ENDOWMENT OF BED OR COT

Ten thousand dollars in one payment towards the Endowment or other Fund constitutes a Benefactor, whose name shall be placed upon a suitable plate in the building.

Ten thousand dollars in one payment endows a Bed in perpetuity in the Public Ward.

Five thousand dollars endows a Cot in perpetuity in the Children's Ward.

SUPPORT OF BED OR COT

Six hundred dollars per annum will be accepted as supporting a bed, or three hundred dollars as supporting a Cot in the Children's Ward

LIFE GOVERNORS

One thousand dollars in one payment constitutes a Life Governor, without further fee or payment.

Two hundred and fifty dollars constitutes a Life Governor, with an annual payment of twenty-five dollars or more.

LIST OF LIFE GOVERNORS OF
The Montreal General Hospital

SECRETARY'S REPORT FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE GOVERNORS OF THE MONTREAL GENERAL HOSPITAL:

I have the honor of presenting the Ninety-ninth Annual Report of the Statistics of the Hospital.

The following ladies and gentlemen, having duly qualified, are nominated by the Board of Management as Life Governors, and you will be asked to elect same:—

Mrs. T. Howard Stewart
Mrs. C. A. Peters

Mr. M. L. Packard
Mr. A. G. Cudsi
Mr. T. H. Sharp
Mr. F. G. Donaldson

We regret to have report that the following Life Governors died during the year:

Henry Berry
J. Godfrey Bird
K. W. Blackwell
Hugh Brodie
James W. Coristine
M. Denenberg
Clarence I. DeSola
G. W. Farrell
Thos. Forde
Richard L. Gaunt
Duncan Gordon
Samuel Hird
M. W. Hogle
Miss Marion Law

W. F. Lighthall
Mrs. J. R. Meeker
Dr. W. A. Molson
John Murphy
John McKergow
John McLean
A. M. Robb
Dr. J. J. Ross
Patrick Ryan
John H. Scott
Mrs. Hugh Vallance
Sol. Vineberg
W. T. Whitehead

The record of the year's work is as follows:

There were admitted 5,810 new patients, classified as follows:

Public free patients.....	1,190	
Public pay patients.....	2,564	
Sailors.....	181	
Private patients.....	1,009	
Semi-private patients.....	866	
		5,810
Protestants.....	2,914	
Roman Catholics.....	2,152	
Hebrews.....	612	
Others.....	132	
		5,810
Citizens.....	4,641	
Strangers.....	988	
Sailors.....	181	
		5,810
Cases in Hospital December 31st, 1919....	247	
Cases in Hospital December 31st, 1920....	257	
Aggregate number of patient days.....	105,455	
Average number of days per patient.....	17.8	
Maximum number of patients, Mar. 5, 1920	340	
Minimum number of patients, Dec. 24, 1920	235	
Total number of deaths.....	415	

OUT-PATIENT DEPARTMENT

Medicine.....	8,765
Surgery.....	32,899
Eye.....	5,570
Ear, Nose and Throat.....	7,341
Gynaecology.....	2,659
Children.....	3,010
Neurology.....	1,641
Skin.....	3,435
Orthopaedic.....	2,481
Genito-Urinary.....	16,720
Physio-Therapy.....	4,963
Sunday Dressings, Jan. to Dec.....	1,774
Emergency Cases, Jan. to Dec.....	2,514
Diabetes.....	22
	<hr/>
	93,845
Dental Department.....	14,155
	<hr/>
Total number of Cases.....	108,000

The average cost per patient per day in the public wards was \$3.76.

The ambulance responded to 2,247 calls during the year—an increase of 119 calls as compared with last year.

The whole respectfully submitted.

(Signed) J. M. ELDER, M.D.
Secretary.

TREASURER'S REPORT FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE GOVERNORS OF THE MONTREAL GENERAL HOSPITAL:

I beg to submit herewith the Financial Statement of The Montreal General Hospital for the year ended 31st December, 1920.

The ordinary revenue for the year was \$468,910.66, which shows an increase of \$68,613.60 over that of the previous year, while the expenditure was \$552,982.79, an increase of \$67,879.53. The excess of expenditure over income amounted to \$84,072.13, which is practically the same as in 1919. This deficit has been made up from the Emergency Fund, which was subscribed in March, 1918. I desire to say, however, that this Fund is practically exhausted, so that the Hospital will now have to depend on its ordinary sources of revenue.

It is gratifying to note that the payments to the Emergency Fund were over 99% of the amount subscribed.

The amount received from the Amusement Tax was \$18,480.97. A further payment of about \$9,500.00, however, is due for the balance of the past year.

The yearly subscriptions from the public show an increase of \$1,690.81.

Legacies received during the year amounted to \$100,419.39.

The question of provincial and civic assistance for the sick poor of the City has during the past year received the careful attention of the Board of Management, and an arrangement is almost completed with the City to pay to the Hospitals a certain sum per patient for the care of those who are unable to pay for their treatment. The Superintendent in his report will explain to you the exact nature of this civic assistance. It must be evident, however, that the amount we will receive from this source is only a small percentage of the cost of treating such patients, and The Montreal General Hospital will have to rely for the balance on the generosity of the citizens of Montreal. I need not say that I have every confidence that the response of the Governors and other contributors will continue to be as hearty as it has been in the past.

J. T. McCALL,
Treasurer.

REPORT OF THE BOARD OF MANAGEMENT FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE GOVERNORS OF THE MONTREAL GENERAL HOSPITAL:

Your Board of Management begs to submit its Ninety-ninth Annual Report for the year ended December 31st, 1920.

The question that was uppermost in our thoughts one year ago, i.e., the proposed amalgamation of this Hospital and the Western, has received considerable thought and some action during the past year. After several meetings of sub-committees of the two Hospitals, a charter for the combined hospitals was drawn up by our respective legal advisors, and is being presented at Quebec this session. It has to date passed the second stage and we do not anticipate any difficulty in its final passage. This charter will be effective only on application by the combined Boards of Management of the two hospitals.

Your Board will, therefore, be faced with the problem of deciding in the very near future what course it will adopt on the passage of the bill granting this new charter. Three plans present themselves:

1. To carry on the two hospitals as at present.
2. To amalgamate immediately for purposes of finances and management, leaving both hospitals as they are architecturally.
3. To amalgamate along the lines as set forth in my last year's report to you.

The plan to be decided on will demand our most careful thought and action. The financial situation existing as a result of the changes in the business world during the last twelve months, will no doubt be the deciding factor in our deliberations of the immediate future.

You will notice from the Treasurer's Report that the last of our Emergency Campaign funds have been used to meet our deficit for 1920; your Board will, of necessity, be compelled to appeal to you and the public during the coming year to meet our inevitable deficit for 1921. We are economizing wherever possible, but the increasing demands made upon the Hospital do not warrant us in prophesying a lower deficit for the coming year. Every effort is being made to increase the Hospital's revenue from its logical sources of income, but until our Provincial and Municipal Authorities recognize their duty to our General Hospitals, we must continue in our efforts to relieve suffering and sickness by your help, or consider the necessity of closing our public wards. This latter stringent action will never be taken as long as we have the support of our citizens as in the past.

