THE OLD WAY IN GRANDMA'S TIME

INTRODUCTION

WE TAKE PLEASURE in presenting our **new catalogue of 6-family-knitting-machines** combined with "**How to make money by knitting**" formerly sent out separately.

We have been **hard-at-it** for nearly-half-a-century, 47 years.

We have had continuous success and have outlived no less than 10 competitors. **40,000 satisfied** users of our machines tell the story of success. **The secret is in the merit** of our machines. We are determined the **NEW CENTURY** will be better than the old; that our reputation for **Honest-value** and fair dealing will be sustained. Our customers can rely on having our very best service, and all orders our prompt and careful attention.

Respectfully yours,

CREELMAN BROS.

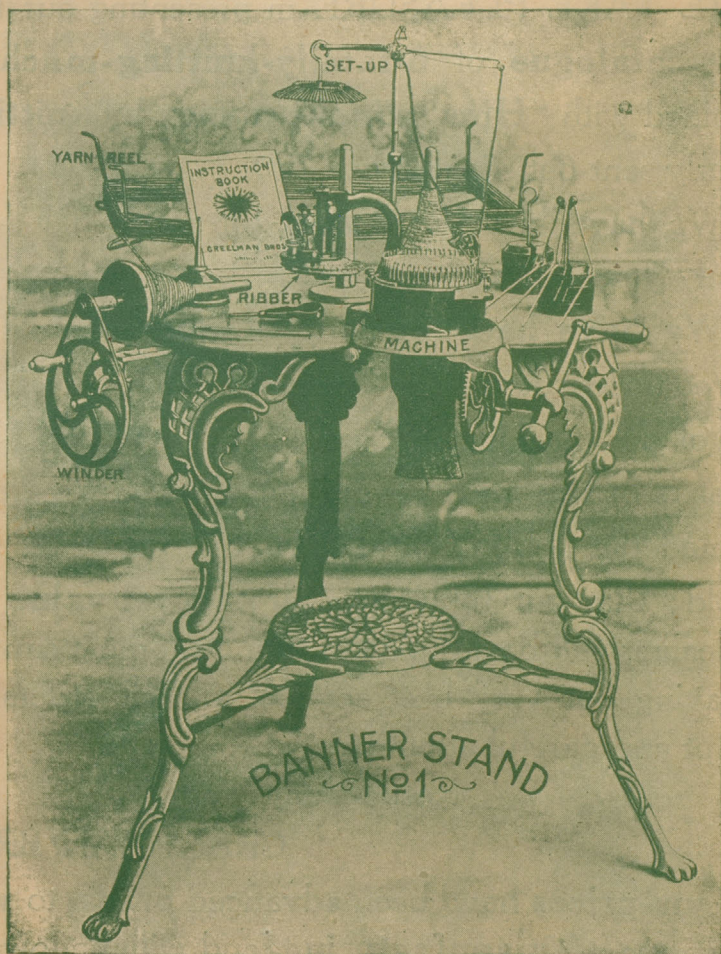

Our-prices have been advanced owing to **war-conditions of manufacturing**, and will be lowered as Manufacturing Conditions permit.

See pages 31 to 48 for—

"How to make money by knitting."

THE BANNER-MACHINE

OUR-VERY-BEST for FAMILY-USE AND MONEY-MAKING is shown on a BANNER-STAND, not essential and therefore is usually purchased without the STAND and used on a STRONG-KITCHEN OR SPECIAL-TABLE. IT IS SHOWN complete with ONE-NEEDLE-CYLINDER, RIBBER, CORRESPONDING-DIAL and ATTACHMENTS.

THE-BANNER in a day of 10 hours will make 24 to 36 pairs of Rib-Socks by Hand Power; 36 to 48 pairs of Rib-Socks by Electric Power.

PRICE—Complete with Stand as shown..... \$75.00

FOR PRICES WITHOUT STAND SEE NEXT PAGE

WE RECOMMEND the Ribbing-Machines in Export-List, which have the Two-Dials. THE 60-CYLINDER IS THE MOST-POPULAR FOR RED-CROSS AND MILITARY-SOCKS MADE FROM 4-PLY COARSE-FINGERING-YARN.

Prices of the BANNER-KNITTING-MACHINE

WE RECOMMEND For Family Use Machines Nos. 1, 2 and 3. For Canadian Trade
and for MONEY-MAKING, No. 4.

SEE REASONS WHY ON PAGE 33.

Machine No. 1—With 54 and 72 cylinders and 36 dial for extra Coarse and Medium work. Price.....	\$65.00
Machine No. 2—With 60 and 80 cylinders and 40 dial for Coarse and Medium work. Price.....	\$67.00
Machine No. 3—With 72 and 96 cylinders and 48 dial for Medium and Fine work. Price.....	\$70.00
Machine No. 4—With 60, 72 and 80 needle-cylinders, 36 and 40 dials and (100 extra-needles with Large-hook for Coarse-work). Price.....	\$80.00

EXPORT-PRICE-LIST

Extra Price for Machine with Steel Cylinder, \$6.00, and with Steel Dial \$3.00.

APPROXIMATE-WEIGHT-BOXED.

Ribbing Machines
Gross, 48 lbs.; Net, 39 lbs.

Plain Machines
Gross, 44 lbs.; Net, 35 lbs.

EXPORT-PRICE-LIST is for machines complete with Ribber, One-Needle-Cylinder, Corresponding-Dial and Attachments. The Second Dial is \$4.50 extra.

Some Canadian Agents prefer selling machines with only One-Needle-Cylinder.

DIALS—30, 36, 42, 48, etc., make 1 & 1, 2 & 1, 3 & 1, 4 & 1 Rib-Work

DIALS—20, 24, 28, 32, etc., make 2 & 1 Rib like-hand-work; also 3 & 1 and 5 & 1 Rib.

THE BANNER is Wonderfully-Simple. Like our Old-Friend—"The World's Star," it is built-strong, durable, Mechanically-perfect, and of the very Best-material and workmanship, which makes it especially adapted for Hand-manufacturing of the World-famed Full-fashioned Ribbed and Plain-Seamless-Hosiery, etc., as well as for Power-running, and is our last effort in **FIRST-CLASS-FAMILY-MACHINES**. Driving-Wheel is 6-inch diameter.

Power-Attachment can be supplied at any time if \$1.00 extra is paid to prepare machine for power.

FOR HIGH-SPEED HAND-WORK,
to compete with power a 9-inch driving
wheel is supplied. Price, extra, **\$1.50**.

THE WORLD'S STAR

for many years was **OUR-MONEY-MAKER**, and the **BEST-MONEY-MAKER** for many thousands of Patrons and Users throughout the world.

**THE BANNER
MACHINE IS
OUR-VERY-BEST**

THE BANNER IS NOW THE WINNER, and has been for many years, the **BEST 20TH CENTURY MONEY-MAKER** for both the Public and ourselves, and we therefore recommend and guarantee it as a profitable investment to those desirous of Making-Money-by-Knitting. It is the **Best-for-Family-Use**.

THE NO. 4 BANNER will earn \$75.00 in half the time that \$50.00 can be earned on a machine with only one cylinder.

EXTRA NEEDLE-CYLINDERS, Dials, Needles, Etc., supplied at any future time.

We do not send Machines out on trial—we guarantee them. See terms of payment, etc., on Page 39.

Machine Knitting

is as interesting as Fancy-work—and many fancy articles as well as the

Beautiful Samples

shown on pages 24 and 25 can be made.

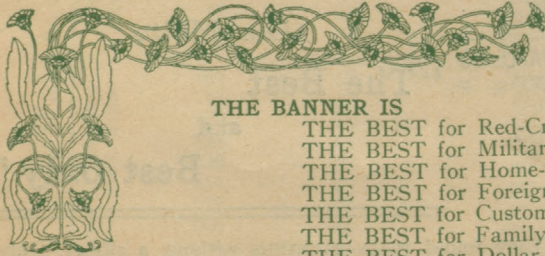

Our Brief Illustrated Instruction Book will teach you all.

It is a School of Industry for Young and Old.

Machine-Knitting is not only an art and trade, but a promising Canadian-infantile-industry.

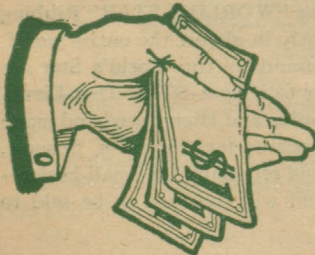

THIS CATALOGUE is-7-in-one for Our-6-Family-Machines, and How-to-make-money sent out formerly, one-catalogue for each.

