THE TENTH ANNUAL GENERAL MEETING.

THE Tenth Annual General Meeting of the Mackay Institution for Protestant Deaf-Mutes was held in the Synod Hall, on the 18th December, 1880. The President, Mr. Joseph Mackay, occupied the chair. Among the large number of persons present were Revs. Dr. MacVicar, Dr. Sullivan, Canon Baldwin, Dr. Clark, Canon Norman, James Roy, Dumoulin, Scrimgeour, Botterell, Messrs. Thomas White, M. P., James Johnston, John Stirling, F. Wolferstan Thomas, P. S. Ross, J. McNaughton, R. W. Shepherd, S. H. Ewing, A. S. Ewing, Richard White, C. Alexander, F. Mackenzie, Dr. Baker Edwards, J. J. Browne, T. Macfarlane, and a large number of ladies. The following gentlemen were unavoidably prevented from being present:—R. W. Heneker, Principal Dawson, Rev. Dr. Jenkins, Rev. Dr. Douglas, M. H. Gault, M. P., and H. A. Nelson, M. P. P.

Principal MacVicar opened the proceeding, with prayer.

The President then addressed those present as follows:

LADIES AND GENTLEMEN,—It gives much pleasure to the Managers of the Institution to meet the friends of the Deaf and Dumb at this the tenth annual meeting, which has been unavoidably postponed till now, and is held in town for convenience. The reports of the Board of Managers and the Principal are most encouraging. As regards current expenses, for the first time for several years we had a balance to our credit at the end of our financial year, but there still rests an old debt of about \$5,000 to be provided for, and we hope the great burden may be removed by special effort. It is very gratifying to those who conduct the affairs of the Institution that the number of its supporters is constantly increasing. In addition to our

kind fellow-citizens very many kind friends in the Eastern Townships, the Ottawa district and the city of Quebec, have been generous donors to our funds. Through the unwearied efforts of one of our Vice-Presidents, and through the generous liberality of friends whose names will be found in the report, a very important want has been supplied. I refer to the workshops, which will be ready for occupation by the 1st of February, when we hope to see the printing press and carpenters' tools flourish. We hope the public will continue their support to an Institution which appeals so strongly to our sympathies, and which is so largely dependent on voluntary contributions. As to the educational department, we will allow the pupils to speak for themselves.

At the request of the chairman, the Hon. Sec-Treasurer (F. Mackenzie) then read the reports of the Board of Managers, of the Principal and of the Examiner of the School, as well as the Managers' Financial Statement and the statement of the Out-Buildings Fund. Mr. P. S. Ross read his report on the past and present financial condition of the Institution. (All these documents are printed in this pamphlet.)

Before the examination of the pupils who were present was proceeded with, the Sec-Treasurer read to the audience the following address of the Principal (Mr. T. Widd):

On an occasion like the present only a partial and superficial idea of our work can be given. The exercises about to begin are confined to members of one or two classes and on two or three subjects which do not fairly illustrate either the mental peculiarities of the deaf-mute or the successive stages and average results of instruction. It has been truthfully said that "To educate the deaf-mute is to give him language, and to give him language is to educate him." Our work may be said to end where that of the common school teacher begins. When we have brought the mute up to the point at which the speaking child starts on his educational course, we have accomplished the most important and difficult part of the work. Training in language is the most interesting, as it is the most difficult, part of the work. To guide the pupil step by step through the mazes of the sentence: to explain and illustrate the meaning and application of the various parts of speech; to enable him to master the complexities of the verb with its manifold forms of mood, tense, number and person; to teach the inflections of the pronoun, the changes of the adjective, the uses of the adverb and the conjunction, and especially the endless uses of the

preposition; to practise him in the common idioms and usages of colloquial phraseology, leading him gradually to overcome his peculiar habits of thought and expression, and to acquire the power of thinking in English, and using it as the natural vehicle of his ideas—all this involves an amount and variety of labour, especially an amount of ceaseless repetition, almost inconceivable to those unacquainted with the work. Various methods are employed to attain this object. Our method is to call in the aid of all the other systems and employ the good points in each, which is known as the "combined system." This system is employed in Britain, France and America, and enables us to secure the greatest amount of good to the greatest number of deaf-mutes, by using the gestural language as the chief instrument of intellectual and moral development and of training in written language, at the same time taking care to cultivate, as far as practicable the power of speech with those pupils who are likely to benefit by such training.