The policy of increasing publicity through our press has been carried on energetically during the past year. The success of this publicity has been marked, and is to a large degree due to the most generous support given to us by the "Gazette," "Star," "Herald," "La Presse" and "La Patrie," and I desire to take this opportunity of expressing to them, on your behalf, our sincere thanks.

I feel that this is a most fitting time to publicly express our deep appreciation of the efforts of the Administration Commission of this City during the past year. They have at all times welcomed our committees and have assured us of their sympathy and desire to assist us in our problems. This year we have their assurance of some financial support. To what extent we will benefit from this new arrangement it is difficult for us to state, but we feel that in accepting the principle, our Municipal Authorities are at last awakening to their responsibilities in matters appertaining to the health of the community.

This report to you would not be complete were I to omit the usual vote of thanks which it is customary at this time to make to our many friends, who by their assistance during the year in their various professions, have been of great help to the Hospital. I refer in particular to the Clergymen; Messrs. Blacklock Bros., Jos. C. Wray & Bros, Messrs. Meredith, Holden, Hague, Shaughnessy and Heward; those ladies and gentlemen who entertained our patients at an excellent concert in connection with our annual Christmas Tree; and to those individual members of the Board of Management who are continually providing, at their own expense, many comforts for nurses, internes, employees and patients.

All of which is respectfully submitted.

FARQUHAR ROBERTSON,
President.

SUPERINTENDENT'S REPORT FOR THE YEAR ENDED 31st DECEMBER, 1920

FARQUHAR ROBERTSON, Esq.,
President, The Montreal General Hospital.

Sir:

I have the honor to submit the following as the Ninety-ninth Annual Report of The Montreal General Hospital.

We are now entering upon our hundredth year of service to the citizens of Montreal. In next year's annual report it is proposed to compile statistics which will be exceedingly interesting, showing in actual figures what this service has meant. It is doubtful if at any time during the past ninety-nine years the Hospital has passed through any more critical period than it is facing at the present time. Our deficits are large; your Board is satisfied that they have been legitimately incurred. Canada's effort in the war is being directly reflected in the income of this Hospital. In the past we were able to face the future with the knowledge that the citizens of Montreal were able and willing to contribute generously for the care of the sick poor. I think it is safe to say that our friends have increased in number—their willingness to help has not decreased—but taxation, increased cost of living, and many calls made at this present time have combined to make our financial situation a very serious one.

The policy which your Board supported in 1919 has unquestionably been a wise one. The policy I again refer to is that of charging, wherever possible, patients admitted to the public wards. The following figures will bear this out: In 1916 our revenue from public patients was \$16,000.00; in 1920 it was \$93,000.00. In 1916 our revenue from the Outdoor Department was \$12,000.00; in 1920 it was \$39,000.00.

I mention these figures in order to convince our Governors and the public that your Board is making every effort in their power to run the Hospital on business methods and within their means. It is impossible to run the Hospital within our present means. In 1920 the public wards cost \$299,779.83; our revenue was \$92,993.18. That left \$206,786.65 which had to be provided: from our Governors, grants, donations and endowment revenue—in fact all our other sources of revenue, we received \$183,115.92, which left us with a deficit of \$31,268.23 in our public wards.

Our Outdoor Department cost us \$76,613.79; we received as revenue from it \$39,236.64, which left us with a deficit of \$37,377.15 in this Department. It is not sufficient to say in presenting this report that a large percentage of our expenses for the year was incurred in the name of charity. To be exact, we gave 22,000 days of free treatment in the public wards, which means that in our public wards we averaged 60 patients each day that did not pay anything toward their hospitalization. I cannot emphasize this fact too strongly, for in spite of circulars, newspaper publicity and public addresses, there are still many who are inclined to criticize us and accuse us of becoming so commercial that we no longer look after our needy poor. What we have done is to collect where we can, avoid being taken advantage of, and give to our limit.

Your Board has made every effort during the past three years to bring home to the Municipal and Provincial Authorities the immense amount of charity dispensed here, and if possible to have legislation enacted that would compel Municipal and Provincial Authorities to bear a portion of this expense. That request is not unreasonable—it is done in every other province in the Dominion of Canada, except Quebec. During the last days of 1920, a temporary agreement was entered into between our General Hospitals and the City of Montreal, whereby the City of Montreal would pay up to \$1.50 towards the cost per day for each patient in the public wards who, on investigation, was found unable

to pay that amount. It is too early to predict what effect this will have on the Hospital's budget, but the relief will not be to the extent that the situation demands; for in order to meet this charge of \$1.50 per day, the City has decided not to distribute the so-called Charity Tax, as previously—our share of which, for 1920, was \$18,000.00

Our deficit for 1920 was \$84,000.00; I cannot hope that it will be less for 1921. During the last eight years there have not been any hospital beds added to the available accommodation in our hospitals in this city, whereas the population of Montreal has increased considerably. The urgent demands being made at the present time for hospital accommodation by the public has compelled your Board to re-open the two wards that we were compelled to close in 1919.

It is reasonable and natural that Municipal and Provincial Authorities will not assist our General Hospitals just so long as these hospitals continue to carry this load without complaint, or without an honest endeavor being made to bring this condition of affairs home to these Authorities. One hospital cannot do this alone, but concerted action on the part of our English and French General Hospital Authorities cannot be refused. The Superintendents of these hospitals have done their best; but I feel that the time has come when, if we are to avoid financial disaster, the respective Boards of Management of our General Hospitals should unite in this effort and not rest until the seriousness of this situation is placed before the Authorities concerned, so strongly that a refusal to assist would be an impossibility.

During the past year the question of the amalgamation between The Montreal General and the Western Hospitals has received considerable thought. Progress on this amalgamation has been referred to by the President, but one wonders whether the ideals that have prompted this amalgamation could not be carried much further with increasing benefits to the public, our University and our English hospitals? Our hospitals exist for two purposes—the healing of the sick and the teaching of medical knowledge. Neither one of these purposes can be given priority over the other; they are equal.

In our efforts to serve the sick poor of Montreal, the English hospitals have incurred serious deficits for 1920. Could we not by some united action decrease these deficits? Could not our purchasing (for we all use practically the same supplies) be done by one Purchasing Officer? Could not our laundry be done in one central plant, rather than several individual laundries, as at present exist? Could not our accounting be done on one standard and under one department? Could not our ambulance services be united and the City be served by sections rather than have our several ambulances passing each other's doors? Many times a day we are called upon to send ambulances within a few blocks of other hospitals, the patient picked up and carried past other hospitals to this one.

We are all endeavoring to serve the University as clinical centres. Are our efforts in this direction productive of the best results to the student? I hesitate to think so. We have duplication of medical departments in our various hospitals, and as a result it has been necessary to have duplication of teaching appointments. Let me take one department as an example—that of diseases of children. We have children's wards at the present time in four different hospitals, all serving the same purpose for the university. It does not seem reasonable that all four will be able to reach the same high standard for teaching purposes that would be accomplished by either a distinct children's hospital or one large Children's Department in one of the larger hospitals. The same is true of the specialties such as Ophthalmology, Oto-laryngology, Orthopaedics, Gynaecology, Neurology, Urology, etc.

Our several hospitals are all at the present time taxed to the utmost for accommodation. New buildings are being contemplated. Would it not be wise for our hospitals and university to take council together, and consider,

not how large we can make our individual hospitals, but how best we can serve the community in matters of health and teaching?

