### BISCUITS

#### THE SECRETS OF LIGHT TENDER BISCUITS

Sift flour once before measuring.

Have all ingredients cold.

Sift together two or three times, the flour, Magic Baking Powder and salt.

In general—for every cup of sifted flour allow two teaspoons Magic Baking Powder and one tablespoon shortening.

The amount of liquid required varies considerably with the kind of flour used. Pastry flour (made from soft Winter wheat) requires  $\frac{3}{4}$  cup liquid for 2 cups flour, while bread flour (made from Spring wheat) requires 1 cup or more liquid for 2 cups flour to make a soft dough.

#### TEA BISCUITS

Basic recipe:

2 cups flour	1 tablespn. butter
4 teaspns.	1 tablespn. lard
Magic Baking Powder	$\frac{3}{4}$ cup cold milk, or half
$\frac{1}{2}$ teaspn. salt	milk and half water

Sift flour, baking powder and salt. Cut in the chilled shortening. Now add the chilled liquid to make soft dough. Toss dough on to a floured board and do not handle more than is necessary. Pat out with the hand or roll out lightly. Cut out with a floured biscuit cutter. Bake on a buttered sheet in a hot oven, 450° F., 12 to 15 minutes.

Variations:

#### CHEESE BISCUITS—1

Roll out biscuit dough and sprinkle generously with grated cheese. Roll up like a jelly roll and cut into one-inch slices. Brush over with milk and bake in hot oven 400° F.

#### CHEESE BISCUITS—2

Use "Basic Recipe" adding  $\frac{1}{2}$  cup of grated cheese to dry ingredients. Proceed as for "Tea Biscuits."

#### POTATO BISCUITS

1½ cups flour	1 cup riced potato
4 teaspns.	$\frac{1}{2}$ cup milk (more or less)
Magic Baking Powder	sufficient to make soft
$\frac{1}{2}$ teaspn. salt	dough
3 tablespns. shortening	

Sift together flour, baking powder and salt. Cut in shortening and lightly mix in cooled riced potato. Add cold liquid. Turn out on floured board; lightly roll or pat out, and cut out. Bake on greased pan in hot oven.

#### CINNAMON BISCUITS

Make like "Cheese Biscuits No. 1," only spreading the dough with creamed butter and sprinkled generously with sugar mixed with cinnamon.

Proportions:

2 tablespns. sugar	1 teaspn. cinnamon
--------------------	--------------------

#### LEMON BISCUITS

Make "Tea Biscuits" as above. Squeeze half a lemon into a small bowl, then take pieces of lump (dice) sugar, saturate with lemon juice and press one lump into the top of each biscuit before putting them in the oven.

#### GRAHAM BISCUITS

Substitute in the basic recipe in place of 2 cups flour, 1 cup Graham Flour and 1 cup White Flour. Add 2 tablespoons Brown Sugar.

#### GOLDEN BISCUITS

2 cups flour	$\frac{1}{2}$ teaspn. salt
4 teaspns.	2 tablespns. shortening
Magic Baking Powder	1 cup and 1 tablespn.
1 tablespn. fine sugar	milk

Mix as for Tea Biscuits.

Put one or two tablespoons of orange syrup in small muffin tins, then fill with biscuit dough. Bake like tea biscuits. When done pour over each a teaspoonful of orange syrup.

#### Orange Syrup

$\frac{1}{2}$ cup sugar	Grated rind of 1 orange
4 tablespns. water	1 teaspn. lemon juice
1 tablespn. butter	

Boil together for 3 minutes.

#### FRUIT SCONE

Make as Tea Biscuits, but add  $\frac{1}{4}$  cup sugar and  $\frac{1}{2}$  cup chopped dates.

#### ORANGE BISCUITS—1

Make like "Lemon Biscuits," using orange juice instead of lemon.

#### ORANGE BISCUITS—2

Make like "Cinnamon Biscuits," but spread the rolled dough with creamed sweet butter and sprinkle generously with grated orange rind and sugar (equal parts of sugar and orange rind), taking care not to grate any of the outside white of orange rind or the biscuits will be bitter.

#### EMERGENCY BISCUITS

Add enough milk to "Basic Recipe" to make stiff batter; drop from spoon on buttered baking sheet. Bake in a hot oven.

#### FRUIT BISCUITS

To "Emergency Biscuits" add 1 cup of raisins. Drop from spoon.

