Edinburgh, Dec. 1819.

N. B. The Binder will place the Index at the
beginning.

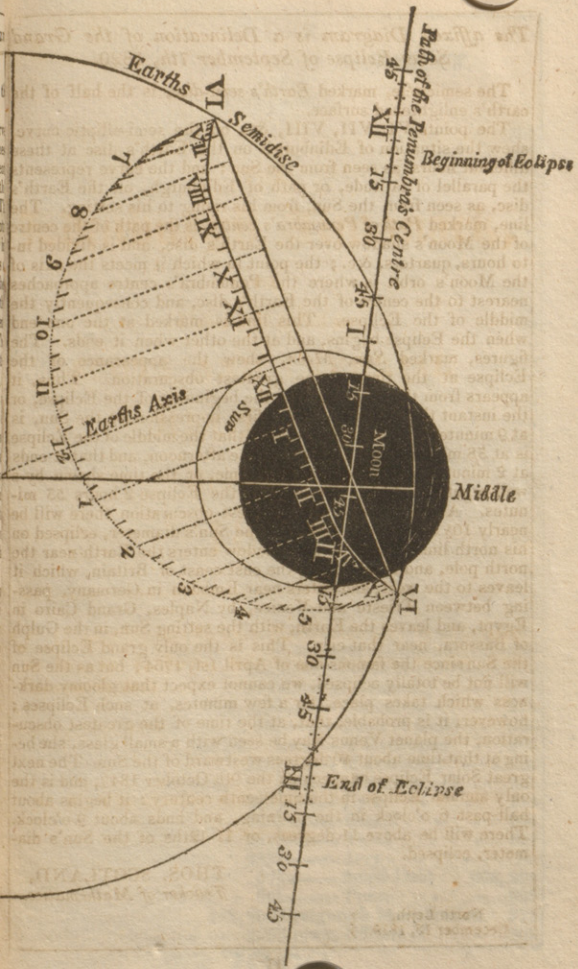

The affixed Diagram is a Delineation of the Grand Solar Eclipse of September 7th, 1820.

The semicircle, marked *Earth's semi-disc*, is the half of the earth's enlightened surface.

The points VI, VII, VIII, &c. on the semi-elliptic curve, shew the situation of Edinburgh on the Earth's disc at these different hours, as seen from the Sun; and the curve represents the parallel of latitude, or path of Edinburgh, on the Earth's disc, as seen from the Sun, from his rising to his setting. The line, marked *Path of Penumbra's centre*, is the path of the centre of the Moon's shadow over the Earth's disc, and is divided into hours, quarters, &c.; the point in which it meets the axis of the Moon's orbit is where the Penumbra's centre approaches nearest to the centre of the Earth's disc, and consequently the middle of the Eclipse. This line is marked at the one end when the Eclipse begins, and at the other when it ends. The figures, marked *Sun*, *Moon*, shew the appearance of the Eclipse at the time of the greatest obscuration. Thus, it appears from the diagram, that the beginning of the Eclipse, or the instant the Moon makes the first impression on the Sun, is at 9 minutes past noon, mean time; that the middle of the Eclipse is at 38 minutes past 1 o'clock in the afternoon, and that it ends at 2 minutes past 5 o'clock, mean time, or the time shewn by a well-regulated clock. Duration of the Eclipse 2 hours 53 minutes. At the time of the greatest obscuration there will be nearly $10\frac{1}{2}$ degrees, or 7-8ths of the Sun's diameter, eclipsed on his north limb. The Moon's shadow enters the Earth near the north pole, and moves along the east coast of Britain, which it leaves to the west, and enters near Embden in Germany, passing between Trieste and Venice, by Naples, Grand Cairo in Egypt, and leaves the Earth, with the setting Sun, in the Gulph of Bassora, near that city. This is the only grand Eclipse of the Sun since the famous one of April 1st, 1764; but as the Sun will not be totally eclipsed, we cannot expect that gloomy darkness which takes place, for a few minutes, at such Eclipses; however, it is probable, that, at the time of the greatest obscuration, the planet Venus may be seen with a small glass, she being at that time about 40 degrees westward of the Sun. The next great Solar Eclipse happens on the 9th October 1847, and is the only annular Eclipse in the nineteenth century: it begins about half-past 6 o'clock in the morning, and ends about 9 o'clock. There will be above 11 degrees, or 11-12ths of the Sun's diameter, eclipsed.

