best I have ever used or sold. They have a very large sale and are thought of very highly in this section of the country.

Yours truly,
FRANK HENRY,
Chemist and Druggist.

THE BEST SELLER.

Port of Spain, Trin., April 10, '92.

Dear Sir:—Morse's Indian Root Pills sell very quickly. They have taken the place of all other Pills since their introduction here.

Yours truly,
J. F. REIS,
Chemist and Druggist.

Never be Without Morse's Pills in Your Home.

POP CORN BALLS.

The cheaper ones, and on account of the flavor of the molasses candy, those preferred by many, are made with molasses candy soft boiled. A sufficient quantity of fresh popped corn is put in a bowl and the molasses candy poured into it. While still warm, stir it until the corn and sugar adhere, then lift out a large spoonful and press it into a ball; do the same with the rest and put them to harden in a cool place.

TAFFY.

One and one-half pint of soft A sugar, one-half pint rich cream, one tablespoonful vinegar. Boil until it hardens when dropped in cold water.

HICKORY-NUT MACAROONS

Beat the whites of two eggs to a froth, add slowly one cupful pulverized sugar, and one cupful of nuts, chopped fine; mix thoroughly and drop on buttered tins. Bake slowly.

BUTTER SCOTCH.

Three tablespoonfuls of white sugar, three of molasses (Orleans preferred), two of water, one of butter, and a very small quantity of soda. Boil until it is brittle.

WALNUT CREAMS.

Chop fine one-half cup English walnuts, and drop into fondant while boiling. Let boil a few minutes, remove from the stove and beat into a cream as in the fondant.

SOUPS.

SOUP.

For six or more persons select a beef soup bone, add three quarts of water, boil and remove all scum that rises, add one onion, one potato, one carrot, a little cabbage, celery, parsley and one-half can tomatoes, also giblets of poultry if you happen to have any, cover up tight; put on as early as eight o'clock, for a twelve o'clock dinner; add salt to taste, strain a half hour before dinner and take off fat, put in noodles and allow to boil five minutes. Use this same stock for all kinds of soup. NOODLES.—Beat an egg light in a bowl, sift a large handful of flour into this, stir until the dough is stiff, empty the dough on a baking board and knead with the hollow of your hand, until the dough is quite stiff; roll out as thin as possible, lay on table near the fire to dry; cut in halves and fold, cut as fine as possible.

CREAM TOMATO SOUP.

Put six ripe tomatoes or one can, on to stew with one medium sized onion and one small stalk celery; when cooked very soft, rub through a sieve, and season to taste with salt and pepper. Heat in a double boiler one pint of milk, thickened with two teaspoonfuls of flour rubbed smooth in a very little cold milk. Cook ten minutes, and add two heaping teaspoonfuls of butter. Add to the tomato one-half teaspoonful of soda (canned tomatoes need a little more soda than fresh ones), stir well and add the boiling milk. Do not cook after the milk is added, as the soup will be apt to curdle, but strain, and serve immediately with salted wafers.

Take Dr. Morse's Indian Root Pills for Headache.

are acknowledged to be the only medicine that will thoroughly purify the blood. They enter the stomach and unite with the blood, and follow the stream of life on its journey through the system. They root out all foulness and impurity and drive out every unhealthy obstruction. They should be taken every night in sufficient quantities to operate briskly, by commencing with two Pills on going to bed, three the next night, four the next; if the symptoms are not removed, commence again with two Pills and go up again as before. Continue in like manner until the blood is thoroughly purified, and all pain and distress is entirely removed.

PREGNANCY.

During this critical period the Pills will be required, because they cleanse the body from those morbid humors, and thoroughly drive away all pains, and give ease and comfort to the mother. From one to three, taken two or three times a week during pregnancy will cause the mother a safe and easy delivery, and will be sure to give a stout and healthy constitution to the child.

MORSE'S PILLS, HIS DOCTOR.

Kingston, Ja., Feb. 28, '92.

Dear Sir:—I have been a martyr to that dread disease, Dyspepsia, accompanied by a sharp pain in my side. Dr. Morse's Indian Root Pills have cured both. They are my doctor.

Yours Truly,
S. V. DURAN,
of

S. V. DURAN & Co.
Wholesale Tobacconist.

DIRECTIONS.