ALL OUR FAMILY MACHINES will do the same work with the same cylinders, dials, needles, etc., and are all as interesting as the Fancy-work they produce.

THE BANNER IS

- THE BEST for Red-Cross-Socks.
- THE BEST for Military-Socks.
- THE BEST for Home-Trade.
- THE BEST for Foreign-Trade.
- THE BEST for Custom-Work.
- THE BEST for Family-Work.
- THE BEST for Dollar-Making.

It is also the Best for
Convents, Boys' Homes, Training Schools, Houses of
Correction, Industrial Institutions, Homes, etc.

IT IS THE BEST for High-Speed.

IT IS THE BEST for Active-Agents.

IT IS THE BEST for Money-Making.

THE-VERY-BEST TO PUT DOLLARS IN YOUR HAND.

The Banner is made in 4½-inches-for-Family-use
also in 3½-inches-for-Custom-work.

The-two-best-diameter-sizes for General-work.

SPECIAL SIZES MADE TO ORDER.

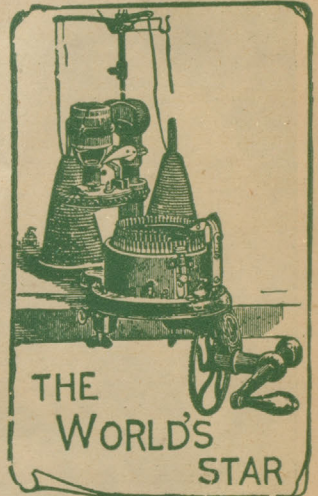

The "World's Star" Knitting Machine

THE "WORLD'S STAR" has been on the world's markets for nearly half a century—47 years—and has gained a World-wide reputation as a High-grade-machine for Family use, and for Manufacturing Seamless-hosiery by Hand-power. It is made with 6-inch driving-wheel, in the same sizes as the "BANNER" and in SPECIAL SIZES for knitters, and can be supplied with the "BANNER" Stand, as shown with "BANNER" Machine, or with 9-inch driving-wheel, at \$1.50 extra; Power Attachment can be supplied later if \$1.00 extra is paid.

**The BANNER and WORLD'S STAR
ARE THE WORLD'S BEST**
For Hand-Manufacture of Rib or Plain
Seamless-Hosiery.

The World's Star

is very Simple and Perfect and has satisfied its Tens of Thousands of critical customers for over 47 years of Unprecedented-success in the World's Markets.

The World's Star

Is Up-to-date in Everything.

Our Motto

"The Best

and

Best Only"

Thousands by Experience have found PLAIN-MACHINES without a ribber, Only-half-a-machine, and that The-Best-is-the-Cheapest. The "WORLD'S STAR" Ribbing Machine has a WORLD-WIDE REPUTATION, Shining-brightly in almost the entire world, and is now doing so on the four continents, where thousands of the World's Star are in use. Its merits are so well-known we need only refer to it as A-STAR-That-Lives-to-Shine. Like the Banner, it is designed for Power-Running and High-Speed and made extra-heavy and Strong-in-all-parts, and is just the machine for Convents, Schools, Asylums, Houses of Correction, Industrial Institutions, and especially for Small-hosiery-makers. Thousands have been sold for Family-Use, and will continue to be sold to those who can afford to pay the price.

PRICES OF THE WORLD'S-STAR-MACHINE

WE RECOMMEND for Family Use Machines Nos. 1, 2 and 3. For Canadian-Trade and for MONEY-MAKING No. 4.

SEE REASONS WHY on page 33.

176	88	74.50	42.25		

APPROXIMATE-WEIGHT-BOXED.

Ribbing Machines.

Gross, 62 lbs.; Net, 45 lbs.

Plain-Machines.

Gross, 52 lbs.; Net, 35 lbs.

EXPORT-PRICE-LIST is for machines complete with Ribber, One-Needle-Cylinder Corresponding-Dial and Attachments. The Second Dial is \$4.50 extra.

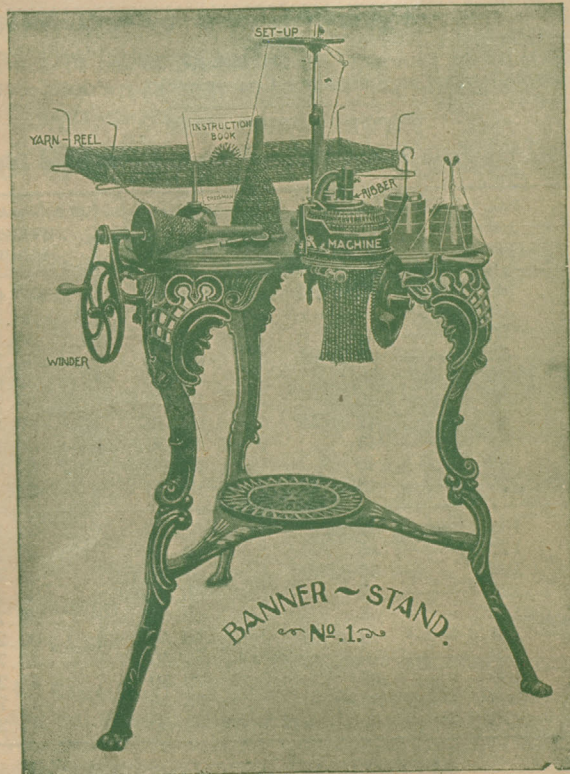

Some Canadian Agents prefer selling machines with only One-Needle-Cylinder.

SEE FOOT-NOTE, PAGE 5 for Explanation of Dials. The 2 & 1 Rib-Dial will make 2 & 1, 3 & 1 and 5 & 1 Rib-work—therefore a good investment.

THE DOLLAR-MAKER KNITTING MACHINE

THE DOLLAR-MAKER (as it is called by its friends who have made many dollars on it) is a Veritable-Dollar-Maker, and has earned this Popular-name by merit alone. It is simplicity materialized into a **COMPACT** and **PERFECT KNITTING MACHINE**.

Ribbing-Machines.

Gross, 39 lbs.; Net, 30 lbs.

Plain-Machines.

Gross, 36 lbs.; Net, 27 lbs.

EXPORT-PRICE-LIST is for machines complete with Ribber, One-Needle-Cylinder, Corresponding-Dial and Attachments. The Second Dial is \$4.50 extra.

Some Canadian Agents prefer selling machines with only One-Needle-Cylinder.

SEE FOOT-NOTE, PAGE 5 for Explanation of Dials. The 2 & 1 Rib-Dial will make 2 & 1, 3 & 1, and 5 & 1 Rib-work. The Best for Red-Cross-Socks—Like-hand-work.

You can have your hand
full of Dollars

If you Buy a

DOLLAR-MAKER KNITTING MACHINE

You Can Cut a Figure in the WORLD
when you have the Dollars.

THE DOLLAR-MAKER, like all other First-class-machines has its Special-points-of-merit. Its chief and special feature IS ITS TRANSFER NEEDLE, the same needle being used in the Needle-Cylinder-and-Dial. To do Rib-work the needle is simply lifted out of the Cylinder and placed in the dial with the stitch-on-it, and vice-versa for plain-work. This tells the whole story of SIMPLICITY in ribbing, therefore you need not be afraid to purchase for fear of not learning.

YOU CAN KNIT FOR THE WHOLE FAMILY

The Dollar-Maker Machine

Is pre-eminently a Family-
Machine—a Home-Worker—
a Good Investment

IT IS VERY SIMPLE, the most easily learned.
IT IS VERY RAPID owing to Transfer-needle.
IT IS THE BEST for Cap-heel and finished toe.
IT IS THE BEST for producing Hand-knits.

SEE THE BEAUTIFUL
WORK IT WILL DO
ON PAGES 24, 25.

IT WILL MAKE the real HAND-MADE-SOCKS which can be sold as Hand-knit, the Top, Heel, Toe and Rib being exactly the same as made by hand. **AND ALL ARE MADE AND FINISHED ON THE MACHINE.**

YOU CAN BE A \$ MAKER.

For 2 & 1 Rib-Work like Hand-work, procure a dial-with-slots equal to one-third in cylinder required. See Second Dial in Export Price List.

The Money-Maker-A Knitting-Machine

YOU CAN'T DO BETTER if you are thinking of purchasing a-first-class-machine at a moderate price.