The exercises will begin with two pupils from the higher classes exhibiting their command of language by writing impromptu addresses. After which representatives from the primary classes will show what they can do in their various branches of study. The pupils in the primary classes are children from 7 to 10 years of age who have been in the Institution from 8 months to 3 years. The higher classes consist of 18 pupils who have been under instruction from 3 to 7 years, and whose ages range from 8 to 17 years. The articulation class consists of ten pupils from the primary and higher classes, and receive daily instruction in lip-reading and articulation from Miss Littlefield, who was trained in this branch at Prof. Bell's College, Boston. She also teaches the primary classes. Drawing is taught to the higher classes by Mr. J. Macnaughton, who graduated at the Institution last June, and who is now learning the higher branches of engraving and drawing in the city. Specimens of the pupils' drawings, printing and penmanship are exhibited. Those of our friends who desire to become better acquainted with our work should visit the Institution and spend an hour watching the working of the classes, which will give them a better idea of the value of the school for this class than many examinations like the present one.

The Principal and the Assistant-Teacher (Miss Littlefield,) then commenced the examination of the pupils. The first exercise was the writing by the scholars of impromptu addresses. One of these, written very distinctly by a girl aged 12, ran as follows:

"It is very pleasant to see so many friends here this afternoon. We thank you all for coming to our meeting. I hope you will kindly excuse us if we make any mistake. I am only a little girl, but I will do my best to please you. I hope the ladies and gentlemen will visit our school at some time."

Some pupils of the primary classes were then examined. A little girl aged 7, who had been 2 years in the school, wrote on the blackboard the names of animals which a deaf and dumb boy described to her by signs viz: "deer, elephant, camel, cow, monkey, ass, cat." Her writing and spelling were admirable and she did a sum in addition and answered some simple questions correctly. A little boy of about the same age acquitted himself well.

Some scholars of the higher classes were also examined in Bible History, Arithmetic, Geography, History and Composition. The answers of the pupils were given readily in a very creditable manner. There were only a very few trifling errors in one or two cases. The writing and spelling were without exception excellent.

The Assistant-Teacher, who also teaches Articulation, then made two pupils in the latter department read. The sounds made by one of them, a boy, were not distinct, but the girl recited more clearly the lines beginning "Now I lay me down to sleep, &c." The teacher stated to the audience that these defects were owing to nervousness and to the fact that the pupils had only been under instruction in articulation for a year.

The specimens of drawing and printing, the work of the pupils, were exhibited and were deservedly admired.

After the examination had been concluded, the Rev. Canon Norman read the following address to Mr. F. Mackenzie;

TO FREDERICK MACKENZIE, ESQ.,

Hon. Secretary-Treasurer,

Mackay Institution for Protestant Deaf-Mutes.

DEAR SIR:

It is with feelings of sincere regret that we, the Protestant Deaf-mutes of the Province of Quebec, learn that you have resigned the position of Secretary-Treasurer which you have so long and faithfully filled in connection with our school, and we cannot allow the occasion to pass without some slight expression of our gratitude for your many acts of disinterested kindness to us, and for the great sacrifices you have made during the past ten years in behalf of our Institution. We cannot forget the early struggles of our school when its friends were few and the funds all

exhausted, and dark clouds hovered over it, how you and our respected friend and benefactor Mr. Charles Alexander, exerted yourselves to keep the doors of the Institution from being closed altogether. You were then ever ready to sacrifice your time, labour and money to maintain our school, and continued to do so till our generous benefactor, Mr. Joseph Mackay, came to the rescue. Your kind sympathy and Christian benevolence in our cause are known and appreciated throughout the province. Your name is now familiar to the fingers and eyes of more than a hundred deaf-mutes who are proud to count you among their best friends and supporters. We join in thanking you most sincerely for all that you have done for us, and pray that our Heavenly Father will bless and reward you, for we cannot. We hope that we shall often have the pleasure of seeing you at our meetings, and that you will continue to aid our school and advocate the claims of deaf-mutes for the advantages of education in this province.

Signed on behalf of the Protestant Deaf-mutes of the Province of Quebec.

THOMAS WIDD,
JOHN MACNAUGHTON,
JAMES McCLELLAND.

MACKAY INSTITUTION, December 1st, 1880.

Mr. F. Mackenzie, who was evidently taken by surprise, expressed his thanks to the presenters of the address in a few appropriate words, but he disclaimed the merit attributed to him in the address.

Rev. Dr. SULLIVAN moved,

“That the reports which have been read be adopted, printed and circulated, under the direction of the Secretary-Treasurer.”