During the past year the increase in attendance in the Out-Patient Department has necessitated many changes. Much new equipment has been added and a re-arrangement of the clinic hours has been accomplished—this latter at no small inconvenience to the attending staff. The general clinics now take place in the morning and occupy practically the entire department. The special clinics take place in the afternoon. This has enabled us to handle the marked increase in visits this year over last with comfort. It is interesting to note that there were 108,000 visits made to the Out-Patient Department in 1920. There are very few hospitals on the continent that can show such a service to the community. These visits were made at an expense to the hospital of \$76,612.79, or roughly a cost of 71c. a visit. It is in this Out-Patient Department that preventive medicine is taught and practised. It is here that the patient is first seen and in many cases cured at a cost of 71c. a day as against \$3.76 a day if neglected and compelled to come directly to the public ward. We received as revenue from these 108,000 visits, \$39,236.64, leaving a deficit of \$37,377.15. Does it seem unreasonable to assume that the Municipality and Province should share a portion of this burden? At present they pay absolutely nothing toward this effort to create a healthier and thereby happier City to live in.

The Provincial Government have established in this Hospital one of their three centres for the treatment of venereal disease. This has added a tremendous amount of work to this department, but I am convinced that in the end, results will justify our efforts. While it is too early to say to what extent this arrangement will involve us financially, the Provincial Government have assured us of some financial support.

The establishment of a Department of Metabolism in the Hospital this last year has necessitated the establishment of a clinic for the treatment of Diabetes in the Out-Patient Department, and although it has only been in existence three months, has now 51 cases of Diabetes in attendance at this clinic.

During the past year a Fracture Department has been established. Prior to the formation of this department, the fractures were treated in the general surgical wards. The experience and lessons of the great war have been applied to civil life, and I am pleased to report, with gratifying results, in our treatment of these fractures. The splints, braces, and appliances used to accomplish these satisfactory results are now made on the premises in a well-equipped blacksmith's shop. In order that the length of stay in the public wards, of these cases, might be shortened and more complete records kept for medico-legal purposes, it was found necessary to establish a Fracture Clinic in the Out-Patient Department to which these cases could be referred.

In furtherance of the policy of your Board of Management to adopt the minimum standard of the American College of Surgeons, our case records system has been revised, and I feel safe in saying that it will now meet the requirements of the most exacting critic.

This has not been accomplished without considerable effort on the part of the Resident and Attending Staff. Dictaphones have been placed in the Operating Room and X-ray Department; a complete metal filing system purchased for the Record Room, and your Board can now feel secure that by the adoption and fulfilment of the requirements of this minimum standard, this Hospital is now in a position to present for criticism or comparison the production sheets of the work done in the wards, that will compare favorably with the production sheets of our Accounting Staff.

I feel that I must again sound a note of warning in regard to our requirements for more space, for practically every department in the Hospital. Each day that passes brings home more forcibly to me the fact that if we are to hold

together this organization that we are now so proud of, we must offer to these departmental heads the necessary space and equipment to enable them to grapple with the many daily problems of a large hospital. I cannot help but view the immediate future of our Training School with apprehension; they have long since outgrown the accommodation provided for them in 1897. I can assure you that I fully realize the exigencies of the present financial situation, but it were far better to cease to exist as a General Hospital than lower the continent-wide, glorious reputation of our Training School, which has taken thirty years in the making and now is seriously threatened through lack of sufficient and adequate accommodation.

The Social Service Department, Admitting Office, General Office, Physio-Therapy Department, Dental Clinic, X-ray Department, Purchasing Department and Stores are all working under severe handicaps, due solely to lack of sufficient accommodation. Particular reference is made to this in the individual reports of the various departments.

In reference to these individual reports from the various departments, I would commend them to you for their careful study. In our endeavor to make our Annual Report for this year more instructive and interesting for our Governors, many of the departments have presented their reports in narrative form, thereby doing away with a large amount of statistics, which at best were very dry.

In closing this report, I desire to place on record my sincere thanks to the Doctors, Nurses and General Staff of the Hospital for their loyalty and devotion to duty during the past year.

All of which is respectfully submitted.

A. K. HAYWOOD, M.D.,
Superintendent.

MONTREAL, 15 February, 1921.

THE PRESIDENT AND GOVERNORS,
THE MONTREAL GENERAL HOSPITAL,
MONTREAL.

Gentlemen:

We beg to report having completed our audit of the financial transactions of The Montreal General Hospital for the year ended 31st December, 1920.

The detail work of our audit has been carried on at quarterly periods during the year.

The monies received have been regularly deposited in the bank and the cash on hand has been checked monthly. The bank balances at the close of the year were verified and further corroborated by certificates obtained from the bank.

Securities, representing the investment of the various funds of the institution, have been verified by certificates from the Royal Trust Co., and we have satisfied ourselves that the revenue accruing from such investments has been properly brought into account.

We have certified the attached Revenue Account and Balance Sheet as correctly setting forth the result of the operations for the year and the financial position at the close thereof, and have pleasure in stating that all our requirements as auditors have been complied with.

Respectfully submitted,

P. S. ROSS & SONS,
Chartered Accountants.

REPORT OF THE DENTAL CLINIC FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE SUPERINTENDENT,
Montreal General Hospital.

Sir:

I desire herewith to present the Annual Report of the Dental Clinic of the Hospital for the year 1920.

In presenting this report I believe I am safe in saying that the Dental Clinic of The Montreal General Hospital occupies a unique position among the hospitals of this continent. So far as I have any knowledge, it is the only clinic of its kind in America. It is true that there is a clinic attached to every Dental College, but these are integral parts of the Dental College and form no part of the work of the hospital.

Leading educators in Dental Colleges to-day are realizing that the treatment of diseased mouth conditions are as truly a part of the work of a General Hospital as is the treatment of disease in any other part of the body. Indeed I think the part the mouth plays, in relation to the general health of the body, is being rather over emphasized at the present time.

The importance of the work of the Dental Clinic is shown by the number of cases treated.

The total number of visits to the Department for the year just ended was 14,155. Of these 9,267 were patients who had been previously treated.

Since the first of October, 1920, we have been receiving patients both forenoon and afternoon; before that time we had been receiving patients only in the forenoon.

The daily number of patients is increasing much more rapidly than is our ability to look after them. In one forenoon (Saturday, January 29th) we saw ninety-six (96) patients and were compelled to turn a number away.

At the present time we have in the Dental Clinic nineteen chairs. Sixteen of these chairs are used by the students for Operative Dentistry. Two are used in the Impression Room, and one is used in the Examination and Extraction Room.

As we have thirty students working every day in the Hospital you will see that the number of chairs is just about half of the number we should have. In order to overcome this difficulty we have been alternating between the operating room and the laboratory, one section working in the operating room in the forenoon and in the laboratory in the afternoon.

This, of course, is a very poor arrangement, as it necessitates the removal of instruments and the placing of two cabinets at each chair, and these result in a very great deal of confusion.

At the conclusion of the present academic year we will have at least fifty students in the Third and Fourth years working in the Hospital Clinic. This will require an addition of at least thirty chairs and other necessary equipment, to that which we already possess.