As Dr. Morse's Indian Root Pills are founded upon the principle that every kind of sickness, or pain or distress to which the human family are subject, is caused by corrupt, stagnant matter having been lodged in various parts of the body, therefore it would be of no use to speak of the various pains, sickness or distress or in what part of the body, or how severe the various afflictions that you may undergo; because the more sickness or distress is occasioned by the more corruption or impurity within, and the only inquiry should be, is the person sick? But it should be borne in mind by those desiring to be restored to health, that they should take them in sufficient quantities to operate briskly by the bowels. The usual dose is from two to four; but they must be taken in sufficient quantities to operate two or three times in the bowels. Very delicate persons should begin with but two, and increase as the nature of the case may require.

Those more robust, or of very costive habits, may begin with three and increase to six, or even more, if it should be found necessary, and they will effect

WHAT OUR AGENTS SAY OF THEM.

Green Cove, April 2, 1892.

"The W. H. Comstock, Co., Limited."

Sirs:—Among other Pills I sell your Dr. Morse's Indian Root Pills, which are far ahead of all others in demand and merit. My customers recommend them highly for Sick Headache, Dropsy, Gravel and Dyspepsia. All mothers ought to keep them on hand for family use.

Respectfully yours,
DONALD SMITH.

Morse's Pills can be Used in Any Climate with Perfect Safety.

POTATO SOUP.

Pour two quarts of water on six or seven potatoes, boil down, take the potatoes up, mash, season and return to the same water with pepper, salt, an ounce of butter and one quart of sweet milk.

AN APPETISING CHEAP SOUP.

Take ten cents worth of cheap, lean veal or beef, put in kettle with three quarts cold water, a teacupful of oat meal, four medium sized onions, a potato and a small carrot, the vegetables to be sliced thin, add pepper and salt to suit the taste; let all simmer slowly for not less than three hours, skimming occasionally. The pieces of meat and vegetables should have blended by this time, and a wholesome smooth soup be the result.

—(+)—

MISCELLANEOUS.

SALMON SANDWICHES.

One can salmon (remove all the bones), two table-spoonfuls of crisp pickles, three hard boiled eggs, chop all together and add one teaspoonful mustard, juice of two lemons, one tablespoonful melted butter, one tablespoonful vinegar. Mix thoroughly and spread between very thin slices of buttered bread.

RASPBERRY SHRUB.

Put red raspberries in a stone jar, cover them with vinegar, let them stand from six to eight days, strain and add to every pint of juice one pound of white sugar, boil half an hour, strain again and let it stand until cold, bottle and cork tight. Mixed with ice-water, this makes a pleasant summer drink.

POTATO SALAD.

Boil potatoes with peelings on them. When cold peel and cut in dice shape with two raw onions. DRESSING—Beat one egg in a cup, fill with sour cream, put one-half cup of vinegar in granite pan, add one tablespoonful of butter, three tablespoonfuls of sugar, one teaspoonful of salt. Pepper to taste. Set on the fire, add the cream and egg, stir till thick, pour over potatoes and onions, and stir with a fork.

SCALLOPED POTATOES.

Peel and slice thin, put in a basin a layer of potatoes and a few slices of onions, sprinkle with pepper, salt, a little flour and a piece of butter; then another layer of potatoes and onions, then seasoning, until you have basin filled; then fill basin with water and bake until done.

CHEESE STRAWS.

Take one pint flour, one-half pint grated cheese; mix and make paste with lard size of walnut and as you would pie crust; roll out in a thick sheet and cut in strips one-half inch wide and five inches long. Bake a light brown. Put a white napkin on plate and pile straws up log cabin shape.

FRENCH RAREBIT.

In a well-buttered earthen dish place a layer of bread, buttered; next a layer of cheese cut thin; then another of the bread and butter; then cheese, till the dish is full, leaving cheese on top; turn over this two cups of milk, to which has been added two eggs beaten, and bake twenty minutes.

Travelers Should Always Carry Morse's Pills With Them.

a sufficiently happy change to guide the patient in their future use. But in case of violent pains in any part of the body, the medicine must be taken in large doses every night and morning, and oftener, if the sufferings are great. There is not an ache or pain that the body is subject to, but will yield to their powerful influence, and they show that it is by drawing off the ill-humors, and constant purging, that will cleanse and purify the blood, and in a mild and gentle way, drive out disease of every kind, and restore the system to a state of sound and perfect health.