GARDENERS' CALENDAR.

JANUARY.—In the beginning of this month, if the weather is mild, sow early pease and beans; likewise radishes, cresses, mustard, and lettuces, on warm borders, sloping a little to the sun, or under a wall or other fence. The cabbage and brown Dutch lettuces, and short topped radish, are best for this month. Sow these seeds pretty thick; and in frost set in strong, spread some dry long litter over the beds. In mild weather, if omitted in October and November, prune apple, pear, cherry, and plum trees; also gooseberries and currants, the branches of which should be kept thin and regular, and always pruned with the hand or a pruning-iron. Plant fruit and forest trees, thorns, and other hardy shrubs in open weather. Turn up strong soil to meliorate with the frost; also such flower borders as are empty, to be in readiness at the time of planting. Forward ditching and trenching. In hard frosty weather carry dung, and be careful of all the tender sorts of seedling trees, shrubs, evergreens, &c. by sheltering them from the frost.

FEBRUARY.—Sow more pease and beans for a succession; also radishes, lettuces, cresses, parsley, &c. Spinage may be sown every three or four weeks, to have a constant supply; also a few cabbage and savoy seeds, about the end of the month. A few onion seeds may be sown about the middle of the month, which often do better than those sown later. Prepare ground for potatoes, onions, and other roots. Gather fresh horse dung to prepare for making up hot beds for cucumbers and melons. As green house plants will require fresh air at all times, when the season will permit, a little may be given about mid-day, if the weather is mild and clear, and the wind still; and water may be given in small quantities to such plants as want it, picking off all withered and decayed leaves. Sow tender annual flowers on a moderate hot-bed.

MARCH.—About the beginning make a small hot-bed for raising cucumber and melon plants; in the meantime, make up proper beds for each, which will be ready to receive the young plants in three or four weeks. Plant some early potatoes on a warm sheltered situation, covering them, in frosty evenings, with litter or pease straw. About the middle sow brocoli, cabbages, savoys, asparagus, and onions; plant more for a succession. Sow cauliflower, leeks, carrots, turnips, &c.; and pease and beans every fortnight, for a succession. Plant out cabbages and savoys, artichokes, and asparagus. Sow all kinds of hardy annual flower seeds in the open ground, and the tender kinds in a moderate hot-bed, in pots. Finish planting fruit and forest trees, and graft fruit trees. Plant gooseberries, currants, strawberries, and raspberries. Transplant all kinds of sweet herbs; also perennial fibrous-rooted and herbaceous plants, and evergreens. Keep strawberries clear of weeds and runners. Make box edgings.

APRIL.—This month requires the greatest exertions of any in the year with the gardener, as the ground is ready to receive whatever we

incline to plant or sow. The work should therefore go on with expedition. Sow pease and beans every ten or fourteen days. Plant potatoes, and transplant cauliflowers and lettuces. Sow salads every fortnight, parsley, celery, endive, purslane, pot and sweet herbs. Hoe pease and beans, and sow more to keep up a succession; stick tall growing pease when four or five inches high, and top beans when come to their full height. Thin out onions, carrots, turnips, spinage, &c. Plant evergreens in moist weather, and all kinds of flowering shrubs. Sow French beans in dry weather. Water new planted trees in dry weather. Clear gravel walks, and form box and thrift edgings. All kinds of hardy flower seeds may be sown still. Plant out cauliflower, cabbages, brocoli, and other greens. Transplant tender annual flowers from the hot-bed. Keep clear of weeds.

MAY.—Continue to sow cauliflowers, savoys, and cabbages for a late crop, and transplant those formerly sown, when ready. Sow full crops of French and Turkey beans; marrowfat and every other kind of pease for the last full crop. Every week, during the summer months, sow mustard, lettuces, &c. for a constant supply of salad. Earth up celery, and thin onions, carrots, turnips, and spinage, where necessary, taking care to leave the strongest plants. Plant cucumbers under hand-glasses. Water, in dry weather, young fruit trees, and protect their roots from scorching heat, with short grass laid round the stems. Cut box edgings. Nail up young shoots of wall-trees, and tie espaliers with twigs of the golden willow. Remove plants out of the green-house, and place them in a shady sheltered border, observing to water them duly. Be diligent in clearing off weeds, and destroying vermin.

