We guarantee that any article purchased from us will satisfy you perfectly—that is, will give you the satisfaction you have a right to expect—that it represents full value for the price you pay. OUR POLICY OF SQUARE DEALING

¶ The F. E. KARN CO., Limited, Toronto, was founded in 1886, and commands the best location in the business centre of Toronto. Back of every statement we make—every claim as to quality or value—stands as a binding guarantee, our good name and reputation built by honesty, integrity and square dealing with the buying public here in Toronto, and with buyers by mail in all parts of the country.

OUR GREAT BUSINESS owes its rapid growth to the friendly co-operation of thousands of more than satisfied customers.

¶ LAST YEAR over 50 thousand people bought goods of us from our catalogue. Thousands of these were new customers. These discriminating people did not buy of us because they cared particularly to send away from home for their goods, neither did they send to us for their goods because we happened to be a Mail Order House, but they traded with us because they received better value than elsewhere, and received perfectly clean, fresh goods at a saving of from 25 to 50 cents on every dollar's worth purchased from us.

WE AIM TO SHIP EVERY ORDER
WITHIN TWENTY - FOUR HOURS...

Most orders are received, handled and shipped within 24 hours from receipt. Every order is given personal attention and intelligent supervision.

We exercise the greatest care as we are anxious to make with each order one more satisfied customer.

¶ OUR GUARANTEE. Every article that we send out is covered by our binding guarantee of absolute satisfaction. If you are not pleased (more than satisfied) return any article to us at our expense and we will refund your money as cheerfully as we accept it. In dealing with us you do not take the slightest risk, and it is up to you to decide whether you are entirely satisfied or not.

¶ WE DO NOT SUBSTITUTE, except in rare cases, and then invariably furnish a higher priced article. We would much rather refund your money than have you dissatisfied, and for this reason we attempt to fill your order exactly as desired. Where we do substitute, it is entirely at our own risk, and you should feel no hesitancy in returning the goods to us if you are not more than satisfied.

¶ PRICES. We ask that you compare our prices with others, taking quality into consideration. We Know that when an article is offered for a price less than ours, the quality is inferior and we are, for this reason, anxious to have your orders to convince you.

¶ OUR DRUG DEPARTMENT is the best equipped and most complete to be found anywhere. Our immense turnover always insures our customers fresh, pure drugs. Our strict rule is to buy the best, and when an ordinary commercial article is wanted, we will be pleased to quote prices for quantity and quality desired. We employ only qualified assistants, all graduates of the Ontario College of Pharmacy. Each order and prescription is double checked and the utmost care and vigilance is exercised in the discharge of every duty.

NOTE

Strong Acids, Explosives, Poisons, or Inflammable Articles cannot be mailed. Liquids are available in quantities up to 4 ounces, when properly packed, as provided by postal laws. We will not fill orders calling for Opium, Morphine, Cocaine, Corrosive Sublimate, Strychnine, Oil of Cedar, or any other Poison of this class, unless accompanied by a physician's prescription.

CONSUMERS' GUIDE.

SEASON 1911.

We Guarantee Satisfaction or Refund Money and pay the Transportation Charges Besides.

THIS MEANS THAT YOU CAN SEND BACK ANY GOODS YOU BUY FROM US THAT ARE NOT SATISFACTORY and we will exchange them for other goods or refund the money you paid for them instantly without a question. There are no "ifs," "ands," "buts," or conditions about this offer, but it means just exactly what it says. YOU ARE THE SOLE JUDGE AND HAVE THE PRIVILEGE OF RETURNING ANY GOODS YOU DON'T LIKE, no matter what the reason may be, and we will exchange them or refund the money you paid us for them and besides we will pay the transportation charges. THIS OFFER IS BROAD AND LIBERAL in its scope and gives you the same opportunity of selecting goods with discrimination as if you paid a visit to our store in Toronto. It is but just and right and business-like that you should have your money back if you don't like the goods after examining them and we will cheerfully pay the transportation charges.

In order that we may protect ourselves against people who would impose on our liberality, and take unwarranted advantage of our broad "Guarantee to Satisfy" terms, we respectfully submit the following paragraphs, which will be adhered to for our customer's protection as well as our own :

1st - GOODS MUST BE RETURNED WITHIN TEN DAYS from date they are received.

2nd - BEFORE RETURNING GOODS CUSTOMERS MUST WRITE for our special returned goods pasteur tag which we have originated especially for attaching to returned goods packages in order to avoid confusion and facilitate the speedy exchange of goods or return of money. By using our pasteur tag on a return goods package, customers are insured absolute promptness and better satisfaction than if a package is returned without it. If it is not convenient for you to write for the pasteur tag, then the name and address of the customer returning the goods and, whenever possible, the invoice number must be plainly marked on the outside of the package, so that we will know at a glance who the goods are from.

3rd - WHEN GOODS ARE RETURNED BY EXPRESS OR FREIGHT, a letter of instruction must be enclosed in the package with the goods, but when they are returned by mail then the letter of instruction must be mailed separate from the goods.

"All packages of merchandise sent through the mails must be so wrapped or enveloped that the contents may be readily examined by postmaster without destroying the wrapper." Tie the package firmly with twine, but do not seal.

Never seal packages returned by mail, nor enclose written matter, as, by so doing, it subjects the whole to double letter postage (4 cents per ounce) and the sender thereof to a fine of \$10.00, provided parties to whom it is addressed refuse to pay extra postage. When packages of merchandise are returned to us sealed or contain written matter, we will deduct the extra amount of postage paid by us from the value of the goods returned.

When you send goods by mail, write your name and address, and nothing else, on the outside of the parcel, or enclose printed card only. Send letter of instruction by mail, but do not enclose it in package with goods.

Any package weighing over twenty-five pounds should be returned by freight, as it is the cheapest method of transportation. Whether you return goods by express or freight, always enclose a letter of instructions in the package, and be sure to give the invoice number. Please don't fail in this, as the invoice number is an important factor and we need it in order to handle a returned goods package expeditiously.

4th - GOODS MUST BE IN GOOD ORDER when we receive them, and must not have been used, soiled, damaged or show signs of wear, due to excessive handling.

5th - WE CANNOT EXCHANGE OR TAKE BACK ANY GOODS that have been made to special order, or goods not in our catalogue, which have been purchased especially for you except by special agreement contingent on circumstances.

6th - WE CANNOT EXCHANGE OR TAKE BACK GOODS FOR PERSONAL USE, such as rubber goods, brushes, combs, toilet articles, etc. It is obvious that this paragraph is inserted purely in the interest of our customers.

7th - GOODS MUST BE RETURNED TO US BY THE MOST ECONOMICAL METHOD. If freight is cheapest, we will expect you to return them by freight, and by the route where the rates are lowest; if express is cheapest, we will expect you to return them by express, and if it be cheapest by mail, we will expect you to return them by mail, with bill for postage enclosed in your letter of instruction which we will refund promptly.

We Guarantee Safe Delivery of Goods in Perfect Condition to any Station in Canada where there is an Express or Freight Agent when the following rules are complied with.

Before accepting the goods, see that the crates, boxes, barrels, packages or whatever contains your goods are in good condition, and if their appearance indicates that the goods have been damaged by careless handling, or show signs in any way that their condition is not as they left us, have the agent make a notation of the fact on the express bill or receipt, which you receive from him when you pay the charges, and send it to us at once with your statement of the matter, and we will immediately replace the damaged goods or allow you the value of the damage as circumstances may direct.

HOW TO ORDER

Always keep well supplied with our order blanks, as it is more convenient for you to make out your order on our regular order blanks than in any other way. If out of them at any time, drop us a postal card and we will be pleased to send you some.

Whether you write your order on our regular order blank or letter paper instead, be sure to observe the following instructions:

Always sign your full name (Christian name and surname).

Write your name in full, clearly and distinctly.

Give your postoffice, county and province, and your shipping point, if different from the postoffice.

Always give full name, description and price of each article ordered.

Always try to mention the number or name of the catalogue or circular from which your order is taken, and be sure to give the size, color, and measurements when ordering anything where either is required.

We must have your correct size or measurements for Trusses, Belts, &c.

Be sure to enclose your money with your order and state plainly in your order how much money you enclose and in what form. Sending us money in one envelope and your order in another causes delay and confusion in our office, as they become separated in the mails.

Be sure you have followed our rules carefully about enclosing the proper amount of money with the order, including enough to pay postage if the goods are to be sent by mail, and insurance fee if to be sent by insured mail.

Be sure your name and address is written plainly and in full, that your shipping directions are plainly stated, that the exact amount of money enclosed is plainly stated, that you have given us catalogue number, price, description, correct size and measurements and you will seldom if ever have any delay or inconvenience. By carefully observing these rules you will avoid errors and loss of time by our having to write you for further information.

AFTER WRITING AN ORDER, please compare it with these rules, check it over closely and see if you have written your order correctly.

IF YOU WISH TO REFER TO ANY MATTER not concerning the order, be sure to write it on a separate sheet. Do not write about it on your order sheet, though you may enclose it in the same envelope with your order. Our orders and letters are handled in separate and distinct departments, and we ask you therefore please do not fail to observe this rule.

ALWAYS TRY TO WRITE REMARKS CONCERNING YOUR ORDER on the same sheet with the order. This will prevent the possibility of such remarks or instructions being separated from the order. Should you have occasion to write us concerning an order which you have already sent us, do not fail to mention the date on which your letter was mailed, also state the nature and value of your remittance and the name and address as given in your order. This information will enable us to promptly locate the matter you refer to.