These Pills should be taken by children from one day to four months old, from half to a whole pill,

dissolved in a little water, and sweetened, to be taken every night, and if the sufferings of the child are severe night and morning, until all distress of the little sufferer is removed. From four months to four years, from one to two pills. It should be borne in mind that the Pills must be taken in such quantities as will operate two or three times on the bowels; otherwise you will receive but little benefit. As they are made from plants and roots, they may be taken not only without danger, but with perfect safety, and great benefit realized in every case.

W. H. COMSTOCK, CO.,
Sole Proprietor,

CURED HIS LIVER TROUBLE.

Tecumseh, Mich.,

April 23, 1893.

The W. H. Comstock Co., Limited, Morristown, N. Y.

Sirs:—Five years ago, I was in a Western Hospital, suffering with what the doctors said was "enlargement of the Liver." I was in the hospital for about eight weeks and was not benefitted. After returning to my home in the East, I found a circular advertising your Dr. Morse's Indian Root Pills. The first dose proved beneficial and I continued to use them until cured of the trouble. I always keep them on hand as there is no medicine that can excel them. When threatened with a cold, I take a dose of these Pills upon retiring and in 24 hours all trace of it is gone. I find also that they are especially good in cases of Biliousness or Head-ache arising from a disordered stomach. I have introduced them into a number of families who all speak highly of them now.

Yours very respectfully,

ROBT. B. JOYCE.

BAD ATTACK OF RHEUMATISM CURED.

Kouchibougnac Beach, N. B.

April 2, 1892.

The W. H. Comstock Co., Limited.

Sirs:—For some time I was very miserable; I was run down and my nerves were unstrung. It was impossible for me to walk any distance without a cane, and I was continually growing worse. Rheumatism settled in my system and I was advised to try your Dr. Morse's Indian Root Pills. I procured a box and began the use of them according to directions. I felt improved in a very short time and was soon able to do without any cane and could walk long distances without feeling unduly fatigued. I am satisfied that Morse's Pills are one of the best nerve tonics and strengtheners in the market. I will recommend them heartily to all my friends.

Yours very truly,

MRS. ALEX LOBBAN.

—In France the railways employ 24,080 women. Most of them, however, merely receive a small sum for opening and closing gates.

Morse's Pills are Suitable for Any Climate

* ————— A FEW THINGS FOR WHICH ————— *

Morse's Indian Root Pills are Especially Good!

BILIOUSNESS.

One of the most distressing troubles a person can endure is biliousness. It is depressing to the spirits and demoralizing to the entire system. The person so afflicted is scarcely able to work or take an interest in anything. The sewers of his body are clogged and need flushing out. The bile is turned from its proper channel and enters the blood and produces that peculiar cast of complexion. He is very restless, uneasy or sleepless at night, or perhaps his slumber is lethargic and dull. He has dull pains, uneasiness under his right ribs and shoulder blades, a bitter taste in the mouth, sudden dizziness on ris-

ing, furred tongue, bowels loose one day and constipated the next.

All or any of these symptoms may accompany the bilious condition, and while so afflicted the patient's life is scarcely worth living. Morse's Indian Root Pills relieve this trouble speedily and cast the burden from the spirits. It opens the clogged-up system, purifies the blood, and once more the human mechanism works smoothly and easily. On the appearance of bilious symptoms a dose, from two to four of Morse's Pills should be taken, the larger dose for a more robust grown person; the next night increase the dose one extra pill, and if the trouble is not re-

INDIGESTION! DYSPEPSIA.

New Harbour, N. S., March 30, 1893.

"The W. H. Comstock Co., Limited."

Sirs:—I have suffered with Dyspepsia for a number of years and have spent quite a sum of money for medicine and on doctor's bills and could get no relief. I have lately begun to use your Dr. Morse's Indian Root Pills and find they are helping me very much. They afford me great relief.

Yours very respectfully,
P. M. DAVISON.

RELIEVES AN ATTACK OF INDIGESTION.