 $\frac{1}{4}$  teaspn. mustard  
 $\frac{1}{4}$  teaspn. Worcestershire sauce

Welsh rarebit is a mixture of cheese, seasoning and cream or ale. It is usually served on toast or crackers, also delicious when served on hot buttered baking powder biscuits either plain or toasted.

## ENGLISH MONKEY

1 tablespn. butter  
 $\frac{3}{4}$  cup cheese cut in small pieces.

2 eggs  
 $\frac{1}{2}$  teaspn. salt

## DOUGHNUTS

1 cup sugar  
2  $\frac{1}{2}$  tablespns butter  
3 eggs  
1 cup milk  
4 teaspns.  
Magic Baking Powder

$\frac{1}{4}$  teaspn. cinnamon  
 $\frac{1}{4}$  teaspn. grated nutmeg  
1 teaspn. salt  
3  $\frac{1}{2}$  cups flour, more or less

Cream butter and add one-half cup sugar. Beat eggs until very light, add remaining half cup sugar—combining mixtures and beating well. Add flour, salt, baking powder and spices, which have been sifted together—then enough flour to make dough stiff enough to roll. Toss one-third of mixture on floured board, knead slightly, pat, and roll out to  $\frac{1}{4}$ " thickness. Shape with a doughnut cutter. Fry in deep fat, when done, remove from fat with a skewer and drain on brown paper. Roll in cuttings with one-half remaining dough, shape and fry as before; repeat until all the dough is used up. Doughnuts should come quickly to the top of fat, brown on one side, then be turned to brown on the other. Avoid turning more than once. The fat must be kept at a uniform temperature. If too cold, doughnuts will absorb fat; if too hot, doughnuts will brown before sufficiently risen.

## PLAIN DOUGHNUTS

2  $\frac{1}{2}$  tablespns. butter  
1 cup sugar  
3 eggs  
3  $\frac{1}{2}$  cups bread flour (about)  
4 teaspns. Magic Baking Powder

$\frac{1}{2}$  teaspn. nutmeg  
1 teaspn. salt  
 $\frac{1}{2}$  teaspn. cinnamon

Sift together 3 cups bread flour, baking powder, salt and spices and add to first mixture alternately with the milk, add enough flour to roll out to  $\frac{1}{4}$ " thickness, cut and fry in hot fat 375° F. to a light brown. They should come to the top quickly. Turn once only. Drain on brown paper and roll in sugar.

To Test Fat:—Heat fat until it smokes—then drop in a small piece of dough. If it rises quickly to the top, the fat is ready.

## CAKES

## GENERAL RULES FOR PREPARATION

Have all necessary utensils and ingredients ready before starting work.

Accurate measurements are essential in cooking. Have utensils of regulation size, and 8-oz. measuring cup with suitable divisions plainly marked; teaspoons, tablespoons, spoons for mixing, egg beaters, flour sifter, biscuit cutter, pastry brush, set of mixing bowls.

For dry ingredients always use level measurements. When half a spoonful is required, fill spoon and then divide lengthwise of the spoon and scrape out one half. When one quarter of a spoonful is required, divide crosswise the remaining half.

For liquid measurements, use all the cup or spoon will hold.

For shortening, pack and level the measuring cup or spoon with a knife.

Great care is required in combining ingredients.

The most difficult part of cake making is the baking. The cake may be a failure, despite careful preparation, if the oven is not satisfactory.

Grease the pans in which Butter Cakes are baked with Butter and dust over with Flour.

Sponge and Angel Cakes should be baked in pans which are not greased nor dusted with flour.

To produce a finished cake with a smooth level top, lightly press the mixed batter from centre to sides and into the corners of the cake pan.

The temperature of the oven and the time required for baking depend on the size and kind of cake and are usually designated in the recipe.

A round pan with a centre tube for Loaf and Angel Cake is recommended.

Unless a round bottomed mixing bowl is used, care must be taken to ensure even mixing of the ingredients of the batter.

All leavening powders, whether baking powder, soda or cream of tartar, should be mixed and sifted with the flour before being added to the batter.

Ground spices should be mixed and sifted with the flour and then added to the batter.

Cocoa may replace chocolate in cake making by substituting one third cup of cocoa and 2 teaspoons shortening for every ounce (or square) of chocolate designated in the recipe.

