past four years. In the  
last 6 years (since he  
qualified) he has done  
a good deal of the  
O.P. work at Guy's, —  
taking, for example, Dr  
Westbourne's place while  
in S. Africa. He is at  
present Demonstrator of  
Practical Physiology at  
Guy's, and last (but not  
by any means least) he

was one of the "Gull  
Research Scholars."

He has already done  
a considerable amount of  
work at the Roy. Free,  
is interested in it, and  
would, I am sure,  
make an excellent  
member of the Staff.

Please do not trouble  
to reply to this letter,  
but it is well that  
you should know who

Dear Mr. Stanley Boyd,

I have been before  
me a patient of yours - Miss  
Doydell - who has been a  
victim of miliary tuberculosis  
granules 15 m. c. p.

But she is now very much better  
than she was before & it  
has taken place  
What is the cause of this?  
morning was the cause?

Very faithfully  
yours

A. C. Wright

SWANPOOL,  
FALMOUTH.

My dear Boyd

Thanks for your letter.

I should be very pleased to undertake

the job if ~~it~~ the scheme is approved  
of, & I should not think of letting

you add anything out of your hiring <sup>budget</sup>.

I shall probably have a pair of books  
written in December & January the

guide content with historical you  
stockholders subscribe. I think

we might make a very good picture  
of Mrs Boyd if she can give me time for

the sitting. I could begin in early  
December - it would take from

10 to 14 sittings

I have a photograph of me standing for

Wright, Sir A.  
cr. 1906; M.D.  
& Bacteriologist  
in Medical Ch.  
Department of  
Inoculation  
Hospital, Paddis  
1861. son of J.  
D.D., Educated  
University. (B.A. 1882)

ST. CARLTON HILL.

W.M.

I would suggest Saturday -  
afternoon was as likely to be  
convenient to all parties -

Will you telephone to Mr. Herold  
the broker, at 25 Grosvenor St,  
(under the number of Herold W. Allington)

and you can arrange with him  
to take you out on Saturday -  
You had better ask him to bring  
the car to Harley St -

Herold will be able to give you

all information as to where  
the car was bought and also  
denies the account etc.

I don't know what else there  
are but Herold will be sure to  
know everything

Sincerely yours

A. Chevallier Taylor

Dear Boyd

A friend of mine is thinking  
of going in for the M.D. at  
at the Pathological Free Hospital  
& wants to know if I can  
help her. Before I answer her  
I would like to know whether  
the medical staff has any say  
in the matter & to what extent?  
Needless to say I would not  
recommend her unless I were

Schrafer, Edward Albert,  
L.L.D., Sc. D., F.R.S.,  
Professor of Physiology  
Edinburgh University  
since 1899. Born in London  
1850. Assistant Professor  
of Physiology University  
1874. Jodrell Professor  
University Coll 1883-99.  
General Secretary of the  
British Assoc. 1895-1900.

Dear Mr Stanley Boyd,

I have carefully read your report, and with you think that it agrees in all essentials with the ideas on which we concurred yesterday. I have therefore had much pleasure in signing it, and forwarding it, as you desired, to Mr Paton.

Believe me, with kind regards,

Sincerely yours,

Felix Semon.

Stanley Boyd, Esq.,

134 Harley St., W., London,

My dear Mr. Boyd:-

I am writing a paper at present on Cervical Ribs and in connection with your very interesting case would like to ask for information on two points. In addition to recording your own case you refer to the fact that on one occasion you saw a surgeon remove what you believed was a cervical rib on account of severe brachial neuralgia. Will you kindly tell me whether this case has ever been published and if not, would you be so kind as to ask the surgeon who did it if he would send me, if possible, at once the notes of the case?

published and if not, would you be so kind as to ask the surgeon who did it if he would send me, if possible, at once the notes of the case?

*I am just completing my paper and I want to tabulate*  
*operated in*  
all the cases that I can lay my hands on. I have at present over 40.

You also refer to a case in which compression of the subclavian was made easy on account of its high position in the neck. This was in a case of aneurysm. I should like to know where the aneurysm was situated and have any other points in connection with it that I might be able to obtain. In order to appear in my paper it would be necessary for me to have the information as soon as possible.

Yours very truly,

*W. W. Keen*

*Prof. Simpson