The reverend gentleman said that speeches were superfluous. The very best appeal that could be made had been made already, in total silence. It had been an irresistible appeal to all the finest emotions of their common nature. He ventured to say that there was not one who was sitting in the room who had not thanked God for the blessing conferred upon him in not having his children born deaf and dumb, and all present must have felt that they should do more for the Mackay Institution than they had done in the past. The examination which they had just witnessed was an illustration of one of the highest triumphs of Christian science and civilization. He dwelt on the advantages and consolations the pupils had derived from their careful religious training and in this connection narrated the following touching anecdote:

A little deaf and dumb girl was once asked whether it was not cruel of God to have made her a deaf-mute, and, after a moment's hesitation, she replied, "Even so, Father, for so it seemed good in Thy sight." The speaker concluded his remarks by expressing his conviction that the result of the meeting would be to make persons take a greater interest in the Institution than heretofore,

THOMAS WHITE, Esq., M.P., in seconding the resolution, said there must be, in the nature of things, a very much larger number than 34 Protestant deaf-mutes in the Province of Quebec still uneducated. There was room in the Institution for some 50 more than its present number of inmates. The Protestants of this Province should redouble their efforts to aid the Institution. He praised the act of the Chairman in endowing in his life-time this noble charity. It was an example that he should like to see followed. Very often men died leaving munificent bequests to charitable institutions and the legacy would sometimes get into the hands of trustees and there would be a great deal of trouble over it, so that it would often prove a disadvantage, instead of an advantage. But Mr. Mackay who, in his life-time, gave both ground and building to the Mackay Institution for Deaf-mutes, and lives to see the advantage to the community of his beneficence, conferred a far greater benefit than one who left an endowment, no matter how munificent, after enjoying the use, of it during his life-time. As regarded the Mackay Institution the speaker earnestly commended it to the benevolence of the community.

Rev. Dr. CLARK moved,

"That the thanks of this meeting be and are hereby tendered to the Governors, Managers and other officers of the Institution, for the excellent manner in which they have discharged their duties during the past year, and that the following persons (See list of Office-Bearers page 3.) be the office-bearers for the ensuing year."

The reverend gentleman said he had been profoundly impressed and touched by what he had seen, and it seemed to him that this work was just exactly that which was spoken of long ago as the work of our Saviour, "the deliverance of the captive, and setting at

liberty them that are bound." The deaf and dumb until they were educated, had the avenues to their minds closed, and the latter were imprisoned. He cordially wished that God may speed such excellent work as that of the Mackay Institution.

JAMES JOHNSTON, Esq., seconded the resolution which was carried.

Rev. JAMES ROY, moved,

"That this meeting in view of the just claims of the Mackay Institution to a hearty support, commends it to the liberality of the Protestants in the Province of Quebec."

He said he was unable to express his feelings on witnessing, for the first time, the work done in the Institution, and had never realized before the difficulties of teaching the deaf and dumb. After expressing his gratification with the examination of the pupils, he said he felt the Institution was a blessing to the community.

JOHN STIRLING, Esq., seconded the resolution, which was also adopted.

The Rev. CANON NORMAN having pronounced the Benediction, the meeting was brought to a close.

REPORT OF THE BOARD OF MANAGERS.

THE Board of Managers of the Mackay Institution for Protestant Deaf-Mutes desire to preface their usual annual report with a few remarks respecting the Institution's work since its commencement. This Annual Meeting marks the completion of the first decade of the Institution's existence. During that period (two years and a half of which only have been spent in the present spacious premises), 75 persons have been benefited by the religious and secular education and industrial training furnished by the Institution. Rather more than half of that number were gratuitous recipients of these privileges.

The Board of Managers come now to their report for the last financial year, viz: that ending on the 30th June, 1880. It need only be of a general character, as the appended report of the Principal gives detailed information respecting the various departments of the Institution.

The Board have much pleasure in stating that during the year His Excellency The Governor-General and H.R.H. The Princess Louise kindly consented to become Patrons of the Institution. His Excellency shortly afterwards visited the Institution and expressed his gratification with it.

The number of pupils during the last session was 34 (24 boys, 10 girls). 13 were free pupils and 11 paid only a portion of the fees. The Principal, (Mr. Widd) who has filled that position since the origin of the Institution, which he did so much to establish, the Assistant-Teacher and Teacher of Articulation (Miss S. E. Littlefield), the Matron (Mrs. Smyth), and the Teacher of Printing, &c. (Mr. J. McClelland), discharged their respective duties in the most satisfactory manner. The thanks of the Board are due to Mr. J. Macnaughton, a former pupil, for having kindly, gratuitously, given the scholars lessons in drawing.

As regards the progress made by the pupils, the Rev. Canon Norman, who kindly examined them at the close of the school year, has in his subjoined report expressed his very great satisfaction.

It is the sad duty of the Board of Managers to place on record their deep regret at their loss by death of one of their members, viz: Mr. Thomas Bell. That gentleman was in his life-time a liberal contributor to the Institution's funds, and he fittingly crowned his beneficence by bequeathing \$500 to it. The Board have also to deplore the lamentable death of the Hon. L. H. Holton who was a very warm friend and generous supporter of the Institution.