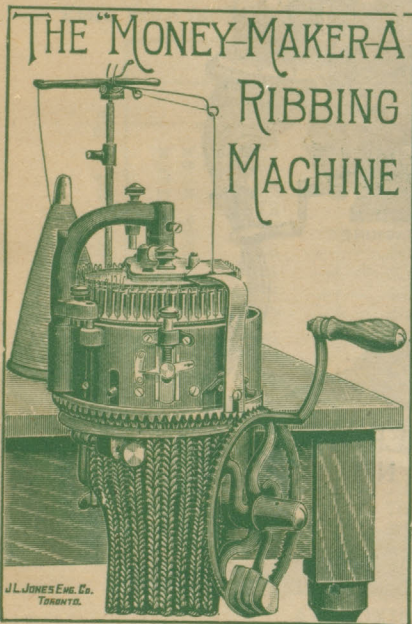

Thinking about the man in the moon is romantic. Thinking about buying a-first-class-knitting-machine is business.

Do not think too much while others decide and buy and make-money while-you-look-on and Think and Think and wonder-how-it-is-done.

SEE MACHINE ON BANNER-STAND
NEXT PAGE

THINKING—CONTEMPLATING

THE Money-Maker A

YES, IT IS

A FAMILY
DOLLAR MAKER

YES, IT IS

and costs about one-third less
than the

Fanner and World's Star

IT-WILL-DO-IT

All and everything that the Banner and
World's Star can possibly do.

IT IS AS GOOD AS GOLD

Our Best Medium
Priced Family
Knitting Machine.

The Money-Maker-A is our best-effort to give the waiting-world a-good-thing at a moderate-price. In construction the Money-Maker-A is practically the same as the Banner. The Needle-Cylinder, Needle-Dial, Cam-Cylinder, Cams, Needles, and attachments are essentially the same and First-Class.

THE MONEY-MAKER-A, DOLLAR-MAKER, and other low-price Machines are not made to run by power.

THE MONEY-MAKER-A KNITTING MACHINE

IS-OUR-VERY-BEST MEDIUM-PRICED MACHINE. IT WILL DO ALL THAT CAN POSSIBLY BE DONE ON THE BANNER OR WORLD'S STAR.

The Money-Maker-A Machine—Complete with Banner Stand and Attachments.
Price only..... \$65.00

THE BANNER STAND has a Highly-Finished Antique Oak Top. Machine Complete, with Attachments and Attachment Casket—Price..... \$70.00
USUALLY SUPPLIED without-stand with 6-in. driving wheel, rapid, simple, durable.

The Improved MONEY-MAKER RIBBING MACHINE

For Family Use

LET US TELL YOU THAT WE
CANNOT BLOW OUR
TRUMPET TOO LOUD IN
TELLING YOU ABOUT

THE MERITS of this machine, which is
Exceptionally-low-in-price, too-low, con-
sidering the mechanical-construction and
wonderful-value.

IT IS THE BEST production of our factory for the money,
and completely fills the bill as a Simple, Strong, Light-running,
Easily-learned, Low-priced, **First-Class Family Knitting Machine.**

Its Only Fault is, it is so Durable, you will not require another
in your lifetime.

One-Needle-Cylinder and One-Ribbing-Dial are supplied at the
above price.

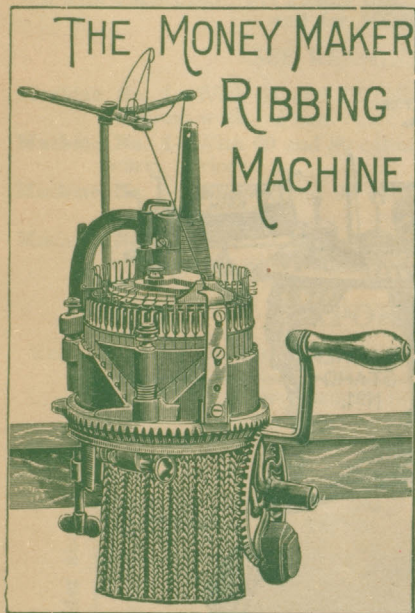

EXTRA CYLINDERS, DIALS, ETC., can be ordered at
any future time.

IN ALL FAMILY-MACHINES for knitting coarse and medium
yarn we recommend our No. 1 with 54 and 72-needle cylinders
and 36 dial which work with both cylinders and are usually cut
12 gauge for $3\frac{1}{2}$ -hook-needles, and will make **Two-and-one-rib**
Like-hand-work with every third needle out of the 54 cylinder,
and every other needle in the dial, giving 36 needles in the
cylinder and 18 in the dial, or 54 stitches, and 72 stitches with all needles in cylinder,
making **LARGE HEAVY ELASTIC SOCKS** weighing 5 to 7 ounces to the pair, or 4 to
5 pounds to the dozen, which is the popular heavy-weight.

TWELVE-GAUGE, No. 5, Large-hook-needles can be supplied for regular 12-gauge cylin-
ders-and-dials. In place of the regular $3\frac{1}{2}$ hook, we recommend 100 of these as an extra.

THE MONEY-MAKER KNITTING MACHINE

SEE STAND AND ATTACHMENTS NEXT PAGE

THIS CUT shows machine only, with Ribber and One-Needle-Cylinder, with work on the machine, as in operation.

THE PRICE is remarkably low, within reach of all.

IT IS mechanically - well - made, with FIRST-CLASS material and workmanship.

SPECIAL FEATURES are Originality, Simplicity and Practicability.

IT-WILL-DO-ALL that can possibly be done on the High-priced-machines as to range of work.

THE SPEED is as great as in the Higher-priced-machines, and is very rapid for Family-knitting, and many use it for Money-making.

IT WILL KNIT twenty-to-twenty-four pairs of All-ribbed-socks or Stockings, in one day of ten hours. Underwear, shirts, drawers, caps, toques, quilts, as well as ribbed and plain mitts, hosiery, etc., can be made equally well on the "MONEY MAKER," with the same cylinders, dials, and needles, as with the higher-priced-machines.

HERCULEAN

IT IS STRONG, durable, simple, Remarkably-Light-running, and without a rival at the price.

Beware of Cheap-Trap Machines, on the Market to Trap People.

\$100.00 REWARD to any-one-with-reasonable-intelligence who cannot learn to make a Good-sock or stocking in a few hours' time on any of our family machines.

We do not send Machines out on approval. We guarantee them.

THE MONEY-MAKER

WITH BANNER STAND

Complete, with Ribber and all Attachments and One-Needle Cylinder. Price only \$55.00

THE MONEY-MAKER shown on this page is the same as shown on the previous page, only this cut shows a Later-improved-machine on stand, while the cut on page 19 shows the machine upon an ordinary-table. It can be supplied with-or-without the BANNER STAND, or as a Plain-Machine without RIBBER, as may be desired. IT IS ALL RIGHT.

THE MONEY-MAKER is usually supplied without BANNER-STAND

PRICES WITHOUT STAND, SEE NEXT PAGE

SHOULD ANY CUSTOMER wish their present 12-gauge 54 cylinder and 36 dial recut for 10 gauge needles with large No. 5 hook to enable them to knit heavy-three-ply-yarn, we can do it if they will return to us, express prepaid, their 54 cylinder, 36 dial, Cam-cylinder and Ribber-cam-plate, and we will make the necessary changes. The charge for this, including one hundred 10 gauge needles, No. 5 hook, will be \$6.00, or we can supply you with a new 54 cylinder and 36 dial cut 10 gauge, and one hundred 10 gauge needles, No. 5 hook, for machine now in use for a special low price of \$12.50 cash. We supply 12 gauge Large-hook-needles, No. 5, for Regular Cylinders for Coarse-Work.

ORNAMENTAL CABINETS AND STANDS

THESE USEFUL CABINETS AND STANDS, as shown in this Catalogue, mark a new departure in the manufacture of Family-knitting-machines, and one-which-should-be-appreciated. The Banner-Stand shows the machine and attachments all close-together to reduce the size of the engraving, and more conveniently shows what constitutes a Complete-Machine; and at the same time shows the relative position of the Yarn-reel and Bobbin-winder, when winding Bobbins.

PROVISION IS MADE for the proper-working of the Bobbin-winder and Yarn-reel upon the stand, by withdrawing from under the stand a Separate-holding-bar for each, to which they are attached, and by this means the distance between them can be extended and regulated for practical-working and the Yarn-reel and Winder removed when desired, and the Holding-sliding-bars-pushed-in out-of-the-way under the stand, and remain there out of sight until required again.

THIS FEATURE OF THE BANNER STAND enables the machine to be worked with all the attachments, etc., on the same-table, which overcomes the objection of placing the machine on an ordinary-table and removing the same one or more times a day when the table is required for meals or other purposes.