## INGREDIENTS

**SHORTENING**—Select a good grade of shortening.

**SUGAR**—Fine granulated or castor sugar is best for plain cake. If sugar is coarse, roll and sift before measuring, otherwise it may introduce errors in measurement.

**EGGS**—Fresh eggs give good results, but packed eggs, if of good flavor, are satisfactory.

**FLOUR**—There are many varieties of wheat, with two of which the housekeeper should be familiar—Winter Wheat contains little gluten but considerable starch, from it Pastry Flour is made; Spring Wheat contains considerable gluten but is poor in Starch, from it Bread Flour is made.

Bread Flour is generally used with yeast. Pastry Flour is more suitable for cakes and other batters, unless specified in the recipe. If for any reason it is necessary to use Bread Flour instead of Pastry Flour, it is a good rule to use two tablespoons less flour to each cup (or two ounces less to each pound).

It is a mistake to think that the relation which the various ingredients bear to each other, is not important, and that the same amount of Bread Flour as Pastry Flour may be used just by increasing the liquid. If the liquid is increased, then the butter, sugar and eggs must also be increased to properly balance the recipe. It is much more simple to lessen the amount of Bread Flour.

Bread Flour is excellent for doughnuts, fried cakes and crullers, as these hold their shape much better when made with the stronger flour.

The quantities of flour specified for use in recipes in this book are based on Pastry Flour, but excellent results may be obtained with Bread Flour if precautions mentioned above are taken into consideration. Flour should be sifted several times to give the cake an improved texture.

**LIQUID**—Water or milk as designated in recipe.

| 5 cups Confectioner's sugar | Vanilla                            |
| 2 egg yolks                 | Pink Fruit Coloring (or Cochineal) |

When smooth put 4 tablespoons of mixture into another bowl and add the two yolks and 1 tablespoon cream alternately with 1¼ cups of the remaining confectioner's sugar, add ½ teaspoon vanilla and 1 teaspoon almond extract, beat until smooth and creamy. To the first mixture add the remaining 1¾ cups of confectioner's sugar with 3 tablespoons cream, add the extracts; beat until light and smooth. To one half of this mixture add a few drops of the coloring sufficient to make a delicate pink. This gives a white, pink and pale yellow which makes this delicious cake very attractive. Put some of the yellow mixture between layers, and spread yellow on sides, putting a coating of shredded cocoonut over this, cover top of cake with thick dabs of the three colors, and run a four-pronged fork through in circles so that the colors are prettily mixed.

## ROYAL OR ORNAMENTAL ICING

2 egg whites Confectioner's sugar  
Pinch of Gillett's A pinch of salt  
Cream of Tartar

Beat egg whites until stiff enough to hold a spoon erect. Then beat in two tablespns. of sifted confectioner's sugar. Continue adding the same amount of sugar and beating in between until the icing keeps the mark of a knife. Add Cream of Tartar. Spread a thin coating over the cake. When this hardens, put on a thicker layer. Use a pastry bag and tubes to ornament as desired.

The secret of a good Royal Icing:

A pinch of salt should be added to the egg whites, which should be beaten with a Dover beater. The confectioner's sugar should be sifted and added very gradually, never more than half a cupful at a time, as the icing should be thickened rather by beating than by quantity of sugar used.

Sugar should be added and well beaten in until the icing will keep the mark of a knife. A pinch of Gillett's Cream of Tartar for every egg white used and a drop or two of bluing gives a white icing.

A fruit cake should be covered with almond icing before the white or ornamental icing is put on, as a few days after a fruit cake is baked the juice from the fruit begins to ooze out, which discolors the white icing, whereas the almond icing does not let the fruit juices through.

PASTERIES AND FILLINGS

CHOPPED PASTRY

- 5 cups pastry flour      1 teaspn. salt
- 1 cup butter            1 scant cup of ice-water
- 1 cup lard

Put flour, salt and shortening in chopping tray; chop all together till shortening is thoroughly mixed with the flour, then add water gradually and continue chopping. When well mixed, turn the paste on to a floured board; roll lightly into a flat piece, fold and put away on ice. When hard use the same as puff paste. It can be used as soon as mixed, but will not be so good as if allowed to stand.