Mr. C. J. Brydges, Vice-President, Mrs. Brydges, 1st Directress, and Mr. F. Mackenzie, Secretary-Treasurer, of the Institution, communicated to your Board recently their intention of resigning at the approaching annual meeting their respective offices. Thereupon the following resolutions were carried unanimously:

"Resolved: That this Board cannot allow Mr. and Mrs. Brydges to retire from their respective offices in the Mackay Institution, with which they have been connected since its foundation, without expressing their strong appreciation of the valuable services which they have rendered for so many years, and their regret that Mr. and Mrs. Brydges have felt compelled to relinquish the offices which they have filled in so satisfactory a manner.

"That the Board hope that Mr. and Mrs. Brydges will consent to become Honorary Members of this body."

"Resolved: That the Board of Managers of the Mackay Institution, in view of Mr. F. Mackenzie's resignation of the office of Honorary Secretary-Treasurer, which he has held since the inception of the Institution, desire to record their high appreciation of his services during the last ten years, and their gratitude for his valued labours."

"That the Board of Managers trust that Mr. F. Mackenzie will continue to afford them his assistance in another capacity."

The annexed financial statement shows a surplus of income over expenditure, of \$1117.27, at the end of the financial year. But it should be remembered that the year's supply of coal, which is usually purchased before that date, had not then been procured. That would make a difference of some \$500. Some accounts of the past year also, amounting to about \$100 had not been paid at its close. The Board of Managers beg to draw the particular attention of the public, to the appended report of Mr. P. S. Ross upon the past and present financial condition of the Institution. His report and the valuable suggestions it contains, will be satisfactory to those who take an interest in the Board's work.

The Managers take this opportunity of cordially thanking all those contributors of money and material, who aided in bringing about the present encouraging financial condition of the Institution. The Board thank also the Rev. J. F. Stevenson, whose printed appeal in behalf of the Institution contributed largely to the result just referred to. They desire to express their special gratitude to Mr. R. W. Heneker, Mr. J. W. Wiggett and their numerous clerical and lay-colleagues in the District of St. Francis, for having formed therein a Branch Association to aid the Mackay Institution. It was organized at a public meeting held in Sherbrooke, at which, the Rev. Canon Norman and other speakers kindly urged the claims of the Institution upon the Protestants of the Province of Quebec. Collections were subsequently made in the various localities in the sphere of this auxiliary society's labours. Your Board have learnt with pleasure that this Association's praiseworthy efforts were likely to result in a total collection to the amount of about \$260. Your Board have been informed also that Messrs. P. Macnaughton, W. Rae and Prof. Morrin were about to again solicit subscriptions for the Mackay Institution in the City of Quebec and that Mr. G. A. Grier was continuing his kind offices in this respect in the Ottawa District.

For several years the Managers have experienced the want of out-buildings in which the pupils might learn suitable trades. This indispensable part of a training school for the deaf and dumb has been supplied

through the untiring efforts of one of your Managers and the liberality of those persons who kindly acceded to his requests for subscriptions. The sum thus obtained amounts to \$2691.27. The handsome substantial stone building erected with this money, was built under the direction of Mr. John James Browne, who kindly gave his services gratuitously to the Institution. The building will be ready for occupation on the 1st February next. In addition to fulfilling the main purpose for which it was designed, it contains rooms for recreation in bad weather, and its other accomodation (stabling for cows, store-rooms and root-cellar) will enable your Board to conduct the household more economically than hitherto.

The Board of Managers in conclusion, are convinced that the many favourable features of their report will be gratifying to the numerous friends of the Mackay Institution. They will, it is hoped, be thereby encouraged to continue to give that support which is necessary for the maintenance of the Institution. It should not be forgotten by those who take an interest in the Institution, that it has liabilities in connection with its real estate, to the extent of \$13,263.81. Its assets consist of the old Cote St. Antoine property which at present is valued at \$10,000. The difference between these two amounts constitutes a debt from which the Institution should be relieved as soon as possible. Moreover, with reference to its current expenses, the inevitable increase in the number of pupils will necessitate an addition to the staff of instructors, which will involve further expense.

In view of the circumstances which have just been stated, the Managers trust that their Protestant fellow-countrymen in the Province of Quebec, will come generously to the aid of the afflicted class who are the peculiar charge of the Mackay Institution.

The whole respectfully submitted.

JOSEPH MACKAY,

President.

F. MACKENZIE,

Hon. Secretary-Treasurer.

REPORT OF THE PRINCIPAL.

To the Board of Managers:

I have much pleasure in laying before the Board of Managers the Tenth Annual Report of the scholastic year ending June 30th, 1880, which completes the first decade of the Institution.

THE ATTENDANCE.