THE BANNER STAND is ornamental as well as useful, and is so designed that it will fit the corner of any room, and makes a handsome piece of furniture and as such alone has full value.

THE IDEAL DROP CABINET, shown on pages 16 and 28, is a Handsome-full-Cabinet on Ornamental-legs, and embodies the Leading-features of the Drop-Sewing-Machine-Cabinet and enables the operator to quickly-lower the Knitting-machine into the Cabinet and close the cover, thereby removing the same from view when closed, and protecting the machine and all accessories from dust, leaving only a very desirable and Beautiful-piece-of-furniture, suitable for Writing-Table, Card-Table or Party-Tea-Table, and can readily be converted into a Secretary or Writing-Desk with slanting-top or cover, or thrown back for a Dressmakers'-Cutting-Table. It possesses full value as a useful-and requisite piece of furniture without placing any value on its ideal qualities as a Knitting-Machine-Stand. It contains two front doors in addition to Seven-dust-proof-interior-compartments for machine, cylinders, needles and all other attachments, etc. These features strongly recommend it as the best and cheapest, all things considered.

☞ Owing to High-cost-war-conditions of manufacturing, the Ideal-Cabinet is withdrawn for the present.

THE BANNER STAND OR IDEAL DROP CABINET are in no sense essential to the practical-working of our Family-Knitting-Machine, as any of them can be worked on an Ordinary-table or can be supplied with the Banner-Stands and the Ideal-Drop-Cabinet when desired. We offer them to the public with the hope that those who are after new and Twentieth-Century-ideas, and can afford it, will appreciate our efforts to give them an Up-to-date, useful and a Real-good-thing.

☞ Prospective Purchasers having Extra-Heavy-Yarn are invited to send one-quarter pound to us to be knit into a Special-Heavy-Rib-Sock, which will be returned to sender. See last clause, page 18.

IDEAL DROP CABINET

THE CABINET SHOWN on this and page 16, with Machine, etc., inside, makes a beautiful and useful piece of furniture, suitable for Writing-desk, Writing-table, Card-table, or Party tea-table, and can be supplied with all styles of our Family-Machines. IT IS EQUALLY FINISHED ON ALL FOUR SIDES, and forms a Writing-Desk with Slanting-top on back of stand. It has full value as a handsome and useful piece of furniture.

THE IDEAL-CABINET closed, with machine and all attachments under
Safe-lock-and-key.

Price of Complete Cabinet, Highly Finished, only \$30.00.

IS OFF THE MARKET UNTIL AFTER THE WAR.

BANNER STAND

THE BANNER STAND, as shown here and on other pages, with Machine removed, makes a very useful and necessary piece of furniture suitable for card or Party-tea-table and can be supplied with All Styles of our Family Machines.

THE BANNER STAND PRICES

- ANTIQUE OAK TABLE—Complete-with-attachment-casket, only \$25.00
ANTIQUE OAK TABLE—Complete-without-attachment-casket, only \$20.00

The-Attachment-Casket below stand is furnished with Hinged Cover
and Safe-Lock-and-Key.

but clothe the family from head to foot and be as happy as the little girl.

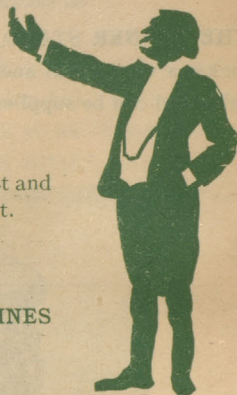

BE-AS-SERIOUS

about it as the Lady on the Left and read "How to Make Money by Knitting" Pages 31 to 48.

ON OUR MACHINES

YOU-CAN-MAKE in a day of ten hours from 10 to 12 pairs of Men's Hand-Made-Socks, with Cap-heel and Finished-toe-like-hand-made, or 24 to 36 pairs of Men's Socks with Round-heel-and-toe. At the average rate of 2 pairs for 35 cents, the net profit would be \$2.00 to \$3.00 per day.

My-last-word is REMEMBER what I told U, OUR MACHINES ARE -FIRST-CLASS. Some are LOW-PRICED but not cheaply-made like some Cheap-trap-machines on the market to trap-people. Donkey-like, they will go sometimes, but not when wanted.

HOW TO MAKE MONEY BY KNITTING

If You Are Interested in Money Making,
let us give you
A POINTER ON

MACHINES AND KNITTING

And How to Make Money by Knitting

**YOU CAN MAKE-MONEY BY
FACTORY KNITTING,
CUSTOM KNITTING,
FAMILY KNITTING.**

All Fully Explained in
the Following Pages

Read Carefully

YOU CAN

Clothe your own family
from head to foot with
Caps, Shirts, Drawers,
Mitts, and Plain-or-Rib-
Seamless - Hosiery with
beautifully narrowed
Rib-ankle and rib on top
of foot.

Clothe Your Family With

Let Others
Look On

You can help yourself
by helping to clothe the
bare-feet of your neigh-
bors and by Knitting Red
Cross and Military-socks,
Knitting-for-stores or for
the Retail or Wholesale-
trade.

Ladies and Gentlemen

You Can Make Money by Family Knitting on a First-class Family-Ribbing-Machine

with-not-less than TWO-NEEDLE-CYLINDERS; and can CLOTHE-YOUR-FAMILY with Shirts, Drawers, Underwear, etc., and there-by Save-many-dollars.

You Can Knit for the Whole Family.

Knit for Others

KNIT
RED-CROSS
MILITARY
SOCKS, &c.

If you cannot afford a machine, or think the price is too high, why not reduce the Net-Cash-Investment by Making-money, sufficient to one-half pay for it, or fully pay for it. You can easily do it, then drop out and use the machine only for your Family-knitting, and let some-other person have the same opportunity of possessing one of these Valuable-Money-Makers.

GIVE YOUR BOYS AND GIRLS

A Chance to Make

\$\$\$

and be Self-Supporting, and make a future for themselves by learning the Art of Knitting.

Just - think - of - the - time and money spent in learning Millinery, Dressmaking, Tailoring and other trades; then think how reasonable it is to spend \$5.00 or \$10.00 for instruction to learn knitting, which is not only a Trade, but an Art, demanding the best taste and skill, and chosen for its pleasure and profitability by the rich as well as the artisan.

Many users of our Machines will teach for 25 cents per hour. Why not be a first-class teacher?

MANY BOYS AND GIRLS who have learned the ART-OF-KNITTING in their youthful days are now Foremen and Forewomen, and occupying the best positions in First-class-Establishments and receiving Large-salaries, or are the owners of a Good-paying-knitting-business of their own. FIRST-CLASS-KNITTERS have for many years been much in demand, the supply being far short of the demand, and in consequence, good wages have been paid, ranging from \$2.00 to \$3.00 per day, piece work.

TO PUT MONEY IN YOUR HAND

WE RECOMMEND a machine with Two-Needle-Cylinders for Home-or-family-use, especially for Canadian trade. The reason is obvious. A machine with two cylinders will do a much larger and more valuable range of work than can possibly be done with a machine with Only-one-needle-cylinder. It will knit the various sizes of hosiery and yarn better. It is well worth the difference in price, as the Range-in-large and Small-sizes, etc., is largely increased by the addition of one Extra cylinder. See last clause, page 18.

REASONS—WHY

THE FACT IS, a Machine-with-two-cylinders is necessary for Family use, and where parties are Making-money-by-knitting the advantage is still greater, as a Two-cylinder-machine will pay for itself in half-the-time required for a Machine-with-one-cylinder. This, however, need not prevent anyone from buying a Complete-machine-with-one-cylinder (which will surprise them with the work it will do) and thereby make a cheap start, and Extra-cylinders can be obtained when desired.

We recommend for Canadian Trade the following cylinders and dials, with a Two-cylinder-machine, the One-dial-named working with both-the-cylinders, thereby saving the cost of an extra-dial. The cylinders and dials named are those which give the best results to the majority of purchasers, viz.:

- No. 1—54 and 72 Cylinders and 36 Dial for Extra Coarse and Medium Work.
- No. 2—60 and 80 Cylinders and 40 Dial for Coarse and Medium Work.
- No. 3—72 and 96 Cylinders and 48 Dial for Medium and Fine Work.
- No. 4—60, 72 and 80 Cylinders, 36 and 40 Dials for Money-making.

The First has the largest sale with farmers and others using Extra-Coarse and Medium-Yarns.

The Second has the largest sale with Townspeople using Coarse and Medium Yarns.

The Third is for City-Trade, where the Finer or Fingering-Yarns are used.

The Fourth is for Custom-Knitters, Industrial-Institutions, Stores, etc.

