

GILBERT McMILLAN  
Huntingdon County, Quebec

# Huntingdon County Farmer

— BREEDER OF INTERNATIONAL REPUTATION —

## *Recommends* **Victory Bonds**

WHEREVER Ayrshire Cattle are bred in Canada and the United States, men recognize Gilbert McMillan of Huntingdon County, Quebec, as an authority on the breed. Mr. McMillan was for many years a director and president of the Ayrshire Breeders' Association and has judged Ayrshires at leading shows in both countries. In addition to his activities in the field of agriculture, Mr. McMillan finds time to devote to the interest of his own community. He has served on the council of the Township of Godmanchester and as school board commissioner, and is now a governor of the Huntingdon County Hospital.

Speaking of Victory Bonds, Mr. McMillan says: "There are for me four very definite reasons why every citizen of Canada should support these loans . . .

"1st. We owe it to the men who on land, and sea, and in the air are risking their lives to protect our way of life.

"2nd. We owe it to ourselves. Nearly every private citizen is today better off financially on account of the war, and it is no sacrifice on our part to contribute our gains.

"3rd. Those that have families or are likely to have, owe it to their children, for if history repeats itself, and it generally does, we will face a time a few years hence, when the money invested in Victory Bonds will save a lot of worry and hardship.

"4th. We owe it to Canada for the opportunity she gives us to live a life of freedom.

"I trust the Loan will prove that the hearts of the Canadian people are sound."