The number of pupils who have attended during the session has been thirty-four, viz: twenty-four boys and ten girls. Nine paid full fees (from \$100 to \$120); eleven paid in part, from \$15 to \$75; and thirteen were free. Four left school at the close of the session, and one was sent to relations in Vermont.

Mr. John Macnaughton, one of the graduates this year, closed his term at school with much credit to himself. He intends to learn the higher branches of engraving and to continue his studies as an artist. During the time he has been in the Institution he has borne an excellent character and his example has had a very beneficial influence over the other pupils, with whom he has always been a great favorite. During the past few months he has been giving special lessons in drawing to several of the pupils, and rendering the principal much assistance in the school-room. He will continue to give the lessons in drawing in the evenings while prosecuting his studies as an artist and engraver in the city during the day.

Several new pupils are to be admitted on the re-opening of the school in the Fall.

The general health of the inmates has been good, only one case of serious illness, resulting from a cold, having taken place. All the children went home for the summer vacation on the 16th June, and arrived at their homes in good health, without any mishap.

THE EXAMINATION.

The Rev. Canon Norman has our best thanks for his kindness in making a thorough examination of the classes on the 10th June. His report is annexed and is respectfully submitted for the consideration of the Board of Managers.

The programme of studies during the session, with the standing of pupils in each class, has been as follows:

FIRST OR JUNIOR CLASS.

(STANDING, 2 to 6 months. Ages, 6 to 8 years.)

2. LANGUAGE EXERCISES. Compositions, Examples on various forms, idioms and phrases. Letter writing. Essays.
3. HISTORY. Taylor's First Principles of English History (first part), History of Canada, leading facts and characters.

HOW DISTRIBUTED.

The 75 deaf-mutes benefited by the Institution come from 21 different counties. Nearly all the free pupils received into the Institution since 1870 have come from places outside of the city of Montreal, which fact should strengthen the claims of the school for aid from the benevolent in the country parts. The total number of pupils from the city of Montreal has been only 14 since 1870, and we have received only 5 from the city of Quebec, which leaves 56 to the 21 counties they represent in the following table:

THE CONFERENCE OF PRINCIPALS.

It was my privilege to attend the Conference of Principals of Deaf-mute Institutions in Canada and the United States held at the Clarke Institution, Northampton, Mass., on the 25th May last. About 40 Institutions were represented. The object of the conference was to discuss matters relating to the methods of instruction, the management of institutions, the "audiphone," the substitution of finger spelling and writing for signs, and the old standard discussion of the comparative advantage of the disuse of both signs and finger spelling altogether, which is theory and practice of the Clarke Institution. The Principals appreciated the opportunity offered them by the concurrent session of school, and they gave close attention to the actual methods and results in the school-room. This conference was a most important one and cannot fail to have a very beneficial influence in the future management of institutions for the deaf on this continent, and to cause increased attention to instruction and training in articulation and lip-reading wherever practicable.

THE DOMESTIC DEPARTMENT.

This department (on the good management of which so much of the health and happiness of the inmates depends) has remained in charge of Mrs. Smyth, the Matron, who has been aided in her labors by Miss Littlefield, the Assistant-Teacher, out of school hours. Our best thanks are due to these two ladies for their kindness and watchful care over the children. The utmost harmony and good feeling has prevailed in the various departments of the Institution and it has been

a pleasant and happy period to all who have had the privilege of laboring in the benevolent work during the session.

THE INDUSTRIAL DEPARTMENT.

There is nothing fresh to report under this head, except the printing and a little gardening which the pupils have done between the school hours. The printing office has been in charge of Mr. J. McClelland, a graduate of this Institution, who has become a first-class compositor and pressman. He also acts as supervisor of boys when not required in the printing-office. He has discharged his duties satisfactorily.

CONCLUSION.

I cannot close this report without tendering my sincere thanks to those members of the Board who have rendered me valuable assistance and advice; to the Matron and other officers of the Institution for their hearty co-operation in the general management; to the many kind friends for their valuable contributions of books, papers and other material mentioned in the list of acknowledgments; and to our Heavenly Father for the great measure of prosperity and success.

Respectfully submitted,

THOMAS WIDD,

Principal.

MACKAY INSTITUTION,
Montreal, June 30th, 1880.

REPORT OF THE EXAMINER.

At the request of the Managers, I examined the pupils of the Mackay Institute on the morning of Monday, June 7th, 1880. I devoted nearly three hours to this important and interesting work, and took all pains to do it thoroughly and carefully. I began with the Juniors' Class No 1. Some of these have been but a short time in the Institution, and have not yet mastered the whole alphabet. From the nature of the case, these could not be examined. The more advanced—Thomas O'Brien, Albert Morrison and Charles Hopkins—did correctly all that was required of them, viz: 1, to write their names; 2, certain short sentences; and 3, numbers up to 10.