Hubbard's Cove, N. S., Dec. 12, '92

W. H. Comstock:

Sir—Your Dr. Morse's Indian Root Pills performed wonders in curing indigestion and other stomach troubles. A few weeks ago I ate some food that I could not digest and suffered without obtaining any relief for three days. I then procured a box of your Pills and after two doses the indigestible food was dislodged, the distress removed and I have been a well man ever since. I take pleasure in recommending Morse's Pills to the public. Yours etc.,

ISAIAH COOLEN.

Our Testimonials are Genuine. Read Them.

lieved, another dose should be taken. A little experience will guide the patient in the use of the pills so as to produce the best effects. People differ in the way medicine affects them, and consequently no invariable rule can be given.

Morse's Pills do not gripe nor produce violent pains. They are not a drastic, wrenching medicine. They are mild and gentle, yet they do their work in a thorough manner and purify the body of all that is opposed to health. Consequently they do not

weaken and debiliate as many other medicines do. It is very seldom they occasion any pain at all, unless the system is very bilious. Another scourge that people are subject to is

SICK HEADACHE.

Morse's Pills will cure it. It comes on with terrible pain through the head, followed usually by nausea, a disordered stomach and nervous excitement. On an attack of sick headache, the patient

INSOMNIA! INSOMNIA!

Birds Bridge, Tenn., April 20.

"The W. H. Comstock Co., Limited."

Sirs:—I have been greatly afflicted with Nervousness, I could not sleep at night and was all run down. Your agent recommended Morse's Indian Root Pills to me, saying they would tone up my system and benefit me generally. I got a box of them and after taking three doses I could sleep throughout the whole night. They have been a blessing to me.

Yours truly,
MARY A. BELL.

ALWAYS SATISFACTORY.

Bridgetown, Barbadoes, May 17, '92.

Dear Sir:—Your Morse's Pills have a very large sale with me and always give satisfaction.

Yours Truly,
C. F. CRONEY,
Chemist and Druggist.

KATY—"What are you reading, May?"

MAY—"Nothing you could understand. It's a poem on love."

KATY—"I do know what love means. It's what mamma calls papa when visitors come."

A RUNNING SORE FOR TWO YEARS.

Mayorsville, W. Va., April 16, 1892.

"The W. H. Comstock Co., Limited."

Sirs:—I was troubled with Catarrh and began to use your Morse's Pills, having read in your almanac of the way in which they cured common colds and coughs by carrying off corrupt humors. I found that they benefitted me greatly. A neighbor and customer of mine, Mr. Jas. Armstrong, told me that he had a running sore for two years, which he cured up entirely by the use of three boxes of Dr. Morse's Indian Root Pills. He is very grateful for the opportunity of procuring these Pills and will never use any others. If he comes for a box and I do not have them in stock he will not take a substitute but says he will wait until I order more.

Yours respectfully,
GEO. W. RICHMOND.

"The most valuable philosopher," said Mr. Kneebags impressively, "is the one who can most accurately define his terms."

"That's where I shine," interrupted Weary Wiggins. "My terms for all work is cold lunches in advance, and for drunk and disorderly from ten days to three months."

Morse's Pills are Good for all Complaints.

should be as quiet as possible, and be relieved from all noise or confusion. Hot applications should be put to the feet and they should be kept as warm as possible. A dose of Morse's Pills should be taken, and if possible the patient should go to bed and get sleep. Nine cases out of ten he will get up in the morning with the pain all gone and his head feeling as clear as a bell. Persons often afflicted with sick headache should abstain from strong coffee, alcoholic liquors and tobacco, avoid excitement, anxiety, exposure and overwork; take proper exercise, eat regularly and keep the feet warm. Always have a box of Morse's Pills on hand, and when there are any threatening signs of headache, take a dose of them.

READ THIS!

Gunlock, Washington Co., Utah.

"The W. H. Comstock Co., Limited."

Sirs:—I have been agent for your Dr. Morse's Pills for several years and since they have been introduced here there is no sale for any other Pills. Several kinds have been sent here on trial, but they all had to be returned as no one wanted more than one dose. One lady had to take the Morse's Indian Root Pills to work off the bad effect of a dose of other Pills. We have used them with good effect in all kinds of sickness. Constipation, Headache, Biliousness and La Grip have all given way before them. They are the best Pills in the market.

Respectfully yours,

W. E. JONES.

"There was one face I'll bet Grover was glad to see in the White House when he got back."

"Whose?"