JUNE.—Continue to plant cauliflower, cabbages, and savoys, for a late crop. Plant out leeks and brocoli. Transplant celery, endive, and lettuces; and sow salad seeds every eight or ten days. Sow full crops of turnip, both yellow and white. This is the best season to sow field turnip, white, green, and red, as also the Swedish. Sow beet, red, white, and green: This seed being large, it will be better to sow it in drills, about an inch deep, and ten or twelve inches distant: Observe that the root of the red sort only is used, and the leaves of the white and green; they should therefore be kept separate.—Hoe beans and pease; top the former, and stick the latter. A few of the early kind of each may be sown the first or second week for the latest crop. Gather and dry sweet and pot herbs as they come to bloom. Train wall trees and espaliers. Secure young trees against wind, and water them in dry weather. Mow grass walks early in the morning, before the dew is dried up. Clean and ro' gravel walks.

JULY.—Plant more cauliflower for autumn; and cabbages, savoys, brocoli, and leeks, for winter. If any vacant ground, sow turnips, carrots, onions, winter spinage, kidney beans, endive, &c. Towards the end, plant sweet herbs. Transplant celery, more cabbages and cauliflower on the ground where the early pease are done. Keep wall-trees and espaliers in good order. Water, in dry weather, always in the evening. Dung and dig ground for full crops of winter greens and cabbage to be planted next month.

AUGUST.—If any seeds were omitted to be sown last month, finish now. Sow cabbage and all kinds of greens to stand through the winter for plants in spring: also cabbage and Dutch lettuces on warm borders, for winter use. Earth up celery, and plant out more. Clean asparagus beds. If room, plant more brocoli, cabbage, &c. About the middle sow cauliflower and prickly spinage. Gather onions, garlic, and all sweet herbs. Clip thorn hedges, and pare thrift edgings.

SEPTEMBER.—Plant strawberries and box edgings. Transplant celery, lettuce, endive, and all evergreen shrubs. Look over wall-trees and

espaliers, and fasten straggling branches. Prepare ground for planting fruit trees. Dig up all vacant borders, and clean and roll gravel walks. Destroy snails, caterpillars, and other vermin. Slip and transplant fibrous-rooted plants and flowers.

OCTOBER.—In this and the three following months, dung, dig, and trench all vacant ground, to be ready for spring crops, covering in the dung well. Plant out early cabbages to cut in May. Towards the middle sow early pease and beans, and earth them up when two inches high. About the end plant all kinds of fruit trees; and, before the frost sets in, gooseberries, currants, rasps, barberries, and flowering shrubs. All kinds of trees, whether fruit or forest, transplanted this month, will thrive better than later. Dress wall-trees, &c. Prepare ground for planting trees.

NOVEMBER.—Finish planting gooseberries, currants, &c. and flowering shrubs; also fruit and forest trees, putting loose dung round the stems to preserve them from frost. Sow more early pease and beans, and a few radishes on a warm border. Plant all kinds of bulbous rooted flowers, and some anemones and ranunculuses. Secure artichokes and asparagus beds from the frost, by covering them well with loose dung. A small hot-bed frame may be kept profitably at work all winter in raising small salads, such as radishes, cresses, mint, &c. Plant cauliflower upon warm sheltered borders, or under hot-bed frames or hand glasses.

DECEMBER.—In mild weather continue to sow pease and beans for a succession. Cover your artichokes with loose dung, to keep the roots from frost, if omitted last month. Prune gooseberries, currants, and thin out rasps. Dig and dung all spare ground; and dung and prepare borders on walls for young fruit trees in March, if omitted to be planted last month. Fasten young fruit trees with stakes. Gather all rubbish and burn it; and in frost carry out dung.

The Proprietors have used their best endeavours to present in the above List an *Episome* of the roads—as it would considerably increase the size of their publication, were they to attempt to give them all. They hope, however, those given will be found useful, and they would flatter themselves correct, but they will be happy to receive all certified information respecting them, and will rectify in future publications, when it is clearly proved they are erroneous.