The Dials—20, 24, 36, 40, 48, with every-other-needle in dial, will make 2 & 1 Rib-like-hand work with the corresponding-coarse-cylinders-named. All cylinders that divide-by-three will make 2 & 1-rib-like-hand-work.

For Money-Making-by-knitting, we strongly recommend Machine No. 4. This machine will make \$75.00 in half the time that \$50.00 can be made on the same machine with only one needle cylinder.

We All Wear Seamless Hosiery.

CUSTOM KNITTING

FOR MONEY-MAKING AS A BUSINESS

is usually engaged in by those who devote their Whole-or-spare-time, and go in for all they are worth for Money-making, and in consequence, make-it-a-success. It may be engaged in by anyone as a pleasant and Profitable-home-work, without a store, shop or sales-room other than the Private-residence (although the former is better when the volume of business will warrant it), and when so conducted can be most quickly and successfully established by Knitting, Supplying-your-own-yarn as far as possible, Selling, Taking-orders and Delivering as you go. Those who have tried it claim they can sell as much in one day as they can make in a week. Let selling day be Pay-day among factories, public works-etc.

Experience Has Proved This System To Be The Best.

It is the quickest and most-practical and profitable way to Successfully-establish a Knitting-Business-in-one-season, or in the shortest possible-time, and give an early return of your first investment. In this progressive and practical age, the Merchant delivers his goods: the Baker, Butcher and Grocer deliver the staff and necessaries of life, why not the Knitter? Be up to date, practical and progressive, too, and deliver Seamless-hosiery.

FOR CUSTOM KNITTING

The $4\frac{1}{2}$ and $3\frac{1}{2}$ are the two best Diameter sizes, and practically fill the bill.

THE BANNER and WORLD'S STAR MACHINES

Are the best for this purpose.

THE REASON IS: These-two-machines are specially made in these sizes for Custom-Work, while the lower-priced machines are made only in $4\frac{1}{2}$ -inch as a Family Machine, and in 4-inch for Export Trade.

We Therefore Recommend the $4\frac{1}{2}$ -inch diameter to anyone purchasing their First-Family-Machine, with the expectation that they will eventually purchase the $3\frac{1}{2}$, provided they are so successful in Money-Making with their First-Investment.

See Last Clause, Page 18.

THE SMALLER SIZES IN HOSIERY can be made on the 4½-inch Family Machine by Knitting-flat-web until the user has made sufficient money to not only pay for the first machine, but also for the second; and the Extra-investment can be made at any time the POCKET BOOK WILL AFFORD IT.

We Would Advise Custom Knitters

to make a good start, right from the word go and purchase both the 4½ and 3½ Machines

AND MAKE-MONEY-QUICK

You-Can-Do-It Dead-Easy

As \$100.00 can be made more easily and quickly on the two-machines than \$50.00 can be made on the 4½ alone and You-will-be-better-pleased and Your-customers better cared-for and more-fully satisfied.

Be Wise and Consider What It Means

One-machine may-grow-into-two, Two-may-grow-into-three, and Three-into Twenty or more, and before you are aware you may be classed among the Well-to-do and Promising-industries.

The Large Manufacturers of to-day have been the small factories of the past, and the Small-manufacturers of to-day may be the large establishments of the future.

It Cannot Be Otherwise

in an Infantile industry like the Manufacture-of-Seamless-Hosiery, especially in a young and promising country like Canada, which is rapidly developing its natural resources and expanding its industries, as well as rapidly increasing in population. It-requires-no-prophet-to-see that the near future cannot help but witness more-than-ordinary-development and prosperity.

The Best Time to Purchase

For Fall Trade is in the Spring-or-Summer-months—June, July or not later than the first of August. This is good advice. The reason is, you give yourself TIME to-thoroughly-learn the Art of Knitting at your leisure before the First-of-September, when the Busy-knitting season-commences; then you can go in for a full-season of-money-making for all you are worth.

Boys and Girls,
Think of This
and Write Us.

First-class-Operators
are in constant demand.

We have many applications for good knitters, and can recommend such to good positions.

FACTORY KNITTING

Yes, there is money in it if you can take it out.

It has been taken out in the past; more will be taken out in the future.

To Do So It Is Necessary

- TO HAVE THE VERY BEST MACHINES.
- TO MAKE THE BEST QUALITY OF GOODS.
- TO FINISH WELL, AS WELL AS MAKE.
- TO MAKE RIBBED SEAMLESS HOSIERY.
- TO MAKE RIBBED GOODS AS WELL AS PLAIN
- TO MAKE FULL FASHIONED RIB HOSIERY.

YOU CAN DO IT.

Our Ribbing Machines Will Help You to Success.

The Reason We Have Had Success

Our Machines are right.

They are the World's Best.

They fill the bill for both Rib and Plain-Seamless-Hosiery.

You Can Have
Hand Machines

—OR—

Power Machines

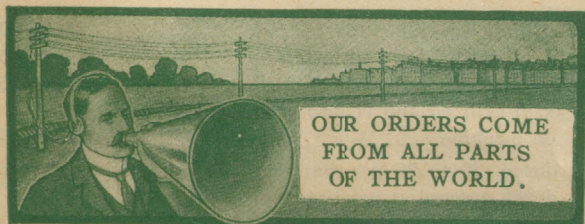

and Our Advice.

We have been hard at it for nearly-half-a-century.

Over 47 Years' Experience and accumulated knowledge is at your disposal. We may be able to help you to make a Good-start, and in selecting the Best-and-most suitable-machines for your purpose, as well as give you valuable information about the Knitting-business that would take years to acquire unaided.

ALL YOU HAVE TO DO IS

write us and give us all the particulars you can as to **how-you-wish-to-start**, whether in a small-or-in-a-large-way, whether you intend to run by hand or by electric or other-power. We can then advise you as to the best machines for the purpose and can give you an estimate on a **Full Set of Machines for Seamless Hosiery** or otherwise, and for **Large or Small Plants**, from $\frac{1}{2}$ dozen machines or less to 100 or more, according to the number of machines you wish to run, or the amount of capital you wish to invest. Give all these particulars if possible.

We
Can Give
Information
as to the

BEST Machine and Sizes for Special or Regular Work.
BEST and Most Profitable Class of Work to Make.
BEST Method of Selling, Wholesale or Retail.
BEST Markets in Canada for General or Special Work.

—ALSO—

The BEST Market to Obtain the Best Hosiery Yarns.
The BEST Makers of Special and General Yarns.
The BEST, Quickest, Most Practical Methods of Operating.
The BEST Seamless Hosiery adapted to Canadian Trade.

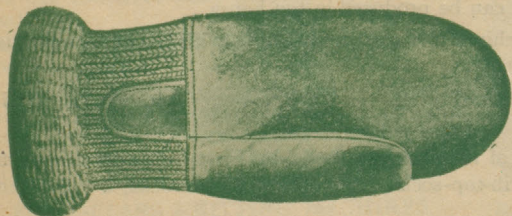

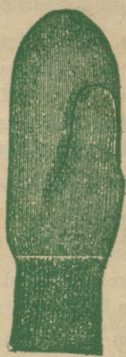

WE WILL DO IT WITH PLEASURE: We will give all the information possible to enquirers or users of our Machines with respect to Knitting, Knitting-room, Foremen, Operators, Machines, Systems, Making, Finishing, etc.

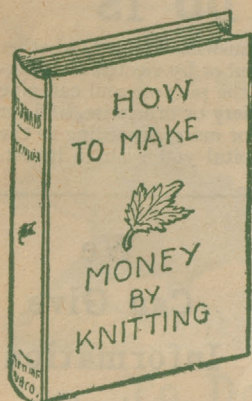

Are You Thinking

ABOUT INVESTING?

This is a new and good line—Lumbermen's Socks, Mitts, etc., with loop and fleece lining—made on our Special Machines.

See Family Machine, Page 22. Prices of Factory-Power-Machines and Photos on Application.

THIS IS HOW IT IS DONE

Read this catalogue carefully; buy a First-Class-Machine; make First-class work, finish well, and you can command First-class prices, as follows, FOR KNITTING ONLY.

MEN'S AND BOYS' WEAR

Socks, plain leg, ribbed top, per pair	15c to 20c
Socks, all ribbed leg and instep	20c to 25c
Socks, extra fine or extra heavy rib	25c to 35c
Socks, All-ribbed and Hand-made-heel with toe finished on machine	35c to 45c
Per dozen, 20 to 25 per cent. less, according to number of dozen ordered at one time.	