In Class II, (1st Division,) I examined Charlotte Bigrow, Ann Dubeau and George Watt. These were tested in writing, spelling and numbers. George Watt is plainly ahead of the others. He writes well and with ease, and spells very correctly.

In the 2nd Division, I examined 9 pupils, viz: Harriet Reeves, Edith Stanley, James Walker, Ann Nichol, Daniel Jones, Wm. Patterson, Norman Wilson, Mary Kerr and Frank Wiggett. They were questioned in Bible History, Writing and Arithmetic up to Multiplication. Harriet Reeves, James Walker and Mary Kerr did the best, but the spelling and writing were good in the case of all.

In Class III, I examined Arthur Wiggett, Charles Wickens, Harry Zerovich, John Brethour and Nellie Jones. All did creditably in their Arithmetic, their Geography and Bible questions.

Class IV indicates a considerable development of intelligence. It consists of the following pupils: W. J. Wiggett, Hugh Macmaster, Jessie Macfarlane, Charles G. Meech, Arthur Charters, Emma Van Vliet, John Laberge and W. Elliott. The first five are in advance of the rest. Their geographical knowledge is good. Their acquaintance with Scripture accurate,

their arithmetic creditable, and their writing excellent. Jessie Macfarlane's in particular can hardly be overpraised. These pupils wrote short essays on various subjects, and expressed themselves in good and correct English.

The highest division contains but one member, J. Macnaughton. He can write English accurately and with taste, is a very good draughtsman in more than one style, and possesses a very creditable acquaintance with Scripture, English History and Geography. It is not often that an outline map is drawn with such celerity and correctness. I also inspected the printing, drawing and exercise books of the pupils, which are neatly and carefully done. By an accident, I did not hear the Articulation classes on this occasion. Their progress, however, has not been unnoticed by me at other times and I append the Teacher's Report, who has shown great kindness and patience, and has been very successful hitherto.

The proceedings wound up with a touching parting address, admirably expressed and delivered by Macnaughton by means of the sign alphabet, and by the hymn "Rock of Ages," given in signs by all.

The Examination this year was more satisfactory than usual. It was conducted leisurely, and the pupils were not made nervous by the presence of strangers. I consider that it redounds much to the credit of the system of teaching pursued, and also attests the diligence of the pupils. What they have acquired is accurately known, and is an evidence of infinite labour and perseverance. I never saw in any school better writing and spelling; and I believe that the Mackay Institute, can, in the fruits of its training, compare favourably with far larger Institutions. At the same time I am convinced that it is very desirable to increase the staff of teachers. In an Institution of this class, there ought to be one teacher to every ten or twelve pupils. It is a pleasure to take any part in furthering the interests of so good and Christian an undertaking, and I trust that the Mackay Institute with increase in numbers and prosperity.

R. W. NORMAN, D.C.L., *Examiner.*

THE ARTICULATION CLASS.

Very satisfactory progress has been made in this interesting department of the Institution. Miss Littlefield, the lady teacher of Articulation, states that

"Ten pupils are receiving instruction one hour daily in articulation and lip-reading. Most of the instruction has been given individually, that being best for the capacities of the pupils, some of whom learn more readily than others, and the difficulties not being the same in each case.

"The youngest has been in school but a few weeks. He could talk before losing his hearing a year ago, but seems to have forgotten already most of his speech. He has been taught a few words which he pronounces very distinctly.

"Two little girls, six years old, have learned all the elementary sounds, some combinations, and some words.

"A class of three have accomplished all the elementary sounds, and can read short sentences.

"Three boys who have slight hearing have conquered certain sounds which troubled them: the two younger read short sentences, the oldest reads anything composed of words of one and two syllables, and with little help succeeds well with longer words.

"A little girl, eleven years old, totally deaf, has improved much in pronunciation, talks with any hearing person, and reads well."

VELEDICTORY ADDRESS.

MY DEAR TEACHERS AND FELLOW-PUPILS:

This term brings to a close my scholastic education, and I must bid you all farewell. It grieves me deeply to break up all the bonds of association and attachments formed during my sojourn in this noble Institution, where I have been storing my mind with all the useful knowledge and general information which my teacher, Mr. Widd, and books could impart; but it is the way of the world, all must separate some time or other, to pursue each one his individual calling in the battle of life. I shall always remember the pleasant days I spent here and the kindness and courtesies which you have always shown towards me. Though my scholastic education is complete, I do not consider my full education complete. We only finish our education when our race is run. Every day of our lives we learn something we did not know before. We see some new wonder in the works of God and in human arts and inventions. As we go through life we came to understand many things that were dark before. The school only opens the gate of knowledge, and the teacher points out the fields in which we may gather the fruit. And now my fellow pupils I bid you good bye. I trust if we are not separated by distance, to have occasional renewals of acquaintanceship by visits and correspondence. Mr. Widd, Miss Littlefield, Mrs. Smyth and all connected with this Institution, accept of my grateful thanks for your kindness towards me, and I pray God to reward you for all you have done for me.