REGULATIONS.

1mo, The regulations and table of fares enacted upon the 19th day of June 1811 years, are hereby repealed; and the before mentioned general rules, the following regulations, and annexed table of fares, made according to these general rules, are substituted in place thereof.

2do, That each coach or chariot, before plying for hire, shall be inspected by a magistrate; and, if approved of, will be licenced by him, when a number will be issued to the owner, who must affix the same, together with his name in letters at least one inch in length, on each door of the coach or chariot, immediately below the window. That there shall not be the same number on two coaches or chariots; and that no coach or chariot wanting such number or name shall be allowed to ply.

3to, That no insufficient coach or chariot, or horses, shall be allowed to ply; and when any of the proper furniture of steps, springs, blinds, glasses, or check strings for stopping the coachman, are broken, or wanting, or the harness shall not be in good repair, it shall be lawful to detain from the hire one shilling, or the whole hire, if it shall not amount to more. The coachman shall always keep the check-strings in his left hand when driving, under a penalty not exceeding five shillings.

4to, That there shall not be fewer than six coaches or chariots on the stance in Princes Street every morning, at nine o'clock, taking this duty by rotation, beginning at No. 1, and going on progressively, under a penalty of ten shillings for every coach or chariot absent. All coachmen attending for a fare, at any stand, shall either sit on the coach-box or stand at the horses' head, under the penalty of two shillings and sixpence for each offence.

5to, That each coachman shall be cleanly in his person, and wear a ticket on the front of his coat, with a number corresponding to that on his coach or chariot, under a penalty of five shillings for each offence.

6to, That when a company shall take a coach between the hours of 10 and 12 o'clock, P. M. in that case, fare and quarter shall be paid; between the hours of 12 and 1 o'clock, fare and half shall be paid; and after one o'clock, double fare shall be paid, with the exception of the Theatre, where the usual charge only shall be paid.

7mo, That the stances for the coaches and chariots shall be as follows, viz. Tron church,—Prince street, east end,—George street, between Hanover and Frederick streets,—Princes street, west end, facing Hope street, or at such other places as the magistrates from time to time may appoint; and that there shall be not fewer than four coaches at the stand facing Hope street.

8vo, That coachmen are not on any account to inquire where a company are going, previous to engaging, or to plead prior engagements, when their services are required, nor shall they be allowed to draw off the stance under pretence of being engaged, so as to have their choice of work; but their coaches or chariots being on or near the stance, shall be considered as proof of their being disengaged; and on their refusing to take a fare, they shall be liable in a penalty of ten shillings, unless they can adduce evidence to the satisfaction of the magistrates, that they were actually engaged.

9no, That when a coachman is required to wait, either upon setting down or taking up a party, he must on no account refuse, under the penalty of five shillings, and the forfeiture of his hire; but he shall be entitled to charge for the first 15 minutes sixpence, and a like sum for each successive 15 minutes he may be detained.

10mo, That if a coachman shall be sent from a stance to any house to take up a company, he shall immediately announce his arrival, and remain in waiting during the pleasure of the company; for which he shall be entitled to charge the same allowance from his arrival as in the preceding regulation.

11th, That no fares higher than those in the annexed table shall be demanded or taken; and if hired to any spot or place, not specified in the annexed table, (such as) from a change of the name, a new place, or beyond the limits, &c. in that case, no fare higher than those in the before-mentioned General Rules shall be demanded or taken; the coachman having it in his option to take either for the length of ground, or time, but not for both: And if any coachman shall be convicted of imposing on his employers, or abstracting the fares from his master, he shall be liable in a penalty of four times the amount of the fare, and imprisoned until payment.

12th, That every coachman, when on duty, shall have in his pocket a printed copy of these regulations, to be kept in a tin box, with the number of the coach or chariot painted on it, and shall shew the same to his employer, when required, under a penalty of five shillings.

13mo, That any coachman being convicted of drunkenness or abusive language, the magistrates may revoke his licence, or impose a penalty of ten shillings, and order him to be imprisoned till the same is paid.