Two Important Paragraphs

DO NOT MUTILATE THIS CATALOGUE by clipping out illustrations and descriptions to send with your order—it is unnecessary to do so, for the name of the article desired is all that we require. Even when clippings are sent they never reach the order clerks, for they are destroyed in the entry department. Our stocks are arranged according to the name in the catalogue, and order clerks go by the names entirely. **SIMPLY GIVE THE NAME OF THE ARTICLE DESIRED—THAT IS SUFFICIENT.**

TO EQUALIZE OR REDUCE THE COST OF TRANSPORTATION, we advise the sending of club orders. Anyone can get up a club. Simply have your neighbors or friends send their orders in with yours and advise us to ship all to one person by freight. If each customer writes his order under his own name, it will be a very easy matter for us to keep each one's goods separate, and the freight charges will be next to nothing when shared by several persons.

About Remitting Money.

SEND YOUR MONEY by Express or Post Office Money Order, Bank Draft, Currency or Stamps. We will take postage stamps in any amount in order to accommodate customers who cannot handily remit by any other method.

DON'T SEND YOUR PERSONAL CHECK unless you are willing to have shipment delayed until we can make collection through our bank. This generally takes from three to ten days, and sometimes longer, depending on the distance you live from Toronto.

THE BEST WAY TO REMIT IS BY EXPRESS ORDER, for it is **ABSOLUTELY SAFE**. If an express money order is lost in the mails the company issuing it will make the loss good.

DON'T SEND MONEY OR STAMPS BY OPEN MAIL for it is unsafe to do so, and we will not be responsible for losses so sustained. **ALWAYS HAVE YOUR LETTER REGISTERED**. The expense for registering is very small and it will insure almost absolute safety.

About C. O. D. Shipments.

WHEN DESIRED WE WILL SEND YOU C. O. D. BY EXPRESS PROVIDED THE ORDER AMOUNTS TO \$5 00 OR MORE, AND IS ACCOMPANIED BY ONE-FIFTH THE PRICE OF THE GOODS ORDERED, as an evidence of good faith. This applies to all goods except that we make to order, and goods not in our catalogue which we must buy special for a customer.

\$5.00 IS THE SMALLEST SUM for which an order should be sent C. O. D. by express. C. O. D. shipments for smaller amounts than \$5.00 are usually unprofitable to a customer, inasmuch as he will have to pay the Express Company for returning the money to us, which, although a small sum, can just as well be saved as not by sending money in full payment, considering that we will refund your money instantly if goods are not found perfectly satisfactorily. **WE RESERVE THE RIGHT TO DECLINE TO SHIP C. O. D.** when in our judgment the goods ordered are unsuitable for a C. O. D. shipment. We will determine the rejection or acceptance of a C. O. D. order by the value, bulk and weight of the goods, or the distance, classification and transportation charges. Occasionally it occurs that we do not ship an order C. O. D. because the transportation charges are so great a portion of the value of the order that it is not to your interest for us to do so. We never decline to ship an order C. O. D. unless circumstances oblige us to do so, and then we always write and state our reasons, and, whenever possible, offer suggestions how to ship goods so that the transaction will result profitably to you.

SEND ENOUGH MONEY WITH YOUR ORDER and if there is too much we will pass it to your credit and refund it at the time of shipment. If you do not send enough we will be obliged to hold the order and write, which involves delay and annoyance to a customer. **THE BEST WAY AND THE MOST SATISFACTORY WAY IS TO SEND ALL THE MONEY WITH THE ORDER**, and then there will be no chance for an error. Almost without exception our customers send money in full payment for their goods along with their orders and they prefer to do so, because it saves them paying the transportation company for returning the money, which they are obliged to do when goods are sent C. O. D.; besides they are not obliged to gain the agent's permission to look at the goods, and it is not necessary for them (in the event of a freight shipment) to wait until the bill of lading with drafts attached has been forwarded to the express office or bank for collection. The advantages gained by sending money in full is great, and as there is no risk involved, it has become with our customers their most popular method of dealing with us. **WE HOLD ALL MONEY IN TRUST**, and refund it instantly without a question if goods fail to come up to representations, or are not perfectly satisfactory.

Mail Shipments.

MAIL SHIPMENTS ARE OFTEN PREFERABLE TO EITHER EXPRESS OR FREIGHT SHIPMENTS. This is especially true when shipping points are distant from the express or railroad offices. It is only profitable, however, to ship articles of small weight by mail. Heavy articles should always be included in an express or freight shipment.

OUR MANUFACTURING DEPARTMENT.

OUR LABORATORY is under the direct supervision of a Chemist who has had a large and varied experience in his profession, having a practical knowledge of every branch of the business, gained while employed as head chemist in the largest pharmaceutical manufacturing establishment in the country. He is now giving his exclusive and personal attention to our drug and manufacturing department, and in consequence we feel warranted in saying that the drugs and preparations we send out will always prove absolutely safe and reliable, both in purity and strength.

STANDARD PATENT MEDICINES.

It would be impossible for us to give a list of all the patent medicines manufactured, yet we carry all of the best known medicines, which we sell at greatly reduced prices from the regular advertised prices. While we cannot list every known remedy, we can secure any patent medicine ever made, and if you want some medicine which we have failed to list, write us for prices (giving the name) and we will quote you a cut price by mail, or better still, in order to avoid delay, send us the money that you think it will cost, basing your estimate on our prices for other standard medicines, and we will send you the medicine and refund you any overcharge, or let you know of the shortage, if there is any.

AT 75 CENTS we sell the average patent medicines that retail regularly at one dollar per bottle or package, at 45c. the regular 50 cent medicine, at 20 cents the 25 cent kind, and so on. In some cases our prices are still lower, but these are the average prices. In dozen lots our prices are always lower than for single packages. We sell half dozen lots on the same basis of the dozen price.

WE CALL YOUR ATTENTION to our Rubber Goods Department, in which we quote you the very lowest prices on Syringes, Water Bottles, Urinals, Air Cushions, Air Pillows, Nursing Bottles, Nipples, Rubber Tubing of all kinds, and every article made of rubber.

If you don't see what you want, write us for prices. We have it.
OUR CATALOGUE quotes you prices on Trusses, Chamois Vests, Chest Protectors, Electric Batteries, Belts, and every kind of medicine made, and at prices that will astonish you.

OUR PRICES FOR ARTICLES IN THE DRUG LINE

are all subject to market changes, for owing to the constant fluctuations in the price of drugs, we are unable to quote prices which will hold good the year around. If prices go lower you will be given the benefit, and if they go higher we will notify you of the advance before we ship the goods. In any event you will be perfectly safe in ordering from us, for you will be dealt with fairly and honestly.

OUR SPECIAL REMEDIES.

We recommend the patent medicines prepared by ourselves, which we sell under the F. E. Karn Co. brand, as being the superiors of any other patent medicines, both in purity of materials and effectiveness. They are carefully compounded by experts from the formulas of noted physicians and professors of medicines who have used them successfully in their practice. They are absolutely pure and will surely and quickly cure or relieve the diseases for which they are intended.

WE SELL THE MEDICINES OF OUR OWN MAKE FOR LESS, MUCH LESS

than medicines of a like nature which are widely advertised in newspapers, magazines and periodicals, and we can afford to undersell them simply because we save the enormous expense attached to newspaper publicity which patent medicine manufacturers are burdened and with which they cannot do without. They are obliged to maintain their prices and their profits in order to maintain their advertising. No such difficulty faces us. We advertise our medicines only in our catalogue, have no newspaper advertising expense whatever, and sell them at the actual cost of their production, with but a small profit added.

WE CARRY EVERYTHING THAT PERTAINS TO THE DRUG BUSINESS

and if at any time anything in this line is wanted, and we do not list it, write us and order anyway, for Toronto has the largest drug houses in the Dominion, and we can supply anything in drugs and medicines on short notice, always at the lowest wholesale prices. Don't hesitate about writing to us for information, for we are always glad to give it to you.

This Catalogue will be sent free to any address.

DRUGS AND CHEMICALS.

All Drugs offered for sale by us are guaranteed to be of standard quality and reliable in every way.

Dispensing is done by qualified Druggists. Family receipts are treated in the same manner. Only the best quality of drugs are used by us, and all prescriptions are doubly checked. Be sure and specify whether you want the whole or powdered drug. Otherwise we will use our best judgment.

We do not make a sale of less than 5 cents, unless where the ingredients are in a mixture; but when wanted separate, 5 cents is the smallest charge we make for any item of Drugs.

KARN'S IMPROVED COUGH DROPS

Are invaluable for the speedy relief of Coughs, Colds, Hoarseness, Bronchitis, Catarrh, &c.

Price..... 5 cents per package.

DO YOU... WANT TO **EARN MONEY?** A Large Income To All Interested.

DO YOU DESIRE TO INCREASE YOUR PRESENT SALARY? Do you desire to make a comfortable income without any great trouble and no expense? Then read what we have to say to you. Have you ever stopped to think of the tremendous amount of remedies of all kinds that are used by your neighbors—remedies that cure every disease and ailment that man or woman is heir to—and what a large income there is in supplying the demand by interesting your friends and having them give you an order for some of our wonderful remedies?

YOU CAN MAKE A COMFORTABLE INCOME by keeping a small supply of our good sellers on hand, so that your neighbors will not have to send direct to us for them, and can procure them from you. By buying a dozen, you get the benefit of the dozen price, and by charging at a slight reduction of the regular price, can realize a handsome profit.

For example: If you paid us \$8.00 for a dozen of Peruna, which sells for \$1.00 a bottle, and sold it for 90 cents each, you would realize a handsome profit of \$8.40.

Or, if you paid us \$4.50 for a dozen of Karn's Celery Compound, which sells for \$1.00 each, and sold it for 90 cents each, you would be making a profit of \$6.30.

Or, if you paid us \$4.50 for a dozen of Dubois Pills, an article every woman needs, and sold them for 90 cents or \$1.00 each, you would be making a profit of \$6.30.