Our present quarters in the Hospital, as you will readily gather from this statement, are altogether too small. We have only one room for examining and extracting, and this is in constant use. In cases where it is necessary to give a general anaesthetic, this room is frequently in use for such operation for a period of time varying from half an hour to an hour. During this time it frequently happens that patients must wait until this room is made ready to receive them, after the patient who has taken the anaesthetic has been removed.

Many patients, private and public, from the other wards of the Hospital, are being treated in the Dental Clinic, and these patients must be treated in the examining and extracting room. This, of course, means that either the Hospital

patients must be put off from time to time, or that the ordinary patients attending the Dental Clinic must wait an unreasonable length of time while such Hospital patients are being treated.

In addition to these inconveniences we have only one waiting room, and this is altogether too small to accommodate the number of patients in daily attendance. When patients come from the wards of the Hospital, either in a chair or walking, it frequently happens that they must be detained for a considerable length of time in an already crowded common waiting-room.

You will see from these facts that it is necessary to enlarge the Operating Room to make provision for at least fifty chairs. In addition to this, provision should be made for a room for examination and extraction, an anaesthetic room, and a recovery room in which patients could be looked after, after taking a general anaesthetic.

Accommodation also should be provided for looking after the private and public patients who require Dental treatment while in the Hospital. This would require at least two rooms equipped for operating purposes.

If the work of the Dental Clinic is to be continued, increased accommodation must be provided in the waiting room, as at the present time both seating and standing room are at a very decided premium.

The statistical report accompanying this speaks for itself. No other city on the North American continent is so poorly prepared to attend to the mouth conditions of its deserving poor, as is the City of Montreal, and it would appear that for many years to come the Dental Clinic of The Montreal General Hospital must furnish such treatment as is required by this class of the community.

I am very well aware that the question of the Dental Clinic is not one which pertains solely to the Board of Governors of the Hospital. McGill University is also interested (I might say vitally interested) in this question, as it is quite impossible to maintain a Dental Faculty without a Dental Clinic in which practical operations may be taught. I am happy to say, however, that the University has already appointed a committee from its Board of Governors to co-operate with a similar committee appointed by the Board of Governors of the Hospital to deal with this all important question.

You will observe from the statistical report that the receipts of the Dental Clinic amounted last year to \$4,213.24. To this must be added \$1,000.00, the grant from the City of Montreal, and \$750.00 students' fees from McGill University, making a total of \$5,963.00.

While the above figures represent the receipts of the Dental Clinic, the value of the work done for the patients represents a very much larger sum.

A careful computation of the services rendered in the Dental Clinic to public patients alone (recognizing such charges at a very moderate average fee) would not be less than \$29,758.00.

This fact speaks for itself and will largely determine whether or not the maintenance of the Dental Clinic of The Montreal General Hospital is a matter worth while. The relation of this department to the other departments of the Hospital, is a matter on which the medical men of the Hospital are better qualified than any other to express an opinion.

I wish again to direct your attention to the municipal grant of one thousand dollars. The Dental Clinic of the University of Montreal receives from the City a grant of two thousand dollars. These sums were established some years ago when the Dental Department of Laval (now Montreal) was very much larger than that of McGill University. Indeed when the grant was first given, Laval had five times as many students as McGill. Now, however, the conditions are different, and if I mistake not, we see at the present time many more patients in the Dental Department of McGill than in that of Montreal University. Our clinic is open all the year round, while the other Dental Clinic is open only during the academic season. It seems to me that if this matter were placed before the City Council, a common sense of justice would rectify the discrimination which now exists.

In conclusion, permit me to emphasize four facts:

FIRST—The universality of tooth decay and the misery and suffering which result therefrom.

SECOND—The duty incumbent upon a municipality of treating these conditions in common with all other bodily ills.

THIRD—The almost lack of provision in this City for adequately meeting the dental needs of the City's poor.

FOURTH—The immediate need of increased accommodation and equipment in our Hospital Clinic, if this work is to be successfully prosecuted.

A. W. THORNTON,
Dental Surgeon in Charge.

PATHOLOGICAL LABORATORY REPORT

TO THE SUPERINTENDENT,
The Montreal General Hospital.

Sir:

The importance of the Hospital Laboratory beomes greater year by year. This is in part due to the constantly increasing Laboratory aids to diagnosis; to their wider application, and to the time consumed and the special training necessary to properly carry out some of them. As a result, the relation between a General Hospital and its Laboratory should become more and more intimate, if the Clinician is to receive the greatest benefit from the Laboratory, and the Laboratory fulfills the chief reason for its existence—that it may be of the greatest aid possible to the Hospital Staff, and through them to the patients in their care. This necessitates the closest co-operation between the Clinical Departments of the Hospital and its Laboratory. In our own Hospital we have never lacked this co-operation; we have always encouraged it in every way we could, and will continue to do so.

For the past year we have held a weekly Clinicial-Pathological conference for the Hospital Staff. These were undertaken in order that the material coming to the Laboratory might be used to better advantage. Laboratory material is not used to the best advantage if it is simply available to the Staff for their casual inspection; insofar as possible, it should be demonstrated to them and discussed with them. It seems best that this material be demonstrated and discussed from a Clinical-Pathological viewpoint rather than the narrower pathological aspect; emphasizing the correlation between pathological findings and the clinical finding. In this way all the Laboratory findings in a given case can be brought to bear upon the iterpretation of the clinical findings. These conferences have not only been of assistance to the clinician in helping to explain obscure clinical findings and in correcting mistakes—they have helped the younger men, especially, to appreciate the relation between a diseased organ or tissue and the body as a whole, and have given them a better understanding of disease. While these conferences are held especially for the younger men, the senior members of the Hospital Staff attend them and add a great deal to their interest by giving us the benefit of their large clinical experience.

The high percentage of post-mortems that has for many years been obtained in our Hospital, has continued. This high percentage, which ranks among the first on this continent, is not the result of chance or accident, but comes from a keen desire that is little short of insistence on the part of the Staff, to see post-mortems on cases from their services; to a well-organized system for obtaining permissions for post-mortems; and to Hospital tradition. So long as we have as efficient an Admitting Officer as Dr. C. L. Roman, the percentage of post-mortems will increase.

The Museum is now being equipped and the material in it re-arranged so that it will be more easily available for teaching purposes. Carefully selected gross material illustrating the commoner pathological conditions, are not only most useful in the teaching of students, but they are of use to the Staff as well. There is no better place to spend even a half-hour than in the Museum; it adds something towards a better understanding of disease.

We are continuing to develop teaching of medical students in the Laboratory. Besides the fixed demonstrations that are held weekly, the student is encouraged to come to the Laboratory at any time.

A Stenographer has recently been added to the personnel. This has been of benefit in many ways; it has made possible more detailed reports. Such reports do more than make clinical records more complete; they encourage closer observation of the clinical aspect of disease and help to give a better understanding of them.

We have encouraged the younger men on the Staff to take advantage of the opportunities the Laboratory offers for investigation; a number of them are now at work on some problem.

The increasing demands made on the Laboratory calls for more equipment. There are two pieces of apparatus that would immediately add to the efficiency of the Laboratory—a large projection apparatus and a large microtome. The cost of these would be about seven hundred dollars (\$700.00).