WOMEN'S AND CHILDREN'S WEAR

Caps and Toques 25c to 50 each; Undershirts and Drawers 25c, 50c, 75c and \$1.00 according to size and quality.

For Stockings, Plain-hem-top	20c to 25c	} Small Sizes in Children's-Hose 5 cents per pair less
For Stockings, Plain-and-narrowed	30c to 50c	
For Stockings, All-ribbed and narrowed	35c to 50c	
For Stockings, All-ribbed, not narrowed	25c to 30c	
Ladies' and Children's Vests, 25c, 50c, 75c and \$1.00, according to size and quality.		

Mitts, 20c, 25c and 35c, according to size and style.

The above prices are for knitting only. When yarn is furnished, add-to-these-prices the cost-of-yarn to obtain-selling prices. In case these prices appear a little high in any locality they can safely be reduced from 2½ to 5c per pair, or 5 or 10c per pair may be added in many cases where yarn is supplied by you—especially as yarn will be high in price during the war. War-Prices may be higher.

FACTORY RATES PER DOZEN

The prices vary according to the circumstances and are usually governed by the style of any particular kind which can be produced in ten hours.

Good-operators on power machines can earn from \$2.00 to \$3.00, and on special work sometimes more.

The rate per dozen is easily fixed when the Current-wages and Production in dozens is known.

Power-machines will produce of the cheapest goods, by First-class-operators, 6 to 8 dozen pairs in ten hours; and in Rib-top-socks, 4 to 6 dozen; all rib socks, 3 to 5 dozen, all rib stockings, 3 to 4 dozen.

TERMS OF PAYMENT

WE ARE PREPARED to give reasonable-time-for-payment, on Monthly-installment-plan with Lien, or Straight-note-with Lien. All we require is Reasonable-security or such information-regarding-financial-standing, etc., as would warrant-us-selling-on-time. Give us Bank Reference or other good reference or good security, or a correct and satisfactory statement of the value of your real estate or other Personal-property, with statement of mortgage or other encumbrance thereon, and we will be prepared to pen an account on credit and extend a choice of the following terms of payment:

FOR OUR BEST FAMILY MACHINES:

First, \$20.00 to \$25.00 Cash, Balance, \$5.00 per month; Second, Half Cash, Balance 3 and 4 months; Third, Equal Payments, 2, 4 and 6 months.

FOR OUR LOWER-PRICED FAMILY MACHINES:

First, \$15.00 to \$20.00 Cash, Balance, \$4.00 per month; Second, Half Cash, Balance 3 and 4 months; Third, Equal Payments, 2, 4 and 6 months.

TERMS TO CANADIAN AGENTS

SATISFY US AS TO FINANCIAL POSITION and we will Open-an-account-on-credit, and sell against Three-months'-note-or-draft. WE DO NOT supply sample machines, or send them out on commission to be-paid-for-as-sold.

Special discounts on three or more Machines.

We do not send out Machines on approval, we guarantee them.

THE BEST TIME TO
PUSH SALES IS FROM
SEPTEMBER 1st
TO MARCH 1st

OUR REFERENCE

FOR FINANCIAL STANDING AND RESPONSIBILITY,
ANY BANK OR COMMERCIAL AGENCY

WE HAVE A REPUTATION OF FORTY-SEVEN YEARS TO SUSTAIN

You can therefore bank on receiving first-class goods.

We have had success; the users of our machines have had success.

The secret is the Superior Merit of our machines: and the fact that we-have-outlived no less than ten-of-our-Canadian-competitors; during our forty-seven-years we have been hard at it establishing a trade for

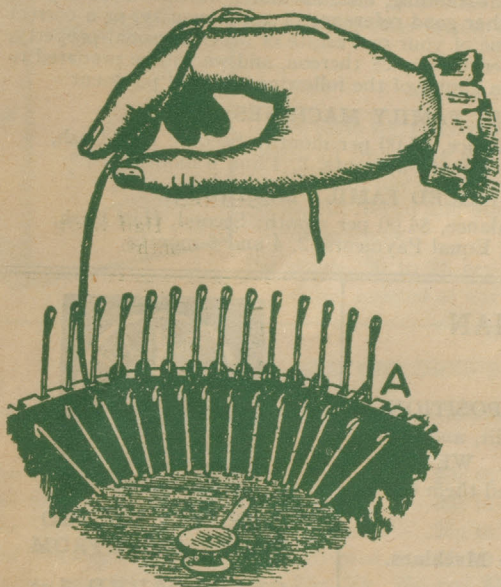

FIRST-CLASS KNITTING MACHINES

Don't go fishing after Upstart-Machines

Our Illustrated Instruction Book

is complete, DEMONSTRATING IN THE FOLLOWING MANNER how to perform the simplest operations, making learning so simple that a-child-can-succeed

STARTING OR SETTING-UP WORK

With left hand hold Set-up as shown in cut with

Set-up $\frac{1}{8}$ of an inch below the top of Needle-Cylinder.

No more, no less, and evenly all around the needle cylinder.

Commence Setting-up at A or back of machine, and

Set-up from right to left by

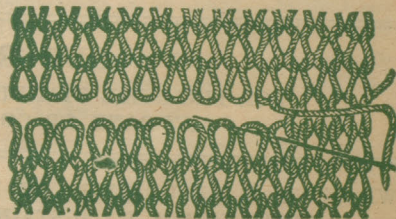

Placing the yarn around each needle and around

Any corresponding hook of Set-up. Twice-when-necessary.

Cross the yarn from right to left between each and every needle as shown in cut.

HOW TO SEAM OR CLOSE THE TOE

Rip out last row knit. Close or seam toe with ravelled yarn. Each-stitch has the needle passed-through-it-twice thus: put the needle in through the first-stitch and out through the next-one on the same side; then put the needle in through the first-stitch and out through the next-one on the other-side; then put the needle in through the stitch you brought the needle out of on the first side, and out through the next-stitch on the same side, and so on.

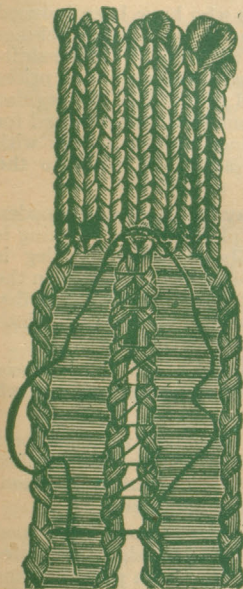

NEW HEELS AND TOES. A new toe can be knit in old work by cutting off the Toe and casting half the foot-stitches on as many needles, and new-heel by cutting out the heel and casting the upper-stitches-heel on as many needles; then knit heel or toe in the usual manner.

 Seam the new heel to foot with closing stitch. (See above cut.)

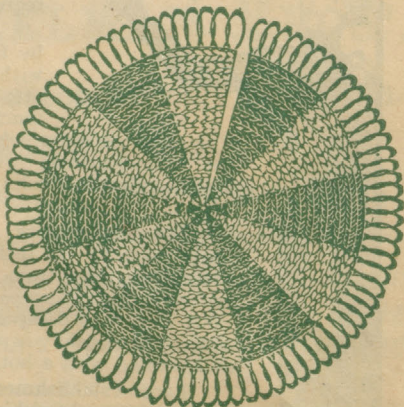

\$100.00 REWARD

to anyone with reasonable-intelligence who cannot learn-to-make-a-good sock or stocking in a few-hours on any of our Family-Machines from our fully Illustrated Instruction Book, which accompanies each of our Family-Machines.

How to Finish Full Fashioned, Plain or Flat Web Hosiery

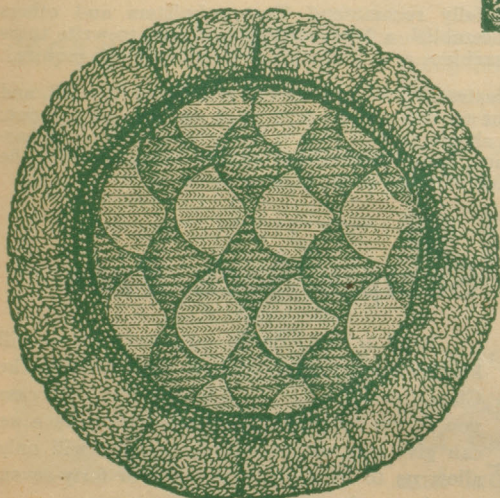

The cut represents two pieces of flat-web with three-stitches-in-each. The upper-half is turned over to show the right-side of the knitting as it appears when sewn-together. When properly done it will appear as if knit without-a-Seam. The sewing should always be done from the inside, or wrong side of web. The -middle-stitch-of-each-web, as shown in each-half of cut, is ravelled-out that the stitches to be taken up may be more readily seen. There are three-loops which appear on the selvage; only one of them is-the-right-one, viz., the middle or smallest o.e. The needle passes through the one on the left-edge, and each time the needle is drawn through two stitches are taken up, one from each web.