Do you know of anything that would pay you as well as this? And these are only sample articles taken at random from our catalogue—there are thousands of others which will give you a still larger profit.

If you do not wish to order the goods before selling them, then ask your neighbors and friends what they need, and get them to let you send for it, and by getting several to club in, you can make up a dozen orders and get the benefit of the price.

Please Do Not Make the Error of forming the conclusion that because other remedies are sold for considerably higher prices that they must be better. We guarantee each and every one of our preparations, and will back up every medicine that we place upon the market to be strictly as represented, and to do all that is claimed for it. We guarantee that at these exceedingly low prices quoted on quantities of our Household Remedies we will furnish in all cases the same high grade medicines as we have supplied to our customers for years and the merit of which has been fully demonstrated.

We Do Not Ask You to Canvass from house to house and urge people to buy our medicines. This is not necessary. We only expect you to supply the large demand that has been created to make it convenient for the sick to get their medicines from you to save delay, as they cannot get our remedies at drug stores. We never sell to drug stores. This does not require any extra effort on your part, and yet it will pay you well. All that is really required is that you inform your friends and neighbors that you have these medicines on hand, and that they can get them from you. This alone will bring you a large extra income on the sale of our remedies, and you will be favoring many sick people by delivering to them promptly what they want and must have, and for which they would otherwise have to wait several days, during which time they would suffer unnecessarily.

Assure Yourself a Very Large Income by securing the distributing privileges for our Household Remedies in your locality. EVERYBODY NEEDS THEM AND USES THEM. We sell, of course, single bottles or packages at special prices, but we allow a liberal discount to those ordering certain remedies in quantities. In many instances you will be in a position to dispose of these medicines at retail prices, for, if the parties would send for a single bottle and pay postage or expressage on same, it would often make the cost higher than the regular retail price. On the other hand, the transportation charges on a few dozen medicines by freight would be very little, if any more than on a single bottle by express, so that you can order in quantities without increasing the very low dozen prices to any extent. A remedy the retail price of which is \$1.00 per bottle, when ordered in dozen lots costs you only 40 cents per bottle, and, even if you sell each bottle for 20 cents less than the retail price you could still make 100 per cent. profit.

To those who have the Time and Inclination to undertake the distribution of our remedies on a large scale, our quantity prices offer a chance of a lifetime. With no investment to speak of, they can start in the medicine business, and in a very short time build up a trade for themselves that would yield them an income larger than they could obtain by devoting their time to any line of work. The standard quality and merit of these remedies being highest, the prices for same positively the lowest, your profits being very large, you can make big money by taking advantage of this special proposition, and without assuming even the slightest risk on your part.

OUR TERMS ARE CASH TO ACCOMPANY THE ORDER on Drugs, Patent Medicines, and all goods pertaining to the Drug Department, except Trusses and Electric Belts, which we ship C. O. D. but we will refund your money instantly and without a question if any goods you receive from us are not exactly as represented.

ABOUT SHIPPING. In almost every description we give the weight and postage required to mail the article described and when anything is unavailable by reason of overweight, we say so, and such articles must go express or freight.

WARRANTED ABSOLUTELY PURE AND FRESH. Dr. Wood's Beef, Iron and Wine is made from **sherry wine and iron in its most soluble form;** nicely flavored with orange juice, making one of the most pleasant and palatable medicines, containing more medicinal virtue per ounce than any other preparation now for sale for similar purposes.

GREAT CARE IS TAKEN in the manufacture of this medicine to see that the original prescription as written were to be made. Sufficient time is always taken to insure the deposit upon the bottom of the vessel of all foreign and inert matters that would add nothing to the effects of the medicines. GUARANTEED THE BEST ALTERNATIVE AND BLOOD PURIFIER in the world. It is made from the fresh roots of Honduras Sarsaparilla, Stillingia, Iodide of Potassium, Dandelion, Burdock and other blood-purifying roots, which combined creates this ideal alternative and blood purifier. Other cheap remedies do not contain any Iodide of Potassium. **Dr. Greene's does.** Only the best and most expensive drugs are used. **Dr. Greene's Compound Extract of Sarsaparilla** combines in an agreeable form the medicinal properties of the most approved alternative and blood-purifying remedies of the vegetable kingdom. **Dr. Greene's Sarsaparilla is the only reliable remedy for Scrofula,** this common malady, so numerous among the people of the world.

THIS IS THE KING OF ALL BLOOD PURIFIERS and far surpasses the cheap so-called cures which sell for \$1.00 or more. For blood making, cleansing, flesh and appetite producing, this medicine has wonderful success. Catarrh, dyspepsia, weak kidneys, torpid liver, headaches, salt rheum, pimples, blotches, tetter and all diseases arising from impure blood, this is a sure cure. It changes the impure blood, eradicates the poison through nature's channels, opens the pores of the skin, tones up the stomach and causes a rich flow of blood to circulate through the arteries, enriching the wasted tissues and giving a health and tone to the whole system. **As a spring medicine it is unsurpassed,** thinning and cooling the heated blood and helping nature to eliminate all the poisons collected in the system during the long winter months. **This remedy is a concentrated extract of pure blood-purifying remedies,** combined with Iodide of Potassium, and contains only enough alcohol to preserve its medicinal properties. Put up in large bottles; the concentrated extract will go much farther and last longer than any other remedy. (Unmailable on account of weight).

KARN'S CELERY COMPOUND: A TRUE NERVINE.

The Strongest and Purest Celery Compound on the Market. **65c**
REGULAR PRICE, \$1.00, OUR PRICE,

FOR INSOMNIA, NERVOUSNESS, Mental and Physical Exhaustion, Loss of Appetite, Impoverished Blood, Run Down, and for that Tired feeling that comes from overwork or confinement, its effects are wonderful, acting directly on the nervous system and brain centre; it reaches at once the seat of the trouble, stimulating the brain to do its work, and will leave no reaction, like alcoholic stimulants. **It does not contain any cocaine, morphine or chloral**—nothing but Cocoa, Kola and Celery. **If you are nervous, exhausted, can't rest at night, if your blood is poor and your system all run down, don't fail to try Celery Compound**. It will give you strength and health, cure your nervous headaches and make you feel like a new person.

THIS PREPARATION IS PREPARED BY COMPETENT CHEMISTS who use the greatest care in its manufacture and the quality of drugs used, only enough alcohol being used to prevent its spoiling. It is far superior to the thousands of so-called celery compounds, which do not contain celery at all, but rely on the alcohol they contain for their stimulating properties. By not spending large sums in advertising allows us to place it on the market at a price other manufacturers cannot reach without sacrificing the quality of their goods.

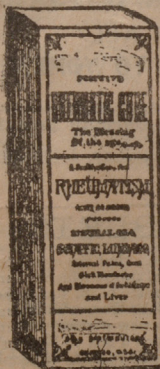

IT IS COMPOSED of the active principles of Kola, Celery and Cocoa, and becomes the ideal sedative; a perfect tonic, and the only real stimulant which acts directly on the nerves and does not cause any ill effects afterwards. It has been known for years that the natives of Africa used cocoa and kola as stimulants whenever they underwent any great physical hardships. Scientists made it a study and after repeated tests proved that these two drugs were the greatest stimulants for nerves and brain that the world has ever seen. **Celery** has been used for ages as a sedative, and combined with the cocoa and kola it becomes the greatest and strongest remedy for the cure of all diseases of the nervous system. **We guarantee it to be just as strong, if not stronger, than any celery compound on the market that sells for \$1.00 or more. \$2.00 Wonder Herb Tape Worm Cure \$2.00

Thousands of people are suffering from this troublesome malady, and all unknown to them. They are suffering from stomach trouble, headache, foul breath, and various other complaints, and have doctored for indigestion, cramps, etc., and failed to get relief. And all the time the whole cause of the trouble is a little parasite which clings to the walls of the intestines and stomach and sucks the life-giving strength from the body.

Thousands have sickened and died and thousands are wasting away and laying the trouble to some other cause and throwing a lot of useless medicine into the system, until finally the undermined system gives away and becomes the prey to consumption, inflammation of the bowels, etc.

The Tape Worm, as it is commonly called, is a long jointed worm, generally pure white with innumerable rings or joints where it becomes detached. The smallest part is the head, which is about the size of a pin, with two disc-like suckers which enable it to fasten itself to the intestines, where it lies coiled up in the stomach, sucking the nutrition from the body. Frequently parts become detached, but immediately new ones are formed. Often this troublesome pest is only discovered by the expelling of small pieces, and again by the many symptoms, among which are headaches, pain in the bowels, dyspepsia, giddiness, biliousness, cramps, diarrhoea, rumbling or crawling in the intestines, heavy sensation, restlessness at night, and, most frequent of all, a desire of hunger and emptiness in the stomach. People so affected have at times a voracious appetite and again a loathing and repulsive feeling for all food.

If you have any of these symptoms it is a sure sign you have a tape worm, even if you have noticed no parts pass away, and you should at once attend to the matter.

Wonder Herb Tape Worm Cure is a perfectly harmless preparation which can be given to a child. It comes one dose in a bottle, which is sufficient for any case. You do not have to fast when you take **Wonder Herb Tape Worm Cure**, nor do you have to take a cathartic. It kills and expels at the same time the worm and removes the head every time. We guarantee the removal of the head or money refunded, as it would be useless unless the head is removed, as it would only grow again.

Wonder Herb Tape Worm Cure will remove the head and is the only preparation in the world which will do it.