Early in the year a special Laboratory for the bio-chemical investigation of disease was organized and equipped, with Dr. I. M. Rabinovitch in charge. The work in this Laboratory and its assistance to the Staff of the Hospital, has continually increased.

Besides being a rich field for original investigation, the application of bio-chemical methods to disease has, in a number of conditions, a wider application than that of a primary aid to diagnosis, treatment and prognosis. It is applicable throughout the not infrequently long course of such diseases as Diabetes Mellitis, and Chronic Nephritis, and from it life and usefulness may be prolonged and suffering prevented. There are fortunately certain simple tests, as in Diabetes Mellitis, that can, without great difficulty, be taught to most patients and from them danger signals be detected by the patients—danger signals that may be the forerunner of fatal conditions, but with their early detection and the institution of proper treatment, may disappear and the more serious conditions they point to never develop. This calls for considerable instruction of the patients; the technique of performing a simple test, and some knowledge of foods with special reference to their caloric values; and those that can and those that cannot be taken in certain conditions. Dr. Rabinovitch informs me that with patience, the use of colored charts, and the very valuable assistance of the Dietitian, Miss M. A. Perry, there are but few patients who do not seem to grasp the essentials of the instruction given them.

In order that the progress of cases of Diabetes Mellitis may be more carefully watched, a Diabetic Clinic has been established in the Outdoor. Patients with this disease when discharged from the Hospital, report to this Clinic, and their progress is noted and their cases discussed with them.

We have recently obtained a Respirometer for the study of basal-metabolism. This apparatus has been standardized and is now being used especially in the study of cases of diseases of the Thyroid, both before and after operation.

The increasing demands of the Bio-chemical Laboratory are being met as rapidly as circumstances will permit.

There follows a purely statistical report:

Bacteriological examination.....	1,754
Examination of surgical material.....	731
Wasserman tests.....	5,209
Blood groupings.....	141
Post-mortems.....	284

BIO-CHEMICAL LABORATORY:

Number of patients referred for examination.....	862
Combined number of examinations.....	3,570

LABORATORY PERSONNEL:

Director.....	1
Assistant.....	1
Internes.....	3
Bio-chemist.....	1
Technician.....	1
Young ladies—voluntary assistants.....	2
Stenographer.....	1
Orderlies.....	2

The work in the Laboratory could not have been carried out without the support which the Board of Management, and Superintendent have always given it; the encouragement and assistance of the Visiting and Resident Staff, and the loyalty, enthusiasm, long hours and hard work of the personnel.

LAWRENCE J. RHEA,
Director of the Laboratory.

During the year 1920, 15,882 examinations were taken, 733 X-ray treatments administered, and 1,033 fluoroscopic examinations were conducted with 1911 being an increase of 17% on the number of patients, 17 of 11% in the number of treatments and a decrease of 2% of 11% in the number of fluoroscopic examinations.

A further X-ray machine has been added to the equipment, enabling the department to keep up with the increasing demands made upon it. All the machines being in daily use. The improvements in the dark room, especially the addition of a second developing and fixing tank, have made it possible to get out of the room in half an hour, when as many as 100 plates may be exposed. In addition, it has been possible to be of service to the numbers of the medical and surgical Staff of the Hospital by producing lantern slides from radiographs to demonstrate matters of scientific interest. In this connection, there is also being considered means whereby the same assistance may be available by reference to photographs.

The majority of radiographs during the year were made with the latest type of apparatus being employed, especially by the X-ray department. This apparatus is designed for the purpose of obtaining all radiations have received, and in the efficient manner in which modern technical apparatus has been attended to by the Engineering Department.

Finally, it is desired to record again appreciation of the work of the staff of the department, not only for the conscientious manner in which they discharge their duties, but also for the sympathy and consideration which they show to patients and the courtesy which they extend to all who have dealings with the department, such as students, visitors, and the like.

WILLIAM W. D. HOSPITAL

The following is a list of the names of the staff of the department for the year 1920:

Director: Lawrence J. Rhea

Assistant Director: Miss Dorothy Hough

Staff: [List of names]

It is with appreciation we report that Miss Dorothy Hough, a member of the staff, has resigned her position a month ago. Her long years of service to the department have been a constant and we look forward to the assistance of her presence in the capacity of a volunteer worker.

We wish to express our appreciation for the interest and help given to the department by students, visitors, and the like, and interested friends.

With best wishes for the future of the department for the year 1921.

REPORT OF X-RAY DEPARTMENT FOR THE YEAR
ENDED 31st DECEMBER, 1920

To THE SUPERINTENDENT,
The Montreal General Hospital.

Sir:

During the year 1920, 18,962 Skiagrams were taken, 735 X-ray treatments administered, and 1,069 fluoroscopic examinations made. Compared with 1919, this is an increase of 4,774 or 33% in the number of Skiagrams; 73 or 11% in the number of treatments and a decrease of 186 or 14% in the number of Fluoroscopic examinations.

A fourth X-ray machine has been added to the equipment, enabling the department to keep up with the increasing demands made upon it, all the machines being in daily use. The improvements in the dark room, especially the addition of a second developing and fixing tank, have made it possible to take care of the rush of work of a busy day, when as many as 150 plates may require attention. In addition, it has been possible to be of service to the members of the Medical and Surgical Staff of the Hospital by preparing lantern slides from radiographs to demonstrate matters of scientific interest. In this connection, there is also being considered means whereby the same assistance may be available with reference to photography.

The majority of radiographs during the year were made with gas tubes, but the latter are being replaced gradually by self-rectifying Coolidge tubes.

Appreciation is expressed for the prompt attention which all requisitions have received, and for the efficient manner in which matters requiring technical skill have been attended to by the Engineering Department.

Finally, it is desired to record again appreciation of the work of the staff of the department, not only for the conscientious manner in which they discharge their duties, but also for the sympathy and consideration which they show to patients and the courtesy which they extend to all who may have transactions with the department.

W. A. WILKINS, M.D.,
Roentgenologist.

REPORT OF SOCIAL SERVICE DEPARTMENT FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE SUPERINTENDENT,
The Montreal General Hospital.

Sir:

I beg to submit the Ninth Annual Report of the Social Service Department, which was started in 1912, with Mrs. E. J. Foulis in charge—and to her untiring and zealous devotion to the work during her seven years here, we feel the steady progress of the department is due.

At present we have six paid workers on the staff, having added during the year, two workers—one for the Genito-urinary Clinic, where the follow-up work is important from the viewpoint of safeguarding the community, as well as ensuring intensive treatment for the patient. Free Diarsonal has always been given in our Genito-urinary Clinic, providing the patient has been found, upon investigation, unable to pay. The Provincial Clinic now provides for free treatment, and it is interesting to note that the venereal diseases are now reportable.

We, as social workers, are hoping that the time is not distant when an Evening Clinic will be established in the Hospital, in order that wage-earners may come for treatment without loss of working time, and pay a rate sufficient to make the clinic self-supporting.

The second added worker began duty in the Children's Clinic the first of the year, succeeding Miss Elsie Pomeroy, who was associated with the department for five years and whose resignation and the loss of her faithful services was deeply regretted.

Interpretation and explanation of the doctor's advice is the function of the clinical social worker; it may be teaching the mother of the child whose digestive upset is due to faulty feeding; or it may be the careful working out of a complex social situation.