REPORT OF MR. P. S. ROSS

ON

THE PAST AND PRESENT FINANCIAL CONDITION OF THE
MACKAY INSTITUTION.

To the Board of Managers :

I have carefully gone over the transactions of this Institution since 1870 and compared the vouchers and entries in the books and have satisfied myself of the correctness of the bookkeeping records of the charity.

The books and accounts are satisfactory to my mind and kept with such a minuteness of detail and division of accounts in regard to the different heads of expenditure and receipts as must give satisfaction, not only to an auditor, but to any friend of the Institution.

I submit along with this a very concise and, at the same time, complete statement of the disbursements and revenue of the charity from its commencement up to 30th June, 1880.

This statement has been compiled by your Honorary Secretary-Treasurer, Mr. F. Mackenzie, and gives a comprehensive view of the whole cash transactions and a statement of the present position of affairs.

I would remark that of the Endowment Fund in that statement, which amounts to \$8222.93, the sum of \$1812.00 has been used in Sundry Expenditures. This is not as it ought to be, and as soon as possible ought to be returned. Sufficient revenue ought to be provided from year to year without trenching on the endowment or any other Special Fund, which ought to be set apart for the special objects for which they were received.

The interest upon the Endowment Fund (if any such fund exists) added to the annual or occasional subscriptions and Government grants would then be the measure of your Expenditure Fund for the maintenance of the Institution and this would guide you in the exercise of your liberality towards the unfortunates whom you seek to aid.

By supposing the Special Funds to exist you will see that your Endowment Building and Property accounts require to be supplemented largely to re-place the amounts used in other necessary ways. And it would conduce much to the benefit of the Institution if this could be accomplished.

There appears also to be a floating debt of about \$5,000, which ought to be wiped out, and I do not think an appeal on this behalf would fail to meet with a response from our citizens. This debt ought not to exist, and, especially, as I find that the benefits of the Institution have not yet been carried out to the extent intended by your Board or the Donor of the building, in carrying out which you are, of course, limited by the amount of support which a generous and liberal public may extend to you. Therefore it is of some importance that the finances of the Institution should be relieved from the burden.

The building is said to be capable of accommodating 80 pupils, while the last report only gives 32, and this last number exhausts the funds placed at your disposal by general subscriptions and Government grant, as well as pupils' fees.

These sources of income will have to be largely increased if the objects of the Institution are to be carried out to its full extent, and I feel sure this only requires to be made known by you to procure for your Institution the active assistance of the people of Montreal.

The last year's subscription list, including special donations, appears to have been about \$4255.00 which is very gratifying, but it would require to be increased, and will no doubt be so if the public are only duly enlightened as to the work done, and a thorough canvass maintained.

From previous annual reports of the Institution it will be seen that the operations of the Board, while most praiseworthy in their extent, fall far short of the requirements of such a benevolent enterprise, and while the canvass has hitherto been limited to the exertions of Mr. F. W. Thomas and Mr. F. Mackenzie, and several ladies who appear to have taken a deep interest in the objects and welfare of your Institution, allow me respectfully to suggest that these few individuals can scarcely be expected to accomplish more than they have done, or continue to do as they have done, and that a greater number of sympathizing friends should be called upon to give assistance in this department of the work.

All respectfully submitted,

PHILIP S. ROSS,

Auditor.

* NOTE.—In addition to this amount, viz: \$9,386.99, the Mackay Institution for Protestant Deaf-Mutes is liable to the extent of \$3,559.92, being the amount of a Promissory Note due at Molson's Bank on the 6th Nov., 1880. This note represents one which was originally discounted in October (28th), 1874 (for \$2,547.68 due 1 Feb., '75) to raise \$2,500 to pay T. F. O'Brien half the purchase money of property in Mount Royal Vale, bought by the Mackay Institution (then Protestant Institution for Deaf-Mutes and the Blind.) This Promissory Note was not entered in the Cash Book of the Institution, because it was hoped that money would soon be obtained from the public to pay for the Mount Royal Vale Property and for buildings which were to be erected thereon for the Institution. The expectation was not realized, and, as a consequence of an action brought by Mr. T. F. O'Brien, the land reverted to him, and he was authorized to retain the money which had been paid for it.

As regards the Cote St. Antoine property (the old premises of the Institution on which there is a mortgage of \$8,000) it is valued at \$10,000 and is an asset to that extent.