14mo, That the coachman, (master or servant), after setting down a company, shall drive to the nearest stance, and if the number of coaches or chariots ordered to stand there is not complete, he shall remain for the service of the public.

15mo, That any person wanting a coach or chariot, shall take one from the nearest stance to his residence; but if none shall be there at the time, and one shall be procured from another stance, there shall be paid for every stance beyond the nearest, in addition to the fare, the sum of sixpence. This to be only applicable to fares under two shillings and sixpence.

16to, That there shall be no additional charge made for taking up or setting down any part of a company, unless the coach or chariot shall be detained 10 minutes, which time for attendance shall be allowed to each fare, and not exceeding.

17to, That parties returning by the same coach or chariot, from any place, whether in town or at a distance in the country, shall pay one half fare additional as back hire.

18mo, That the fares are exclusive of the king's duty and tolls, which are to be paid by the company.

19mo, That the regulations respecting the fare to Leith will not be insisted on during the race week, for two hours before and two hours after the horses have started for running.

20mo, All parcels or articles of any kind to be immediately returned to the owner, if known; if not, to be lodged in the Council Chamber.

21mo, That at least one fourth of the coaches to attend at the stand, east end of Princes Street, on Sunday, from ten o'clock morning to ten o'clock at night.

CORPORATION OF THE ROYAL EXCHANGE ASSURANCE, LONDON,

Established by Royal Charter in the reign of King George I,
 For the Assurance of SHIPPING, MERCHANDISE, and LIVES;
 likewise against FIRE, and for the Purchase and Sale of
 ANNUITIES.

CAPITAL TWO MILLIONS.

Agents,—Messrs. THOMSONS & POLLOCK, No. 15,
 Princes Street, Edinburgh.

Printed Particulars, containing the rates and terms on which
 business in the different Branches may be effected, are given
gratis at the Office of the Agents, and every explanation afford-
 ed by them to those not already in the practice of doing In-
 surances.

The following are a few of the Rates of Insurance on single
 Lives.

Age.	For One Year.	For Seven Years.	For Life—per Cent.
15	L. 0 18 0	L. 1 3 0	L. 1 18 6
20	1 7 3	1 9 6	2 3 6
25	1 10 6	1 12 0	2 8 0

50	2 15 0	3 0 9	4 10 9
55	3 5 0	3 12 0	5 6 3
60	3 18 0	4 7 0	6 7 3
65	4 15 3	5 10 9	7 16 9

No entrance money charged; but the Life to be assured *must*
appear before the Agents, otherwise, in the *first year*, a fine for
 non-appearance must be paid of 10 shillings per cent. on as-
 surances for one year, 15 shillings per cent. on those for
 seven years, and 20 shillings per cent. on Assurances for Life.

The numerous applications of late for Insurances on Lives,
 shew, that the utility of the measure is beginning to be gene-
 rally understood in Scotland;—and in what way can a provision
 after death to children or executors be so readily and cheaply
 secured?

By laying aside a small annual sum, the Gentleman in office,
 Annuitant, or other person dependant on an annual income,
 may secure to his children, or others, a sum of money at his
 death, which he never could have accumulated by his own
 savings.

Since the establishment of the Agency in Edinburgh in
 1796, many heavy loses, both by fire and death, have been
 paid here, and the promptitude and liberality of the Directors
 in the adjustment of their losses, have, in every case, been ac-
 knowledged.

FIRE SOCIETY.

THE principle of this Institution is mutual guarantee. It is of the nature of a Benefit Society; and its object is, to give security against the calamity of Fire *on the cheapest terms.*

It has been found by all past experience, that the premiums paid for fire insurance have greatly exceeded the actual loss,—a fact proved by the existence of numerous Companies, all making profit of fire insurance. In the Norwich Union, the whole *savings*, after deduction of charges, and a reservation for a *Guarantee Fund*, are RETURNED to the parties at the end of every seventh year; and the Report of the London Committee on its affairs shews, on the experience of 21 years, that the *savings* thus made have amounted to a very great per centage. The stability of the Society is proved by that Report, and by the fact, that the total number of insurers is not now less than 90,000.