The social and medical aspects of diseases are so closely allied that we believe treatment with the wrong social diagnosis is likely to be as ineffectual as would be the treatment without right medical diagnosis; therefore, by discovering the contributing social causes of diseases, the social worker aids the physician to make a more accurate diagnosis, and aims to remove the cause, making medical treatment more effectual and preventing recurrences of illness.

Both workers added to the staff during the year are graduates of The Montreal General Hospital Training School for Nurses.

A little over a year ago we started to give pupil nurses a two months' course in the department, taking one nurse at a time; she attends our regular case conferences; is given an opportunity to visit various institutions and agencies, and is given directive reading; does case work under supervision, both in the Out-Patient Department and in the house. We are careful to impress the student nurse that this training is not an adequate one for Social Service, but will be an experience which will give her an interpretation of the function of Social Service, and some insight into the opportunity for nurses in the field of Social Service. In an acute hospital like ours, the patient's stay is short, therefore the nurses get just a passing glimpse of their lives.

It is with sincere regret that we report Miss Dorothea Heney's need of an extended vacation, which led to her resignation a month ago. Her four years' loyal service to the department was invaluable and we look forward to the fulfillment of her promise to return to us in the capacity of a volunteer worker.

We wish to express our appreciation for donations of clothes, books, etc.; also for Christmas cheer provided for our patients by various church guilds, clubs and interested friends.

Receipt of cheques sent to our department for special cases we gratefully

acknowledge. Although the department is now under the executive control of, and financed by the Hospital, we have received and accounted for special funds donated by persons specially interested in the Social Service Department.

We acknowledge with thanks Mr. A. W. Roper's kindness in auditing our yearly accounts.

To the members of the Junior League and Miss McArthur we extend thanks for their splendid volunteer work.

During the year the number of homes investigated and visits paid were 4,001, while interviews (ward, clinic and office) totalled 13,179. Of the 2,923 new cases, 1,280 were Protestant, 1,289 Roman Catholic and 354 Hebrew.

May we call to your attention the growth of the work and the need of additional workers, that higher efficiency may be obtained? Also, may we bring to your notice the fact that our offices are filled to their capacity and to enlarge the staff would necessitate extension of our quarters?

In submitting this report I wish to say that I feel the Social Service Department is a necessary factor in the Hospital and community, and humbly ask for this service the generous moral support of all.

HARRIET B. BRODERICK,
Head Worker.

REPORT OF THE TRAINING SCHOOL FOR NURSES FOR FOR THE YEAR ENDED 31st DECEMBER, 1920

TO THE SUPERINTENDENT,
The Montreal General Hospital.

Sir:

I have the honor to present the Thirtieth Annual Report of The Montreal General Hospital Training School for Nurses for the year ended December 31, 1920. Sixty-six (66) probationers were received during 1920, forty-four (44) of whom were accepted. Forty-two (42) nurses passed their final examinations, thus making the number of graduates six hundred and seventy-nine (679).

We have had several changes on the staff during the year: Miss Alice Ketchen, The Montreal General Hospital (Class 1910), who had been a faithful and hard-working member of the staff for a number of years—first as Second Assistant and for the last four years as Instructor—left to take a position in charge of a hospital at St. Johnsbury, Vermont, U.S.A.

Owing to having classes held during the day and in order to provide more supervision of the nurses' practical work in the wards, it was deemed advisable to have two Instructors, instead of one. We were fortunate enough to secure the services of Miss Edith C. Rayside, R.R.C., M.H.S., B.A., late Matron-in-Chief of the Military Nursing Service in Canada, as Theoretical Instructor, and Miss Mabel Holt, The Montreal General Hospital (Class 1919), who held the position of Second Assistant, as Practical Instructor and Supervisor of Practical Work. The position of Second Assistant has been filled by Miss Frances Reed, The Montreal General Hospital (Class 1912), who was recently Superintendent of Nurses to the Wilmington Hospital, Delaware, U.S.A. In October it was found necessary to have a graduate nurse as assistant in the Outdoor Department—Miss Nina Brown, The Montreal General Hospital (Class 1918) was appointed to the position. Miss Sowler, The Montreal General Hospital (Class 1917), who had been Night Assistant for several years, left to take up other work and the position has been filled by Miss Denovan, The Montreal General Hospital (Class 1920).

In June, formal graduating exercises were held for the first time in many years. Forty-two nurses received their diplomas. The graduating class were addressed by Dr. Shepherd and Dr. Elder. Through the kindness of the Board of Management, a reception was held afterwards on the lawn of the Nurses' Home; there were present a number of the Board of Management of the Hospital, members of the Medical Staff, and friends of the Nurses.

I wish especially to thank the Board of Management on my own behalf and that of the Training School for the institution of a scholarship for the course given to Graduate Nurses at McGill University. Miss McCammon (Class 1918) was chosen for this year.

I have again to thank the Board of Management for the "At Home" which they gave the nurses on December 29, 1920, and to express my gratitude to Mr. W. J. Morrice and Mr. MacTier for their continued interest and generosity to the nurses.

Thanks are also due to the Medical Staff for the care and attention shown to the nurses when ill during the past year, and to the Staff of Lecturers.

The problem of housing the nurses has not yet been settled; each year conditions become more difficult. If this matter is not given immediate consideration, I fear it may seriously affect the high standard of the Training School.

The present staff of the Training School is as follows:

Matron.....	1
Assistant Matron (Day).....	1
Assistant Matron (Night).....	2
Sisters in Operating Theatre.....	3
Sisters in charge of Out-Patient Department.....	2
Sisters in charge of Wards.....	7
Instructors.....	2
Pupils in Training.....	116
Probationers.....	11
Total.....	146

Respectfully submitted,

S. E. YOUNG,
Matron.

LIST OF GRADUATES

Class of 1891

Chapman, Miss Ellis.....	(Married.)
Caroll, Miss Georgiana.....	Unknown.
Dunne, Miss Alicia.....	Montreal.
English, Miss Julia.....	"
McKay, Miss Christina.....	Martinstown, Ont.
Preston, Miss Jessie.....	Winnipeg, Man.

Class of 1892.

Annand, Miss Mary.....	(Married.)	Australia.
Baikie, Miss Elizabeth.....		Lake Placid, N. Y.
Burton, Miss Eugenie.....		At Home, Montreal.
Bush, Miss Alma.....	(Married.)	Toronto.
Cashen, Miss Alice.....		Mrs. Gilmore, Montreal.
Collins, Miss Mary.....	(Married.)	Montreal.
Colquhoun, Miss Annie.....		California.
Connor, Miss Bessie.....		Deceased.
Cooper, Miss Emily.....		England.
Darling, Miss Effie.....		U.S.A.
Haggart, Miss Barbara.....		Deceased.
Hobday, Miss Ethel.....	(Married.)	
Howes, Miss Harriett.....	(Married.)	Montreal.
Jackson, Miss Margaret.....		Mrs. Archer, Montreal.
Jolly, Miss Nora.....		Married.
Macgregor, Miss Jessie.....		Victorian Order, Montreal.
Merser, Miss Emma.....		Private Nurse, Toronto.
O'Donovan, Mrs. Marie.....	(Married.)	
Prime, Miss Annie.....	(Married.)	Kingston, Ont.
Sait, Miss Eleanor.....		Montreal.
Seaton, Miss Adelaide.....		Mrs. Pearson.
Sinclair, Miss Jean.....		Mrs. Mattice.
Thompson, Miss Helen.....		Mrs. Harris, England.

