

THINK IT OVER...

Do you still think no German would dare treat a *Canadian* farmer like this? Drive off his cattle . . . seize his crops . . . bayonet his son because he resisted . . . force him, his wife, his children to work as slaves to feed the haughty members of a self-styled "master race."

You still insist it can't happen here? Well, it can't *if we win this war* . . .

But, if we lose . . .

If we lose . . . and make no mistake, there's a long hard road to travel yet before we win . . . if we lose, *it will happen here!*

Canada has been marked down for German exploitation. Yes, our country has a very definite place in Germany's scheme of world domination. Colin Ross's book proves it. Nazi eyes *are* on Canada.

We MUST stop this

For we can stop it. We can put up a solid wall of dollars for defense. What if taxes are higher . . . if compulsory savings hit us, too . . . it still "takes all three" to protect *our* life, *our*

property, *our* freedom. We still must lend—not give—the money our country needs to win this war as quickly as possible.

And we CAN

We *can* find the money, too. The dimes and dollars that will save everything. We can do it by *thinking* before we plan to spend a penny. By choosing between that new suit and freedom . . . between that new rug and freedom . . . between our favourite amusement and freedom . . .

We and eleven million other Canadians can save Canada by putting every dollar we can scrape together in Victory Bonds.