For Mat or Crown of Boy's Cap.]

Insertion.

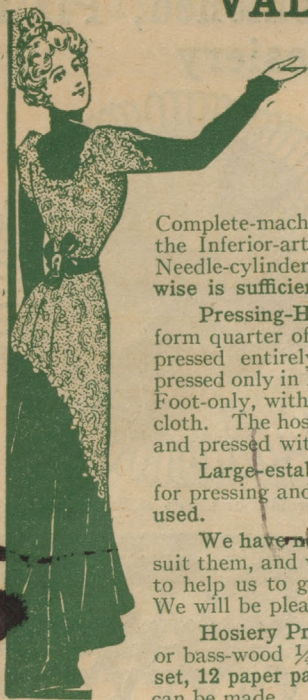

For Vest or Counterpane.

Basket Pattern.

The above are some of the many stitches which can be made by any of our Family Machines by following Instruction Book.

VALUABLE POINTERS

I am not the only woman who has reason to regret buying one of those Cheap-trap-machines.

There are many others who have been induced by fair promises to purchase Cheap-trap machines without attachments, or with cheap Make-shift-attachments worthless for practical use and at prices much higher than CREELMAN BROS.' regular Complete-machines, which are worth many times the money asked for the Inferior-article. Just think of it—machines on the market with Needle-cylinder made out of lead-or-babbit-metal. A word to the wise is sufficient.

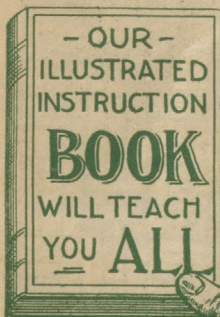

Pressing-Hosiery. Socks-or-stockings may be placed on a wooden form quarter of an inch thick. The leg of a plain sock or stocking is pressed entirely from Top-to-bottom. A rib-top with plain-leg is pressed only in Plain-part. An-all-rib-sock-or-stockings is pressed in the Foot-only, with damp cloth, and in the leg with partially damp or dry cloth. The hosiery is put on the forms and overlaid with a damp cloth and pressed with a hot-electric or heavy-hand-smoothing-iron.

Large-establishments use heavy Steam-presses and Cold-presses for pressing and finishing Seamless-hosiery. The electric iron is much used.

We have no other desire than to give our customers what will best suit them, and would request that they give us all information possible to help us to give what will please and give the best of satisfaction. We will be pleased to give further particulars to enquirers.

Hosiery Pressing Forms are usually made out of good hard-wood or bass-wood $\frac{1}{4}$ to $\frac{3}{8}$ of an inch thick. We will furnish a Complete-set, 12 paper patterns, all sizes, for 50 cents, from which perfect forms can be made.

We would especially recommend Custom-knitters and others desiring to increase their plant or to establish a New-knitting-business, to write to us for information respecting the best machines and diameter-sizes for the work-required.

Our Illustrated Instruction Book will Teach You All, and will be sent to anyone, postage paid on receipt of price, \$1.00; and should parties wish it for perusal before-purchasing-a-machine, the-price-remitted can-be-deducted from the price of machine when remitting-for-machines.

A Sample Sock Free

Send us a quarter pound of yarn and we will knit for you a Sample-sock, so you can judge the Class-of-work made on our machines. In case you do not know what you want we believe we can give you valuable advice if you will only allow us to help you with our over forty-seven years' experience.

OLD AND RELIABLE

CREELMAN BROS'.

Reputation of nearly- $\frac{1}{2}$ -Century is a Valuable Asset Worth Sustaining

We are determined to keep our reputation above par in the future as in the past, by giving-genuine-merit in every machine we produce, making it an Ever-living-testimony of High-grade-production.

WE HAVE NOT, for over Thirty-five years, solicited testimonials (it was not necessary), although we have received during our experience of Forty-seven-years in manufacturing First-class-knitting machines, many thousands of valuable Unsolicited-testimonials from well-pleased-customers expressing their entire satisfaction with our machines.

As many appreciate this kind of testimony, we give a few recent as well as old, of the many thousands which tell of the Unquestioned-superiority of Our-machines.

Read Carefully The Testimonials on Pages 44, 45, 46 from Users of Family-Machines, who find it more satisfactory Knitting-for-stores, neighbors, etc., rather than in a fruitless-attempt to knit for Speculative-concerns who make Fair-promises of work, impracticable and impossible to carry out with the Cheap-trap-machines offered, and thereby deceive people.

DON'T GO FISHING AFTER
New-Up-Start-Machines.

BE WISE

and take the

UNSOLICITED-TESTIMONY

and experience of those who have had success with Our-Machines, and trust your orders to the Old-and-Reliable CREELMAN BROS.

RECENT UNSOLICITED TESTIMONIALS

Lewiston, Mo., U.S.A., August 19, 1918.
Messrs. Creelman Bros., Georgetown, Ont.:

Dear Sir,—I have one of your Improved-Money-Maker Knitting Machines, and sure like it dandy.

I am a One-Handed-Man, having lost my left hand at the wrist. I have knit thirteen Sweaters by hand and I saw your Machine at a Lady's house here, and I told her I thought I could work it, and after taking two lessons from her she told me I could take the Machine up to my Office, which I did, and now I can knit a pair of Socks in one hour. Yesterday I came to my Office with the intention of knitting ten pair but I had good luck and made twelve pair; Saturday I made eight pair and did my Office-work, too.

I would like to act as Agent for your Valuable-machines if you will favor me with your best prices.

Yours truly,

FRED. SKALICKY.

St. Paul, U.S.A., August 22, 1918.
Messrs. Creelman Bros., Georgetown, Ont.:

Gentlemen,—Replying to your letter of August 19th, beg to say that you may let the order for the three Machines come along as soon as possible as originally booked, which includes the Ribbing-attachments. I do not wish to delay the shipment of the Machines.

It may interest you a trifle in passing to know that I turned over yesterday to the Red Cross Branch for the month ending August 20th, 90 pairs of socks made by myself and 50 pairs made by my chauffeur, and also 25 pairs to the Knights of Columbus, the Catholic Order corresponding to our Red Cross. I merely mention this to let you know that the machines are being put to good use in these trying times. They are wonderful machines, and I have recommended to many of my friends to purchase them.

My chauffeur would like to take the agency for your Machine and I am prepared to back him up financially if you can supply him with the Machines.

Awaiting your favorable reply,

Yours truly,

B. F. MYERS.

Norland, Ont., March 6, 1916.
Messrs. Creelman Bros., Georgetown, Ont.:

Gentlemen,—Enclosed please find Post Office Order for \$28.00 on account of my Machine, recently purchased from you.

I have done very little with the Machine as yet for myself, but have finished twenty-seven-pairs of Sock-legs for the President of the Red Cross workers of Coboconk and thirteen-pairs of Sock-legs for the Red Cross workers here. To-day, while knitting Sock-legs, I raced with a good-hand-knitter and made 28 rounds, 2,016 stitches, while she knit 20 stitches. This is over one hundred times faster, which reverses the fable of the race between the hare and the tortoise, and speaks volumes in favour of your Knitting-machine.

Yours very truly,

MRS. JAS. B. CAMPBELL.

TESTIMONIALS FROM THE BLIND USERS OF OUR MACHINES.

Galt, Ont., April 8th, 1902.
Messrs. Creelman Bros., Georgetown:

Dear Sirs,—I have used the World's Star Knitting Machine for twenty-one-years and it has always given good satisfaction. My customers come back year after year because my machine makes good work. A-machine-with-ribber is certainly a great deal better than one-without-a-ribber.

ANNIE COMMON.

Armstrong, B.C., Dec. 24, 1913.
Messrs. Creelman Bros., Georgetown:

Dear Sirs,—The machine came in good order, and I-am-getting-on-fine-with-it. I also expect to sell quite a few things made by the machine. We are having such a warm-winter and no snow, there is not much sale as yet for woolen-goods.

With compliments of the season, I remain,

Yours truly,

EVA BIRD.

Nordin, N.B., Jan. 5, 1914.
Messrs. Creelman Bros., Georgetown:

Dear Sirs,—Although it is two months since I received the machine, I now let you know how I like it. Your machine is splendid. I never knew anything about knitting before, but now I can knit my own stockings.

Yours truly,

ERNEST RAMSTROM.