Class of 1893

Anderson, Miss Jemima.....	(Married.)	
Bolster, Miss Eva.....	(Married.)	
Bolster, Miss Jessie.....	(Married.)	Toronto.
Cave, Miss Mary.....		Private Nurse, Montreal.
Dunlop, Miss Henrietta.....	"	"
Hardinge, Miss E. Hester, R.R.C.....		Montreal.
Hurcomb, Miss Deborah.....		Deceased.
Lamb, Miss Elizabeth.....		(Married.)
May, Miss Marion.....		(Married.)
MacDonald, Miss Gertrude.....		Vancouver.
Morrice, Miss Lizzie.....		Private Nurse, California.
Petifer, Miss Clara.....	"	" Montreal.
Sullivan, Miss Alice.....		Montreal.
Sutherland, Miss Clara.....		(Married.)
Taylor, Miss Annie.....		Private Nurse, Montreal.
Ward, Miss Gratia B.....		Mrs. Spence.

Class of 1894

Barnes, Miss Alice.....	(Married.)
Beck, Miss Florence.....	Montreal.
Bickell, Miss Elsie.....	(Married.)
Bickell, Miss M. L.....	(Married.)
Booth, Miss Maude.....	Lady Orr Lewis.
Bown, Miss Florence.....	Deceased.
Boyce, Miss Lillie.....	At Home.
Chipman, Miss E. Maude.....	Montreal.
Clouston, Miss Bella.....	Deceased.
Davidson, Miss Margaret.....	Unknown.
Dawson, Miss Hilda.....	Private Nurse, Montreal.
De Kalb, Miss Stella.....	Mrs. Patrick.
Dodd, Miss Ida.....	Matron, Sanatorium, Lake Edward.
Fortescue, Miss Francis.....	Mrs. Traill.
Fraser, Miss Harriet.....	(Married.)
Graham, Miss Jessie.....	Deceased.
Griffin, Miss Francis.....	Private Nurse, New York.
Hentschel, Miss Matilda.....	(Married.)
Hersey, Miss V. Viola.....	Mrs. John Henderson, Montreal.
Lounds, Miss Ellen.....	(Married.) England.
McLean, Miss Mary.....	(Married.) Boston, U.S.A.
McPherson, Miss Jean.....	Private Nurse, Toronto.
Moses, Miss Carrie.....	" " Knowlton.
Ogilvie, Miss J. M.....	" " New York.
Phelps, Miss Anna J.....	Stanbridge, P.Q.
Ross, Miss Marion.....	(Married.) Deceased.
Smith, Miss H. M.....	Montreal.
Thompson, Miss Emma.....	(Married.) Almonte.

Class of 1895.

Bulloch, Miss Agnes.....	Private Nurse, Montreal.
Colley, Miss G. H.....	Montreal.
Hall, Miss Frances A.....	Mrs. Williams. Deceased.
Harper, Miss Anna.....	Mrs. Evans, Montreal.
Lewthwaite, Miss Sarah J.....	Mrs. Dr. R. B. Ewan, China.
Le Poidevin, Miss Mabel.....	(Married.)
Lynch, Miss Agnes.....	Deceased.
Mackay, Miss Isabel.....	Private Nurse, Montreal.
Moffatt, Miss Rebecca.....	" " "
Ramsay, Miss Jean T.....	Montreal.
Smythe, Miss Annie.....	(Married.) South Africa.
Taylor, Miss Kate.....	Mrs. Samuel, Arundel.
Tedford, Miss Nora.....	482 Grosvenor Ave. Westmount.
Webster, Miss Jennie.....	Night Supt., M. G. H.
Weston, Miss Lyle.....	(Married.)

Class of 1896

Barclay, Mrs. Annie F.....	Unknown.
Fair, Miss I. Maria.....	Deceased.
Finch, Miss Bertha.....	(Married.)
Gilbert, Mrs. D.....	Calgary, Alta.
Howden, Miss H. E.....	Institutional Work, Detroit.

Class of 1896.—continued.

Martin, Miss Edith H. Chicago.
 McEwan, Miss Frances A. Vancouver, B.C.
 McLean, Miss Annie M. Vancouver, B.C.
 Munro, Miss Elizabeth. Out Patient Dept., M.G.H.
 Neil, Miss Edith Ross. (Married.) California, U.S.A.
 Shaw, Miss F. M. Director School for Nurses, McGill
 University.
 Smith, Miss Annie. Livingston, Alta.
 Trenholme, Miss Lucy H. Deceased.
 Tritton, Miss Maude. Kingston, Ont.
 Wendel, Miss Marguerite E. North-Western Hospital, Minot, North
 Dakota, U.S.A.

Class of 1897.

Ardagh, Mrs. May. Montreal.
 Asselstine, Miss. Deceased.
 Brown, Miss S. Ethel. At Home, Montreal.
 Browne, Miss Janet F. Private Nurse, Montreal.
 Carey, Miss Patience. Supt. of Nurses, Kingston Hosp.
 Des Brisay, Miss Helen. Montreal.
 Dixon, Miss Annie L. Toronto, Ont.
 Houghton, Miss Grace. St. Andrew East, P.Q.
 Mackay, Miss Jessie. Mrs. Dr. Williams, Montreal.
 Mackay, Miss Martha. Montreal.
 McLennan, Miss Agnes M. Mrs. Riopel.
 Mountain, Miss Anabel. Mrs. Kerry. Deceased.
 Sharp, Miss Jessie H. Mrs. Wells.
 Sihler, Miss Anna M. (Married.)
 Sinclair, Miss Mary E. Montreal.
 Smith, Mrs. Helen. Supt. Sanatorium, Yonkers.
 Van Buskirk, Miss Victoria. Montreal.

Class of 1898

Chalmers, Miss Lena. (Married.)
 Evans, Miss Beatrice Anne. "
 Franklin, Miss Melinda. Mrs. Wainwright, London, Eng.
 Hoerner, Miss Sophie, R.R.C. Mrs. Price, Saranac Lake.
 Lee, Miss Ethel. At Home, Montreal.
 McDunnough, Miss Ethel D. " " "
 McMillan, Miss Bertha. " " "
 Murdock, Miss K. C. Deceased.
 Robertson, Miss May. (Married.)
 Schneider, Miss Maude. Private Nurse, Montreal.
 Spalding, Miss Grace Mary. Boston, U.S.A.

Class of 1899

Adams, Miss Jessie. Private Nurse, Montreal.
 Alcorn, Miss Edith. Mrs. Burnett, Vancouver.
 Alexander, Miss E. F. (Married.)
 Andrews, Miss Florence L. (Married.) Winnipeg.
 Brock, Miss Maude. Montreal.
 Brown, Miss B. W. (Married.)
 Carswell, Miss Monica J. "

Class of 1899—continued.