It deserves to be added, that by means of the establishment of Boards at Norwich, London, Dublin, and Edinburgh, and of local Committees in the leading provincial towns, all settlements of loss are made through means of a body of disinterested individuals of high character, who see prompt and ample justice done to every sufferer.

LIFE, ANNUITY, AND ENDOWMENT SOCIETY.

THIS office is on the principle of a *Benefit Society*; and, in its leading characters and great success, resembles the Equitable Society of London. The savings made are at stated intervals ADDED, by way of *bonus*, to the sums insured, or, in

NORWICH UNION LIFE, &c.—continued.

the option of the parties, ALLOWED to them by way of reduction from their annual payments. In 1816, a *bonus* of 20 per cent. was declared. The Income of the Society is now about £100,000 *per annum*. Between 1st January and 30th June 1819, no fewer than 382 Policies were issued.

The premiums are about 10 per cent. lower than those of most other offices. No entrance-money is charged.

Persons wishing to discontinue their policies, may dispose of them to the Society at a fair price; and the amount (and *bonus*) is paid within three months from the intimation of proof of death.

Solicitors and others recommending insurances are allowed a Commission, as in other respectable offices.

The benefits of Life Insurance to all professional men, persons in public offices, or engaged in any sort of business, stipendiaries, annuitants, tenants of land, and in general, to all individuals whose income ceases or is impaired to their families on their death, are certain and obvious, and daily become more understood. In this Society they are obtained at the *lowest possible rate*; and the Report of the London Committee also proves its perfect stability and high character.

ANNUITIES immediate, progressive, deferred, or by survivorship, and ENDOWMENTS to children, are granted upon either a single or an annual payment.

By the rules of both offices, a Capital, proportioned to the business of the Society, is to be invested in Scotland; so that, retaining this *capital* in the country, and bringing back all savings in the shape of *returns*, these Societies may be regarded as truly *Scotch*.

PELICAN LIFE OFFICE,
FOR INSURANCE ON LIVES, GRANTING ANNU-
TIES, AND ENDOWMENTS TO CHILDREN.

THIS Office was established, in Lombard Street, London, in the year 1797, by a numerous and respectable Proprietary; and the Board of Directors, with confidence, arising from the increased prosperity and permanency of the establishment, as well as from the experience of its usefulness and benefit to the public, think it due to those who may be still unacquainted with the importance and advantages of LIFE INSURANCE, briefly to suggest some of its leading and peculiar recommendations to almost every degree and rank in society:—Life insurance is of manifest consequence to all who hold estates for life, situations and offices, civil, ecclesiastical, or professional; to officers in the army and navy, &c. as, by payment of an annual premium, the party insured is enabled to provide for wife, children, or others whose future welfare he may wish, in vain, by other means to promote. It affords a permanent ultimate security to those who advance money upon annuities or otherwise. It renders leases, determinable on one or more lives, nearly equal in value to freehold estates, as an insurance to the amount of the fine, payable on the demise of a party nominated in such leases, will produce the sum required for renewal. It is a cheering refuge to parties engaged in extensive and speculative undertakings; it affords to persons in trade the certain means of indemnification against a bad or doubtful debt; in short, life insurance, established in policy, sanctioned by Government, and confirmed by the test of experience, is become, to almost every situation of human life, a measure equally important, useful, and beneficial. Annuities are granted upon the most equitable terms, under a special act of Parliament granted to this office.

EAGLE

INSURANCE COMPANY, CORNHILL, LONDON.

(Instituted in 1807, with a Capital of £2,000,000).

W. BEETHAM, *Secretary*.

THE superior advantages arising to the Public by effecting Insurance with this Office are numerous. The following are a few of the Benefits against Fire.—

Persons insuring Property with this Company are entitled to a Dividend or Discount of 10 per cent. upon the Premium, payable at the time the Insurance is effected, and *annually* on the same being *renewed*, thereby making (at the end of Seven years), without the Risk of being diminished by Losses, as in other offices, A DIVIDEND OF 70 PER CENT: And, besides, the Company guarantees the Payment of the Rent of Premises rendered untenanted by Fire.

Note.—No charge for Policies, Surveys, Indorsements, or Alterations.

Abatements upon the Premium and Duty of Insurances effected for more years than one.