Dryden, Ont., Jan. 27, 1914.
Messrs. Creelman Bros., Georgetown:

Dear Sirs,—As you may remember, we bought one of your machines, the Money-Maker, and we find it-is-everything-that-was-claimed-for-it. We were-not-long-in learning how to run it and have-made-some-money-with-it, and should now like to have your illustrated Instruction Book. We shall be sending for some needles shortly.

Mr. John Rhodes, a hardware merchant here, might act as an agent for you.

Yours sincerely,

MR. AND MRS. THOS. BAKER.

Urbainville, P. E. I., Mar. 2, 1914.
Messrs. Creelman Bros., Georgetown:

Gentlemen,—Enclosed find \$20.00, which with Coupon is good for \$5.00, settles balance due on the Banner-Knitting-Machine and we hope you will send us a receipt in full.

We received the machine ordered last week and have given-it-a-good-trial with different-kinds of knitting and obtained good-results from the 54-needle cylinder.

Hoping to hear from you soon, I remain,

Yours truly,

FRANK A. ARSENAULT.

Floradale, Ont., Dec. 29, 1913.
Messrs. Creelman Bros., Georgetown:

Dear Sirs,—I would like to know whether or not you have a machine which knits socks and stockings only. If you have, please state price. I find no fault with them, and have seen and talked with a man in the neighborhood, who has one of your \$42.00 machines and who Highly-recommends-it. I am just a starter and cannot make a big investment at present—may later on, but just now, I would sooner let my work be done by my neighbor than make a big investment.

Yours truly,

EMANUEL BAUMAN.

Teeswater, 19th April, 1902.
Messrs. Creelman Bros., Georgetown, Ont.:

Dear Sirs,—I take pleasure in saying that I have used your machine for over-twenty-years, and it has done excellent work and afforded me entire satisfaction in every respect. It can be easily operated by any blind person, and stands, in my opinion, second to none on the market.

SARAH SHARPE.

Mitchell, Ont., June 10th, 1902.

Messrs. Creelman Bros., Georgetown, Ont.:
Dear Sirs,—I presume you will be interested in hearing that it is over twenty years since I purchased one of your Knitting Machines with ribber. I consider it is an excellent one. I understand working it well and have experienced no difficulty with the ribber, and knit a great deal of farmers' yarn. The machine has given me entire satisfaction.

I, however, prefer your new and improved

TESTIMONIALS FROM FAMILY USERS OF OUR MACHINES.

Hampton Station, N.B., Feb. 6th, 1902.

Messrs. Creelman Bros., Georgetown, Ont.:

Gentlemen,—It is with feelings of pride and pleasure that I testify to the excellence and quality of your knitting machine, style Money-Maker-A, being in my estimation a credit to Canada, and will compare favorably with the best manufactured in the United-States. It is the most reliable and satisfactory that I have seen as yet, and will do all the work and more than advertised to do. I have only had the machine a short time, and my son, who is thirteen years old, is going to make a good operator. He only had the machine about one hour before he had a pair of rib socks knit without missing stitches, and can do all kinds of fancy work as well, and his mother can handle it quite nicely, too. Wishing you all the success that you deserve, I remain,

Yours truly,

T. W. FENWICK.

TESTIMONIALS FROM CUSTOM KNITTERS.

Brigus Station, Nfld., April 1st, 1902.

Messrs. Creelman Bros., Georgetown:

Gentlemen,—I have much pleasure in stating that my wife is still using the World Star Knitting Machine she bought from you in 1888, fourteen-years-ago, and that it is just as good for work now as when first received. She has, in company with her sister, made as many as six hundred pairs of men's long stockings in one month out of very coarse yarn, and it will also do the finest work.

Yours truly,

JOSEPH PONIER, Station Agent.

Smith Falls, Ont., April 2nd, 1902.

Messrs. Creelman Bros., Georgetown:

Dear Sirs,—I have been a user of your knitting machine for the last sixteen-years and have had a great deal of satisfaction and pleasure with it. I can make a good living by using your World Star Knitter. Have never seen any other that I would take in preference to it. Yours truly,

ELLA BEVERIDGE.

Fergus, Ont., April 3rd, 1902.

Messrs. Creelman Bros., Georgetown:

Gentlemen,—I have been using the Star Ribber Machine for ten years, starting with one machine and soon having to get a second. We-now-have six-in-use in our business, and we are able to say we have never seen any work better done than we are able to do in our shop. Our business is increasing each year and we have not paid two-dollars for repairs in ten-years.

WILLIAM GOW.

machines which I had the pleasure of working at the Toronto Exhibition. Although blind, I enjoyed the working of your machines at Toronto, and have always found it pleasant and profitable in my home work, and can knit and finish from ten to twelve pairs of rib-socks in a day, as well as wind the bobbins. It has cost me very little for repairs. I have no hesitation in recommending it to the blind, and especially to those who can see.

Yours truly,

LIZZIE HODGE.

Bruce Mines, Ont., April 1st, 1892.

Messrs. Creelman Bros., Georgetown:

Dear Sirs,—I take the liberty of writing to let you know how well I get along with your Money-Maker Knitting Machine. I purchased it last November and in less than three-weeks I could knit the coarsest yarn, three-ply, and also the finest without much trouble. I have sold the socks for Hand-knit. Anyone can take your instruction book and teach themselves in a short time. I am well satisfied with it and have knit enough to pay for it in a short time.

I remain, yours, MRS. COLEMAN.

Mr. Creelman:

Dear Sir,—You are at liberty to use my name to recommend your World Star Knitting Machine, as it has been to me all it was represented. It has done good work and in six-years-wear it is as good as ever and has not cost me anything for repairs except needles. Also your dealings with me have been fair and honest in every way.

MRS. FULLER, Owen Sound.

Listowel, Ont., April 15, 1902.

Messrs. Creelman Bros., Georgetown:

Gentlemen,—I beg to say I bought about ten-years ago Two-Star-Ribber-Knitting-Machines, which I have been running ever since. The last two years I put on a power attachment and run them by power, and they have not had one cent of outlay outside of needles and wire springs from the time I bought them, and still running every day on heavy work. They have proved satisfactory, and I have pleasure in recommending them to anyone wishing to buy knitting machines.

Yours truly,

B. F. BROOK, Listowel Woollen Mills.

Ottawa, Ont., April 11, 1902.

Messrs. Creelman Bros., Georgetown, Ont.:

Dear Sirs,—Your Mitt Machine for Loop and Fleece-lined Mitts came to hand. I set up the machine and in the first-half-hour succeeded in getting the looping all right.

The World's Star I got from you over seven-years-ago is still in perfect condition. It has been in steady use during that time and has cost me just forty-cents-for-repairs. I think that is not bad. Have used several other knitters—some more expensive and others low-priced, but none have given me the satisfaction I have had in using your machines. They are strong, speedy and easy to run. I find I can adapt it to so many sizes and go ahead with comfort, knowing my work will come out all right.

Yours truly,

MRS. F. J. HEATH.

TESTIMONIALS FROM MANUFACTURERS.

Plymouth, Wis., U.S.A., Mar. 21, 1914.
Messrs. Creelman Bros., Georgetown:

Dear Sirs—We received the last machine all in good order and are very well satisfied with same, and hereby ask to send us another Cylinder with Needles and one hundred Needles for the Cylinder we now have in use. We are sending you a skein of yarn which we wish you to knit on the new cylinder.

Yours truly,
H. C. BONSA, 102 Main Street.

Augusta, Me., April 13, 1914.
Messrs. Creelman Bros., Georgetown:

Gentlemen,—Being interested in starting a Hosiery-knitting-business, and having heard of the High-standard of Your Machines through Mr. Bernatchez, of Lewiston, Me., I should be obliged to you, if you would send your latest catalogue.

Yours truly,
J. F. BILODEAU, 274 Water Street.

Montreal, April 21st, 1902.

Messrs. Creelman Bros., Georgetown:

Dear Sirs,—We beg to state that the New-Kay-machines we purchased from you are quite satisfactory, also the New-Stars, having fully tested them on High-speed. One of our-firm has just returned from the United States, and has fully examined several makes of Seamless-Hosiery-Knitting-Machines specially adapted for Ribbed-hosiery, etc. We are, however, satisfied we have the best, and will, we hope, in the near future be able to place an order-for-more. As you are aware, we have about-twenty-machines of your make and about the same number of other makes. We must confess we prefer yours to any other for Durability and High-production. Thanking you, gentlemen, for your prompt attention to our favors, we are,

Yours respectfully,
NEWBOLD BROS.