"His own in the mirror."

DYSPEPSIA.

Is one of the most common complaints among the American people. They eat too fast, and when their minds and energies are occupied intensely by business cares and troubles, and there is not enough nervous force left in addition to properly digest their food. They eat improper and rich foods, and the result is that it decomposes and fills the stomach with gas, which, pressing on the heart, makes it palpitate, or there is a disagreeable gulping of wind, or perhaps the food sours or simply lays like a lump of lead in the stomach. This produces weakness of the stomach, and before the person is aware of it he has dyspepsia fastened upon him. The proper remedy for this trouble is Morse's Pills and correct habits

CAUSE NEITHER GRIPING NOR PAIN.

Elkton, Ohio, April 6.

"The W. H. Comstock Co., Limited."

Sirs:—I have been using your Dr. Morse's Indian Root Pills for some time for Chronic Diarrhoea which I have had for 12 years. They give me more relief than any other medicine I can get. They are mild in their action, causing no griping or pain and can be given to children with perfect safety. I cannot praise them too highly.

Yours truly,

BOYD KELLOGG.

SHE KNEW BY EXPERIENCE.

"My dear, look down," said Mr. Grandiose, as he stood on the bridge with his wife, and gazed at a tug hauling a long line of barges. "Such is life; the tug is like the man, working and toiling, while the barges, like women, are"—

"I know," interrupted Mrs. G., acridly, "the tug does all the blowing, and the barges bear all the burden."

The Sales of Morse's Pills Increase Every Year.

—**DR. MCKENZIE'S**—

Dead Shot Candy for Worms!

THE BEST WORM MEDICINE IN THE WORLD!

\$1,000 REWARD.

One thousand dollars will be given to any person who will show by analysis that this worm medicine contains any calomel or other poisonous mineral. It is purely vegetable and cannot harm the most delicate child. It is the most effectual remedy known for the eradication of worms. It is made in such form that the children cry for it; and, if for nothing else, it should be commended for this, as a child by crying and other emotions at taking a disagreeable medicine often counteracts the good effects of that medicine. If you have a thoroughly educated physician, have him test the medicine, and we are certain that he will say to you that it is the best known to the scientific world. Don't ask of any of the quacks that infest the rural districts, but go to one that came from some reputable college. Analysis is an easy method to a skillful man of determining the ingredients of any medicine.

Mrs. Hill is an old English nurse of various and extended experience in the founding hospitals of Great Britain. The following is the result of her five and twenty years' experience: Firstly, That it is best for the mother to be the child's only doctor; to

trust herself and believe that the same reason which assists her in comprehending difficult crochet patterns will also enable her to understand a few medical facts and remember them. Secondly, never to give her child white calomel or antimony powder or any of the many soothing syrups, which contain more or less morphine or mercury, that pernicious mineral, which rots the very rats in the mines which yield it, and which quickly paralyzes and kills the unfortunate men who collect it.

Thirdly, only to give her children simple physic, and never under any pretense to let her child be blood stained by lancet or leech, the fatal robbers of the red life stream, of which there is never more than enough, and whose proper quantity keeps the heart in motion and the child in life.

Oh! if we were to tell you some of the sad tales culled from a long experience as a medical practitioner, of the many sweet children we have seen whose bright, laughing eyes have been permanently filmed and closed in lasting sleep from the effects of the too strong doses of ignorance and professional mistakes or recount to you a few of the numberless instances we have known of unintentional poisoning

A Good Article will Always Stand on Its Merits.

by quieting syrups, with calomel and white antimony, wherein the first dose taken has been perceptibly the first downward step towards the poor little innocent's grave. Or could we exhibit to you the various little blanched bodies mentally drained (calf-like) of their life's blood by lancet or leech we undoubtedly think each anxious mother would immediately resolve never to forego the above rules.

And now gentle reader, let us urge you carefully to read through several times the following page and you will then know as much, nay more, about worms affecting children and how to cure them, than many of the professed doctors, and being likewise nurses, will be much better able to save life.

SYMPTOMS.