Farming Stock insured without the Average Clause. Damage by Lightning made good.

Also, Insurance may be effected at this Office on Ships building,—in Dock repairing, or when laid up, by the month, or for any other period, upon very easy terms.

LIFE INSURANCE.

Under this Branch the Benefits derived from this Institution are equally advantageous.—For example.—

A Person 30 years of Age may, by the small Annual Payment of £13: 7: 1 secure £500 to be paid by this Company (to his Family, or otherwise, as he may direct) at his Death, whether such an event shall occur sooner or later; and any other Sum may be insured in like manner, and at any other Age.

One Person may insure another's Life having interest therein.

Note.—No Entrance Money or Registry of Assignments required; and no Charge made for Non-appearance, if properly certified.

The Directors, by the Constitution of their Establishment, are enabled to grant Annuities, immediate, progressive, and deferred, upon the most liberal and advantageous terms to the Annuitants.

PETER SCOTT, Agent,
Insurance-Broker, 3, Parliament Square, Edinburgh.

SCOTTISH WIDOWS FUND AND LIFE ASSURANCE SOCIETY.

This Association was formed with a view to extend the advantages of Life Assurance to all Classes of the Community, by raising a Fund for securing Benefits or Provisions, payable or commencing upon the termination of Lives, or upon Survivorships. It is the first, and as yet the only, Association in Scotland for the sole purpose of Life Assurance.

It is formed upon the model of the Equitable Society in London, one of the most successful and important Life Assurance Associations that has yet been established. Every Contributor is a Member of the Society, and has a joint interest in the Fund; and it is one of the leading principles of the Institution, that the **WHOLE PROFITS** are periodically added to the Benefits secured, according to fixed rules, **THERE BEING NO PROPRIETARY OR INTEREST SEPARATE FROM THAT OF THE MEMBERS AT LARGE.**

The Members are not personally responsible for any Provision secured upon the Fund, and cannot be called upon, *on any account or occasion whatever*, to make any payment in addition to the Contributions fixed at their Admission by their respective Certificates. This is completely guarded against by the Articles of Constitution, which were revised and approved of by the Manager of the Establishment already alluded to, and by some of the most eminent legal counsel and conveyancers in this country.

From the circumstance of the accumulation of money being assumed at *four* instead of *three* per cent. the rates in many cases, particularly when the Contributions are made by single payments, will, on comparison, be found to be considerably lower than those of most other Societies.

Attendance is given daily at the Office, *No. 71, Princes Street*, a little east of the Mound, where every information may be obtained, and copies of the prospectus had *gratis*.

THE STAR LIFE ASSURANCE COMPANY.

INSTITUTED for the purpose of a General Assurance on Lives and Survivorships, the Endowment of Children, the Indemnity of Persons holding under Leases for Lives against Renewal Fines, whereby their Estates are rendered almost equal in value to any Freehold out of which a Quit or Fee-farm Rent is payable, and for other salutary purposes, calculated to promote the general convenience of the public, and to meet the wants and wishes of every class of the Community, on terms of mutually safe and liberal policy,

No. 18, Cork Street, Burlington Gardens, London, and
No. 19, Hill Street, Edinburgh;

Grant Assurances of every description on individual, two or more lives, upon a principle of facility and encouragement that it is presumed no other similar Establishment can exceed.

Personal appearance is dispensed with where it cannot be conveniently given, on a charge of trifling consideration in comparison with what has been usually paid for non-appearance.

In cases of Suicide, where the interest in the Life belongs to, and has been insured by another, the full sum is paid as in the event of ordinary death; and where moreover the Party shall have insured his own life, and it is made evidently to appear that the act has been committed under the pressure of a mental derangement, this Company pay the estimated value of the Policy at which it would have been purchased on the day of the calamity.

Officers of the Navy and Army are not required to pay additional premiums except during the time of actual service.

Travellers are on no occasion charged for the hazard of the seas in passing to and from England and Ireland.

And, generally, where any satisfactory reason can be assigned for an exemption from extra Premiums usually demanded on particular occasions, it is readily granted; in a full determination that this Company shall be uniformly distinguished by a spirit of liberality in all cases consistent with the honour, and at the same time with the safety of the Establishment.