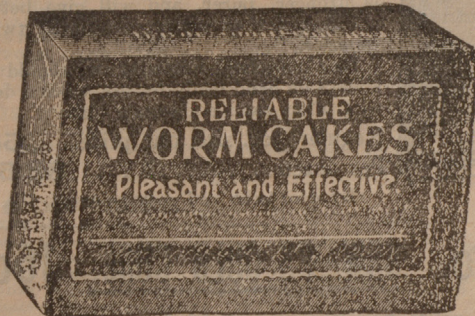

No Fasting. No Nausea. No Purging. Swift, painless and safe. Each bottle prepared fresh when ordered.

Remember, **Wonder Herb Tape Worm Cure** is the genuine. Full directions on each bottle.

Regular \$5.00 size we sell for \$2.00. Three for \$5.00. By mail, 15 cents extra.

CONSTIPATION, that most hideous and deathly demon of sickness, is an easy enough thing to cure if you will only persist in taking proper treatment. For the various forms of Displacement, Tumors, Polypi, etc., the Female Specific only can effect a cure; but whenever the womb trouble is accompanied by an unhealthy, poisonous discharge, you should also use the Antiseptic Powder as an injection. Use the Antiseptic Powder also as a wash to cure external soreness or itching.

Chlorosis, or Green Sickness.—This complaint so frequently in young ladies, is speedily cured by the use of the Antiseptic Powder as an injection, and by taking the Female Specific at the same time to overcome the general debility and constitutional disturbance. VETERINARY MEDICINES AND REMEDIES

For the Cure of all Diseases of
Horses, Cattle, Pigs, Poultry, &c.

KARN'S CONDITION POWDERS

Is a wholesome tonic that should be fed as regularly as hay and oats to **Horses, Cattle, Sheep and Hogs**. From 20 to 50 per cent. more nourishment is derived out of the grain fed by its use, because it assists digestion, assimilates the grain fed and increases the appetite, thereby fattening the animal in a shorter period of time, and always keeping the stock healthy and free from disease.

Karn's Condition Powders is not a stook food, but a wholesome **Tonic**, that has been subjected to the most severe tests on all kinds of stock raised everywhere under every imaginable extreme. It is a combination of health giving and nutritious herbs, seeds, barks and roots, therefore, it can be fed to the most delicate animal with perfect safety as a tonic which will cleanse and cool the blood and sweeten the stomach. It is an appetizer and imparts a pleasant taste to the food with which it is mixed, therefore is relished by all animals. It is economical and profitable to use and in many cases it saves lives of various animals.

KARN'S POULTRY TONIC.

Karn's Poultry Tonic aids digestion, stimulates the appetite, creates perfect assimilation, and if fed to poultry, extracts all the nutritive properties from the food, thereby producing flesh, bone and muscles, making the fowl strong and healthy, thus preventing and curing all **Poultry Diseases**. It adds weight to poultry and is a remarkable tonic, renovating their blood and building up their system. It forces young chickens to mature earlier, take on flesh with a greater rapidity, thereby enabling the dealer to bring the broiler to market earlier. It will reduce the time of their idleness during the moulting season.

Karn's Poultry Tonic positively makes hens lay eggs. By feeding it in larger doses than mentioned in the directions, hens will lay the eggs faster than the shell can form on them. When this happens it is because they are being fed more tonic than proper, or they are not getting enough shell producing material, such as oyster shells, gravel, grit or sand. During certain seasons, some hens only lay one or two eggs per week, but if these same hens are properly cared for and fed **Karn's Poultry Tonic**, they will lay one egg each and every day.

Karn's Poultry Tonic is used by some of the most successful poultry men in America, and there is not a single instance where it has been tried that it has not been used continuously thereafter. We recommend and guarantee **Karn's Poultry Tonic**. If it does not do exactly as is claimed, we will cheerfully refund the price paid. 1 lb. package—per package, 25 cents.

MILK OIL SHEEP DIP.

It will improve the wool 100 per cent. and make it command the highest market price. It will prevent the attack of insects on the sheep and will strengthen and act as an invigorator and tonic on the sheeps general health. Protect your sheep from the suffering caused by ticks and scabs, and permit them to live in peace as nature intended they should, and you will find that they will feel better, grow faster and thrive in a way to produce a coat both heavier and a better quality than if they were pestered by nature's vermin. A man tortured with itch cannot live in peace and entire health. Neither can a sheep or cow; and to make cattle and sheep desirable to buyers, it is important that they be perfect in flesh and coat. **Milk Oil Sheep Dip and Cattle Wash** is the thing to use to avoid all these troubles. Never fails to do the work, and sure death to lice and flees of all sorts and all kinds of animals. Used on sheep their wool improves with each dipping. One gallon of dip will make 40 gallons of wash. If you do not need it now send and get a can to have on hand when you do need it. "A stitch in time sometimes saves nine," is an old saying, but a very truthful one, and is very applicable in this case, as the proper use of this dip may be the means of adding a good many dollars to the value of the wool you may clip this season. **Milk Oil Sheep Dip** comes in tin cans holding each one gallon, which will make 40 gallons of extra strong dip, or 80 gallons of ordinary strength. Can be shipped by express or included with an order for other goods, so that its cost is not increased by the transportation charges.

Half Gallon cans, each 35c. One Gallon cans, each \$1.50. Five Gallon cans, each \$6.50.

Dr. Young's Tubular Rectal Dilators

Best in the World.

FOR THE CURE OF
PILES,
CONSTIPATION,
ASTHMA,
RHEUMATISM,
INSOMNIA,
DYSPEPSIA,
NERVOUSNESS, &c.

Price per Set by Mail

Postpaid, \$3.00

Patented May 17, 1892.

YOUNG'S TUBULAR DILATORS are designed for three purposes—for the dilatation of the sphincters and for irrigating the rectum and flushing the colon. They are made of impervious hard rubber, finely polished and come in sets of four sizes, viz.: $\frac{1}{2}$, $\frac{3}{4}$, 1 and $1\frac{1}{4}$ inches in diameter, which makes it easy for anyone to use them by beginning with the smaller sizes.

The use of the dilators is especially indicated in all cases of mal-nutrition, sluggish circulation, defective elimination and low vitality. In the following diseases their use has accomplished wonderful results:

Hemorrhoids.	Insomnia.	Eczema.	Constipation.	Melancholia.	Nervousness.
Catarrh.	Biliousness.	Heart Disease.	Consumption.	Hysteria.	Vertigo.
Dyspepsia.	Rheumatism.	Bronchitis.	Sick Headache.	Gout.	Lumbago.
Asthma.	Pappilae.	Sciatica.	Neuralgia.	Paralysis.	Pockets.

DIRECTIONS—The largest size consistent with comfort should be lubricated with vaseline or soap and passed well up the rectum. Hold it to its place a few moments until the inner sphincter grasps it, after which it will be retained. It should be allowed to remain half an hour or an hour. It is best to use them on retiring, although they can be used at other times. After using a few times they will be found to be a great promoter of natural, refreshing sleep. The patient should go to sleep, if possible, and not lay awake to time himself. It may be used every second night, or twice a week according to the effect desired. Do not try to use too large a size to begin with, but begin with one you can use with ease.

Rectal Dilators may be employed, not only by physicians, but may be entrusted to the keeping of intelligent patients, to be used at their own discretion. The use of a rectal dilator when one is tired is more invigorating than stimulants. They are remarkably efficacious in establishing re-action after prolonged illness, as typhoid fever, diphtheria, pneumonia, gastritis, etc. They are good for a tired brain and a tired body, and are perhaps superior to any other general or remedial agent as an invigorating tonic.—*JOURNAL OF ORIFICAL SURGERY.*

AN IMPORTED REMEDY which is having an immense sale in countries where Catarrh prevails. F. E. Karn Co. having received reports through their foreign agents of the wonderful effects of this remedy in relieving and curing Catarrh, determined to secure it for the benefit of their customers who might be suffering from this terribly annoying complaint. Through influence and expenditure of money they were able to control the introduction of this valuable remedy to the citizens of Canada, and become sole agents for its sale in this country. Marvell's Catarrh Cure is for the instantaneous and permanent cure of all forms of asthma, phthisis, hay fever, bronchitis, croup and nasal catarrh. It is a scientific combination of oxygenating chemicals with herbs, barks and gums, as have proven themselves effective for the relief of catarrh and other affections of the respiratory organs, attended with short, difficult or spasmodic breathing. It is the result of many years' study and experiment by a German physician who has devoted especial attention to diseases of the lungs and air passages, that has never failed to give immediate relief or effect a cure when a fair trial was given, and used according to directions. This remedy is used by inhalation, and as its virtues reach the air passages direct, the relief obtained is instantaneous. Plain directions and valuable information is enclosed in each box, and if the sufferer will follow these directions carefully and study what the circular in the box says and act accordingly, mild forms of catarrh, hay fever, etc., are often cured in a week or two; but if the disease is old seated and has obtained a firm hold on the system, the treatment ought to be continued for several months, even though the patient may believe himself entirely cured. This great cure for Catarrh has heretofore only been sold in \$1.00 packages, but we have been enabled to have a quantity of trial packages put up for 40 cents each.

The Great Trouble in the past has been to apply the remedies that would effect this change without causing injury to the health of the person concerned. It remained for the celebrated Dr. Roberts, a French scientist of great renown, who has devoted the best part of his life experimenting with the different action remedies have on the skin. After years of study he found that a collection of remedies when applied together and taken internally acted directly on the skin, opening the pores and causing the blood to circulate freely through the arterial circulation.

They are absolutely harmless if taken according to directions, and we guarantee that they will not cause the habit to be formed so frequent with arsenic preparations. Taken as directed, the wafers will be found a positive, safe and magical specific for all sorts of skin troubles, unsightliness and imperfections, being in reality the only beautifier of the complexion, skin and form known. Guaranteed a sure cure for freckles, moth, blackheads, pimples, vulgar redness, rough, yellow or muddy skin, and other facial disfigurements, which are permanently removed and a deliciously clear complexion and rounding up of angular forms assured.

