SOUNDINGS IN FATHOMS

Ephebe Bay & River  
 Mountains of five several hundred feet high  
 densely wooded except the peaks. The River is  
 navigable by large boats or light rafts for 20  
 or 30 miles. The water is very pure and is  
 equally good as it issues from the hills. It is  
 one of the best in the world for drinking. The  
 soil is very fertile and the produce is  
 abundant. The climate is very healthy and  
 the water is very pure and is equally good  
 as it issues from the hills. It is one of the  
 best in the world for drinking. The soil is  
 very fertile and the produce is abundant.