Notice relative to Claims for the Effects of Deceased Soldiers.

WAR-OFFICE, 17th July 1811.

MANY complaints having been received of the improper interference of Licensed Navy Agents, in obtaining the Effects of Deceased Soldiers, on behalf of their Widows and Relatives, in a way that subjects the Parties to considerable Expense, the Secretary at War deems it necessary to caution the Relatives of deceased Soldiers against employing any Licensed Navy Agent, for the purpose of recovering Monies which may be due to them; and to apprise the Claimants, and Licensed Navy Agents, that the most positive directions have been given, that no application for the Effects and Credits of deceased Soldiers, coming from such Agents, or in which such Persons may appear to have been employed, shall in future be attended to in this Office.

By Order of the Secretary at War.

Pensions to Officers' Widows.

From and after the 18th June 1818. the Widow of an Officer shall continue to receive the Pension that shall have been granted to her, notwithstanding she may be married again. And the Widow of an Officer, who had been placed on half-pay by reduction, or in consequence of

disability, after having served for not less than three years on full pay, and without receiving any difference by exchange, shall be entitled to the Pension, although she was not married to him until after he had been reduced, or so placed on half-pay.

TO OFFICERS OF THE LAND FORCES.

His Royal Highness the Prince Regent, in the name and on the behalf of his Majesty, having taken into consideration the great convenience that would result to Officers on the Half-Pay, or on the Retired List, and to General Officers, entitled to the pay of their army rank, if they were allowed to receive their Pay or Half Pay from the establishment of that country in which they shall actually reside, without regard to the establishment upon which the Pay or Half Pay was originally allowed, has been pleased to direct, that in future all such Officers shall, from the 25th December 1814, inclusive, or from such subsequent date to which their Pay or Half Pay shall have been issued, receive payment of the same in the country in which they shall reside; and that the following Rules be observed in this respect:

Any Officer residing in Great Britain, whose Pay or Half Pay is now issued in Ireland, should notify his Place of Residence to the War Office in Dublin, in order that an official communication may be made from thence, for the transfer of the payment of his Pay or Half Pay in Great Britain.

In like manner, any Officer residing in Ireland, whose Pay or Half Pay is now issued in Great Britain, should make a similar report to the War Office in London, when instructions will be given for the payment of his Pay or Half Pay in Ireland.

If any Officer should afterwards be desirous of changing his place of residence, he is to give Two Months previous notice of his intention to the War Office of the Country in which he shall then be resident.

WAR OFFICE, 23d July 1819.

Officers on Half-Pay, in certain cases, may receive an allowance equal thereto, together with emoluments from Places of a Civil nature.

The Secretary at War informs such Officers, that if their net annual emoluments do not exceed three times the amount of the highest rate of the Half-Pay attached by regulation to the rank, in virtue of which they are entitled to Half-Pay, they may, on application to the Secretary, be permitted to receive a Military Allowance equal to, or instead thereof, on making Affidavit in the following form:—I A. B. do swear, that I had not, between the day of and the day of any Military Place or Employment under his Majesty, besides (here specify the nature of the Military Appointment actually held), nor any Civil Place or Employment under his Majesty, except (here specify the nature of the Civil Appointment), and that the net annual emoluments of (here repeat the Civil Appointment) do not exceed (here state the annual amount of three times the highest rate of your Half-Pay.)

Should the net annual emoluments of any Civil Place or Appointment exceed three times, but fall short of four times, the amount of such Half-Pay; on application to the Secretary at the end of the year, so much of the Military Allowance will be paid, as, together with these net annual emoluments, may be equal to four times the amount of such Half-Pay, upon making the following affidavit:—I A. B. do swear, that I had not, between the day of and the day of any Military Place or Employment, besides (here specify the nature of the Military Appointment), nor any Civil Place under his Majesty, except (here specify the nature of the Civil Appointment), and that the net emoluments received, or to be received by me, in respect of (here repeat the Civil Appointment), from the day of to the day of together with the portion of my Military Allowance now claimed, do not exceed (here state four times the amount of the highest rate of Half-Pay attached to your rank).

The above arrangement to have effect from 25th December 1818.