THIS SCIENTIFIC ROSE PREPARATION has only been rendered possible by recent researches, and represents the successful results obtained by dermatologists, aided by modern chemistry. As a **massage cream** it has no equal, its delightful rose fragrance makes its use a pleasure, and it insures that soft, roseate tint of perfect health, so much admired and envied. **Karn's Rose Cream** is a soft cream, the color of the pink tinte rose, a yellowish light pink, and has its delightful fragrance. ELASTIC STOCKINGS.

BELTS AND SUPPORTERS.

For the Relief and Support of Varicose Veins, Weak, Swollen or Ulcerated Limbs, Corpulency, Abdominal Weakness and Tumors,

These goods can be washed as often as required with Castile Soap and water, as warm as you can hold your hands in. Dry in the house. Do not put flat iron on them. Do not hang in the sun. Grease will spoil rubber. Egyptian linen elastic stockings are by far the more durable and satisfactory.

DIRECTIONS FOR MEASUREMENT.

Measurements for an elastic stocking should be carefully taken in morning before rising. The length as well as the circumference must be given. Give exact measurements. We allow for expansion. The tape measure should be applied closely to the skin so as to give a snug measurement, but not be drawn too tight. These goods are made to special order. They require from three to four days' time to make. They can not be returned if made according to measurements. Therefore be sure to give correct measurements.

Do not fail to give all measurements for length, which should be taken on inside of limb.

Please give exact measurement of Body or Limb. We allow for expansion.

THIS SYRINGE MADE ENTIRELY OF RUBBER. NO METAL PARTS TO CORRODE.

“Whirlpool Spray.” LADIES' SYRINGE.

THE Whirlpool Spray Syringe is the most wonderful improvement ever made in the Vaginal Injection and Suction Syringes. It is entirely unlike the old style, clumsy, solid stream syringes, so long found inefficient and unsatisfactory. It is the most simple, convenient and effective. Always ready for use, nothing to get out of order, no cumbersome water bags, tubing valves, or shutoffs to cause delay and annoyance. The vaginal passage is constructed in folds which overlap one another. For prompt and thorough irrigation the folds must be dilated or distended.

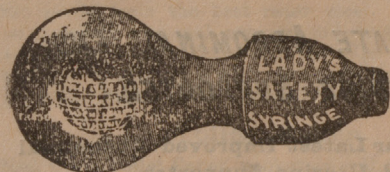

The Whirlpool by reason of its peculiar construction dilates and flushes the passage with a volume of fluid in the form of spray, which smooths out the folds and permits the injection to come into contact with its entire surface, instantly dissolving and washing out all secretions and discharges.

The spray nozzle can be easily removed when cleansing syringe. The soft rubber guard closes the vaginal inlet hermetically, preventing the injection from escaping, and if desired, causes its return by suction into the bulb when pressure on same is removed. In this way a douche can be taken in a minute without spilling the fluid or wetting the clothing.

The Whirlpool cannot throw a solid stream, but discharges a volume of spray, producing no shock and is absolutely harmless. Vaginal pipes that discharge a central or solid stream are condemned by physicians as exceedingly dangerous. The fluid when thrown forward with a force is liable to enter the uterine, causing thereby extreme pain, uterine colic, or alarming symptoms of nervous prostration and collapse.

The Whirlpool discharges a half pint of hollow spray which is more cleansing and effective than a gallon of injection used with any other syringe. Fountain syringes with their many parts and attachments are inconvenient, and those which discharge small, pinlike streams, or a large film of water are not effective for the reason that the small stream, when injected, reaches only that part lying against the nozzle; the force of the liquid is turned and follows back along the pipe and escapes, and its intended and supposed effect is lost. Only with the Whirlpool can the vaginal walls be distended by the injection fluid which is absolutely necessary in order to reach and remove secretions in the folds. The soft rubber guard or plug not only prevents spilling, but when hot injections are used it protects the sensitive external parts from the heated liquid when such is used.

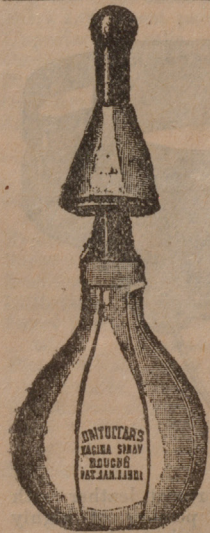

PRICE BY MAIL POSTPAID \$2.00.

THE F. E. KARN & CO.'S LADIES' PERFECT SYRINGE.

The best female syringe. Constructed on the latest scientific principles—**injection and suction.** Cleanses the vaginal passage thoroughly of all discharges. PRICE EACH BY MAIL POSTPAID \$1.50.

DR. TULLAR'S VAGINAL SYRINGE.

Regular Price \$3.00 - - - Our Special Price \$2.50

The **Dr. Tullar Vaginal Syringe** is the superior to all balloon, spiral or whirling spray, syringes and cannot be equalled as the simplest and most successful syringe on the market to-day. Its **simplicity** combined with its practical and common sense construction marks it as the peer of all syringes.

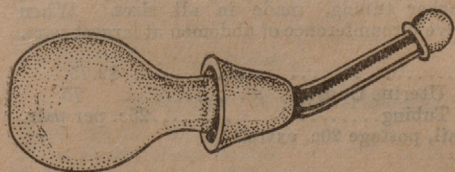

ITS CONSTRUCTION. The bulb is made of soft rubber especially chosen for its resisting qualities to air and water and can be used by the most delicate woman or child. The hard rubber pipe has a ball shaped lip which is so made that it throws a circular twisting stream of water which will thoroughly flush and wash out every fold and part of the vagina and at the same time withdraw all the water used. The sliding oval shield is so arranged that it can be moved along the pipe so that just as much of the pipe can be inserted as is desired and does away with all possible danger of causing any injury to the neck of the womb. It prevents the spilling of a drop of water and allows the use of the syringe in bed without any danger and annoyance of wetting everything.

The **Dr. Tullar Vaginal Syringe** is the very latest and only reliable **injection and suction** syringe made. No other syringe can compare with it for **convenience, safety and effectiveness**, absolutely no metal used in its construction, nothing to corrode or wear out, no valves to lose.

OUR SPECIAL PRICE OF \$2.50 for this syringe is the cheapest price this syringe was ever sold for and we can assure our customers that at the extremely low price of \$2.50 for this syringe it is the best value in a high grade syringe which we have ever offered.

It is acknowledged by physicians and nurses to be the only thoroughly antiseptic and practical syringe in use. Its universal adoption by the leading hospitals of this country speaks highly of its use.

SIZE. The Dr. Tullar vaginal syringe is 9½ inches long and weighs, without box, 8 oz. with box, 14 oz and will be mailed to any part of Canada for 17c. extra or \$2.67 in all.

BENT NECK VAGINAL DOUCHE.

It is constructed on modern hygienic principles and for simplicity, convenience and comfort is far superior to any other spray syringe made. **It can be taken to pieces**

so as to be thoroughly cleansed after use. The patent spray tip produces a hollow or cup-shaped spray which is considered to-day by physicians as the only effective, efficient and harmless spray invented.

Regular Price, \$5.00. **The Up-to-Date Body Brace only \$3.50**

AN AID TO HEALTH. The only Genuine Body Brace and Supporter and the **A SUPPORT TO NATURE.** Only One Endorsed by the Leading Physicians.

The up-to-date Body Brace is without doubt a wonderful aid to women and are certainly the finest form supporter that has ever been sold. Thousands of women suffer from one disease and another which has weakened the body until the weak muscles have given away and the body has inclined forward, causing womb troubles, backache, etc.

THE UP-TO-DATE BODY BRACE removes all this. It is so manufactured that it takes the strain off the back and throws the chest out and the abdomen in, at the same time supporting the back. A woman, to be admired, must have a straight carriage and an erect form. With this any person commands respect, and how seldom we find them.

TROUBLE, WORRY OR ILL HEALTH has affected the majority of women until they have become discouraged at trying and have given up in disgust. This form supporter will give you an erect form in spite of yourself and at the same time have no disagreeable feeling, chafing, etc., so common to other supporters.

THE PERFORATED METAL FRONT PAD is intended to support the abdomen and take all strain off the stomach. By wearing this it will prevent all danger of rupture or falling of the womb.

THE BACK SUPPORTS are made from chemically treated hard rubber pads which are so made that they support the weak back and hips. They are connected together by an especially prepared steel spring which is soft and pliable, readily forming to the contour of the body.

THE MATERIAL in the webbing is from especially prepared silk knitting and being non-elastic it gives support and holds the pads in place. Health is wealth and without it wealth is a curse. Many a woman's life has been saved and her life made

happy by the use of the Up-to-Date Body Brace. For pregnant mothers and those after confinement it is a blessing. It supports the body and puts the strain where it should be, making life a comfort. It will cure headache, weak kidneys, falling of the womb and all forms of female diseases. It expands the chest and causes the lungs to work freely and the blood to circulate. It gives health and tone to the system. No woman can afford to be without one, no mother would do without one if once tried, for the young girl budding into womanhood it is a blessing, giving her poise and strengthening the body to have a graceful and erect carriage. They can be worn underneath the chemise and drawers or over it, it does not matter. **How to Order**—Take your measure over the vest and drawers and give size around the body about two inches below the top of the hip bones, give bust measure and height and weight. Do not be deceived into buying any other so-called genuine. We sell the only genuine Body Brace and one that we guarantee to give satisfaction.

Others ask \$5.00 and \$10.00 for this Belt; we only ask \$3.50. If by mail, postage 25 cents extra.

Rubber Bandages.

Rubber Bandages, with tapes, per oz., 20c.