Worms by the consequence of their movements, the interruption they offer to the contents of the bowels, and probably other modes of interruption, generally occasion pain or uneasiness in the abdomen, sometimes spasmodic, sometimes described as gnawing or biting, and not unfrequently of a vague, undescribable character, and yet very distressing. Sympathetic with this is a sensation of itching at the anus and at the nostrils, producing a disposition to scratch the fundament and to pick the nose, which is highly characteristic of this affection. The bowels are often disordered, being sometimes constipated or stopped and sometimes relaxed, with occasional bloody discharges as in dysentery. The discharge is sometimes in shreds or flakes, which are not unfrequently mistaken for fragments of partially digested worms. It is not uncommon for portions of undigested food to pass with the discharges. The appetite is exceedingly variable; in some cases natural, in others deficient, craving or depraved, one condi-

tion not unfrequently alternating with another. The belly is often hard, swollen and tympanatic, the breath heavy or fetid and the tongue furred, with a disagreeable taste, and a copious flow of saliva; swelling of the upper lip, bleeding of the nostrils, and disposition to grind the teeth during sleep are other characteristic symptoms. The effects, however, often extend beyond the alimentary canal, and various derangements of health are experienced in consequence, either of the direct irritation of the worms, or of the disordered digestion which they occasion. Among the most common of these are nervous affections such as fretfulness, irritation of temper, wakefulness or disposition to excessive sleep, disturbed sleep, sudden starting out of sleep as if from fright, dizziness, spasmodic movements of the eyelids, dilated pupils, perverted vision, temporary blindness and partial deafness. General convulsions are not unfrequent in children and symptoms strongly resembling Hydrocephalus have been ascribed to worms and have ceased on their expulsion.

Cases of chorea, or St. Vitus dance, melancholia and hypochondria and even insanity have been referred with the most apparent reason to the cause. In addition to these affections may be mentioned obstinate cough, spasm of the glottis, palpitation, languid circulation, pale or yellowish skin, sunken eyes, a livid circle about the eyelids and general emaciation. This condition is often accompanied by fever and is then called worm fever. Persons in apparently perfect health may be affected with worms, and it is no unusual event to find worms in the bowels of persons after death, which have given no signs of their presence during life. It is, therefore incumbent on every person who is not feeling well to pay attention to this fact and take some remedy which will remove them if present, and yet do no harm if otherwise. Such a medicine is McKenzie's Dead Shot Worm Candy, a sure death to worms, but taking no effect if they are absent.

Morse's Indian Root Pills: The Universal Panacea.

—S— **CARLTON'S**  —S—
CONDITION POWDERS

THE GREATEST MEDICINE FOR HORSES, CATTLE, SHEEP AND HOGS.

The recipe for CARLTON'S CONDITION POWDERS was obtained by us at a great expense, many years since. They are the Original and Genuine Articles, and although crowds of scurvy imitators have tried to counterfeit them, the name "Condition Powder," is all they can imitate. Be not deceived—shun all other so called Condition Powders, and get

THE GENUINE CARLTON'S

and your stock will show you the difference by their improved appearance, the glossiness of their coats, their renewed appetite, health and vigor. Nothing can equal these Powders as a general Condition Medicine.

CARLTON'S CONDITION POWDERS, given according to directions, are the best thing in the world to strengthen a horse and to restore him to vigor after severe exposure or hard driving.

These Powders cause a healthy action of the digestive organs and purify the blood of animals; thereby equalizing the circulation of the blood and imparting

VIGOR TO THE WHOLE FRAME

This soon demonstrates itself by an improvement in the appearance of the coat, for it is a certain fact

that no animal can be in perfect health if the coat be rough and unthrifty.

CARLTON'S CONDITION POWDERS will be found

A PERFECT RESTORER

after attacks of any acute disease, such as Influenza, Strangles, Inflammation of Lungs, Nasal Gleet, etc. Anyone who owns stock of any kind should use this medicine. It is always beneficial, and is so harmless that it can always be given without fear.

FATTENING STOCK.

Farmers will find it a saving to them of many dollars, by using these powders. When fattening stock, by mixing a little of these Powders with the food, you will find that they will fatten quicker, and the flesh will be firmer and better in every respect.

THE MANY DISEASES OF HORSES

can almost all be prevented or cured by these Powders. One Powder drives out Worms. One Powder cures Bots. One Powder puts a horse in condition. One Powder makes a horse shed his coat. One Powder gives a soft and glossy appearance to the hair. One Powder cures the Horn Distemper in Cattle.