TERMS OF ADMISSION.

The Mackay Institution for Protestant Deaf-mutes is a BOARDING SCHOOL for the education and moral and industrial training of Protestant deaf-mutes. It is not an asylum.

I. Every child admitted shall be deaf and dumb; shall not be deficient in intellect; not subject to fits; not laboring under any infectious disorder; shall have been vaccinated, or have had the small-pox; and must be of good moral character.

II. The sum required for each paying pupil shall be \$120 a year; or if two children of one family are in the Institution together, \$150 a year FOR BOTH. The payments to be made HALF-YEARLY IN ADVANCE. (The Board of Managers will, in certain deserving cases make a reduction in their terms for tuition and board, requiring only payment in part for the same.)

III. Pupils will be admitted into the Institution from seven to twenty-five years of age. The usual term for the completion of education is Seven years.

IV. The duties of the School will commence on the First Wednesday in September annually.

V. The annual vacation will commence on the Third Wednesday in June, when all the pupils are expected to return home for the holidays.

VI. The following questions must be answered and attested by the Minister of the Church to which the child or its parents belong, and by a Medical Practitioner:—

1. What is the name of the child?
2. When and where was the child born?
3. What are the names and occupation of its parents?
4. Of what nationality are the latter?
5. State the full address of the child's parents, and nearest Post-office.
6. Was the child born deaf? or at what age, and by what disease did it become deaf?
7. Has the child ever been afflicted with fits, or any other nervous affection?
8. Has the child had the small-pox, or been vaccinated?
9. Has it had the measles or Scarlet fever?
10. Is the child generally healthy?
11. Can the child dress and wait on itself, and are its personal habits cleanly?
12. Does the child make intelligible signs and give proof of memory?
13. How many brothers and sisters are there in the family?
14. Are any other members of the family deaf and dumb?
15. Were the parents of the children in any way related?

CLOTHING OF PUPILS.

FOR A BOY.—Two dresses complete; four shirts; four handkerchiefs; four neckerchiefs; four pairs of knitted worsted stockings; two pairs of good boots or shoes; overshoes; two hats or caps; a warm over-coat; two pairs of woollen gloves; a pair of slippers; tooth-comb, comb and hair-brush in a bag, and tooth-brush.

One of the suits must be plain and strong for every-day wear, and the other should be of dark cloth.

FOR A GIRL.—Four shifts; four pairs of stockings; two flannel petticoats; two dark skirts; two pairs of stays; two dark stuff frocks; six pinafores or aprons; four handkerchiefs; a pair of slippers; two pairs of boots or shoes; over-shoes; a warm cloak or shawl; two bonnets or hats; two pairs of gloves; tooth-comb, comb and hair-brush in a bag and a tooth-brush.

It is expected that all children shall have their clothing of good quality and in good condition; and deficiencies shall be supplied every midsummer, and all the clothes shall be marked with the FULL NAME of the boy or girl.

FREE PUPILS.

All candidates for free admission must be the children of poor Protestant parents in the Province of Quebec, and their application shall be considered by the Board of Managers.

Children elected for free admission shall receive their board and education gratuitously—the only expense to the parents being that of clothing.

An engagement must be entered into by two responsible housekeepers to provide such children with proper clothing; and in case of sickness, death or any other cause which may be found to render the children ineligible, to remove them from the Institution upon receiving due notice.

ADDRESS OF LETTERS.

All Letters respecting the admission of pupils, &c., should be addressed to the Principal:

THOMAS WIDD,
Mackay Institution for Protestant Deaf-Mutes,
P. O. Box 2086,
Montreal, P. Q.

Letters intended for this Institution should always have the word "Mackay" on the address, in order to distinguish it from the two Roman Catholic Schools for Deaf-Mutes in Montreal.

FORM OF A BEQUEST.

I give and bequeath to the "MACKAY INSTITUTION FOR PROTESTANT DEAF-MUTES AND THE BLIND," Montreal, incorporated by the Legislature of the Province of Quebec, in the year 1869, the sum of..... Dollars.

(Signed.)

THE MUTE CHILD.

A mother sat rocking her child,
Her face bore the shadow of care,
Her tongue often muttered the words —
“ O God ! help a mother’s despair.”

No sight has my child in his eyes,
Nor sound ever reaches his ears ;
I kiss his sweet lips and he smiles—
He smiles, while alas ! I’m in tears.

The children around me at play,
With prattling my brain often reels ;
Oh ! could but my boy speak a word
To tell what he wants or he feels.

I’ve mourned over those who are dead,
And watered their grave with my tears ;
But life and death’s mingled in one—
Who sees not, who speaks not, nor hears.