As the cost of Rubber Bandages is based alone on their weight, comparisons of prices are of no value unless the gauge or thickness be known. That all may be treated fairly, we will hereafter price all by the ounce. The prices here quoted are, therefore, only approximate, for a slight change in the thickness of a bandage might cause the weight to vary considerably.

TRUSS DEPARTMENT

Do not Pay your Doctor a Big Price for a Truss

and a correspondingly big profit simply because it is customary to do so. We know that it is usual for doctors to furnish and fit trusses, for which they charge exorbitant prices, ranging from \$6.00 to \$20.00 on which they make as their profit from \$3.00 to \$12.00, besides their fee for examination and treatment. It is wasteful and extravagant to pay any doctor more than the price which we quote for Trusses, and every time you do so you are paying out money that you should keep in your pocket. Our prices for Trusses are based on what the material and labor actually costs, while doctors' prices are generally based on how much they can get without a patient complaining.

Druggists' Prices for Trusses are Always Excessive

to their actual value and are generally double the price that we quote. They yield to the druggist one of his largest percentages of profits, in some cases running as high as three hundred per cent., or three times the cost of the trusses, and we have heard of cases where druggists have received \$15.00 for the same Truss that we sell for \$4.00.

We Guarantee a Perfect Fit.

The question may arise whether we can fit you with a truss as well as a doctor can. We answer that question by replying **Yes, and better**, for where a doctor fits one truss, our experts fit thousands, and experience by practice being the best teacher, leads us to believe that **we can fit a truss better than any doctor can**, unless he is a specialist in the treatment of rupture. We guarantee to fit our Trusses perfectly and comfortably and to the satisfaction of a customer, and if we fail to do so we will instantly and without a question refund any money paid to us.

Our Trusses are Made from the very best quality of stock which they contain by skilled artisans, with every part fitted correctly to the minutest fraction of an inch. Some are made from fine silk webbing with elastic bands, others with high-tempered malleable steel non-rusting springs, covered with either silk, Russia leather or hard rubber, both made scientifically to conform to the shape of the body in the most comfortable manner and to perform perfectly the duty for which they are intended. The pads are composed of either hard rubber with extra heavy nickel-plated trimmings, or leather covered, or with soft or hard water pad, as the truss demands. Every part that enters into the construction of our Trusses is the best that can be procured, with the workmanship and finish unexcelled.

IMPORTANT

Every individual case of rupture requires its own special truss, which accounts for the large assortment which we display. By exercising a little judgment you can pick out just the truss best suited to your case.

You can Exchange any Truss that you buy from us, providing you find that it does not suit your case and if not soiled or damaged. Just send it back to us with your new selection and we will make the exchange and return it promptly. If the price of the truss selected is higher than the one returned, you should remit the difference with the truss, and if it is lower, we will refund the difference to you.

Very Important!! How to Order.

It is highly important that you give us the information requested below, in order that we may fit you perfectly. State your height and weight and how long you have been ruptured. State the size of the rupture, whether large or small. State your size (in inches) around the body in line of the rupture. State whether the rupture is on the right or left side, or both, and if it can be reduced easily or not.

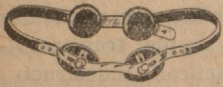

About Correspondence. Do not hesitate to write us fully about your case and give us all the information you can. We hold all correspondence strictly confidential.

Our C. O. D. Terms. Send us \$1.00 deposit and we will send any truss priced at \$2.00 or more by express, subject to examination, the balance and express charges to be paid to the express agent, if after examination the truss is found exactly as represented and perfectly satisfactory, otherwise it will be returned to us and we will refund your \$1.00. An order for a truss priced at less than \$2.00 should be accompanied by cash in full payment.

The Cheapest Way is to send all the money with the order, together with enough extra to pay the postage and have the truss sent by mail. This in no manner interferes with your privilege of returning it and getting your money back if it is not satisfactory.

Write to us before placing your order, for our special order blank. An expert is in charge of our truss department, who will reply to your letter promptly and intelligently.

The front pads are also of hard rubber and are joined together by a nickel-plated strip of peculiar shape, the pads can be adjusted to any angle or removed entirely.

The leather strap which fastens the truss, connects in the back the exact opposite of other trusses, thus throwing the pressure where it is most needed. Comes in all sizes from 26 to 40 inches, and both single and double. Be sure to give the size in inches around the body in line with rupture.

Wetmore Truss.

This is a new truss embodying the simplicity and durability of all other trusses, and yet unlike any of them. The most simple truss ever made. Practically indestructible; wears forever. Made on strict hygienic principles. No cumbersome springs to pass around the body. So simple to adjust and fit you will wonder the idea was not thought of before. It gives perfect freedom of action without the slightest movement of the truss. Does not take one-half the pressure to hold the rupture that the old styles take. Holds the rupture easily, yet firmly and surely. It stays where it is placed and is very light. It consists of a strong light non-elastic web belt, which passes around the body and buckles in front as shown by cut. The belt suspends the round non-corrodible spring to one end of which is attached the pad which holds the rupture, while the other end is supplied with pad which rests against the soft parts behind and thus poises the truss, which is further held in place by what might be called a guy strap which passes from the back pad around the body and attaches to the front pad.

We here introduce to our customers a new style of truss, made of strong, finely polished wire, with hard rubber back pads and soft water pads covered with fine kid to hold the rupture. This truss has come much into favor recently on account of its lightness and flexibility, adapting itself to every motion of the body. Another feature, it is scarcely possible to wear this truss out, it will last more than a lifetime, and if at any time a part should get damaged by accident, that part can be duplicated without requiring to purchase a new truss complete. Truss dealers have been charging fancy prices for this truss, such as \$10.00 for the single and \$18.00 for the double. We will be much more reasonable.

The Family Faradic Battery.

This instrument is a Portable Battery designed for family or physician's use, where a good, reliable instrument at a moderate price is desired, and from an Electro-Therapeutical standpoint it is better than many of the high priced instruments now on the market. The strength of the current is regulated by a dry current controller, which is the latest and most desirable method of regulating, giving the operator perfect control over the current. Current can be turned on so mild as to be imperceptible, and can gradually be increased to full strength of the battery.

Three different currents can be taken from this battery, the primary or mild current, the secondary, and the primary and secondary currents combined.

For doctor or patient this Karn Family Faradic Battery is the most convenient and reliable. It is reliable because with a dry battery so much less care is necessary to avoid getting it out of order than is required with any other form. The entire absence of acids, liquids or salts will be appreciated by anyone who ever had occasion to use a medical battery. This battery will last a life time with the proper care and can be re-charged when the dry cell is exhausted for 25 cents.

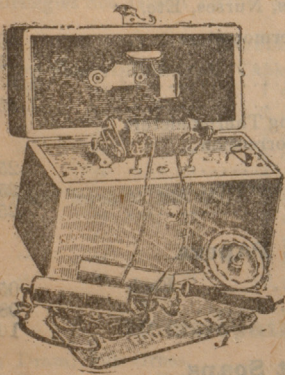

The instrument is enclosed in a highly polished oak box and weighs five pounds. We furnish with this Battery two conducting cords; two nickel plated handle electrodes;

one rosewood handle; one sponge holder and a foot plate. The electrodes and all metal parts of the instrument are heavily nickel plated. PRICE, COMPLETE, \$7.00.

Anti-Doc Medical Apparatus.

NO FLUIDS TO SPILL. POLISHED HARDWOOD OAK CASE.
METAL TRIMMINGS NICKEL PLATED.

Outside Measurements, $7\frac{3}{8}$ x $5\frac{1}{2}$ x $3\frac{1}{2}$ inches.

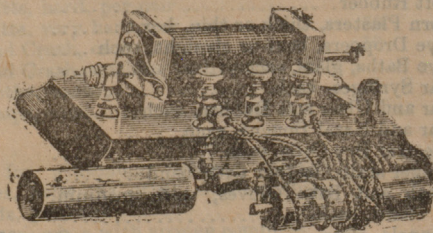

The Anti-Doc is without question the most Compact, Reliable, Durable, and Neatest Medical Apparatus of its kind ever manufactured.

Our many years' experience in the manufacture of Medical Apparatus has acquainted us with every phase of objection brought against the various styles hitherto in use, and led us to apply considerable thought to the construction of a form of Battery that would, as far as possible, avoid these objections and still constitute a moderate priced apparatus. The armature and vibrating parts are an entirely new feature and so arranged that perfect adjustment is always maintained. The frame for holding the adjustable Contact Screw and Armature is made from one piece of metal and is securely fastened to the base holding the coil and to the end of the induction coil thus insuring permanency of position for all the parts, and overcoming the trouble caused by loosening of contact parts from the base which has been responsible for most of the complaints on the apparatus using a separate post for holding the contact screw. An ingeniously arranged recording scale is furnished with each apparatus to show strength of current being used. Apparatus, with Battery and Electrodes, complete, price \$4 50.

Medical Induction Coil.

A finely finished and powerful instrument. The coil is mounted on a polished oak base and provided with a switch for connecting battery. It is arranged to give both primary and secondary currents.

Price Complete with Electrodes, \$2.50.

CHAFING—Wash carefully and frequently, dry without rubbing, and apply Talcum Powder very freely.

COLDS—When first symptoms of cold appear take two of Dr. Cowan's Cold and Grip Cure Tablets and repeat every three or four hours until bowels are moving freely. Afterward one tablet two or three times daily for several days. For children, divide according to age.

COLIC—Take a teaspoonful of Essence of Jamaica Ginger with about fifteen drops of Essence of Peppermint in half glass of water perfectly hot. Repeat if necessary.

CONSTIPATION—Take a Compound Cathartic Pill every night for three nights; then every other night for ten nights and thus gradually decrease the dose.