SHORT PASTE (SWEET)

- 3 cups flour              1 egg
- ½ teaspn. salt          ½ cup ice cold water,
- 1 cup butter or half but-      more or less
- ter and half lard          ½ teaspn.
- 2 tablespns. sugar          Magic Baking Powder

Rub shortening into flour—make a well in mixture, put in sugar, egg and cold water in which baking powder has been stirred. Mix thoroughly and make smooth dough—put away to chill and it is ready for use.

The above is excellent for lining patty pans for tartlets.

PUFF PASTE

- 4 cups flour              1 egg yolk
- 2 cups butter            1 tablespn. lemon juice
- 1 teaspn. salt            Ice cold water

Rinse mixing bowl with boiling water and then with cold. Half fill it with cold water. Wash butter in this, working it with the hands until it is light and waxy.

Divide butter into three equal parts and put it in ice water. Put egg yolk, lemon juice into measuring cup and sufficient ice water to fill the cup—then add an extra ¼ cup ice water to make in all 1¼ cups wetting.

Mix together flour and salt. With the hands rub into the flour ⅓ of the butter. Make a well in the flour and pour in the cold liquid (taking care that there is not too much liquid or the paste will be too soft).

Stir quickly and vigorously with a knife until the paste is a smooth ball.

Turn out onto floured board and roll out paste very lightly, starting at the centre and rolling out to the edge. The balance of the butter is put on the paste in small pieces, dotting all over the surface. Fold first the upper and then the lower edge of the paste into the centre—fold one side and the other to the centre, and roll lightly away from the centre until ¼" thick—fold the ends toward the centre, making folds as before. Roll and let stand 5 minutes. Repeat this several times and put away to chill until ready for use.

MAGIC SIMPLEX PASTRY

- 1 cup boiling water      2 teaspns. salt
- 2 cups shortening      2 teaspns.
- 6 cups bread flour      Magic Baking Powder

Pour boiling water over the shortening and beat until creamy. Cool and add sifted flour, salt, and baking powder. Mix to a soft dough.

Chill thoroughly before rolling.

Allow 10-12 minutes per shell in oven at 450° F.

Recipe makes 4 shells.

This pastry is very easy to prepare. It can be kept in the refrigerator for a period of 1-2 weeks and portions taken as pie crusts are required.

This recipe embodies the advantages of both short and flaky pastry.

Put into jars, let cool, seal and it is ready for use.

APRICOT CURD

- ¼ lb. dried apricots      4 eggs
- 1 lb. sugar                Rind and juice of 1 lemon
- ¼ lb. butter

Soak apricots in cold water over night; stew in a little water and pass through a sieve. When cool, add sugar, butter and eggs, well beaten, and the lemon. Mix all together and put in a jar. Place jar in a pan of boiling water. Bring to the boil and stir one way till it is the consistency of thick cream. Put in small jars and seal.

- 1 cup flour                ¼ lb. butter
- ¼ lb. grated cheese      1 teaspn. salt
- (old)                        Dash of cayenne

Roll out very thin and cut into narrow strips. With well greased paper line a shallow pan, lay the straws in and bake about 10 minutes in moderate oven. They must be straw color and very crisp. If they are allowed to brown, there will be a bitter taste.

Serve

Have straws about 4" long and put about 6 through one of the little rings, and the straws should stand up as little sheaves.

Or they may be piled on a plate like a wood-pile.

## BREAD AND ROLLS

To save time, yet maintain a high standard of quality in home baking, is distinctly a modern necessity. Long-process yeast breads may be replaced by short-process Magic Baking Powder breads without loss of quality in any respect. Baking powder produces a well leavened dough, spongy and porous, with less time and energy expended. Magic loaf bread can be mixed and baked in about one and a half hours.

Wash leaves and examine very carefully for sand or parasites. When thoroughly washed pile leaves lightly in cheesecloth and keep on ice.

**SIX SECRETS FOR SALAD SUCCESS**

1. Serve salad greens very cold and crisp.
2. Save the outer leaves of lettuce, shred them and use as the foundation for fruit or vegetable salads.
3. Never put salad dressing on lettuce or other salad greens until just before serving as it makes the greens limp and wilted.
4. Marinate in French dressing all vegetables, meat and fish to be used in salads.
5. Make your salad attractive to look at as well as to eat. Never throw the ingredients carelessly together.
6. Don't let your salads become monotonous. Vary them frequently, and serve different dressings.