Cooper, Miss Ida S.	Private Nurse, Montreal.
Cotter, Miss Evadne K., R.R.C.	“ “ Regina.
Dawson, Miss Sara A.	Greenwich.
Davis, Miss Maude H.	Ottawa.
De Kalb, Miss Ethel.	(Married.)
Ferrier, Miss Marie.	“
Gallinger, Miss Tillie.	Mrs. Galbraith, Lethbridge, Alta.
Horne, Miss Margaret.	Deceased.
Morris, Miss Ida.	Deceased.
Merser, Miss Fanny E.	Private Nurse, Montreal.
Paterson, Miss Mary M.	Deceased.
Rutledge, Miss Edna.	Mrs. Ball.
Vooght, Miss Beatrice A.	(Married.)
Watts, Mrs. K. R.	Deceased.

Class of 1900

Barrington, Mrs. Elizabeth Yorke.	Cape Breton, N.S.
Bean, Miss Elizabeth.	Montreal.
Baillie, Miss Lillie.	Montreal.
Binns, Miss Effie.	Mrs. Porter, Ottawa.
Brock, Miss Kathleen.	Private Nurse, Montreal.

INCREASE IN RATES

(Effective since August 1st, 1919)

For some time past the various City Hospitals have been endeavouring to secure from the City of Montreal an increased grant for the care of the indigent sick and injured of the City. They have also tried to get the Provincial Legislature to enact hospital legislation similar to that in force in all the other Provinces of the Dominion, making it incumbent on the various Municipalities to pay for the support of their sick in the Hospitals. Unfortunately, nothing of a satisfactory nature has resulted from these efforts, although it is hoped they will bear fruit in the future. Increased expenditure in every department of the Institution has forced the Board of Management to adopt the policy that all patients are expected to pay for treatment to the extent of their ability to do so, to help the Institution to carry on its good work with a minimum of appeals for monetary aid to a generous, but overburdened public.

The estimated cost to the Hospital per day for all **public ward** patients was approximately:—

In 1913 . . . \$2. 00	In 1917 . . . \$2. 50
In 1914 . . . \$2. 00	In 1918 . . . \$3. 00
In 1915 . . . \$2. 00	In 1919 . . . \$3. 50
In 1916 . . . \$2. 25	In 1920 . . . \$3. 76

per day. During the year 1918, The Montreal General Hospital **gave** to the citizens of Montreal slightly over \$200,000 worth of free treatment, this partly explaining a **deficit** of \$156,000 for that same year, due in part to the extraordinary increase in the cost of labor, fuel, food, medicines, surgical supplies, etc.

The financial position of THE MONTREAL GENERAL HOSPITAL has, therefore, had the very careful consideration of the Board of Management, and they have decided that in order to avoid, or at any rate lessen, the serious deficits that have occurred during the past few years, it will be necessary to revise the arrangements made with the various Companies and individual employers who send in patients to be treated in the wards of the Hospital. From 1st August, 1919, all patients sent in under letters of recommendation, or by telephonic communication from the various Companies, will be expected to pay **\$2.50** per day in the surgical wards, plus the cost of ambulance service, operating-room fees, X-ray fees and other than ordinary surgical appliances; and **\$2.00** per day in the medical wards, plus the cost of ambulance service, X-ray fees, or expensive medicines, and **50c.** per visit plus the cost of X-rays and special medicines in the Out-patient Department.

The Board of Management have taken this step with the greatest reluctance, because the Hospital has been dependent almost entirely on the generosity of its Governors and the citizens of Montreal, and they feared that this increase in the charges for such patients might have a prejudicial effect on the annual subscriptions received from the various large Companies who have hitherto been very generous. They take this opportunity, therefore, of thanking you for your subscriptions in the past (which have been made for philanthropic reasons), and upon which, as you are aware, THE MONTREAL GENERAL HOSPITAL has been dependent during the ninety-eight years of its existence. They sincerely trust that you will view this new arrangement in a broad and generous way, and that apart from the special charges mentioned, you will continue your annual subscription, which will be expended as heretofore on the poor unfortunates that apply for admission and treatment, who have neither sympathetic employers nor the means to cover their hospital expense and are a constant source of charge on the Institution.

In the event of your desiring to have your sick or injured treated under the above arrangement in this Hospital, it is suggested that a form be prepared by you requesting such treatment as you desire to be given. This form will be the Hospital's authority for rendering you an account.

THE MONTREAL GENERAL HOSPITAL is ready now as in the past to furnish on these conditions the best services of its Physicians, Surgeons and Nurses.

I sincerely trust that this action on the part of the Board of Management will meet with your approval.

Yours very truly,

A. K. HAYWOOD, M.D.,
Superintendent.

Montreal, July 15, 1919.

**COPY OF
REGULATIONS GOVERNING PRIVATE AND SEMI-PRIVATE PATIENTS**

Charges—The charge for room No. _____ Ward _____ is \$ _____ per day. This charge includes ordinary diet, medicine and dressings, and the divided attention of the nurses.

Extra Charges—	PRIVATE	SEMI-PRIVATE
Anaesthetist's Fee.....	\$5.00 to \$25.00	\$5.00 to \$15.00
Bacteriological Fee.....	minimum 5.00	5.00
Pathological Fee.....	" 5.00	5.00
Serological Fee.....	" 5.00	5.00
Electro-Cardiograph Fee.....	" 5.00	5.00
Radiographs and X-Ray Treatment..	" 5.00	5.00
Operating Room Fee.....	5.00 to 20.00	5.00 to 10.00
Special Nurse, per diem.....	6.50	6.50
(Attendance.....\$5.00)		
(Board.....1.50)		
Special Nurse for Mental, Alcoholic and Tuberculous cases, per diem.....	8.50	8.50
Visitors staying overnight.....	1.00	1.00
Visitors' Meals, each.....	.75	.75

Private and Semi-private patients are responsible for the professional fee of the attending physician, surgeon, or specialist.

A patient who has been transferred from a public to a private or semi-private ward will be responsible for extra charges (as per schedule) incurred and also professional fees from date of admission to Hospital.

Telephone—A Telephone will be placed in Private rooms on application to the nurse in charge at \$2.50 per week. Minimum Charge, \$2.50.

Deposit—A Deposit of \$40.00 is required on admission; this deposit will ONLY BE CREDITED ON THE FINAL ADJUSTMENT OF THE ACCOUNT.

Accounts—Accounts are rendered every Monday and must be paid not later than the following Wednesday morning. The final account must be paid in full before the patient leaves the Hospital.

Guarantee—It is necessary that a guarantee for the payment of the account be made in writing by some person other than the patient admitted, unless the patient is known by the officials of the Hospital.

Complaints—The Hospital Management will welcome suggestions from patients, and any complaints will be promptly investigated, if made to the Superintendent during patient's stay in the Hospital.

Valuables—Valuables should be deposited in the Secretary's Office. The Hospital will not be responsible for any money or valuables retained in room by patient.

Chaplains—Chaplains of various denominations attend the Hospital daily, and will visit a patient, if a request is made through the nurse in charge.

Visitors—Visitors are requested not to remain in the Hospital after 9.00 p.m.

Silence—For the benefit of patients, visitors are asked to assist the Hospital in maintaining quiet, both in the rooms and corridors.

GUARANTEE OF PAYMENT

I guarantee the payment of all Hospital charges and the Physician's, Surgeon's and Specialist's fees against.....while a patient in THE MONTREAL GENERAL HOSPITAL.