DIARRHŒA, DYSENTERY—Confine diet to weak tea and dry toast and remain as quiet as possible. Do not drink cold water. Take a teaspoonful of Essence Jamaica Ginger with ten drops of Essence of Peppermint, thirty drops of Paregoric in a little water every two hours until relieved. Do not try to check too quickly.

DIZZINESS, WHIRLING SENSATION, FAINTNESS—Take fifteen to thirty drops of Aromatic Spirits of Ammonia in half a glass of water. Repeat in half an hour if required.

DOG AND CAT BITES—Wash with very hot water and soap and cauterize thoroughly. If unable to cauterize apply common table salt or ammonia.

INDIGESTION, SOUR STOMACH, FLATULENCE—Take one or two Soda Mint Tablets after eating or when required. In cases accompanied by flatulence an Asafoetida pill taken after meals and on going to bed will be of great service, especially in nervous conditions.

PAIN IN BACK, SIDE OR CHEST—Rub spot well with Arnica or Witch Hazel, then apply Belladonna Plaster.

SORE THROAT—Gargle frequently with salt water and take a two-grain Quinine pill every two hours. Application of a hot water bottle often proves useful.

SUNSTROKE—Lay patient in cool place, remove clothing and dash with cold water. Apply ice to head and rub spine with ice. Give no stimulants.

About Our Reliability.

HAVE you ever dealt with us? If so nothing need be said of introduction or to insure you of our ability. But as this catalogue may fall into the hands of those who do not know us, who have never bought from us, we wish to say for their benefit that the F. E. Karn Company, Limited, have been established since 1889. Its principal office and laboratories are in Toronto. We employ over eight thousand agents and we are the largest dealers in the world selling direct to consumers. Persons wishing to inform themselves as to our commercial standing or ability are referred to the commercial agents of the U. S. A. and Canada, the Express Companies, any bank or business house of the city of Toronto.

THE POLICY OF OUR HOUSE. We hold it as the keynote and the fundamental principle of this business that the consumer should not be called upon to pay more than one small profit over and above the actual cost of any kind of merchandise. We contend that it is not legitimate and in accordance with modern business methods for the farmer, the clerk, the mechanic or the laborer, to pay one half the price of any article in excessive profits, profits of the manufacturer, the jobber, the wholesaler and the retailer; to give out his hard earned money, won by honest toil, for something that adds nothing to the intrinsic value of the goods, but is only a useless expense caused by faulty business methods. The money received by the consumer for his labor is the actual value of his labor. The price of goods in the ordinary store is not the actual value of the goods, but is the price on an inflated basis, a price made by an endless and excessive chain of profits. We believe it is therefore unjust and unreasonable for the consumer to exchange the money received for his labor, which is the true and actual value of his labor, for the goods he needs at the fictitious prices usually asked for such goods. It is an unfair plan.

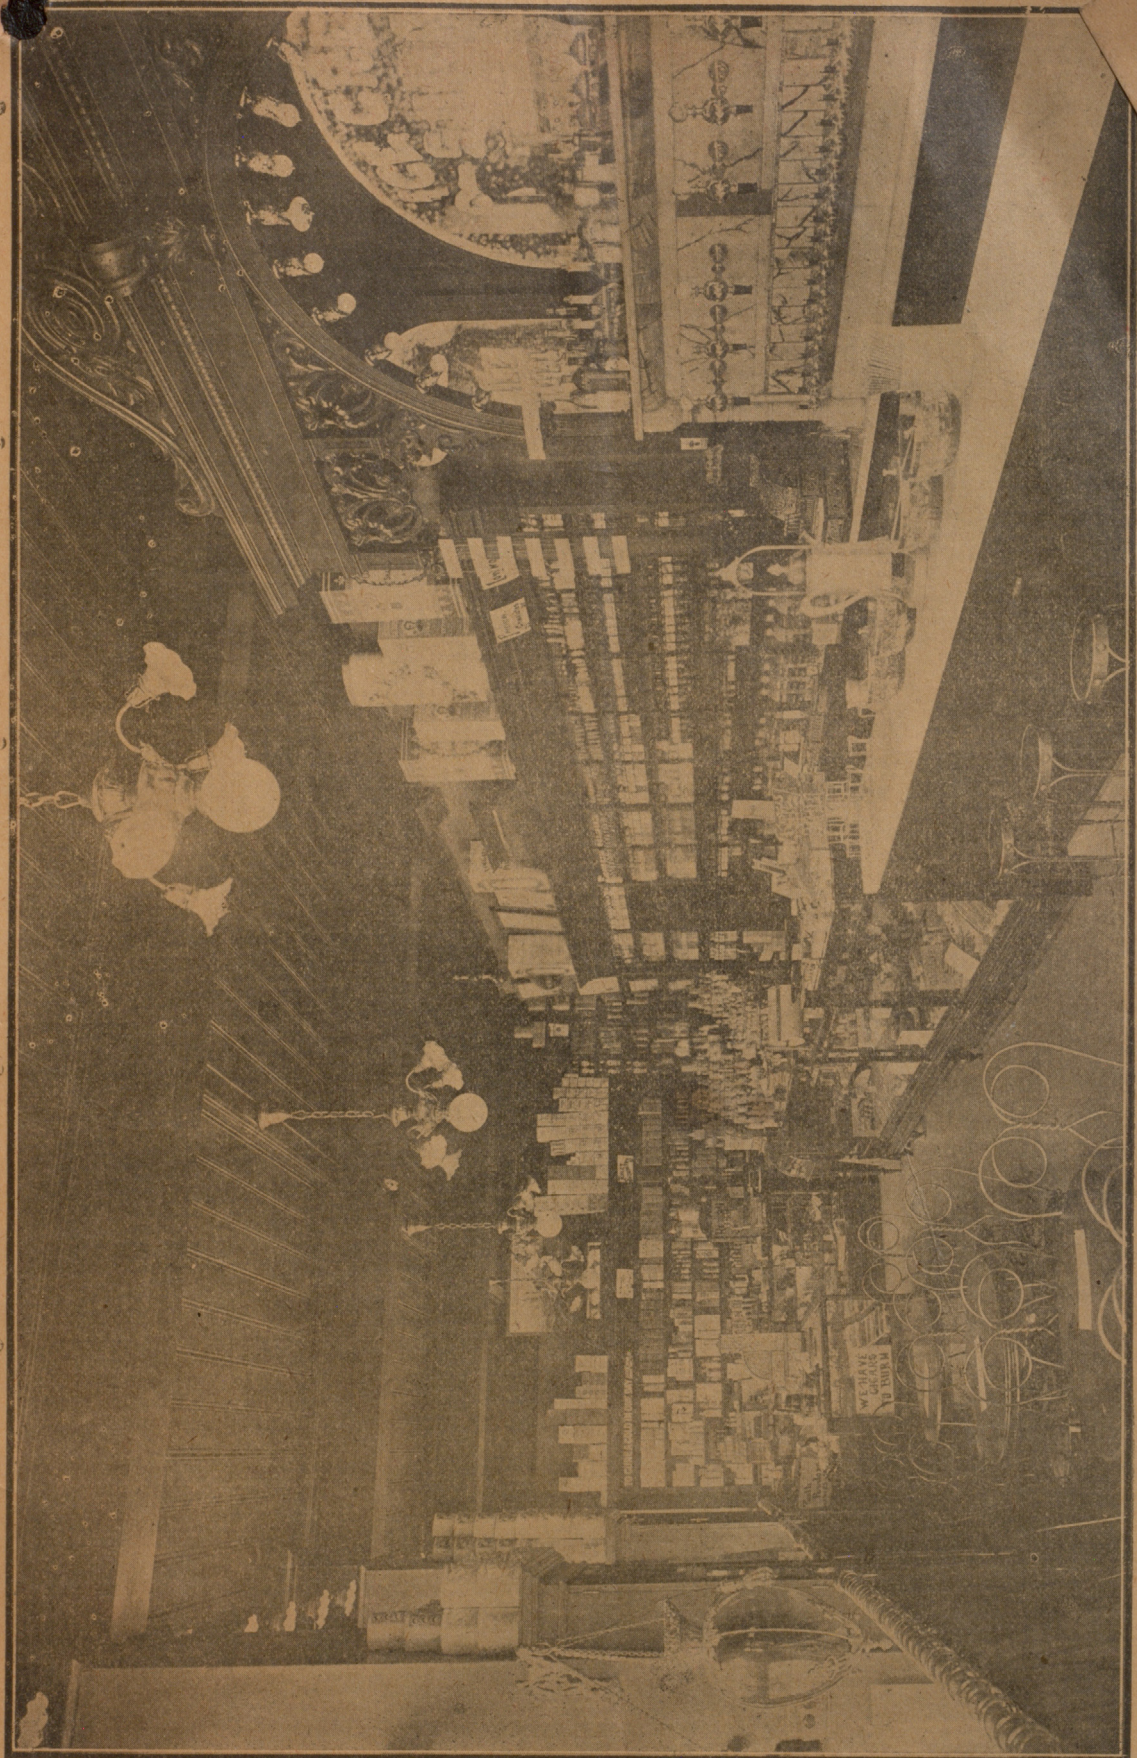

FOR THESE REASONS and for these reasons alone, we commend this catalogue to the careful consideration of all buyers. If you think we are right in our belief that the consumer should not pay more than the actual cost of goods, with only enough added to cover the expense of conducting a business on the most economical plan, and to allow for one fair profit, we then solicit your patronage. If lower prices than any other concern can quote are any inducement, then we say, send us your orders. If a scrupulous and painstaking honesty, if strictly correct representations, religious like in their fidelity to truth, are worthy principles then you need not hesitate to trust us, "your money back for anything not satisfactory, transportation charges refunded also" is sufficient guarantee, then you can safely trade with us.

OUR EMPLOYEES ARE INSTRUCTED to treat every customer at a distance exactly as they would like to be treated were they in the customer's place and the customer in ours. If you favor us with your patronage we will do everything in our power to merit your trade, and no matter how small your order may be it will receive the same prompt and careful attention as if it were ever so large. The courteous and careful attention we pay to our customers invites their continued patronage and we consider that a satisfied customer is the best advertisement that a firm can have.

From Toronto Globe, July 2nd, '94.

THE F. E. KARN COMPANY, LIMITED, TORONTO.

THE possibility of reducing the dangers of contagion by better sanitary appliances and surroundings has been so thoroughly demonstrated during the past few years that it is little wonder that an institution of such large proportions should have come into existence within so short a time as this has when it becomes known how much they are doing to bring about that better condition of things. It would be impossible in this space to go fully into a description of the many articles which THE F. E. KARN COMPANY, LIMITED, Toronto, put within the reach of everybody, such as rubber goods used now in a multitude of ways, especially in the toilet, in the form of hot water bottles, syringes, atomizers, elastic hosiery, trusses, hearing appliances, etc., etc. They claim to be the largest manufacturers of electric belts in Canada, and make a specialty of electrical insoles and batteries for private use. The firm have a lot of carefully prepared literature and catalogues of their different lines, which they will be glad to send to any address in response to a letter stating the article required. They have established a most perfect system for supplying goods through the mail, and by dealing with THE F. E. KARN COMPANY, LIMITED, the customer gets the benefit of the middle man's profit. The splendid business which they have built up since 1889, when they were first established, is really wonderful, and can only be accounted for by the straightforward business methods adopted and lived up to since they first began. They have also established a most extensive mail order connection in Great Britain, and are becoming as well and popularly known in all parts of the kingdom as they are in Canada. They are the sole agents for the Wonder Herb Medicine Company, which has become so well and favorably known through the public exhibitions given by their travelling organizations. In addition to the above, they have a very full line of proprietary medicines, among them being their famous Ah-Wa-Go blood purifier, for which they claim the largest sale of any medicine in America. A full list of these will be found in their booklets, which should be sent for by those suffering from any chronic or temporary troubles. It is said that success perches on the brow of those deserving it, and, judging from the success so apparent everywhere around the premises of THE F. E. KARN COMPANY, LIMITED, Toronto, they must deserve it.

THE **BIG 4** VETERINARY REMEDIES

THE FARMERS' AND STOCK BREEDERS' FRIENDS

KARN'S CONDITION POWDERS

Is a wholesome tonic that should be fed as regularly as hay and oats to **Horses, Cattle, Sheep and Hogs.** From 25 to 50 per cent. more nourishment is derived out of the grain fed by its use, because it assists digestion, assimilates the grain fed and increases the appetite, thereby fattening the animal in a shorter period of time, and always keeping the stock healthy and free from disease.

Karn's Condition Powder is not a stock food, but a wholesome **Tonic**, that has been subjected to the most severe tests on all kinds of stock raised everywhere under every imaginable extreme. It is a combination of health-giving and nutritious herbs, seeds, barks and roots, therefore, it can be fed to the most delicate animal with perfect safety as a tonic which cleanses and cools the blood and sweetens the stomach. It is an appetizer and imparts a pleasant taste to the food with which it is mixed, therefore is relished by all animals. It is economical and profitable to use, and in many cases it saves lives of various animals.

Karn's Condition Powders is only sold in two pound packages and not in bulk or wooden boxes. Every package warranted—Be sure you get the genuine.

PRICE, 50c. per package—per dozen, \$4.00

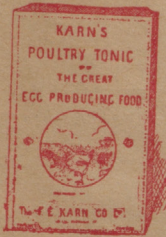

KARN'S HORSE LINIMENT

Is the best Liniment on the market, and is made from a formula which is highly recommended by eminent surgeons. It will cure Lameness, no matter how it was caused, quicker than any other remedy. It is the most powerful and successful remedy that has been used for Spavins, Splints, Sprains, Curbs, Bowed Tendons, Knuckling, Weak Kidneys, Shoulder Lameness, Buckshins, Navicular Disease, Quitter, Sprung Legs, Saddle Galls, Ringbone, Shoe Boils, Farcy, Founder, Wind Galls, Scratches, Grease Heels, Thoroughpin, Over Reach and all Bony Enlargements, etc. It will not blanch or destroy the hair on any part of which it is applied. Horses need not be kept in the stable eating their heads off through lameness. It is an absorbent, and exercise assists the action thereof.

Regular 50c. Size, 25c.

KARN'S POULTRY TONIC

Karn's Poultry Tonic aids digestion, stimulates the appetite, creates perfect assimilation, and if fed to poultry, extracts all the nutritive properties from the food, thereby producing flesh, bone and muscles, making the fowl strong and healthy, thus preventing and curing all **Poultry Diseases.** It adds weight to poultry and is a remarkable tonic, renovating their blood and building up their system. It forces young chickens to mature earlier, take on flesh with a greater rapidity, thereby enabling the dealer to bring the broiler to market earlier. It will reduce the time of their idleness during the moulting season.

Karn's Poultry Tonic positively makes hens lay eggs. By feeding it in larger doses than mentioned in the directions, hens will lay the eggs faster than the shell can form on them. When this happens it is because they are being fed more tonic than proper, or they are not getting enough shell producing material, such as oyster shells, gravel, grit or sand. Certain seasons some hens only lay one or two eggs per week, but if these same hens are properly cared for and fed **Karn's Poultry Tonic**, they will lay one egg each and every day.

Karn's Poultry Tonic is used by some of the most successful poultry men in America, and there is not a single instance where it has been tried that it has not been used continuously thereafter. We recommend and guarantee **Karn's Poultry Tonic.** If it does not do exactly as is claimed, we will cheerfully refund the price paid. Price per package, 25 cents.

KARN'S VETERINARY CARBOLIC SALVE

KARN'S AUSTRALIAN CATARRH REMEDY

FOR THE CURE OF

**Chronic Nasal Catarrh, Catarrhal Deafness,
Cold in the Head and Hay Fever.**

NASAL Catarrh is an inflamed condition of the mucous membrane of the air passages of the nose and throat. This inflamed state of the parts involved, when recent, is usually called "cold in the head;" when very severe is termed "catarrh of nasal passages;" and when of long standing is known as "chronic catarrh." If proper remedies are used there is no reason why Nasal Catarrh in all its branches cannot be cured. A remedy which will fill the requirements of the foregoing, which *will relieve at once*, and allay all kinds of catarrhal inflammation, one which will cure obstinate cases if its use is persevered in as directed, is prepared by us and offered to the public under the name of—

KARN'S AUSTRALIAN CATARRH REMEDY.

It is perfectly safe to use at all times, and is guaranteed to be free from dangerous drugs, such as *Mercury, Cocaine, Chloral, Iodine, etc.*

Thousands of recommendations as the following are received by us yearly, praising its merits. It cures the most obstinate cases, no matter how long standing. Price, 25 and 50 cents per tube.

Gentlemen,—Enclosed you will find the sum of one dollar for which please send me some more of that Australian Catarrh Remedy. I think it is very good. In fact the best remedy that I have ever tried.

Respectfully yours,
F. SULLIVAN.

Toronto, Ont.,
Feb. 5, 1907.

The F. E. Karn Co., Limited.

Dear Sirs,—I have been a sufferer from chronic nasal catarrh for a number of years, and have tried various remedies from which I received but temporary relief. By accident I secured a sample box of your Catarrh Remedy, which I used, and to such good effect that I purchased a 25c. tube of a local druggist. That was some two months ago. It has in that time stopped the dropping of the nauseating virus in my throat, and also the almost continuous headache to which I was subject. I heartily recommend it to all sufferers of this disease.

THE ELECTRO-CHEMICAL RHEUMATIC RING

A Safe and Speedy Cure for Rheumatism, Sciatica, Neuralgia,
Lumbago, Gout and all other Diseases where a general
Warming, Quickening, Strengthening and Equaliza-
tion of the System is Required.

THIS RING is not charged with electricity, but directly the Uric Acid and the salts which are contained in the finger comes in contact with the metals of which the Rheumatic Ring is composed, a gentle current of Electricity of the right strength is set up, which being constantly supplied day and night, causes quicker circulation of the blood and prevents a deposit of the uric acid crystals, and in a short time the pain is eased, and by constantly wearing the Ring perfect immunity from the affliction is assured. The Electro-Chemical Ring is not an ignorant charm or faith cure, but a scientific medium for the elimination of uric acid from the blood. The secret, the power, the merit in this ring lies in the combination of the various metals of which the ring is made. No matter what the trouble is, if it is caused by excess of uric acid, the Electro Chemical Ring will effect a cure. Looks just like any other ring; can be worn day and night. We guarantee these rings to do all we claim, or will refund the money. Send size of finger with order.

DIRECTIONS

To obtain full benefit from this Ring, it should be worn day and night on either fingers of the left hand. Warm the feet and limbs and revitalize the blood, which gives it power and life to flow freely through the channels of circulation. They positively cure Cramps, Pains and Aches in the limbs and feet. In the cure of any disease it is important to keep the feet warm and circulation proper. Dr. W. A. Hammond, of New York, formerly Surgeon-General of the U. S. Army, lately lectured upon the subject of Electro-Magnetic Treatment, and advised all medical men to make a trial of these agencies, describing at the same time remarkable cures he had made. This is worthy of note. The source and nature of electro-magnetic powers are things which are above human comprehension. Of the existence of the power we are all well aware, and the knowledge of its uses is common to all. Electricity is the "Germ of Life," and is the latent power that moves the human body.
